## PREFACE

This edition records President Clinton's second electoral success, and a general election in Britain resulting in a landslide Labour victory the scale of which has had commentators harking back to 1945, 1906 and even the rout of the Duke of Wellington in 1832 to find a comparison. We were able to 'hold the page' to include the results and the new government, but readers are reminded that other events which occurred too late for inclusion in the main body of the Year-Book may be found in the Addenda.

As this issue appears, Hong Kong reverts from British to Chinese sovereignty and will now be found in the text under China. The remaining UK dependencies have been relocated to follow the United Kingdom, bringing them into line with other countries with dependencies, and making them easier to identify and refer to as a group.

A new indicator, 'Performance', has been introduced under Economy to record statistics of overall economic growth or decline. In the Key Historical Events sections coverage has been given to the numerous revolutionary conflicts raging from Afghanistan to the former Zaïre, and the efforts of the international community to regulate and mitigate them.

The present editor retires this year, and would like to take a final opportunity of expressing his deepest gratitude to all those colleagues, contributors and correspondents whose goodwill and hard work have made the task of describing the world-changing events of the last seven years possible.

PART I

INTERNATIONAL  
ORGANIZATIONS

# THE UNITED NATIONS (UN)

The United Nations is an association of states which have pledged themselves, through signing the Charter, to maintain international peace and security and to co-operate in establishing political, economic and social conditions under which this task can be securely achieved. Nothing contained in the Charter authorizes the organization to intervene in matters which are essentially within the domestic jurisdiction of any state.

The UN Charter originated from proposals agreed upon at discussions held at Dumbarton Oaks (Washington DC) between the USSR, the USA and the UK from 21 Aug. to 28 Sept., and between the USA, the UK and China from 29 Sept. to 7 Oct. 1944. These proposals were laid before the UN Conference on International Organization, held at San Francisco from 25 April to 26 June 1945, and (after amendments had been made to the original proposals) the Charter was signed on 26 June 1945 by the delegates of 50 countries. Ratification of all the signatures had been received by 31 Dec. 1945. (For the complete text of the Charter see THE STATESMAN'S YEAR-BOOK, 1946, pp. xxi-xxxii.)

The United Nations formally came into existence on 24 Oct. 1945, with the deposit of the requisite number of ratifications of the Charter with the US Department of State. The official languages are Arabic, Chinese, English, French, Russian and Spanish.

*Headquarters:* United Nations, New York, NY 10017, USA.

*Flag:* UN emblem in white centred on a light blue ground.

*Membership.* Membership is open to all peace-loving states whose admission will be effected by the General Assembly upon recommendation of the Security Council. The table below shows the 185 member states.

The principal organs are: 1. The General Assembly. 2. The Security Council. 3. The Economic and Social Council. 4. The Trusteeship Council. 5. The International Court of Justice. 6. The Secretariat.

1. **The General Assembly** consists of all the members. Each member has 1 vote. The General Assembly meets regularly once a year, commencing on the third Tuesday in Sept.; the session normally lasts until mid-Dec. and is resumed for some weeks in the new year if required. Special sessions may be convoked by the Secretary-General if requested by the Security Council, by a majority of members or by 1 member concurred with by the majority of the members. The Assembly also meets in emergency special session. It elects a President for each session.

The work of the General Assembly is divided between 6 Main Committees, on which every member state is represented. These are: Disarmament and International Security Committee (First Committee); Economic and Financial Committee (Second Committee); Social, Humanitarian and Cultural Committee (Third Committee); Special Political and Decolonization Committee (Fourth Committee); Administrative and Budgetary Committee (Fifth Committee); Legal Committee (Sixth Committee).

In addition there is a General Committee charged with the task of co-ordinating the proceedings of the Assembly and its Committees; and a Credentials Committee. The General Committee consists of 29 members, comprising the President of the General Assembly, its 17 Vice-Presidents and the Chairmen of the 6 Main Committees. The Credentials Committee consists of 9 members, elected at the beginning of each session of the General Assembly. The Assembly has 2 standing committees—an Advisory Committee on Administrative and Budgetary Questions, and a Committee on Contributions. The General Assembly establishes subsidiary and *ad hoc* bodies when necessary to deal with specific matters. These include: Special Committee on Peace-keeping Operations (34 members), Human Rights Committee (18 members), Committee on the peaceful uses of outer space (61 members),

Conciliation Commission for Palestine (3 members), Conference on Disarmament (38 members), International Law Commission (34 members), Scientific Committee on the effects of atomic radiation (21 members), Special Committee on the implementation of the declaration on the granting of independence to colonial countries and peoples (25 members) and UN Commission on International Trade Law (36 members).

The General Assembly may discuss any matters within the scope of the Charter, and, with the exception of any situation or dispute on the agenda of the Security Council, may make recommendations on any such questions or matters. For decisions on important questions a two-thirds majority is required, on other questions a simple majority of members present and voting. If the Security Council, because of lack of unanimity of the permanent members, fails to exercise its primary responsibility for the maintenance of international peace and security in any case where there appears to be a threat to the peace, breach of the peace or act of aggression, the General Assembly shall consider the matter immediately with a view to making appropriate recommendations to members for collective measures, including in the case of a breach of the peace or act of aggression the use of armed force when necessary, to maintain or restore international peace and security.

The General Assembly receives and considers reports from the other UN organs. The Secretary-General makes an annual report to it on the work of the organization.

**2. The Security Council** consists of 15 members, each of which has 1 vote. There are 5 permanent and 10 non-permanent members elected for a 2-year term by a two-thirds majority of the General Assembly.

Retiring members are not eligible for immediate re-election. Any other member of the United Nations may be invited to participate without vote in the discussion of questions specially affecting its interests.

The Security Council bears the primary responsibility for the maintenance of peace and security. Decisions on procedural questions are made by an affirmative vote of 9 members. On all other matters the affirmative vote of 9 members must include the concurring votes of all permanent members (in practice, however, an abstention by a permanent member is not considered a veto), subject to the provision that when the Security Council is considering methods for the peaceful settlement of a dispute, parties to the dispute abstain from voting.

For the maintenance of international peace and security the Security Council can, in accordance with special agreements to be concluded, call on armed forces, assistance and facilities of the member states. It is assisted by a Military Staff Committee consisting of the Chiefs of Staff of the permanent members of the Security Council or their representatives.

The Presidency of the Security Council is held for 1 month in rotation by the member states in the English alphabetical order of their names.

The Security Council functions continuously. Its members are permanently represented at the seat of the organization, but it may meet at any place that will best facilitate its work.

The Council has 3 standing committees. The Committee of Experts on Rules of Procedure, the Committee on Council Meetings away from Headquarters and the Committee on the Admission of New Members. In addition, from time to time, it establishes *ad hoc* committees and commissions.

*Permanent Members:* China, France, Russia, UK, USA. Russia took over the seat of the former USSR in Dec. 1991.

*Non-Permanent Members:* Chile, Egypt, Guinea-Bissau, South Korea, Poland (until 31 Dec. 1997); Costa Rica, Japan, Kenya, Portugal, Sweden (until 31 Dec. 1998).

**3. The Economic and Social Council** is responsible under the General Assembly for carrying out the functions of the UN with regard to international economic, social, cultural, educational, health and related matters. It may also make arrangements for consultation with international non-governmental organizations and, after consultation with the member concerned, with national organizations.

It consists of 54 member states elected by a two-thirds majority of the General

Assembly for a 3-year term. Retiring members are eligible for immediate re-election. Each member has 1 vote. Decisions are made by a majority of the members present and voting.

The Council nominally holds 2 sessions a year, and special sessions may be held if required. The President is elected for 1 year and is eligible for immediate re-election.

The Economic and Social Council has the following commissions:

Regional Economic Commissions: ECE (Economic Commission for Europe, Geneva); ESCAP (Economic and Social Commission for Asia and the Pacific, Bangkok); ECLAC (Economic Commission for Latin America and the Caribbean, Santiago, Chile); ECA (Economic Commission for Africa, Addis Ababa). ESCWA (Economic Commission for Western Asia, Baghdad). These Commissions have been established to enable the nations of the major regions of the world to co-operate on common problems and also to produce economic information.

11 functional commissions on: Crime and Criminal Justice; Social Development; Human Rights; Narcotic Drugs; Science and Technology for Development; Status of Women; Statistics; Sustainable Development; Human Settlements; New and Renewable Sources of Energy and Energy for Development; Population and Development.

The Economic and Social Council has the following standing committees: The Committee on Non-Governmental Organizations; the Committee for Programme and Co-ordination; the Committee on Natural Resources; the Committee for Development Planning; the Committee of Experts on the Transport of Dangerous Goods.

Other special bodies are the International Narcotics Control Board and the Administrative Committee on Co-ordination to ensure (1) the most effective implementation of the agreements entered into between the United Nations and the specialized agencies and (2) co-ordination of activities.

**4. The Trusteeship Council.** The Charter provides for an international trusteeship system to safeguard the interests of the inhabitants of territories which are not yet fully self-governing and which may be placed thereunder by individual trusteeship agreements. These are called trust territories.

All the original 11 trust territories had become independent or joined independent countries by 1994. The Trusteeship Council consisted of the member administering trust territories, the USA and the permanent members of the Security Council. Since 1994 it meets only on an extraordinary basis as needed, and its role and possible abolition is under review.

**5. The International Court of Justice** was created by an international treaty, the Statute of the Court, which forms an integral part of the United Nations Charter. All members of the United Nations are *ipso facto* parties to the Statute of the Court.

The Court is composed of independent judges, elected regardless of their nationality, who possess the qualifications required in their countries for appointment to the highest judicial offices, or are jurisconsults of recognized competence in international law. There are 15 judges, no 2 of whom may be nationals of the same state. They are elected by the Security Council and the General Assembly sitting independently. Candidates are chosen from a list of persons nominated by the national groups in the Permanent Court of Arbitration established by the Hague Conventions of 1899 and 1907. In the case of members of the United Nations not represented in the Permanent Court of Arbitration, candidates are nominated by national groups appointed for the purpose by their governments. The judges are elected for a 9-year term and are eligible for immediate re-election. The terms of membership of 5 judges come to an end every 3 years. When engaged on business of the Court, they enjoy diplomatic privileges and immunities.

The Court elects its own *President* and *Vice-President* for 3 years and remains permanently in session, except for judicial vacations. The full court of 15 judges normally sits, but a quorum of 9 judges is sufficient to constitute the Court. In 1993 the Court formed a 7-member *Chamber for Environmental Matters*. It may further form chambers of 3 or more judges for dealing with a particular case or particular categories of cases. Stephen M. Schwebel (USA) and Christopher G. Weeramantry (Sri Lanka) are, respectively, President and Vice-President of the Court.

*Competence and Jurisdiction.* Only states may be parties in cases before the Court, which is open to the states parties to its Statute. The conditions under which the Court will be open to other states are laid down by the Security Council. The Court exercises its jurisdiction in all cases which the parties refer to it and in all matters provided for in the Charter, or in treaties and conventions in force. Disputes concerning the jurisdiction of the Court are settled by the Court's own decision.

The Court may apply in its decision: (a) international conventions; (b) international custom; (c) the general principles of law recognized by civilized nations; and (d) as subsidiary means for the determination of the rules of law, judicial decisions and the teachings of highly qualified publicists. If the parties agree, the Court may decide a case *ex aequo et bono*. The Court may also give advisory opinions on legal questions to the General Assembly, the Security Council, certain other organs of the UN and a number of international organizations.

*Procedure.* The official languages of the Court are French and English. All questions are decided by a majority of the judges present. If the votes are equal, the President has a casting vote. The judgment is final and without appeal, but a revision may be applied for within 10 years from the date of the judgment on the ground of a new decisive factor. No court fees are paid by parties to the Statute.

*Judges.* The judges of the Court, elected by the Security Council and the General Assembly, are as follows:

(1) To serve until 5 Feb. 2000: Rosalyn Higgins (UK), Gilbert Guillaume (France), Gonzalo Parra-Aranguren (Venezuela), Christopher G. Weeramantry (Sri Lanka), Raymond Ranjeva (Madagascar).

(2) To serve until 5 Feb. 2003: Shigeru Oda (Japan), Géza Herczegh (Hungary), Shi Jiuyong (China), Carl-August Fleischhauer (Germany), Abdul G. Koroma (Sierra Leone).

(3) To serve until 5 Feb. 2006: Mohammed Bedjaoui (Algeria), Pieter H. Kooijmans (Netherlands), José F. Rezek (Brazil), Stephen M. Schwebel (USA), Vladlen S. Vereshchetin (Russia).

If there is no judge on the bench of the nationality of a party to a case, that party has the right to choose a person to sit as judge for that case. Such judges take part in the decision on terms of complete equality with their colleagues.

The Court has its seat at The Hague, but may sit elsewhere whenever it considers this desirable. The expenses of the Court are borne by the UN.

*Registrar:* Eduardo Valencia-Ospina (Colombia).

6. **The Secretariat** is composed of the Secretary-General, who is the chief administrative officer of the organization, and an international staff appointed by him under regulations established by the General Assembly. The Secretary-General, the High Commissioner for Refugees and the Managing Director of the Fund are appointed by the General Assembly.

The Secretary-General acts as chief administrative officer in all meetings of the General Assembly, the Security Council, the Economic and Social Council and the Trusteeship Council.

The financial year coincides with the calendar year; accounting is in US dollars. Budget for 1996–97, US\$2,610m. Assessments on member states constitute the main source of funds. These are in accordance with a scale specified by the Assembly, and determined primarily by the country's national income, in the range 25%–0.01%.

*Secretary-General:* Kofi Annan (b. 1938; Ghana) appointed 1 Jan. 1997 for a 5-year term.

The Secretary-General is assisted by Under-Secretaries-General and Assistant Secretaries-General.

## UNITED NATIONS SYSTEM

There are 14 major UN programmes and funds devoted to achieving economic and social progress in the developing countries.

The *United Nations Development Programme* (UNDP) is the world's largest agency for multilateral technical and pre-investment co-operation. It is the funding source for most of the technical assistance provided by the UN system, and had 93 country programmes in 1992-96 with distributed resources of US\$4,194m., and was supporting some 6,000 projects. UNDP assistance is provided only at the request of governments and in response to their priority needs, integrated into overall national and regional plans. Its activities are funded mainly by voluntary contributions outside the regular UN budget.

*Administrator:* James Gustave Speth (USA).

UNICEF, established in 1946 to deliver post-war relief to children, now concentrates its assistance on development activities aimed at improving the quality of life for children and mothers in developing countries. During 1991, UNICEF was working in over 110 countries with a child population of some 1,300m., concentrating on basic services for children and maternal health care, nutrition, water supply and sanitation and education. *The State of the World's Children Report*, published annually by UNICEF, has helped to spread acceptance by local and national leaders of a strategy for child health and nutrition which UNICEF estimates could save the lives of 7m. children. UNICEF has focused on popularising four primary health care techniques which are low in cost and produce results in a relatively short time. These include: Oral rehydration therapy to fight the effects of diarrhoeal infections, which kill some 4m. children each year; expanded immunization against the 6 most common childhood diseases; child growth monitoring, and promotion of breast-feeding. The World Health Organization and UNICEF work closely together, providing training, equipment and the services of health care professionals. UNICEF is the world's largest supplier of vaccines and the 'cold chain' equipment needed to deliver them, as well as oral rehydration salts.

*Executive Director:* Carol Bellamy (USA).

The UN Population Fund (UNFPA) carries out programmes in over 130 countries and territories. The Fund's aims are to build up capacity to respond to needs in population and family planning; to promote awareness of population problems in both developed and developing countries and possible strategies to deal with them; to assist developing countries at their request in dealing with population problems. More than 25% of international population assistance to developing countries is channelled through UNFPA.

*Executive Director:* Dr Nafis Sadik (Pakistan).

Humanitarian relief to refugees and victims of natural and man-made disasters is also an important function of the UN system. Among the organizations involved in such relief activities are the Office of the UN Department of Humanitarian Affairs (UNDHA), the Office of the UN High Commissioner for Refugees (UNHCR), the UN High Commissioner for Human Rights and the UN Relief and Works Agency for Palestine Refugees in the Near East (UNRWA).

UNRWA was created by the General Assembly in 1949 as a temporary, non-political agency to provide relief to the nearly 750,000 people who became refugees as a result of the disturbances during and after the creation of the State of Israel in the former British Mandate territory of Palestine. 'Palestine refugees', as defined by UNRWA's mandate, are persons or descendants of persons whose normal residence was Palestine for at least 2 years prior to the 1948 conflict and who, as a result of the conflict, lost their homes and means of livelihood. UNRWA has also been called upon to assist persons displaced as a result of renewed hostilities in the Middle East in 1967. The situation of Palestine refugees in south Lebanon was of special concern to the Agency in 1984 which has carried out an emergency relief programme in that area for Palestine refugees affected in the aftermath of the Israeli invasion of Lebanon in 1982. Its activities have the consent of the Israeli government.

Over 2m. refugees are registered with the Agency which provides education, health care, supplementary feeding and relief services. Education and basic health care account for over 80% of the Agency's budget, which is financed by voluntary contributions from Governments.

The Agency's mandate is renewed at intervals by the UN General Assembly.

The *Office of the United Nations High Commissioner for Refugees (UNHCR)* was established by the UN General Assembly with effect from 1 Jan. 1951, originally for 3 years. Since 1954, its mandate has been renewed for successive 5-year periods.

The work of UNHCR is humanitarian and non-political. UNHCR concerns itself with refugees who have been determined to come within its mandate under its Statute, namely, any person who, 'owing to well-founded fear of being persecuted for reasons of race, religion, nationality, or political opinion, is outside the country of his nationality and is unable or, owing to such fear or for reasons other than personal convenience, is unwilling to avail himself of the protection of that country; or who, not having a nationality and being outside the country of his former habitual residence, is unable or, owing to such fear or for reasons other than personal convenience, is unwilling to return to it', and with persons in analogous circumstances whom it assists under the terms of the 'good offices' resolutions adopted by the General Assembly.

The High Commissioner is elected by the General Assembly and follows policy directives given by the General Assembly or the Economic and Social Council, mainly through the Geneva-based Executive Committee of the High Commissioner's Programme.

International protection is the primary function of UNHCR. Its main objective is to promote and safeguard the rights and interests of refugees. In so doing UNHCR devotes special attention to promoting a generous policy of asylum on the part of Governments and seeks to improve the legal status of refugees in their country of residence. Crucial to this status is the principle of *non-refoulement*, which prohibits the expulsion from or forcible return of refugees to a country where they may have reason to fear persecution. It also helps them to cease being refugees through the acquisition of the nationality of their country of residence when voluntary repatriation is not possible. UNHCR pursues its objectives in the field of protection by encouraging the conclusion of intergovernmental legal instruments in favour of refugees, by supervising the implementation of their provisions and by encouraging Governments to adopt legislation and administrative procedures for the benefit of refugees.

UNHCR is often called upon to provide material assistance (i.e. the provision of food, shelter, medical care and essential supplies) while durable solutions are being sought. Durable solutions generally take one of 3 forms: voluntary repatriation, local integration or resettlement in another country.

Although at the beginning of 1995 the refugee population worldwide had decreased to 14.5m. the total number of persons of concern to UNHCR had risen to 27.4m. (non-refugees included internally displaced persons, or persons in a refugee-like situation, but who have not crossed an international border). The humanitarian crisis provoked in 1994 by the flight of over 2m. Rwandans and Burundians in the African Great Lakes region continued to fester. Zaïre, host to the largest population of Rwandan refugees, forcibly repatriated a number of them, while Tanzania, a country of asylum for African refugees since before independence, sealed its border against further arrivals. Southern Africa, in contrast, saw the successful completion in June 1995 of the voluntary repatriation of 1.6m. Mozambicans. In the former Yugoslavia the displaced person population was estimated at 3.5m. in early 1995. A US-brokered peace accord gave hope, but the return of displaced persons to 'ethnically cleansed' areas remained problematic. In the former Soviet Union the UNHCR assisted 210,000 persons who had fled the Russian advance into Chechnya by escaping to neighbouring Ingushetia and Daghestan. Afghan refugees, who began to leave their country after its invasion by Soviet forces in 1979, continued to constitute the largest refugee caseload of concern to UNHCR, with 2.7m. persons hosted by Iran and Pakistan. Some 200,000 Burmese Moslem refugees had

repatriated from Bangladesh since Sept. 1992, and 50,000 remained in camps in Bangladesh.

In Dec. 1995, the UNHCR's Executive Committee comprised 50 Member States. UNHCR expenditure in 1994 amounted to US\$1,170m.

Member countries' contributions are voluntary.

The UNHCR was awarded the Nobel Peace Prize in 1955 and 1981.

*Headquarters:* Case Postale 2500, 1211 Geneva 2 dépôt, Switzerland.

*UK Office:* Millbank Tower, 21st Floor, London, SW1P 4QP.

*High Commissioner:* Sadako Ogata (till Dec. 1998).

A post of *High Commissioner for Human Rights* was established by consensus of the General Assembly on 20 Dec. 1993. The High Commissioner is nominated by the UN Secretary General for a 4-year term renewable once. The Commission has 53 members and elects a *Subcommission on Prevention of Discrimination and Protection of Minorities*. The Commission co-ordinates all UN human rights activities and receives complaints of violations which may be made confidentially.

*High Commissioner:* Vacant in April 1997.

## INTERGOVERNMENTAL AGENCIES RELATED TO THE UN

The intergovernmental agencies related to the UN by special agreements are separate autonomous organizations which work with the UN and each other through the co-ordinating machinery of the Economic and Social Council. 16 of the agencies (ILO, FAO, UNESCO, WHO, IBRD, IDA, IFC, IMF, ICAO, UPU, ITU, WMO, IMO, WIPO, IFAD and UNIDO) are 'Specialized Agencies' within the terms of the UN Charter, and report annually to the Economic and Social Council.

GATT was absorbed into the World Trade Organization on 1 Jan. 1995. The IAEA was established in 1957 under the aegis of the UN and reports annually to the General Assembly.

### INTERNATIONAL ATOMIC ENERGY AGENCY (IAEA)

*Origin.* The IAEA came into existence on 29 July 1957. Its statute had been approved on 26 Oct. 1956, at an international conference held at UN Headquarters. A relationship agreement links it with the UN. It had 124 member states in 1997.

*Functions.* (1) To accelerate and enlarge the contribution of atomic energy to peace, health and prosperity throughout the world, and (2) to ensure that assistance provided by it or at its request or under its supervision or control is not used in such a way as to further any military purpose. In addition, under the terms of the Non-Proliferation Treaty, the Treaty of Tlatelolco, the Treaty of Rarotonga, the Pelindaba Treaty and the Bangkok Treaty, to verify states' obligation to prevent diversion of nuclear fissionable material from peaceful uses to nuclear weapons or other nuclear explosive devices.

The IAEA gives advice and technical assistance to developing countries on nuclear power development, on nuclear safety, on radioactive waste management, on legal aspects of the use of atomic energy, and on prospecting for and exploiting nuclear raw materials; in addition it promotes the use of radiation and isotopes in agriculture, industry, medicine and hydrology through expert services, training courses and fellowships, grants of equipment and supplies, research contracts, scientific meetings and publications. During 1995 there were 1,049 operational projects for technical co-operation. These activities involved 3,857 expert assignments while 1,355 persons received training abroad. The IAEA has research laboratories in Austria and Monaco. At Trieste, the International Centre for Theoretical Physics was established in 1964 which is now operated jointly by UNESCO and IAEA.

In Dec. 1995, a total of 207 safeguards agreements were in force with 125 states. Safeguards are the technical means applied by the IAEA to verify that nuclear equipment or materials are used exclusively for peaceful purposes. IAEA safeguards cover more than 95% of the civilian nuclear installations outside the 5 nuclear-weapon states (China, France, Russia, UK and USA). All nuclear-weapon states have opened all (Russia, UK, USA) or some (China, France) of their civilian nuclear plants to IAEA safeguards inspection. Installations in non-nuclear-weapon states under safeguards or containing safeguarded material at 31 Dec. 1995 were 226 power reactors, 174 research reactors and critical assemblies, 13 conversion plants, 41 fuel fabrication plants, 6 reprocessing plants, 11 enrichment plants, and 503 other installations.

*Organization.* The Statute provides for an annual General Conference, a Board of Governors of 35 members and a Secretariat headed by a Director-General.

*Headquarters:* Vienna International Centre, PO Box 100, A-1400 Vienna, Austria.

*Director-General:* Hans Blix (Sweden).

## INTERNATIONAL LABOUR ORGANIZATION (ILO)

*Origin.* The ILO, established in 1919 as an autonomous part of the League of Nations, is an intergovernmental agency with a tripartite structure, in which representatives of governments, employers and workers participate. It seeks through international action to improve labour conditions, raise living standards and promote productive employment. In 1946 the ILO was recognized by the United Nations as a specialized agency. In 1969 it was awarded the Nobel Peace Prize. In 1996 it numbered 174 members.

*Functions.* One of the ILO's principal functions is the formulation of international standards in the form of International Labour Conventions and Recommendations. Member countries are required to submit Conventions to their competent national authorities with a view to ratification. If a country ratifies a Convention it agrees to bring its laws into line with its terms and to report periodically how these regulations are being applied. More than 6,300 ratifications of 180 Conventions had been deposited by the end of 1996. Machinery is available to ascertain whether Conventions thus ratified are effectively applied.

Recommendations do not require ratification, but Member States are obliged to consider them with a view to giving effect to their provisions by legislation or other action. By the end of 1995 the International Labour Conference had adopted 183 recommendations.

*Organization.* The ILO consists of the International Labour Conference, the Governing Body and the International Labour Office.

The Conference is the supreme deliberative organ of the ILO; it meets annually at Geneva. National delegations are composed of 2 government delegates, 1 employers' delegate and 1 workers' delegate.

The Governing Body, elected by the Conference, is the executive council. It is composed of 28 government members, 14 workers' members and 14 employers' members.

10 governments of countries of industrial importance hold permanent seats on the Governing Body: Brazil, China, Germany, France, India, Italy, Japan, Russia, UK and USA. The remaining 18 government members are elected from other countries every 3 years. Workers' and employers' representatives are elected as individuals, not as national candidates.

The Office serves as secretariat, operational headquarters, research centre and publishing house.

The ILO budget for 1996–97 amounted to US\$579.5m.

*Activities.* In addition to its research and advisory activities, the ILO extends technical co-operation to governments under its regular budget and under the UN

Development Programme and Funds-in-Trust in the fields of employment promotion, human resources development (including vocational and management training), development of social institutions, small-scale industries, rural development, social security, industrial safety and hygiene, productivity, etc. Technical co-operation also includes expert missions and a fellowship programme. In 1995, nearly US\$113m. was spent on technical co-operation.

In 1994 the technical services offered by the ILO to its tripartite constituents came under scrutiny leading to a re-affirmation of technical co-operation as one of the principal means of ILO action. In 1994 the process of implementing the new Active Partnership Policy made significant progress and the 14 multidisciplinary advisory teams began to engage ILO constituents in a dialogue centred on the identification of Country Objectives to form the basis of the ILO's contribution.

The International Labour Conference (Geneva, June 1996) adopted a Convention and a Recommendation on home work, and has discussed tripartite national-level consultation on economic and social policy, and employment policies in a global context.

In 1960 the ILO established in Geneva the International Institute for Labour Studies. The Institute specializes in advanced education and research on social and labour policy. It brings together for group study experienced persons from all parts of the world—government administrators, trade-union officials, industrial experts, management, university and other specialists. The International Training Centre of the ILO, in Turin, was set up in 1965 to lead the training programmes implemented by the ILO as part of its technical co-operation activities. Member States and the UN system also call on its resources and experience. A UN Staff College was established on the Turin Campus in 1996.

*Headquarters:* International Labour Office, CH-1211 Geneva 22, Switzerland.

*Director-General:* Michel Hansenne (Belgium).

*Chairman of the Governing Body:* Jorge Arrate MacNiven (Chile).

*London Branch Office:* Vincent House, Vincent Square, London, SW1P 2NB.

The ILO has regional offices in Abidjan (for Africa), Bangkok (for Asia and the Pacific), Lima (for Latin America and the Caribbean) and Beirut (for Arab States).

## FOOD AND AGRICULTURE ORGANIZATION OF THE UNITED NATIONS (FAO)

*Origin.* The International Conference on Food and Agriculture in May 1943, at Hot Springs, Virginia, set up an Interim Commission in Washington in July which planned the Organization. The Constitution was signed on 16 Oct. 1945 in Quebec City.

*Aims and Activities.* In 1995 174 countries were members. In 1991 the EU became a member as a 'regional economic integration organization'. Puerto Rico has associate membership. The aims of FAO are to raise levels of nutrition and standards of living; to improve the production and distribution of all food and agricultural products from farms, forests and fisheries; to improve the living conditions of rural populations; and, by these means, to eliminate hunger. One of FAO's priority objectives is to encourage sustainable agriculture and rural development, a long-term strategy for the conservation and management of natural resources. FAO's other great priority is ensuring availability of adequate food supplies, maximizing stability in the flow of supplies and securing access to food by the poor. The

People's Participation Programme promotes the involvement of rural people in decision-making and the policy-making and activities affecting their lives.

In carrying out these aims, FAO promotes investment in agriculture, better soil and water management, improved yields of crops and livestock, agricultural research, and the transfer of technology to developing countries. FAO promotes the conservation of natural resources and the rational use of fertilizers and pesticides. It combats animal diseases, promotes the development and sustainable utilization of marine and inland fisheries and the growth of agriculture, and encourages the sustainable management of forest resources. Technical assistance is provided in all these fields and others such as nutrition, agricultural engineering, agrarian reform, development communications, remote sensing for climate and vegetation, and the prevention of post-harvest food losses. FAO also works to maintain global biodiversity with particular emphasis on the genetic diversity of crop plants and domesticated animals, essential for stable agricultural production.

Special FAO programmes help countries prepare for, and provide relief in the event of, emergency food situations, in particular through the setting up of food reserves. The Special Programme for Food Security through Food Production in Low-Income Food-Deficit Countries, launched in 1994, is designed to assist target countries to increase food production and productivity as rapidly as possible, primarily through the widespread adoption by farmers of available improved production technologies and with emphasis on high potential areas. FAO largely provides support for the global co-ordination of the Programme and helps attract funds. The Emergency Prevention System for Transboundary Animal and Plant Pests and Diseases (EMPRES), established in 1994, strengthens FAO's existing contribution to prevention, control and eradication of diseases and pests. The first two EMPRES priorities are locusts and rinderpest. The Global Information and Early Warning System provides current information on the world food situation and identifies countries threatened by shortages to guide potential donors.

The Organization also has a major rôle in the collection, analysis and dissemination of information on agricultural production, including commodities.

FAO sponsors the World Food Programme (WFP) with the UN; WFP uses food commodities, cash and services contributed by member States of the UN to back programmes of social and economic development, as well as for relief in emergency situations.

Finally, FAO acts as a neutral forum for the discussion of issues and advises governments on policy. It convenes international conferences such as the 1996 World Food Summit in Rome.

*Finance and Administration.* The FAO Conference, composed of all members, meets every other year to determine the policy and approve the budget and work programme of FAO. The Council, consisting of 49 member nations elected by the Conference, serves as FAO's governing body between Sessions of the Conference. The budget for the 1996-97 biennium is US\$650m., representing a decline over the previous biennium. The budget of FAO's Regular Programme, financed by contributions from member governments, covers the cost of the Organization's secretariat, its Technical Cooperation Programme (TCP) and part of the costs of several special programmes.

The technical assistance programme, however, is funded from extra-budgetary sources. The single largest contributor is the United Nations Development Programme (UNDP), which in 1995 accounted for US\$58.3m., or 22% of field project expenditures. Increasingly important are the trust funds that come mainly from donor countries and international financing institutions, totalling US\$165m., or 63% of technical assistance funds. FAO's contribution under its TCP was some US\$40m., or 15%. FAO's total field programme expenditure for 1995 was an estimated US\$264.1m. In 1995 there were 1,850 field projects in operation, 36% in Africa, 24% in Asia and the Pacific, 14% in Latin America and the Caribbean, 13% in the Near East, 5% in Europe and 8% interregional or global.

The Director-General has a renewable 6-year mandate.

*Headquarters:* Viale delle Terme di Caracalla, 00100 Rome, Italy.

*Director-General:* Jacques Diouf (b.1938; Senegal; from 1994).

## UNITED NATIONS EDUCATIONAL, SCIENTIFIC AND CULTURAL ORGANIZATION (UNESCO)

**Origin.** A Conference for the establishment of an Educational, Scientific and Cultural Organization of the United Nations was convened by the government of the UK in association with the government of France in 1945. UNESCO came into being on 4 Nov. 1946.

**Functions.** The purpose of UNESCO is to contribute to peace and security by promoting collaboration among the nations through education, science and culture in order to further universal respect for justice, for the rule of law and for the human rights and fundamental freedoms which are affirmed for the peoples of the world, without distinction of race, sex, language or religion, by the UN Charter. As part of its basically ethical purpose it has the task of constructing the defences of peace in the minds of human beings. The third Medium-Term Plan for 1990-95 established UNESCO's policy and strategy, giving priority to the development of human and natural resources and communication and the World Decade for Cultural Development (1988-97).

**Activities.** The education programme has 3 main objectives: The extension of education; the improvement of education; and life-long education for living in a world community.

To train teachers specialized in the techniques of fundamental education UNESCO has established regional and sub-regional offices for education in Beirut, Bridgetown, Bucharest (higher education), Caracas, Dakar, Harare, Kuwait and Santiago. UNESCO seeks to promote the progressive application of the right to free and compulsory education for all and to improve the quality of education. UNESCO also seeks to promote international scientific cooperation. It encourages scientific research designed to improve living conditions. Science co-operation offices have been set up in Cairo, Jakarta, Nairobi, New Delhi, Montevideo and Venice.

In the field of communication, UNESCO endeavours, by disseminating information, carrying out research and providing advice, to increase the scope and quality of press, film and radio services throughout the world.

In the cultural field, UNESCO assists member states in studying and preserving both the physical and the non-physical heritage of each society. In 1972 the General Conference adopted the Convention concerning the Protection of the World Cultural and Natural Heritage under which a list of sites and monuments of exceptional interest and universal value whose protection is the responsibility of all mankind has been drawn up.

In the social sciences UNESCO helps in the development of research and teaching facilities and focuses on questions concerning peace, human rights, philosophy, youth and development studies.

**Organization.** The organs are a General Conference (composed of representatives from each member state), an Executive Board (consisting of 51 government representatives elected by the General Conference) and a Secretariat. The 26th general conference in Oct.-Nov. 1991 amended its constitution by consensus, making the members of the Executive Board direct representatives of their countries. UNESCO had 185 members in 1995. The UK and the USA are not members.

National commissions act as liaison groups between UNESCO and the educational, scientific and cultural life of their own countries.

Budget for 1994-95: \$455,490,000.

*Headquarters:* UNESCO House, 7 Place de Fontenoy, Paris.  
*Director-General:* Federico Mayor Zaragoza (Spain).

## WORLD HEALTH ORGANIZATION (WHO)

*Origin.* An International Conference, convened by the UN Economic and Social Council, to consider a single health organization resulted in the adoption on 22 July 1946 of the constitution of the World Health Organization. This constitution came into force on 7 April 1948.

*Structure.* The principal organs of WHO are the World Health Assembly, the Executive Board and the Secretariat. Each of the 190 member states has the right to be represented at the Assembly, which meets annually in Geneva. The 32-member Executive Board is composed of technically qualified health experts designated by as many member states elected by the Assembly. The Secretariat consists of technical and administrative staff headed by a Director-General, who is appointed for not more than 2 5-year terms. Health activities in member countries are carried out through regional organizations which have been established in Africa (regional office, Brazzaville), South-East Asia (New Delhi), Europe (Copenhagen), Eastern Mediterranean (Alexandria) and Western Pacific (Manila). The Pan American Sanitary Bureau in Washington serves as the Regional Office of WHO for the Americas.

The programme budget for the global work of WHO was US\$1,900m. in 1996–97. As at May 1996, 28 member states had lost their voting rights through non-payment of contributions.

*Functions.* WHO's objective, as stated in the first article of the Constitution is 'the attainment by all peoples of the highest possible level of health'. As the directing and co-ordinating authority on international health it establishes and maintains collaboration with the UN, specialized agencies, government health administrations, professional and other groups concerned with health. The Constitution also directs WHO to assist governments to strengthen their health services, to stimulate and advance work to eradicate diseases, to promote maternal and child health, mental health, medical research and the prevention of accidents; to improve standards of teaching and training in the health professions, and of nutrition, housing, sanitation, working conditions and other aspects of environment health. The Organization also is empowered to propose conventions, agreements and regulations and make recommendations about international health matters; to revise the international nomenclature of diseases, causes of death and public health practices; to develop, establish and promote international standards concerning foods, biological, pharmaceutical and similar substances.

*Methods of work.* Co-operation in country projects is undertaken only on the request of the government concerned, through the 6 regional offices of the Organization. Worldwide technical services are made available by headquarters. Expert committees whose members are chosen from the 55 advisory panels of experts meet to advise the Director-General on a given subject. Scientific groups and consultative meetings are called for similar purposes. To further the education of health personnel of all categories, seminars, technical conferences and training courses are organized and advisors, consultants and lecturers are provided. WHO awards fellowships for study to nationals of member countries.

*Activities.* The main thrust of WHO's activities in recent years has been towards promoting national, regional and global strategies for the attainment of the main

social target of the Member States for the coming years: 'Health for All by the Year 2000', or the attainment by all citizens of the world of a level of health that will permit them to lead a socially and economically productive life.

Almost all countries indicated a high level of political commitment to this goal, and guiding principles for formulating corresponding strategies and plans of action were prepared.

The 49th World Health Assembly which met in May 1996 adopted numerous resolutions on public health issues including:

*The World Health Report, 1996: Fighting Disease, Fostering Development.* The Report focused on communicable diseases, the world's leading cause of death, which claim the lives of 17m. people a year. Today, up to half the 5.720m. people on earth are at risk of many endemic diseases with old infections coming back, some of them drug-resistant, and new infectious diseases emerging. WHO proposed 3 priorities for international action during the next 5 years in this area. The first is to complete the eradication and elimination of diseases such as poliomyelitis, dracunculiasis, leprosy, measles, Chagas disease and onchocerciasis. The second priority is to tackle old diseases such as tuberculosis and malaria which present new problems of drug and insecticide resistance. The third priority is to take short-term and long-term action to combat newly emerging diseases.

*Malaria Prevention and Control.* The Assembly adopted a resolution calling upon WHO to intensify its efforts in combatting malaria. The disease remains a major global priority with an annual incidence of between 300m. and 500m. clinical cases, of which sub-Saharan African countries account for more than 90%. The resolution urged regional committees to prepare regional and sub-regional plans of action, and the Director-General to explore the possibility of establishing a special programme on malaria.

*Destruction of the smallpox virus.* The Assembly adopted a resolution recommending that 'the remaining stocks of variola virus, including all whitepox viruses, viral genomic DNA, clinical specimens and other material containing infectious variola virus, should be destroyed on 30 June 1999 after a decision has been taken by the Health Assembly, that being a moratorium of five-and-a-half years from the deadline of 31 Dec. 1993 proposed by the ad hoc committee on orthopoxvirus infections, with a view to taking action to achieve a broader consensus'.

*Revised drug strategy.* Having reviewed implementation of the WHO revised drug strategy, the Assembly urged Member States to reaffirm their commitment to develop and implement national drug policies in order to ensure equitable access to essential drugs and the rational use of drugs; to establish programmes and enhance drug regulations for monitoring and controlling the efficacy, quality and safety of marketed drugs; and to control unethical marketing of drugs and eliminate inappropriate drug donations. At the same time, the Assembly requested WHO among other things to continue the development, harmonization and promotion of standard-setting; promote vigorously the use of the WHO Certification Scheme on the Quality of Pharmaceutical Products Moving in International Commerce, and of WHO-developed interagency Guidelines for Drug Donations; and to strengthen market intelligence and review in collaboration with interested parties, information on prices and sources of information on prices of essential drugs and raw materials of good quality, which meet current requirements of internationally recognized pharmacopoeias or equivalent.

*Prevention and control of iodine deficiency disorders.* The Assembly reaffirmed the goal of eliminating iodine deficiency disorders as a major public health problem in all countries by the year 2000. Iodine deficiency remains the single greatest cause of preventable brain damage and mental retardation worldwide. By the year 2000 at least 90% of edible salt consumed should be adequately iodized, including salt used for animals and salt used in preparation of commonly eaten staple foods such as bread. The Assembly urged Member States to give high priority to the prevention and control of iodine deficiency disorders through appropriate nutritional programmes and primary health care.

*Infant and young child nutrition.* The Assembly stressed the continued implementation of the International Code of Marketing of Breast-Milk Substitutes and subsequent relevant resolutions of the Health Assembly, the Innocenti Declaration, and the World Declaration and Plan of Action for Nutrition. The resolution registered concern that health institutions and ministries may be subject to subtle pressure to accept inappropriate financial or other support for professional training in infant and child health. Member States were urged to ensure that complementary foods are not marketed for or used in ways that undermine exclusive and sustained breastfeeding; that financial support for professionals working in infant and young child health not create conflicts of interest, especially with regard to the WHO/UNICEF Baby Friendly Hospital Initiative; and that monitoring of the application of the International Code is carried out in a transparent, independent manner free of commercial influence.

*Strengthening nursing and midwifery.* In many countries, nurses and midwives constitute the single largest group of health practitioners. Recognizing the potential of nursing/midwifery to make a major difference in the quality and effectiveness of health care services, the Assembly urged Member States to involve nurses and midwives more closely in health care reform and in the development of national health policy. It requests the Director-General to increase support to countries in the development, implementation and evaluation of national plans for health development, including nursing and midwifery.

*Joint UN Programme on HIV/AIDS.* The Assembly reviewed implementation of the global strategy for the prevention and control of AIDS and progress of the Joint UN Programme on HIV/AIDS (UNAIDS), which became operational on 1 Jan. 1996. The impact of the HIV/AIDS epidemic is expanding and intensifying, particularly in developing countries, and new resource mobilization mechanisms need to be developed to support countries in combatting HIV/AIDS. The Assembly requested WHO to facilitate the incorporation of UNAIDS-specific policies, norms and strategies into the activities of WHO at global, regional and country levels, and to collaborate in all aspects of resource mobilization for HIV/AIDS activities.

*Prevention of violence.* The Assembly declared that violence is now 'a leading worldwide public health problem', especially as it affects women and children. In response, WHO will take steps to characterize different types of violence and assess the causes, using also a gender perspective in the analysis; improve recognition, reporting and management of the consequences of violence; and promote research on violence as a priority for public health research.

*Health Days.* World Health Day is observed on 7 April every year, and is used to promote awareness of a particular health topic (poliomyelitis in 1995). The theme chosen for 1996 World Health Day was Healthy Cities with the slogan 'Healthy Cities for Better Life'. World No-Tobacco Day held on 31 May 1995 had 'Tobacco costs more than you think' as its theme. The slogan for 1996 World No-Tobacco was 'Sports and the Arts without Tobacco'. 'World AIDS Day' was celebrated on 1 Dec. 1995 with 'Shared Rights, Shared Responsibilities' as its slogan.

## INTERNATIONAL MONETARY FUND (IMF)

The International Monetary Fund was established on 27 Dec. 1945 as an independent international organization and began financial operations on 1 March 1947; its relationship with the UN is defined in an agreement of mutual co-operation which came into force on 15 Nov. 1947. The first amendment to the IMF's articles creating the special drawing right (SDR; ISO code, XDR) took effect on 28 July 1969. The second amendment took effect on 1 April 1978. The third amendment came into force on 11 Nov. 1992; it allows for the suspension of voting and related rights of a member which persists in its failure to settle its outstanding obligations to the IMF.

The capital resources of the IMF comprise SDRs and currencies that the members pay under quotas calculated for them when they join the IMF. An increase of almost 60% in IMF quotas became effective in Nov. 1992 as a result of the 9th General Review of Quotas. Quotas were not increased under the Tenth General Review. The Executive Board is working on the Eleventh General Review to assess the adequacy of members' quotas and the IMF's liquidity position. The total of members' quotas in Aug. 1996 was SDR 145,300m. Members' quotas are linked to their drawing rights on the IMF under both regular and special facilities, their voting power, and their share of SDR allocations. Every IMF member is required to subscribe to the IMF an amount equal to its quota. An amount not exceeding 25% of the quota has to be paid in reserve assets, the balance in the member's own currency. The members with the largest quotas are: 1st, the USA; joint 2nd, Germany and Japan; joint 4th, France and the UK.

The IMF is authorized under its Articles of Agreement to supplement its resources by borrowing. In Jan. 1962, a 4-year agreement was concluded with 10 industrial members (Belgium, Canada, France, Germany, Italy, Japan, Netherlands, Sweden, UK, USA) who undertook to lend the IMF up to US\$6,000m. in their own currencies, if this should be needed to forestall or cope with an impairment of the international monetary system. Switzerland subsequently joined the group. These arrangements, known as the General Arrangements to Borrow (GAB), have been extended several times and were renewed in Oct. 1992 for 5 years from 26 Dec. 1993. In early 1983 agreement was reached to increase the credit arrangements under the GAB to SDR 17,000m.; to permit use of GAB resources in transactions with IMF members that are not GAB participants; to authorize Swiss participation; and to permit borrowing arrangements with non-participating members to be associated with the GAB. Saudi Arabia and the IMF have entered into such an arrangement under which the IMF will be able to borrow up to SDR 1,500m. to assist in financing purchases by any member for the same purpose and under the same circumstances as in the GAB. The changes became effective by 26 Dec. 1983. In view of the expected continuing high demand for IMF's resources, a doubling of borrowed resources under the GAB to SDR 34,000m. was endorsed through the development of New Arrangements to Borrow in 1996.

**Purposes:** To promote international monetary co-operation, the expansion of international trade and exchange rate stability; to assist in the removal of exchange restrictions and the establishment of a multilateral system of payments; and to alleviate any serious disequilibrium in members' international balance of payments by making the financial resources of the IMF available to them, usually subject to economic policy conditions to ensure the revolving nature of IMF resources.

**Activities.** Each member of the IMF undertakes a broad obligation to collaborate with the IMF and other members to ensure orderly exchange arrangements and to

promote a system of stable exchange rates. In addition, members are subject to certain obligations relating to domestic and external policies that can affect the balance of payments and the exchange rate. The IMF makes its resources available, under proper safeguards, to its members to meet short-term or medium-term payments difficulties. The first allocation of SDRs was made on 1 Jan. 1970 with five SDR allocations since then. SDRs in existence now total SDR 21,400m. To further enhance its balance of payments assistance to its members the IMF established a compensatory financing facility on 27 Feb. 1963, temporary oil facilities in 1974 and 1975, a trust fund in 1976, and an extended facility for medium-term assistance to members with special balance of payments problems on 13 Sept. 1974. In March 1986, it established the structural adjustment facility to provide assistance to low-income countries. In Dec. 1987, the IMF established the enhanced structural adjustment facility (ESAF) to provide further assistance to low-income countries facing high levels of indebtedness. In Aug. 1988, the compensatory and contingency financing facility was established, succeeding the compensatory financing facility; the new facility provides broader protection to members pursuing IMF-supported adjustment programmes. Because of the importance of continuing concessional ESAF support, the IMF in 1996 endorsed proposals for a continuation of ESAF operations. The IMF is also working with the IBRD (World Bank) to address the problems of the 41 most heavily indebted poor countries (33 in Sub-Saharan Africa).

The Interim Committee of the Board of Governors on the International Monetary System and the Joint Ministerial Committee of the Boards of Governors of the World Bank and the IMF on the Transfer of Real Resources to Developing Countries (Development Committee) were established at the 1974 Annual Meetings and held their initial meetings in Jan. 1975. They meet twice a year. Details of the reform of the international monetary system were incorporated in the second amendment of the IMF's Articles of Agreement, effective April 1978. In order to oversee the compliance of members with their obligations under the Articles of Agreement, the IMF is required to exercise firm surveillance over their exchange rate policies.

In conjunction with the need for up-to-date reliable data to support its surveillance activities, the IMF encourages member countries to make available to the public and to financial markets core financial and economic data.

**Organization.** The highest authority is the Board of Governors on which each member government is represented. Normally the Governors meet once a year, although the Governors may take votes by mail or other means between Annual Meetings. The Board of Governors has delegated many of its powers to the 24 executive directors in Washington, who are appointed or elected by individual member countries or groups of countries. Each appointed director has voting power proportionate to the quota of the government he or she represents, while each elected director casts all the votes of the countries represented.

The managing director is selected by the executive directors and serves as chairman of the Executive Board, but may not vote except in case of a tie. The term of office is for 5 years, but may be extended or terminated at the discretion of the executive directors. The managing director is responsible for the ordinary business of the IMF, under the direction of the executive directors, and supervises a staff of about 2,200. There are 3 deputy managing directors.

There were 181 members of the IMF as of Aug. 1996.

**Headquarters:** 700 19th St. NW, Washington, D.C., 20431. Offices in Paris and Geneva.

**Managing Director:** Michel Camdessus (France).

## INTERNATIONAL BANK FOR RECONSTRUCTION AND DEVELOPMENT (IBRD; WORLD BANK)

Conceived at the Bretton Woods Conference, July 1944, the Bank began operations in June 1946. Its purpose is to provide funds and technical assistance to facilitate economic development in its poorer member countries.

The Bank obtains its funds from the following sources: Capital paid in by member countries; sales of its own securities; sales of parts of its loans; repayments; and net earnings. The subscribed capital of the Bank amounted to \$176,438m. at 30 June 1995. A resolution of the Board of Governors of 27 April 1988 provides that the paid-in portion of the shares authorized to be subscribed under it will be 3%. At 30 June 1995 authorized capital stock totalled \$184,050m. Outstanding medium- and long-term borrowings had reached \$104,507m. by 30 June 1995. The Bank is self-supporting. Its net earnings for year ending 30 June 1995 amounted to \$1,354m.

By 30 June 1995 the Bank had made 3,794 loans totalling \$266,251m. in 127 of its 178 member countries. Lending was for the following purposes: Agriculture and rural development, \$45,904m.; education, \$13,218m.; energy, \$53,916m.; environment, \$1,213m.; financial sector, \$28,806m.; industry, \$16,829m.; mining, \$3,119m.; multi-sector, \$25,123m.; population, health and nutrition, \$4,180m.; public-sector management, \$4,995m.; social sector, \$755m.; telecommunications, \$4,850m.; transportation, \$39,615m.; urban development, \$11,826m.; water supply and sewerage, \$11,914m. In order to eliminate wasteful overlapping of development assistance and to ensure that the funds available are used to the best possible effect, the Bank has organized consortia or consultative groups of aid-giving nations for many countries. Consultative groups include those for Bangladesh, Belarus, Bolivia, Bulgaria, Egypt, Ethiopia, Jordan, Kazakhstan, Kenya, Kyrgyzstan, Macedonia, Malawi, Mauritania, Moldova, Mozambique, Nicaragua, Pakistan, Peru, Romania, Sierra Leone, Tanzania, the [Palestinian] West Bank and Gaza Strip, Zambia, Zimbabwe and the Caribbean Group for Co-operation in Economic Development. The Bank furnishes a wide variety of technical assistance. It acts as executing agency for a number of preinvestment surveys financed by the UN Development Programme. Resident missions have been established in 64 developing member countries as well as regional offices for East and West Africa, the Baltic States and South-East Asia, primarily to assist in the preparation and implementation of projects. The Bank maintains a staff college, the Economic Development Institute in Washington, DC, for senior officials of the member countries.

## INTERNATIONAL DEVELOPMENT ASSOCIATION (IDA)

A lending agency which came into existence on 24 Sept. 1960. Administered by the IBRD (World Bank), IDA is open to all members of the Bank.

IDA makes loans at 0%–1% interest to countries with an annual *per capita* GNP of less than US\$866 (1995 rate). 79 countries were eligible to borrow from IDA in 1996. IDA credits are made to governments only. It had committed \$90,078m. for 2,593 development projects in 91 countries by 30 June 1995. Its resources consist of subscriptions and general replenishments from its more industrialized and developed members, special contributions, and transfers from the net earnings of IBRD. Allocations from IBRD were US\$600m. in 1996; net income was US\$1,200m. IDA's reserves are kept at 14% of the value of loans.

In the triennial budget 'IDA10', covering July 1993–June 1996, the USA reduced its contributions by 40%, causing a shortfall of US\$23,700m. Canada and Germany have also reduced their contributions. 'IDA11' covers July 1996–June 1999.

## INTERNATIONAL FINANCE CORPORATION (IFC)

The Corporation, a member of the IBRD (World Bank), was established in July 1956. Paid-in capital at 30 June 1995 was \$1,900m., subscribed by 168 member countries. In addition, it has retained earnings of \$1,700m. IFC supplements the activities of the World Bank by encouraging the growth of productive private enterprises in developing member countries. Chiefly, IFC makes investments in the form of subscriptions to the share capital of privately owned companies, or long-term loans, or both. The Corporation will help finance new ventures and assist established enterprises to expand, improve or diversify. It also provides a variety of advisory services to public and private sector clients.

During 1994–95, the IFC approved US\$2,900m. in financing for its own account 213 private-sector projects in 67 developing countries.

## INTERNATIONAL CIVIL AVIATION ORGANIZATION (ICAO)

*Origin.* The Convention providing for the establishment of the ICAO was drawn up by the International Civil Aviation Conference held in Chicago in 1944. A Provisional International Civil Aviation Organization (PICAO) operated for 20 months until the formal establishment of ICAO on 4 April 1947.

The Convention on International Civil Aviation superseded the provisions of the Paris Convention of 1919 and the Pan American Convention on Air Navigation of 1928.

*Functions.* It assists international civil aviation by establishing technical standards for safety and efficiency of air navigation and promoting simpler procedures at borders; develops regional plans for ground facilities and services needed for international flying; disseminates air-transport statistics and prepares studies on aviation economics; fosters the development of air law conventions. As an administrative arm of the UN Development Programme it provides technical assistance to states in developing civil aviation programmes.

*Organization.* The principal organs of ICAO are an Assembly, consisting of all members of the Organization, and a Council, which is composed of 33 states elected by the Assembly, for 3 years, and meets in virtually continuous session. In electing these states, the Assembly must give adequate representation to: (1) states of

major importance in air transport; (2) states which make the largest contribution to the provision of facilities for the international civil air navigation; (3) those states not otherwise included whose election will ensure that all major geographical areas of the world are represented. The main subsidiary bodies are: The Air Navigation Commission, composed of 15 members appointed by the Council; the Committee on Joint Support of Air Navigation Services; the Personnel Committee; the Finance Committee; the Committee on Unlawful Interference; the Technical Co-operation Committee; the Air Transport Committee, all of the foregoing committees being open to Council members; and the Legal Committee, on which all members of ICAO may be represented. There are 183 members. Budget for 1996: US\$50,340,000; 1997: US\$52,191,000; 1998: US\$54,596,000.

## UNIVERSAL POSTAL UNION (UPU)

*Origin.* The UPU was established on 1 July 1875, when the Universal Postal Convention adopted by the Postal Congress of Berne on 9 Oct. 1874 came into force. In 1995 there were 189 member countries.

*Functions.* The aim of the UPU is to assure the organization and perfection of the various postal services and to promote, in this field, the development of international collaboration. To this end, the members of UPU are united in a single postal territory for the reciprocal exchange of correspondence.

It also decided to change its name to International Telecommunication Union to better reflect all its new responsibilities. The ITU has been governed since 1 Jan. 1984 by the International Telecommunication Convention adopted in Nairobi in 1982. A constitution and convention were adopted at Nice in 1989. This will come into force after 55 members have ratified it.

increasing their usefulness and making them, so far as possible, generally available to the public; (3) to harmonize the actions of nations in the attainment of those ends.

*Organization.* The ITU consists of the Plenipotentiary Conference, Administrative Conferences, the Administrative Council of 46 members, and of 5 permanent organs (the General Secretariat, the International Frequency Registration Board, and 2 international consultative committees, one for radio and one for telephone and telegraph and the Telecommunications Development Bureau).

The WMO Convention became effective on 23 March 1950, and WMO was formally established on 19 March 1951, when the first session of its Congress was convened in Paris. An agreement to bring WMO into relationship with the United Nations was approved by this Congress and came into force on 21 Dec. 1951 with its approval by the UN General Assembly.

*Organization.* WMO is an inter-governmental organization of 176 member states and 5 member territories responsible for the operation of their own meteorological services. Congress, which is the supreme body of WMO, meets every 4 years and approves policy, programme and the budget, and adopts regulations. The Executive Council meets at least yearly to prepare studies and recommendations for Congress.

and supervises the implementation of Congress resolutions and regulations. ## INTERNATIONAL MARITIME ORGANIZATION (IMO)

*Origin.* The International Maritime Organization, until 1982 known as Inter-Governmental Maritime Consultative Organization (IMCO), was established as a specialized agency of the UN by a convention drawn up at the UN Maritime Conference held at Geneva in 1948. The Convention became effective on 17 March 1958 when it had been ratified by 21 countries, including 7 with at least 1m. gross tons of shipping each. The IMO started operations in 1959.

*Functions.* To facilitate co-operation among governments on technical matters affecting merchant shipping, especially concerning safety at sea; to prevent and control marine pollution caused by ships; to facilitate international maritime traffic. The IMO is responsible for convening international maritime conferences and for drafting international maritime conventions. It also provides technical assistance to countries wishing to develop their maritime activities.

*Organization.* The IMO had 153 members (and 2 associate members) in 1996. The Assembly, composed of all member states, normally meets every 2 years. The Council of 32 member states acts as governing body between Assembly sessions. The Maritime Safety Committee deals with all technical questions relating to maritime safety. It has established several sub-committees to deal with specific problems. There is a secretariat.

The IMO is depositary authority for international conventions regulating maritime affairs.

## WORLD TRADE ORGANIZATION (WTO)

*Origin.* The General Agreement on Tariffs and Trade (GATT) entered into force on 1 Jan. 1948. Its 23 original signatories were members of a Preparatory Committee appointed by the UN Economic and Social Council to draft the charter for a proposed International Trade Organization. Since this charter was never ratified, the General Agreement remained the only international instrument laying down trade rules. In Dec. 1993 there were 111 contracting parties and a further 22 countries applying GATT rules on a *de facto* basis. On 15 April 1994 trade ministers of 125 countries signed the final act of the GATT Uruguay Round of negotiations at Marrakesh, bringing the WTO into being on 1 Jan. 1995. The object of the act is the liberalization of world trade. By it member countries undertake to apply fair trade rules covering commodities, services and intellectual property. It provides for the lowering of tariffs on industrial goods and tropical products, the abolition of import duties on a variety of items, the progressive abolition of quotas on garments and textiles, the gradual reduction of trade-distorting subsidies and import barriers, agreements on intellectual property and trade in services. (For details of GATT see THE STATESMAN'S YEAR-BOOK, 1994–95, pp. 25–28).

*Functions.* Members are required to accept the results of the Uruguay Round talks in their entirety, and subscribe to all the WTO's agreements and disciplines. There are no enforcement procedures, however; decisions are ultimately reached by consensus.

*Organization.* A 2-yearly ministerial meeting is the ultimate policy-making body. A 123-member *General Council* has some 30 subordinate councils and committees. The *Dispute Settlement Body* was set up to deal with disputes between countries. Appeals against its verdicts are heard by a 7-member *Appellate Body* sitting for 60 days a year. In 1996 it was composed of representatives of Egypt, EU, Japan, New Zealand, Philippines, USA and Uruguay. Dispute panels may be set up *ad hoc*, and objectors to their ruling may appeal to the *Appellate Body*, whose decision is binding. Refusal to comply at this stage results in the application of trade sanctions. Each appeal is heard by 3 of the *Appellate Body* members. Before cases are heard by Dispute Panels there is a 60-day consultation period.

The previous GATT Secretariat now serves the WTO.

To assist the trade of developing countries, GATT established in 1964 the *International Trade Centre* (since 1968 operated jointly with the UN, the latter acting through the UN Conference on Trade and Development) to provide information and training on export markets and marketing techniques.

The WTO has no resources of its own other than its operating budget. Budget for 1996: 115m. Swiss francs.

*Director-General:* Renato Ruggiero (b. 1930; Italy).

*Headquarters:* Centre William Rappard, 154 rue de Lausanne, 1211 Geneva 21, Switzerland.

## WORLD INTELLECTUAL PROPERTY ORGANIZATION (WIPO)

*Origin.* The Convention establishing WIPO was signed at Stockholm in 1967 by 51 countries, and entered into force in April 1970. In Dec. 1974 WIPO became a specialized agency of the UN. WIPO took over the functions of the United International Bureaux for the Protection of Intellectual Property (BIRPI), established in 1893 to administer the affairs of the 2 principal international intellectual property treaties – the Paris Convention for the Protection of Industrial Property of 1883 and the Berne Convention for the Protection of Literary and Artistic Works of 1886.

*Functions.* WIPO is responsible for the promotion of the protection of intellectual property throughout the world. Intellectual property comprises two main branches: Industrial property (chiefly in inventions, trademarks and industrial designs) and copyright and neighbouring rights (chiefly in literary, musical, artistic, photographic and audiovisual works). WIPO administers various international treaties, of which the most important are the Paris and Berne Conventions.

In 1995, 2 new international treaties, the Eurasian Patent Convention, and the Protocol Relating to the Madrid Agreement Concerning the International Registration of Marks, came into force. Operations under these started on 1 Jan. 1996 and 1 April 1996 respectively.

WIPO carries out a programme of activities to promote the protection of intellectual property, including a substantial programme of development co-operation for the benefit of developing countries. As regards standard-setting, WIPO prepares new treaties concerning the protection of intellectual property and undertakes the revision of existing treaties administered by the Organization. It carries out studies on issues in the field of intellectual property that could be the subject of model laws or guidelines for implementation at the national or international levels and maintains international registration services (patents, trademarks, industrial designs, appellations of origin and audio-visual works).

*Membership* of WIPO is open to any state which is a member of at least one of the unions created by the Paris Convention and the Berne Convention and to other States which are members of the UN organizations, are party to the Statute of the International Court of Justice, or are invited to join by the General Assembly of WIPO. Membership of the unions is open to any state. As at 1 Oct. 1996, 158 states were members of WIPO, 140 of the Paris Union and 119 of the Berne Union.

*Organization.* WIPO has 3 governing bodies: the *General Assembly* (countries members of WIPO, provided they are members also of the Paris and/or Berne Unions), the *Conference* (all countries members of WIPO) and the *Co-ordination Committee* (countries elected among the membership of WIPO and the Paris and Berne Unions). The Conference, among its functions, adopts the biennial budget and establishes the biennial programme of legal and technical assistance. In addition, the Paris and Berne Unions have Assemblies and Executive Committees with functions similar to those of the WIPO bodies in respect of the biennial budgets and programmes of the Unions.

The executive head of WIPO is the Director General, who is elected by the General Assembly.

The *WIPO Permanent Committees for Development Co-operation Related to Industrial Property and Related to Copyright and Neighbouring Rights* plan and review activities in the said fields; the *WIPO Permanent Committee on Industrial Property Information* is responsible for intergovernmental co-operation in industrial property documentation and information matters such as the standardization and exchange of patent documents.

The budget for 1996–97 was Sw. Fr. 300m.

WIPO had an international staff of 613 in 1997, nationals of 65 countries. Its working languages are Arabic, English, French, Russian and Spanish.

*Director-General:* Dr Arpad Bogsch (USA).

*Headquarters:* 34, chemin des Colombettes, 1211 Geneva 20, Switzerland.

## INTERNATIONAL FUND FOR AGRICULTURAL DEVELOPMENT (IFAD)

The establishment of IFAD was one of the major actions proposed by the 1974 World Food Conference. The agreement for IFAD entered into force on 30 Nov. 1977, and the agency began its operations the following month. By the end of Sept. 1996 the Fund had invested US\$4,696.3m. in financing 449 projects in 110 developing countries. IFAD's purpose is to mobilize additional funds for agricultural and rural development in developing countries through projects and programmes directly benefiting the poorest rural populations while preserving their natural resource base. In line with the Fund's focus on the rural poor, its resources are being made available mainly in highly concessional loans as well as grants.

*Organization.* The highest body is the *Governing Council*, on which all 160 member countries are represented. Operations are overseen by an 18-member Executive Board (with 17 alternate members), which is responsible to the Governing Council. The President of IFAD is chair of the Executive Board.

*President:* Fawzi H. Al-Sultan (Kuwait).

*Headquarters:* 107 Via del Serafico, Rome, 00142, Italy.

## UNITED NATIONS INDUSTRIAL DEVELOPMENT ORGANIZATION (UNIDO)

*Origins.* UNIDO became an autonomous organization within the UN Secretariat in

1966, superseding the Centre for Industrial Development which had been operating since 1961. Its General Conference in 1975 recommended its conversion to a UN Specialized Agency, and this was achieved in 1986. Its 1993 General Conference approved a recommendation for the reform and revitalization of the Organization. The reform process concentrated on the re-orientation of UNIDO's activities to adjust to the economic environment of the 1990s, and was completed in Dec. 1995. 169 countries were members in Sept. 1996. In Dec. 1995 the USA gave notice of its intention to withdraw at the end of 1996, and in Dec. 1996 the UK gave notice of its intention to withdraw at the end of 1997.

*Activities.* According to its Constitution which entered into force in 1985 UNIDO's principal aim was to promote industrial development in the developing countries. Activities concerned the formulation of industrial development policies, introduction of modern technical and managerial methodology, collaboration with UN regional economic commissions and technical and economic assistance, advice and financing. Support activities (studies and services) and special programmes were undertaken.

Following the reform of 1993-95 UNIDO adopted a new mission statement: 'UNIDO is the specialist agency of the UN dedicated to promoting sustainable industrial development in countries with developing and transition economies. UNIDO harnesses the joint forces of government and the private sector to foster competitive industrial production, develops international industrial partnerships and promotes socially equitable and environmentally friendly industrial development. UNIDO is the only worldwide organization dealing exclusively with industry from a development perspective. Its services are non-profit, neutral and specialized. Its staff are highly qualified with the widest range and depth of required industrial expertise. UNIDO acts as a catalyst to help generate national economic wealth and raises industrial capacity through its roles as a worldwide forum for industrial development and as a provider of technical co-operation services. UNIDO's ultimate goal is to create a better life for people by laying the industrial foundations for long-term prosperity and economic strength.'

*Organization.* The General Conference meets every 2 years to determine policy and approve the budget. It consists of representatives of all member states. The 53-member governing body (33 members from developing countries) is the *Industrial Development Board*, elected for 4 years by the General Conference. The General Conference also elects a 27-member Programme and Budget Committee for 2-year terms of office, and appoints a Director-General for a 4-year term.

UNIDO had 990 employees in 1995. Its budget for 1996-97 was for US\$210m. (US\$181m. from members' contributions and US\$29m. from reimbursement of technical co-operation support costs).

*Director-General:* Mauricio de María y Campo (Mexico; till 1 April 1997).

*Secretariat:* POB 300, A-1400 Vienna, Austria. Internet: <http://www.unido.org>.

## THE COMMONWEALTH

The Commonwealth is a free association of sovereign independent states, numbering 53 at the beginning of 1996. There is no charter, treaty or constitution; the association is expressed in co-operation, consultation and mutual assistance for which the Commonwealth Secretariat is the central co-ordinating body.

The Commonwealth was first defined by the Imperial Conference of 1926 as a group of 'autonomous Communities within the British Empire, equal in status, in no way subordinate one to another in any aspect of their domestic or external affairs, though united by a common allegiance to the Crown, and freely associated as members of the British Commonwealth of Nations'. The basis of the association changed from one owing allegiance to a common Crown, and the modern Commonwealth was born in 1949 when the member countries accepted India's intention of becoming a republic at the same time continuing 'her full membership of the Commonwealth of Nations and her acceptance of the King as the symbol of the free associ-

ation of its independent member nations and as such the Head of the Commonwealth'. There were (1995) 16 Queen's realms, 30 republics, and 5 indigenous monarchies in the Commonwealth. All acknowledge the Queen symbolically as Head of the Commonwealth.

The Queen's legal title rests on the statute of 12 and 13 Will. III, c. 3, by which the succession to the Crown of Great Britain and Ireland was settled on the Princess Sophia of Hanover and the 'heirs of her body being Protestants'. By proclamation of 17 July 1917 the royal family became known as the House and Family of Windsor. On 8 Feb. 1960 the Queen issued a declaration varying her confirmatory declaration of 9 April 1952 to the effect that while the Queen and her children should continue to be known as the House of Windsor, her descendants, other than descendants entitled to the style of Royal Highness and the title of Prince or Princess, and female descendants who marry and their descendants should bear the name of Mountbatten-Windsor. The Royal Style and Titles of Queen Elizabeth are: In *Antigua and Barbuda* 'Elizabeth the Second, by the Grace of God, Queen of Antigua and Barbuda and of Her other Realms and Territories, Head of the Commonwealth'. In *Australia*: 'Elizabeth the Second, by the Grace of God Queen of Australia and Her other Realms and Territories, Head of the Commonwealth'. In the *Bahamas*: 'Elizabeth the Second, by the Grace of God, Queen of the Commonwealth of the Bahamas and of Her other Realms and Territories, Head of the Commonwealth'. In *Barbados*: 'Elizabeth the Second, by the Grace of God, Queen of Barbados and of Her other Realms and Territories, Head of the Commonwealth'. In *Belize*: 'Elizabeth the Second, by the Grace of God, Queen of Belize and of Her Other Realms and Territories, Head of the Commonwealth'. In *Canada*: 'Elizabeth the Second, by the Grace of God of the United Kingdom, Canada and Her other Realms and Territories Queen, Head of the Commonwealth, Defender of the Faith'. In *Grenada*: 'Elizabeth the Second, by the Grace of God, Queen of the United Kingdom of Great Britain and Northern Ireland and of Grenada and Her other Realms and Territories, Head of the Commonwealth'. In *Jamaica*: 'Elizabeth the Second, by the Grace of God of Jamaica and of Her other Realms and Territories Queen, Head of the Commonwealth'. In *New Zealand*: 'Elizabeth the Second, by the Grace of God Queen of New Zealand and Her Other Realms and Territories, Head of the Commonwealth, Defender of the Faith'. In *Papua New Guinea*: 'Elizabeth the Second, Queen of Papua New Guinea and Her other Realms and Territories, Head of the Commonwealth'. In *Saint Christopher and Nevis*: 'Elizabeth the Second, by the Grace of God, Queen of Saint Christopher and Nevis and Her other Realms and Territories, Head of the Commonwealth'. In *Saint Lucia*: 'Elizabeth the Second, by the Grace of God, Queen of Saint Lucia and of Her other Realms and Territories, Head of Commonwealth'. In *Saint Vincent and the Grenadines*: 'Elizabeth the Second, by the Grace of God, Queen of Saint Vincent and the Grenadines and of Her other Realms and Territories, Head of the Commonwealth'. In *Solomon Islands*: 'Elizabeth the Second by the Grace of God Queen of Solomon Islands and of Her other Realms and Territories, Head of the Commonwealth'. In *Tuvalu*: 'Elizabeth the Second by the Grace of God Queen of Tuvalu and of Her other Realms and Territories, Head of the Commonwealth'. In the *United Kingdom*: 'Elizabeth the Second, by the Grace of God of the United Kingdom of Great Britain and Northern Ireland and of Her other Realms and Territories Queen, Head of the Commonwealth, Defender of the Faith'.

A number of territories, formerly under British jurisdiction or mandate did not join the Commonwealth: Egypt, Iraq, Transjordan, Burma, Palestine, Sudan, British Somaliland, South Cameroons, and Aden. 3 countries, Ireland in 1948, South Africa in 1961 and Pakistan in 1972, left the Commonwealth. Fiji's membership lapsed with the emergence of its Republic in 1987. Pakistan was re-admitted to the Commonwealth in 1989, South Africa in 1994. Nigeria was suspended in 1995 for violation of human rights. Mozambique, admitted in Nov. 1995, is the first member state not to have been a member of the former British Commonwealth or Empire.

Nauru and Tuvalu are special members, with the right to participate in all functional Commonwealth meetings and activities but not to attend meetings of Commonwealth Heads of Government.

<sup>2</sup> Nauru had been first a Mandate, then a Trust territory.

<sup>3</sup> Brunei and Tonga had been sovereign states in treaty relationship with the UK, whereby the UK was responsible for the conduct of external affairs and had a consultative responsibility for defence.

*Dependent Territories and Associated States.* There are 14 British dependent territories, 7 Australian external territories, 2 New Zealand dependent territories and 2 New Zealand associated states. A dependent territory is a territory belonging by settlement, conquest or annexation to the British, Australian or New Zealand Crown.

United Kingdom dependent territories administered through the Foreign and Commonwealth Office comprise, in the Indian Ocean: British Indian Ocean Territory; in the Mediterranean: Gibraltar; in the Atlantic Ocean: Bermuda, Falkland Islands, South Georgia and the South Sandwich Islands, British Antarctic Territory, St Helena, St Helena Dependencies (Ascension and Tristan da Cunha); in the Caribbean: Montserrat, British Virgin Islands, Cayman Islands, Turks and Caicos Islands, Anguilla; in the Western Pacific: Pitcairn Group of Islands. The Australian external territories are: Coral Sea Islands Territory, Cocos (Keeling) Islands, Christmas Island, Heard Island and McDonald Islands, Norfolk Island, Australian Antarctic

Territory and the Territory of Ashmore and Cartier Islands. The New Zealand dependent territories are: Tokelau and Ross Dependency. The New Zealand associated states are: Cook Islands and Niue.

While constitutional responsibility to Parliament for the government of the British dependent territories rests with the Secretary of State for Foreign and Commonwealth Affairs, the administration of the territories is carried out by the Governments of the territories themselves.

*Aims and Conditions of Membership.* Membership involves acceptance of certain principles and is subject to the approval of other member states. In the Harare Declaration of 1991 these principles were defined as political democracy, human rights, good government and the rule of law. Commitment to these principles was made binding as a condition of membership at the 1993 Heads of Government meeting in Cyprus. The Millbrook Action Programme of 1995 aims to support countries in implementing the Harare Declaration, providing assistance in constitutional and judicial matters, running elections, training and technical advice. Violations of the Harare Declaration will provoke a series of measures by the Commonwealth Secretariat, including: Expression of disapproval, encouragement of bilateral actions by member states, appointment of fact-finders and mediators, stipulation of a period for the restoration of democracy, exclusion from ministerial meetings, suspension of all participation and aid and finally punitive measures including trade sanctions.

An 8-member *Ministerial Action Group* may be convened by the Secretary-General to deal with violations. The Group held its first meeting in Dec. 1995. It elected Dr Stan Mudenge (Zimbabwe) as Chair. Its terms of reference are as set out in the Millbrook Action Programme. The Group meets as and when necessary.

The *Commonwealth Parliamentary Assembly* was founded in 1911. As defined by its constitution, its objectives are to 'promote knowledge of the constitutional, legislative, economic, social and cultural aspects of parliamentary democracy'. It meets these objectives by organizing conferences, meetings and seminars for members, arranging exchange visits between members, publishing books, newsletters, reports, studies and a quarterly journal and providing an information service. Its principal governing body is the *General Assembly*, which meets annually during the Commonwealth Parliamentary Conference and is composed of members attending that Conference as delegates. The Assembly elects an *Executive Committee* comprising a Chair, President, Vice-President, Treasurer and 27 regional representatives, which meets twice a year. The Chair is elected for 3-year terms. The *Secretariat* consists of a Secretary-General and 12 staff. The Assembly is financed by membership fees levied on each branch and based on the number of delegates entitled to attend the Commonwealth Parliamentary Conference.

*Secretary-General:* Arthur Donahoe QC.

*Secretariat:* 7 Millbank, London SW1.

*British Government Department.* With effect from 17 Oct. 1968, the Secretary of State for Foreign and Commonwealth Affairs is responsible for the conduct of relations with members of the Commonwealth as well as with foreign countries, and for the administration of British dependent territories.

*Commonwealth Secretariat.* The Commonwealth Secretariat is an international body at the service of all 51 member countries. It provides the central organization for joint consultation and co-operation in many fields. It was established in 1965 by Commonwealth Heads of Government and has observer status at the UN General Assembly.

The Secretariat disseminates information on matters of common concern, organizes and services meetings and conferences, co-ordinates many Commonwealth activities, and provides expert technical assistance for economic and social development through the multilateral Commonwealth Fund for Technical Cooperation. The Secretariat is organized in divisions and sections which correspond to its main areas of operation: International affairs, economic affairs, food production and rural development, youth, education, information, applied studies in government, science and technology, law and health. Within this structure the Secretariat organizes the

biennial meetings of Commonwealth Heads of Government, annual meetings of Finance Ministers of member countries, and regular meetings of Ministers of Education, Law, Health, and others as appropriate.

To emphasize the multilateral nature of the association, meetings are held in different cities and regions within the Commonwealth. Heads of Government decided that the Secretariat should work from London as it has the widest range of communications of any Commonwealth city, as well as the largest assembly of diplomatic missions.

The Commonwealth Secretary-General, who has access to Heads of Government, is the head of the Secretariat which is staffed by officers from member countries and financed by contributions from member governments.

## COMMONWEALTH OF INDEPENDENT STATES (CIS)

The Commonwealth of Independent States is a community of independent states which proclaimed itself the successor to the Union of Soviet Socialist Republics in some aspects of international law and affairs. The member states are the founders, Russia, Belarus and the Ukraine, and 9 subsequent adherents: Armenia, Azerbaijan, Georgia, Kazakhstan, Kyrgyzstan, Moldova, Tajikistan, Turkmenistan and Uzbekistan. The common affairs of the CIS are conducted on a multilateral, inter-state basis rather than by central institutions. It provides a framework for military, foreign policy and economic co-ordination.

**HISTORY.** Extended negotiations in the Union of Soviet Socialist Republics (USSR) in 1990 and 1991, under the direction of President Gorbachev, sought to establish a 'renewed federation' or, subsequently, to conclude a new union treaty that would embrace all the 15 constituent republics of the USSR at that date. According to a referendum conducted in March 1991, 76% of the population (on an 80% turn-out) wished to maintain the USSR as a 'renewed federation of equal sovereign republics in which the human rights and freedoms of any nationality would be fully guaranteed'. In Sept. 1991 the 3 Baltic republics – Estonia, Latvia and Lithuania – were nonetheless recognized as independent states by the USSR State Council, and subsequently by the international community. Most of the remaining republics reached agreement on the broad outlines of a new 'union of sovereign states' in Nov. 1991, which would have retained a directly elected President and an all-union legislature, but which would have limited central authority to those powers specifically delegated to it by the members of the union.

A referendum in the Ukraine in Dec. 1991, however, showed overwhelming support for full independence, and following this the 3 Slav republics (Russia, Belarus and the Ukraine) concluded an agreement on 8 Dec. 1991 establishing a Commonwealth of Independent States (CIS) with its headquarters in Minsk. The USSR, as a subject of international law and a geopolitical reality, was declared no longer in existence, and each of the 3 republics individually renounced the 1922 treaty through which the USSR had been established.

The CIS declared itself open to other former Soviet republics, as well as to states elsewhere that shared its objectives, and on 21 Dec. 1991 in Almaty a further declaration was signed by representatives of the 3 original members and of 8 other republics: Armenia, Azerbaijan, Kazakhstan, Kyrgyzstan, Moldova, Tajikistan, Turkmenistan and Uzbekistan. The declaration committed those who signed it to recognize the independence and sovereignty of other members, to respect human rights including those of national minorities, and to the observance of existing boundaries. Relations among the members of the CIS were to be conducted on an equal, multilateral basis, but it was agreed to endorse the principle of unitary control of strategic nuclear arms and the concept of a 'single economic space'. Members pledged themselves to discharge the obligations that arose from the international treaties and agreements to which the USSR had been a party. In a separate agreement the heads of member states agreed that Russia should take up the seat at the United Nations formerly occupied by the USSR, and a framework of inter-state and inter-government consultation was established. Following these developments Mikhail Gorbachev resigned as USSR President on 25 Dec. 1991, and on 26 Dec. the USSR Supreme Soviet voted a formal end to the treaty of union that had been signed in 1922 and dissolved itself.

**INSTITUTIONS.** The 'supreme organ' of the CIS, according to the agreement concluded in Almaty on 21 Dec. 1991, is a *Council of Heads of States*: associated with its work is a *Council of Heads of Government*. At a summit meeting of heads of all the states except Azerbaijan in July 1992, agreements were reached on the formation of a CIS peacekeeping force, the establishment of an economic arbitration court and a way to divide former Soviet assets abroad, and some progress was made towards the creation of economic co-ordinating structures. At their subsequent meeting in Jan. 1993 Russia, Belarus, Armenia, Kazakhstan, Kyrgyzstan, Turkmenistan and Uzbekistan agreed on a charter to establish a defence alliance, an economic co-ordination committee and an inter-state court. 3 participants (Ukraine, Moldova and Tajikistan) agreed only to a declaration that any state would be free to sign the charter in future, and that an inter-state bank should be set up.

On 24 Sept. 1993 Russia, Armenia, Azerbaijan, Belarus, Kazakhstan, Kyrgyzstan, Moldova, Tajikistan and Uzbekistan signed an agreement to form an economic union, with Ukraine and Turkmenistan as associated members. Georgia signed some provisions.

A summit meeting in Dec. 1993 set up a *Council of CIS Foreign Ministers*. In March 1994 the CIS was accorded observer status in the United Nations.

In Dec. 1993 the *CIS Inter-State Bank* was set up to facilitate multilateral clearing of CIS inter-state transactions with a starting capital of 5,000m. rubles. Members' contributions, based on their share of foreign trade turn-over in 1990: Russia, 50%; Ukraine, 20.7%; Belarus, 8.4%; Kazakhstan, 6.1%; Uzbekistan, 5.5%; Moldova, 2.9%; Armenia, 1.8%; Tajikistan, 1.6%; Kyrgyzstan, 1.5%; Turkmenistan, 1.5%.

The former USSR railway network is administered by the *CIS Railway Council* through operating authorities set up in 1991 in each member country.

Meeting in July 1992 representatives of the defence and foreign ministries of member states agreed on the creation of a peacekeeping force ('white helmets') to be deployed in intra-CIS conflicts at the request of member states, and with the consent of the parties to the conflict. CIS members contribute to this force in proportion to the size of their armed forces; the commander is appointed on each occasion by the CIS heads of state.

In 1993 the office of C.-in-C. of CIS Joint Armed Forces was replaced by that of Chief of Joint Staff for Co-ordinating Military Co-operation.

In Oct. 1994 a summit meeting established the *Inter-Government Economic Committee* to be based in Moscow. Members are all CIS states except Turkmenistan. Its decisions are binding if voted by 80% of the membership. Russia commands 50% of the voting power and the other 10 members combined, 50%. The Committee's remit is to co-ordinate energy, transport and communications policies. A *Payments Union* was also agreed to regulate payments between member states with non-convertible independent currencies.

On 29 March 1996 Belarus, Kazakhstan, Kyrgyzstan and Russia signed an agreement increasing their mutual economic and social integration by creating a *Community of Integrated States*. The agreement established a *Supreme Inter-Governmental Council* comprising heads of state and government and foreign ministers, with a rotatory Chair, an integration committee of Ministers and an Inter-Parliamentary Committee.

On 2 April 1996 the Presidents of Belarus and Russia signed a treaty providing for political, economic and military integration, creating the nucleus of a *Commonwealth of Sovereign Republics*. The agreement establishes a Supreme Council comprising the Presidents, Prime Ministers and Speakers of both countries.

The *administrative centre* is in the Assembly, Minsk, Belarus.

## WORLD COUNCIL OF CHURCHES

The World Council of Churches was formally constituted on 23 Aug. 1948, at Amsterdam, by an assembly representing 147 churches from 44 countries. By 1996 the member churches numbered over 330, from more than 100 countries.

The basis of membership (1975) states: 'The World Council of Churches is a fellowship of Churches which confess the Lord Jesus Christ as God and Saviour according to the Scriptures and therefore seek to fulfil together their common calling to the glory of the one God, Father, Son and Holy Spirit.' Membership is open to Churches which express their agreement with this basis and satisfy such criteria as the Assembly or Central Committee may prescribe. Today more than 330 Churches of Protestant, Anglican, Orthodox, Old Catholic and Pentecostal confessions belong to this fellowship.

The World Council was founded by the coming together of several diverse Christian movements. These included the overseas mission groups gathered from 1921 in the International Missionary Council, the Faith and Order Movement founded by American Episcopal Bishop Charles Brent, and the Life and Work Movement led by Swedish Lutheran Archbishop Nathan Söderblom.

On 13 May 1938 at Utrecht a provisional committee was appointed to prepare for the formation of a World Council of Churches. It was under the chairmanship of William Temple, then Archbishop of York.

**Assembly.** The governing body of the World Council, consisting of delegates specially appointed by the member Churches. It meets every 7 or 8 years to frame policy and to consider some main theme. The Assembly has no legislative powers and depends for the implementation of its decisions upon the action of the member Churches. Assemblies have been held in Amsterdam (1948), Evanston (1954), New Delhi (1961), Uppsala (1968), Nairobi (1975), Vancouver (1983) and Canberra (1991). The Eighth Assembly is scheduled to be held in Harare in 1998 with the theme, 'Turn to God, Rejoice in Hope'. In between assemblies, a 150-member Central Committee meets annually to carry out the assembly mandate, with a smaller 28-member Executive Committee meeting twice a year.

*Presidents:* Prof. Anne-Marie Aagaard (Denmark), Bishop Vinton Anderson (USA), Bishop Leslie Boseto (Solomon Islands), Ms Priyanka Mendis (Sri Lanka), Rev. Dr Eunice Santana (Puerto Rico), His Holiness Pope Shenouda (Egypt), Dr Aaron Tolen (Cameroon).

## BANK FOR INTERNATIONAL SETTLEMENTS (BIS)

Founded in 1930, originally to settle the question of German First World War reparations, the BIS is the 'central banks' bank'. It aims to promote co-operation between central banks, to provide facilities for international financial operations and act as agent or trustee in international financial settlements. Its assets are owned by 41 central banks, and in 1991 it held US\$70,000m. on behalf of 80 central banks.

*Organization.* The 11-member Board of Directors consists of the governors of the central banks of Belgium, Canada, France, Germany, Italy, Japan, the Netherlands, Sweden, Switzerland, the UK and the USA (which took up its seat in Sept. 1994). The Chairman of the Board may act as President. 3 *Standing Committees* operate within the BIS: The Basel Committee on Banking Supervision; the Euro-Currency Standing Committee; and the Committee on Payment and Settlement Systems. There are also specialized *Groups*, such as the Group of Experts on Monetary and Economic Databank Questions, and the Co-ordinating Service for Central Banks and International Organizations.

In 1988 it defined standard minimum levels of capital adequacy for banks: in 1990 a capital-to-asset ratio of 7.25%, rising to 8% in 1992.

In 1996, it had a staff of 470. Its operating budget in 1996 was 120m. Swiss francs.

*Chairman:* Alfons Verplaetse (Belgium).

*Headquarters:* Centralbahnplatz 2, 4002 Basel, Switzerland.

## INTERNATIONAL TRADE UNIONISM

**INTERNATIONAL CONFEDERATION OF FREE TRADE UNIONS (ICFTU).** The founding congress of the ICFTU was held in London in Dec. 1949, following the withdrawal of some Western trade unions from WFTU which had come under Communist control. The constitution as amended provides for co-operation with the UN and the ILO and for regional organizations to promote free trade unionism, especially in developing countries.

*Organization.* The Congress meets every 4 years. It elects the Executive Board of 50 members nominated on an area basis for a 4-year period; 5 seats are reserved for women nominated by the Women's Committee; the Board meets at least once a year. Various committees cover economic and social policy, violation of trade union and other human rights, trade union co-operation projects and also the administration of the International Solidarity Fund. There are joint ICFTU-International Trade Secretariat committees for co-ordinating activities.

*Headquarters:* Bd. Emile Jacqmain 155, Brussels 1210, Belgium.

*General Secretary:* Bill Jordan (UK).

Regional organizations exist in America, office in Caracas; Asia, office in Singapore; and Africa, office in Nairobi.

*Membership.* The ICFTU had in June 1996 196 affiliated organizations in 137 countries, which together represented 124m. workers.

*Publications* (in 4 languages). *Free Labour World* (fortnightly).

**WORLD CONFEDERATION OF LABOUR (WCL).** The first congress of the International Federation of Christian Trade Unions, as the WCL was then called, met in 1920; but a large proportion of its 3.4m. members were in Italy and Germany, where affiliated unions were suppressed by the Fascist and Nazi régimes,

and in 1940 it went out of existence. It was reconstituted in 1945, and declined to merge with the WFTU or the ICFTU. Its policy was based on the papal encyclicals *Rerum novarum* (1891) and *Quadragesimo anno* (1931), but in 1968, when the Federation became the WCL, it dropped its openly confessional approach and now has Protestant, Buddhist and Moslem member confederations as well as its mainly Roman Catholic members. In its concern to defend trade union freedoms and assist trade union development the WCL differs little in policy from the ICFTU.

*Organization.* The WCL is organized on a federative basis which leaves wide discretion to its autonomous constituent unions. Its governing body is the Congress, which meets every 4 years. The Congress appoints (or re-appoints) the Secretary-General at each 4-yearly meeting. The General Council which meets at least once a year, is composed of the members of the Confederal Board (at least 22 members, elected by the Congress) and representatives of national confederations, international trade federations, and trade union organizations where there is no confederation affiliated to the WCL. The Confederal Board is responsible for the general leadership of the WCL, in accordance with the decisions and directives of the Council and Congress.

*Secretary-General:* Carlos Luís Custer.

*Headquarters:* 71 rue Joseph II, Brussels 1040, Belgium.

There are regional organizations in Latin America (office in Caracas), Africa (office in Banjul, Gambia) and Asia (office in Manila) There is also a liaison centre in Montreal.

*Membership.* A total membership of 11m. in about 90 countries is claimed. The biggest group is the Confederation of Christian Trade Unions (CSC) of Belgium (1.2m.).

*Publication.* *Labour Press and Information* (11 each year, in 5 languages).

**WORLD FEDERATION OF TRADE UNIONS (WFTU).** The WFTU came into existence on 3 Oct. 1945, representing trade union organizations in more than 50 countries, both Communist and non-Communist.

*Organization.* The Congress meets every 4 years. In between, the General Council is the governing body, meeting (in theory) at least once a year. The Bureau controls the activities of WFTU between meetings of the General Council; it consists of the President, the General Secretary and members from different continents, the total number being decided at each Congress. The Bureau is elected by the General Council. Regional bureaux were instituted in 1990 as a move towards decentralization.

*General Secretary:* Aleksandr Zharikov (Russia).

The headquarters is in Prague.

*Membership.* From the outset the American Federation of Labor declined to participate. In Jan. 1949 British, US and Netherlands trade union organizations withdrew from WFTU, which had come under complete Communist control, and went on to found the ICFTU; by June 1951 all non-Communist trade unions, and the Yugoslav federation, had withdrawn. With the collapse of the European Communist regimes membership became uncertain after 1990. Unions broke their links with the Communist parties and most were later accepted into the ICFTU. Most of the national trade union centres in Africa and Latin America also moved to the ICFTU after 1989. At the Nov. 1994 congress in Damascus most delegates were from developing countries (Cuba, India, South Korea, Vietnam). The French Confédération Générale du Travail has proposed withdrawal to its members.

*Publications.* *Trade Union Press* (in 3 languages).

**EUROPEAN TRADE UNION CONFEDERATION (ETUC).** In Feb. 1973 the ETUC was formed by trade unionists in 15 Western European countries to deal with questions of interest to European working people arising inside and outside the EC. All the founding organizations were ICFTU affiliates but subsequently

they accepted into membership European WCL affiliates, the Irish Congress of Trade Unions and the Italian Communist and Socialist trade union centre (CGIL) and other national organizations. In 1992 and 1993 the ETUC accorded observer status to several national trade union organizations from Eastern Europe. The ETUC Congress meets every 3 years and the Executive Committee 4 times a year. The membership was (1994) about 45m. from national trade union centres in 21 countries.

*General Secretary:* Emilio Gabaglio.

*Headquarters:* Bd. Emile Janqmain 155, Brussels 1210.

## ORGANISATION FOR ECONOMIC CO-OPERATION AND DEVELOPMENT (OECD)

*History and Membership.* On 30 Sept. 1961 the Organisation for European Economic Co-operation (OEEC), after a history of 13 years (see THE STATESMAN'S YEAR-BOOK, 1961, p. 32), was replaced by the Organisation for Economic Co-operation and Development. The change of title marks the Organisation's altered status and functions: With the accession of Canada and USA as full members it ceased to be a purely European body; while at the same time it added development aid to the list of its other activities. The member countries are now Australia, Austria, Belgium, Canada, the Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Japan, South Korea, Luxembourg, Mexico, the Netherlands, New Zealand, Norway, Poland, Portugal, Spain, Sweden, Switzerland, Turkey, UK and USA. The EU Commission generally takes part in OECD's work.

*Objectives.* To promote economic and social welfare throughout the OECD area by assisting its member governments in the formulation of policies designed to this end and by co-ordinating these policies; and to stimulate and harmonize its members' efforts in favour of developing countries.

*Organs.* The supreme body is the *Council* composed of 1 representative for each member country. It meets either at Heads of Permanent Delegations level (about twice a month) under the chairmanship of the Secretary-General, or at ministerial level (usually once a year) under the chairmanship of a minister of a country elected annually to this function. Decisions and Recommendations are adopted by mutual agreement of all members of the Council.

The Council is assisted by an Executive Committee composed of 14 members of the Council designated annually by the latter. The major part of the Organisation's work is, prepared and carried out in specialized committees, working parties and sub-groups, of which there exist over 200, including Committees for Economic Policy; Economic and Development Review; Development Assistance (DAC); Trade; Capital Movements and Invisible Transactions; Financial Markets; Fiscal Affairs; Competition Law and Policy; Consumer Policy; Tourism; Maritime Transport; International Investment and Multinational Enterprises; Energy Policy; Industry; Steel; Scientific and Technological Policy; Information, Computer and Communications Policy; Education; Employment; Labour; Social Affairs; Public Management; Environment; Agriculture; Fisheries; and Commodities.

In 1990 the Centre for Co-operation with Economies in Transition (CCET) was established to act as OECD's point of contact for Central and East European countries seeking guidance in moving towards a market economy.

4 autonomous or semi-autonomous bodies also belong to the Organisation: The International Energy Agency (IEA); the Nuclear Energy Agency (NEA); the Development Centre and the Centre for Educational Research and Innovation (CERI). Each one of these bodies has its own governing committee.

Committees and other bodies are, as a rule, composed of civil servants coming either from capitals or from the Permanent Delegations to the OECD which are established as normal diplomatic missions and headed by ambassadors. They are serviced by an *International Secretariat* headed by the OECD Secretary General.

*Relations with other international organisations.* The EU Commission generally takes part in the work of OECD under a protocol signed at the same time as the OECD Convention. EFTA may also send representatives to attend all OECD meetings. There are official or working relations with a number of other international governmental organizations. Special arrangements establishing close links with Council of Europe were concluded in 1962. Non-governmental international organizations deemed to be widely representative in general economic matters or in a specific economy sector can be granted a consultative status enabling them to discuss subjects of common interest with a Liaison Committee chaired by the Secretary-General, and be consulted in a particular field by the relevant OECD Committee or its officers.

*Finance.* Funding is by contributions from member states.

*Official languages.* English and French.

*Secretary-General:* Donald J. Johnston (Canada).

*Headquarters:* 2, rue André Pascal, 75775 Paris Cedex 16, France.

## NORTH ATLANTIC TREATY ORGANIZATION (NATO)

On 4 April 1949 the foreign ministers of Belgium, Canada, Denmark, France, Iceland, Italy, Luxembourg, the Netherlands, Norway, Portugal, the UK and the USA signed the North Atlantic Treaty. In 1952 Greece and Turkey acceded to the Treaty, in 1955 the Federal Republic of Germany and in 1982 Spain, so bringing the total to 16 member nations.

The Atlantic Alliance was established as a defensive political and military alliance of independent countries in accordance with the terms of the UN Charter. It provides common security for its members through co-operation and consultation in political, military and economic as well as scientific and other non-military fields. The Alliance also links the security of North America to that of Europe. NATO is the organization which enables the goals of the Alliance to be implemented.

With the demise of the Warsaw Pact in 1991 and the end of the Cold War, the Atlantic Alliance has undertaken a fundamental transformation of its structures and policies, following the London (July 1990), Rome (Nov. 1991) and Brussels (Jan. 1994) Summits, to meet the new security challenges in Europe. An essential component of this transformation has been the establishment of close security links with the states of Central and Eastern Europe and those of the former USSR through the *North Atlantic Cooperation Council (NACC)* and, later, the *Partnership for Peace (PFP)*.

Other key changes and innovations undertaken since 1989 include the adoption of a new Strategic Concept; a reduced and more flexible force structure, development of increased co-ordination and co-operation with other international institutions, such as the UN, OSCE, WEU and EU; and agreement to make NATO's assets and experience available to support international peacekeeping operations. During 1992-95, NATO provided practical support for UN peacekeeping efforts in the former Yugoslavia. With the signing of the Bosnian peace agreement in Dec. 1995,

the Alliance began implementation of the military aspects of the accord, through the NATO-led multi-national Implementation Force.

*Partnership for Peace.* The 1994 Brussels Summit launched Partnership for Peace (PFP), which is open to NACC states and other OSCE countries able and willing to participate. PFP is expanding and intensifying political and military co-operation throughout Europe. Depending on the capacity and desire of each participating state, Partners work towards transparency in defence budgeting, democratic control of defence ministries, joint planning, joint military exercises, and creating an ability to operate with NATO forces in such fields as peacekeeping, search and rescue, and humanitarian operations. NATO will consult with any active Partner which perceives a direct threat to its territorial integrity, political independence, or security.

One of the most tangible aspects of PFP is the holding of joint peacekeeping exercises designed to improve practical military co-operation and common capabilities and help to develop inter-operability between the forces of NATO Allies and Partner countries. They also have an important political role. PFP exercises now take place on a regular basis in both NATO and Partner countries. A large number of nationally-sponsored exercises in the spirit of PFP are also taking place.

There are now 28 PFP Partners: Albania, Armenia, Austria, Azerbaijan, Belarus, Bulgaria, the Czech Republic, Estonia, Finland, Georgia, Hungary, Kazakhstan, Kyrgyzstan, Latvia, Lithuania, Macedonia, Malta, Moldova, Poland, Romania, Russia, Slovakia, Slovenia, Sweden, Switzerland, Turkmenistan, Ukraine and Uzbekistan. Many of these countries have accepted the Alliance's invitation to send liaison officers to permanent facilities at NATO Headquarters in Brussels and to the Partnership Co-ordination Cell in Mons (Belgium) where the Supreme Headquarters Allied Powers Europe (SHAPE) is also located.

The *North Atlantic Council (NAC)* is the highest decision-making body and forum for consultation within the Atlantic Alliance. It is composed of Permanent Representatives of all 16 member countries meeting together at least once a week. The NAC also meets at higher levels involving foreign ministers or heads of state or government, but it has the same authority and powers of decision-making, and its decisions have the same status and validity, at whatever level it meets. All decisions are taken on the basis of consensus, reflecting the collective will of all member governments. The NAC is the only body within the Atlantic Alliance which derives its authority explicitly from the North Atlantic Treaty. The NAC itself was given responsibility under the Treaty for setting up subsidiary bodies. Committees and planning groups have since been created to support the work of the NAC or to assume responsibility in specific fields such as defence planning, nuclear planning and military matters.

The *Defence Planning Committee* is composed of representatives of all member countries except France<sup>1</sup>. Like the Council, it meets both in permanent session at the level of Ambassadors and twice a year at Ministerial level. At Ministerial Meetings member nations are represented by Defence Ministers.

The Council and Defence Planning Committee are chaired by the Secretary General of NATO at whatever level they meet. Opening sessions of Ministerial Meetings of the Council are presided over by the President, an honorary position held annually by the Foreign Minister of one of the member nations.

Nuclear matters are discussed by the *Nuclear Planning Group* in which 15 countries participate. It meets regularly at the level of Permanent Representatives (ambassadors) and twice a year at the level of ministers of defence.

The Permanent Representatives of member countries are supported by the National Delegations located at NATO Headquarters. The Delegations are composed of advisors and officials qualified to represent their countries on the various committees created by the Council. The Committees are supported by the International Staff responsible to the Secretary General.

The *Military Committee* is responsible for making recommendations to the Council and the Defence Planning Committee on military matters and for supplying

guidance to the Allied Commanders. Composed of the Chiefs-of-Staff of member countries (Iceland, which has no military forces may be represented by a civilian), the Committee is assisted by an International Military Staff. It meets at Chiefs-of-Staff level at least twice a year but remains in permanent session at the level of national military representatives. The chairman of the Military Committee is elected by the Chiefs-of-Staff for a period of 2-3 years.

The area covered by the North Atlantic Treaty is divided into 2 commands: the European and the Atlantic.

The *Canada-US Regional Planning Group*, which covers the North American area, develops and recommends to the Military Committee plans for the defence of this area. It meets alternately in Washington and Ottawa.

*Enlargement.* As part of the process of promoting stability and security across the whole of Europe, the Alliance is also addressing the issue of its eventual enlargement to take in additional member states. In Dec. 1994, foreign ministers initiated an internal Alliance study to determine how NATO will enlarge, the principles to guide this process and the implications of membership. They stated that enlargement, when it takes place, will be part of a broad European security architecture based on true co-operation throughout the whole of Europe. It will threaten no one, and will enhance security and stability for all of Europe. This study was completed in Sept. 1995, after which interested Central and Eastern European Partner states were given briefings on the results of the study. NATO foreign ministers, meeting in Brussels in Dec. 1995, decided that the next phase of the enlargement process in 1996 would include: intensified, individual dialogue with interested Partners; further enhancement of the Partnership for Peace to help those interested Partners to prepare to assume the responsibilities of membership and to strengthen long-term partnership between NATO and other Partner countries; and further consideration of what NATO must do internally to ensure that enlargement preserves the effectiveness of the Alliance.

*Peacekeeping.* NATO's long-standing role in supporting the UN peacekeeping operations in Bosnia-Herzegovina contributed to bringing an end to hostilities there and to the eventual peace accord. Following the signing of the Bosnian Peace Agreement in Paris on 14 Dec. 1995, and on the basis of the UN Security Council's Resolution 1031, NATO commenced implementation of the military aspects of the Peace Agreement. The NATO-led multi-national force is called the Implementation Force (IFOR) and the operation which began on 16 Dec. is code-named 'Joint Endeavour'. IFOR is in Bosnia to help the parties implement a peace accord to which they have freely agreed, and is doing so in an even-handed way. IFOR is to help create a secure environment for civil and economic reconstruction. Its mission is of a limited duration of approximately 12 months. The NATO-led IFOR is the largest military operation undertaken by the Alliance, which has adapted its forces and policies to the requirements of the post-Cold War world while continuing to provide collective security and defence for all Allies. NATO's own military capabilities and its adaptability to include forces of non-NATO countries are decisive factors in the Alliance's role in implementing the Bosnian Peace Agreement.

In Jan. 1994 NATO heads of state and government welcomed the entry into force of the Maastricht Treaty, establishing the European Union. The Treaty included an arrangement on the development of a common foreign policy, which was intended to be a mechanism to strengthen the European pillar of Combined Joint Task Forces (CJTF) to strengthen the separable capabilities of NATO and WEU. At the meeting of NATO Foreign Ministers in Berlin in June 1996, agreement was reached on the implementation of the CJTF concept. The agreement will facilitate NATO's new missions in crisis management and peace support operations by providing the flexibility needed to deploy at short notice forces specifically tailored to a particular contingency. The agreement also enables CJTFs to be made available for operations undertaken by the WEU and represents a further step towards the emergence of a European Security and Defence identity within the Alliance. NATO-WEU meetings are convened to discuss means of strengthening practical co-operation between the two groupings.

## WESTERN EUROPEAN UNION

On 17 March 1948 a 50-year treaty 'for collaboration in economic, social and cultural matters and for collective self-defence' was signed in Brussels by the foreign ministers of the UK, France, the Netherlands, Belgium and Luxembourg. (See THE STATESMAN'S YEAR-BOOK, 1954, pp. 32 f.)

On 20 Dec. 1950 the functions of the Western Union defence organization were transferred to the North Atlantic Treaty command, but it was decided that the reorganization should not affect the right of the Western Union defence ministers and the chiefs of staff to meet to consider matters of mutual concern to the Brussels Treaty powers.

At a Conference of Ministers held in Paris from 20 to 23 Oct. 1954 these decisions were embodied in 4 Protocols modifying the Brussels Treaty: the Federal Republic of Germany and Italy were to accede to the Brussels Treaty; the occupation of West Germany was to be ended; West Germany was to be invited to accede to the North Atlantic Treaty; and other provisions concerning armaments control and the UK's military presence in Europe. These came into force on 6 May 1955.

At a meeting of the foreign and defence ministers of WEU members held in Rome on 26–27 Oct. 1984, the Council adopted the 'Rome Declaration' and a document on institutional reform. Member Governments support the reactivation of the Organization as a means of strengthening the European contribution to the North Atlantic Alliance and improving defence co-operation among the countries of Western Europe.

At a meeting on 27 Oct. 1987 WEU foreign and defence ministers adopted the 'Hague Platform on European Security Interests' defining the conditions and criteria for European security and the responsibilities of WEU members.

At a meeting in Bonn in June 1992 WEU foreign and defence ministers adopted the 'Petersberg Declaration', agreeing that the WEU should have a military capability in order to take part in peacekeeping and humanitarian operations at the request of other international organizations.

Since the 1984 reforms, the WEU *Council of Ministers* (foreign and defence) meets twice a year in the capital of the presiding country. The presidency rotates annually. The *Permanent Council* meets weekly at the seat of the Secretariat-General. The WEU *Assembly* in Paris comprises 108 parliamentarians of the member states and meets twice a year. A *WEU Institute for Security Studies* was set up in Paris in 1989.

Spain and Portugal became members in 1988 and Greece in 1995.

Members in Jan. 1997: Belgium, France, Germany, Greece, Italy, Luxembourg, the Netherlands, Portugal, Spain and the UK. Austria, Denmark, Ireland, Finland and Sweden are observers, Iceland, Norway and Turkey are associated members and Bulgaria, the Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Romania, Slovakia and Slovenia are associate partners.

## COUNCIL OF EUROPE

In 1948 the 'Congress of Europe', bringing together at The Hague nearly 1,000 influential Europeans from 26 countries, called for the creation of a united Europe, including a European Assembly. This proposal, examined first by the Ministerial Council of the Brussels Treaty Organization, then by a conference of ambassadors, was at the origin of the Council of Europe, which is, with its 40 member States, the widest organization bringing together all European democracies. The Statute of the Council was signed at London on 5 May 1949 and came into force 2 months later. The founder members were Belgium, Denmark, France, Ireland, Italy, Luxembourg, the Netherlands, Norway, Sweden and the UK. Turkey and Greece joined in 1949, Iceland in 1950, the Federal Republic of Germany in 1951 (having been an associate since 1950), Austria in 1956, Cyprus in 1961, Switzerland in 1963, Malta in 1965, Portugal in 1976, Spain in 1977, Liechtenstein in 1978, San Marino in 1988, Finland in 1989, Hungary in 1990, Czechoslovakia (after partitioning the Czech Republic and Slovakia rejoined in 1993) and Poland in 1991, Bulgaria in 1992, Estonia, Lithuania, Romania and Slovenia in 1993, Andorra in 1994, Albania, Latvia, Macedonia, Moldova and Ukraine in 1995 and Croatia and Russia in 1996.

Membership is limited to European states which 'accept the principles of the rule of law and of the enjoyment by all persons within [their] jurisdiction of human rights and fundamental freedoms'. The Statute provides for both withdrawal (Art. 7) and suspension (Arts. 8 and 9). Greece withdrew during 1969–74.

*Structure.* Under the Statute two organs were set up: An inter-governmental *Committee of [Foreign] Ministers* with powers of decision and of recommendation to governments, and an inter-parliamentary deliberative body, the *Parliamentary Assembly* (referred to in the Statute as the *Consultative Assembly*)—both of which are served by the Secretariat. In addition, a number of committees of experts have been established. On municipal matters the Committee of Ministers receives recommendations from the Congress of Local and Regional Authorities of Europe.

The Committee of Ministers meets usually twice a year, their deputies for several days each month.

The Parliamentary Assembly consists of 281 parliamentarians elected or appointed by their national parliaments (Albania 4, Austria 6, Belgium 7, Bulgaria 6, Cyprus 3, the Czech Republic 7, Denmark 5, Estonia 3, Finland 5, France 18, Germany 18, Greece 7, Hungary 7, Iceland 3, Ireland 4, Italy 18, Liechtenstein 2, Lithuania 4, Luxembourg 3, Macedonia 5, Malta 3, Moldova 5, Netherlands 7, Norway 5, Poland 12, Portugal 7, Romania 10, Russia 18, San Marino 2, Slovakia 5, Slovenia 3, Spain 12, Sweden 6, Switzerland 6, Turkey 12, Ukraine 12, UK 18). It meets 3 times a year for approximately a week. The work of the Assembly is prepared by parliamentary committees. Since June 1989 representatives of a number of central and East European countries have been permitted to attend as non-voting members ('special guests'), namely Armenia, Belarus and Bosnia-Herzegovina.

The *Joint Committee* acts as an organ of co-ordination and liaison between representatives of the Committee of Ministers and members of the Parliamentary Assembly and gives members an opportunity to exchange views on matters of important European interest.

The European Convention on Human Rights, signed in 1950, set up special machinery to guarantee internationally fundamental rights and freedoms. The *European Commission of Human Rights* investigates alleged violations of the Convention submitted to it either by States or, in most cases, by individuals. Its findings can then be examined by the *European Court on Human Rights* (set up in 1959),

whose obligatory jurisdiction has been recognized by 31 States, or by the Committee of Ministers, empowered to take binding decisions by two-thirds majority vote.

The Social Development Fund, formerly the Resettlement Fund was created in 1956. The main purpose of the Fund is to give financial aid, particularly in the spheres of housing, vocational training, regional planning and development. Since 1956 the Fund has granted loans totalling ecu 10,000m.

The European Youth Foundation provides money to subsidize activities by European youth organizations in their own countries.

*Aims and Achievements.* Art. 1 of the Statute states that the Council's aim is 'to achieve a greater unity between its members for the purpose of safeguarding and realising the ideals and principles which are their common heritage and facilitating their economic and social progress'; 'this aim shall be pursued. . . by discussion of questions of common concern and by agreements and common action'. The only limitation is provided by Art. 1 (d), which excludes 'matters relating to national defence'.

Although without legislative powers, the Assembly acts as the power-house of the Council, initiating European action in key areas by making recommendations to the Committee of Ministers. As the widest parliamentary forum in Western Europe, the Assembly also acts as the conscience of the area by voicing its opinions on important current issues. These are embodied in resolutions. The Ministers' rôle is to translate the Assembly's recommendations into action, particularly as regards lowering the barriers between the European countries, harmonizing their legislation or introducing where possible common European laws, abolishing discrimination on grounds of nationality and undertaking certain tasks on a joint European basis.

The main areas of the Council's activity are: Human rights, the media, social and socio-economic questions, education, culture and sport, youth, public health, heritage and environment, local and regional government, and legal co-operation.

159 Conventions and Agreements have been concluded covering such matters as social security, cultural affairs, conservation of European wild life and natural habitats, protection of archaeological heritage, extradition, medical treatment, equivalence of degrees and diplomas, the protection of television broadcasts, adoption of children and transportation of animals. Treaties in the legal field include the adoption of the European Convention on the Suppression of Terrorism, the European Convention on the Legal Status of Migrant Workers and the Transfer of Sentenced Persons. The Committee of Ministers adopted a European Convention for the protection of individuals with regard to the automatic processing of personal data (1981), a Convention on the compensation of victims of violent crimes (1983), a Convention on spectator violence and misbehaviour at sport events and in particular at football matches (1985), the European Charter of Local Government (1985), and a Convention for the Prevention of Torture and Inhuman or Degrading Treatment or Punishment (1987). The European Social Charter of 1961 sets out the social and economic rights which all member governments agree to guarantee to their citizens.

The official languages are English and French.

## EUROPEAN UNION (EU)

*Origins.* In May 1950 Belgium, France, the Federal Republic of Germany, Italy, Luxembourg and the Netherlands started negotiations with the aim of ensuring continual peace by a merging of their essential interests. The negotiations culminated in the signing in 1951 of the Treaty of Paris creating the European Coal and Steel Community (ECSC). 2 more communities with the aims of gradually integrating the economies of the 6 nations and of moving towards closer political unity, the European Economic Community (EEC) and the European Atomic Energy Community (EAEC or Euratom) were created on 25 March 1957 by the signing of the Treaties of Rome.

*Membership.* There were 15 member countries in 1997: Austria, Belgium, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Luxembourg, the Netherlands, Portugal, Spain, Sweden and the UK.

On 30 June 1970 membership negotiations began between the European Community (EC) and the UK, Denmark, Ireland and Norway. On 22 Jan. 1972 those 4 countries signed a Treaty of Accession, although this was rejected by Norway in a referendum in Nov. 1972. On 1 Jan. 1973 the UK, Denmark and Ireland became full members. Greece joined the Community on 1 Jan. 1981; Spain and Portugal on 1 Jan. 1986. In Dec. 1985 the Treaties were amended again by the Single European Act of Luxembourg. Further amendments were agreed at the Maastricht Summit of Dec. 1991, whereby moves to a common currency were agreed subject to specific conditions including an 'opt-out' clause for the UK, and the social dimension was recognized in a protocol not applicable to the UK allowing the other member states to use EC institutions for this purpose. Ratification by member states of the Maastricht Treaty, however, proved unexpectedly controversial (in June 1992 the Danish electorate in a referendum voted against ratifying it, but reversed this decision in a second referendum in May 1993), but was completed in 1993 (the UK ratifying on 2 Aug.), and the *European Union (EU)* came into being on 1 Nov. The EU exists alongside the EC and pertains to the foreign affairs and security, and judicial and police spheres. The EU gives EC citizens the right to vote and stand in local and European Parliament elections, and creates a *Committee of the Regions*.

The territory of the former German Democratic Republic entered into full membership on re-unification with Federal Germany in Oct. 1990. Following referendums in favour, Austria, Finland and Sweden became members of the EU on 1 Jan. 1995. At a referendum in Nov. 1994 Norway rejected membership. Turkey applied for membership in April 1987, Malta in July 1990 (although the Labour Party which came to power by a narrow majority in Oct. 1996 is pledged to withdraw the application), Cyprus in July 1991, Switzerland in May 1992 (though in a referendum of Dec. 1992 Switzerland rejected joining the European Economic Area), Poland in March 1994, Hungary in April 1994, Romania and Slovakia in June 1995, Latvia in Oct. 1995, Estonia in Nov. 1995, Lithuania in Dec. 1995, the Czech Republic in Jan. 1996 and Slovenia in June 1996. The Prince of Liechtenstein has presented his government with the task of making an application for membership. Associate membership agreements ('Europe Agreements') are operative with Bulgaria, the Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Romania, Slovakia and Slovenia.

Greenland exercised its autonomy under the Danish Crown to secede in 1985.

*Official Languages:* Danish, Dutch, English, Finnish, French, German, Greek, Italian, Portuguese, Spanish and Swedish.

*Organization.* The institutional arrangements of the EU provide for an independent executive with powers of proposal (the Commission), various consultative bodies, and a decision-making body drawn from the Governments (the Council). Until 1967 the ECSC, EEC and Euratom were distinct, though they shared some non-decision-making bodies. Then the executives were merged in the European Commission, and the decision-taking bodies in the Council. The institutions and organs of the Communities are:

The **European Commission** consists of 20 members appointed by the member states to serve for 5 years. The *President* of the Commission is selected by con-

The Commission acts independently of any country in the interests of the EU as a whole, with as its mandate the implementation and guardianship of the Treaties. In this it has the right of initiative (putting proposals to the Council of Ministers for action); and execution (once the Council has decided); and can take the other institutions or individual countries before the European Court of Justice should any of these renege upon its responsibilities. The Commission operates through 23 Directorates-General.

The **Council of Ministers** consists of foreign ministers from the 15 national governments and represents the national as opposed to the Community interests. It is the body which takes decisions under the Treaties. Numbers of votes: France, 10; Germany, 10; Italy, 10; UK, 10; Spain, 8; Belgium, 5; Greece, 5; the Netherlands, 5; Portugal, 5; Austria, 4; Sweden, 4; Denmark, 3; Finland, 3; Ireland, 3; Luxembourg, 2. Since the adoption of the Single European Act, an increasing number of its decisions are taken by majority vote, though some areas (e.g. taxation) are still reserved to unanimity. 27 votes are needed to veto a decision. Specialist Councils (e.g. the *Agriculture Council*) meet to discuss matters related to individual policies. The Single European Act also formalized the meetings of heads of state and government in the *European Council*, which normally meets twice a year; and of foreign ministers in *Political Co-operation*, to discuss co-operation outside the framework of the pre-Maastricht Treaties. The presidency of the Council is held for a 6-month term in the following order from the beginning of 1997: the Netherlands, Luxembourg, UK, Austria, Germany, Finland, Portugal, France, Sweden, Belgium.

*Address:* 170 rue de la Loi, B-1048, Brussels.

The **European Parliament** consists of 626 members, 567 elected for 5-year terms from 12 member states on 9 and 12 June 1994. All EU citizens may stand or vote in their adoptive country of residence. Germany returned 99 members, France, Italy and the UK 87 members each, Spain 64, the Netherlands 31, Belgium, Greece and Portugal 25 each, Denmark 16, Ireland 15 and Luxembourg 6. Seats allocated to

countries which joined in Jan. 1995, and where elections were held subsequently: Sweden, 22; Austria, 21; Finland, 16.

Political groupings: European Socialist Party, 217 seats; Popular European Party, 173; Union for Europe, 55; Liberal, Democratic and Reformist Group, 52; Unified European Left, 33; Greens, 27; Radical European Alliance, 20; Europe of Nations, 18. 31 members were unattached to any group. The Parliament has a right to be consulted on a wide range of legislative proposals, and forms one arm of the Community's Budgetary Authority. Since the Single European Act it has an increased role in legislation, through the 'concertation' procedure, under which it can reject certain Council drafts in a second reading procedure. With the ratification of the Maastricht Treaty it gained the right of 'co-decision' on legislation with the Council of Ministers on a restricted range of domestic matters.

The **Court of Auditors** was established by a Treaty of 22 July 1975 which took effect on 1 June 1977. It consists of 12 members and was raised to the status of a full EU institution by the 1993 Maastricht Treaty. It audits all income and current and past expenditure of the EU.

The **European Investment Bank (EIB)** was created in 1958 by the EEC Treaty to which its statute is annexed. Its governing body is the Board of Governors consisting of ministers designated by member states. Its main task is to contribute to the balanced development of the common market in the interest of the Community by financing projects: For developing less-developed regions; modernizing or converting undertakings; or developing new activities.

*President:* Wim Duisenberg (Netherlands).

*Address:* 29 Kaiserstrasse, 60311 Frankfurt-am-Main.

**Europol** was founded in 1994 to exchange criminal intelligence between EU countries. Its precursor was the European Drug Unit, whose field of operations was extended in 1994 to include traffic in nuclear and radio-active substances, illegal immigration and stolen vehicles. All EU states are represented by liaison officers (ELOs) working for their national police, gendarme or customs services.

The 1995 budget was ecu 4.5m. (1994, ecu 2.5m.). Member countries subscribe in proportion to their GNP.

*Co-ordinator:* Jürgen Storbeck (Germany).

**Law.** Provisions of the Treaties and secondary legislation may be either directly applicable in Member States or only applicable after Member States have enacted their own implementing legislation. Secondary legislation consists of: Regulations, which are of general application and binding in their entirety and directly applicable

in all member states; directives which are binding upon each Member State as to the result to be achieved within a given time, but leave the national authority the choice of form and method of achieving this result; decisions, which are binding in their entirety on their addressees. In addition the Council and Commission can issue recommendations and opinions, which have no binding force.

The Community's Legislative Process starts with a proposal from the Commission (either at the suggestion of its services or in pursuit of its declared political aims) to the Council. The Council generally seeks the views of the European Parliament on the proposal, and the Parliament adopts a formal Opinion, after consideration of the matter by its specialist Committees. The Council may also (and in some cases is obliged to) consult the Economic and Social Committee, which similarly delivers an opinion. When these opinions have been received, the Council will decide. Most decisions are taken on a majority basis, but will take account of reserves expressed by individual member states. The text eventually approved may differ substantially from the original Commission proposal.

The **Court of Justice of the European Communities** is composed of 13 judges and 6 advocates-general, is responsible for the adjudication of disputes arising out of the application of the treaties, and its findings are enforceable in all member countries. A Court of First Instance was created in 1989.

*President:* Gil Carlos Rodríguez Iglesias (Spain).

*Address:* Palais de la Cour de Justice, Kirchberg, Luxembourg.

The office of **EU Ombudsman** was inaugurated in 1995. The present incumbent is Jacob Söderman (Finland).

*Finances.* Revenue for financial years in ecu 1m.:

	1995	1996	1997
Own resources	68,603	72,160	81,754
Miscellaneous Community taxes, levies and dues	398	445	476
Administrative operation of the institutions	83	92	97
Contributions to EU programmes	189	9	16
Borrowing and lending	12	17	18
Miscellaneous	9	5	5
Total	75,077	81,943	82,366

Expenditure for 1995 was ecu 76,527m.

The resources of the Community (the levies and duties mentioned above, and up to a 1.4% VAT charge) have been surrendered to it by Treaty. The Budget is made by the Council and the Parliament acting jointly as the Budgetary Authority. The Parliament has control, within a certain margin, of non-obligatory expenditure (*i.e.*, expenditure where the amount to be spent is not set out in the legislation concerned), and can also reject the Budget. Otherwise, the Council decides.

An agreement of 1992 fixed the permissible ceiling of expenditure at 1.2% of EC GDP in 1993 and 1994, rising to 1.27% in 1999.

The *Schengen Accord* abolished border controls on persons and goods between those EU and non-EU states which have signed it. It came into effect on 26 March 1995. Signatories are Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain and Sweden.

**THE EUROPEAN COAL AND STEEL COMMUNITY.** The ECSC was the first of the 3 European Communities, coming into existence on 10 Aug. 1952 following the signature of the Treaty of Paris on 18 April 1951. Its aim was to contribute towards economic expansion, growth of employment and a rising standard of living in Member States, through common action in the coal and steel sector. Since 1957 it has had the same membership as the other Communities. Operations are partly funded by a turnover levy on the coal and steel industries of the EU, partly from the general budget. A *Consultative Committee* of 96 representatives of employers, trade unions, consumers etc. has an advisory role.

## THE EUROPEAN ECONOMIC COMMUNITY (EEC; 'COMMON MARKET')

Based on the Treaty of Rome of 25 March 1957 the EEC came into being on 1 Jan. 1958 with the same original members as the ECSC. The Treaty guarantees certain rights to the citizens of all member states (e.g., the outlawing of economic discrimination by nationality, and equal pay for equal work as between men and women) and sets out certain other areas where secondary legislation is to fill in the details. The most important policy areas are as follows:

*Freedom of movement for persons, goods and capital.* Under the Treaty individuals or companies from one Member State may establish themselves in another country (for the purposes of economic activity) or sell goods or services there on the same basis as nationals of that country. With a few exceptions, restrictions on the movement of capital have also been ended. Under the Single European Act the member states bound themselves to achieve the suppression of all barriers to free movement of persons, goods and services by 31 Dec. 1992.

*Customs Union and External Trade Relations.* Goods or Services originating in one Member State have free circulation within the EEC, which implies common arrangements for trade with the rest of the world. Member States can no longer make bilateral trade agreements with third countries: This power has been ceded to the Community. The Customs Union was achieved in July 1968.

In Oct. 1991 a treaty forming the European Economic Area (EEA) was approved by the member states of the EC and EFTA. (For details see EFTA). Association agreements which could lead to accession or customs union have been made with Cyprus, Estonia, Latvia, Lithuania, Israel, Malta, Morocco and Turkey. The customs union with Turkey came into force on 1 Jan. 1996. Commercial, industrial, technical and financial aid agreements have been made with Algeria, Egypt, Jordan, Lebanon, Morocco, Russia, Syria, Tunisia and the former Yugoslavia. In 1976 Canada signed a framework agreement for co-operation in industrial trade, science and natural resources, and a transatlantic pact was signed with the USA in Dec. 1995. Co-operation agreements also exist with a number of Latin American countries and groupings (e.g. the Andean Group) and with Arab and Asian countries; and an economic and commercial agreement has been signed with ASEAN. Partnership and co-operation agreements were signed with Ukraine in June 1994, Kazakhstan in Jan. 1995, Kyrgyzstan in Feb. 1995 and Uzbekistan in June 1996.

In the *Development Aid* sector, the EU has an agreement (the Lomé Convention, originally signed in 1975 but renewed and enlarged in 1979 and 1984) with some 60 African, Caribbean and Pacific (ACP) countries which removes customs duties without reciprocal arrangements for most of their imports to the Community, and under which ecu 8,760m. of aid was granted between 1986–90. An economic and commercial agreement has also been signed with ASEAN.

*The Common Agricultural Policy (CAP).* The objectives set out in the Treaty are to increase agricultural productivity, to ensure a fair standard of living for the agricultural community, to stabilise markets, to assure supplies, and to ensure reasonable consumer prices. In Dec. 1960 the Council laid down the fundamental principles on which the CAP is based: A single market, which calls for common prices, stable currency parities and the harmonising of health and veterinary legislation; Community preference, which protects the single Community market from imports; common financing, through the European Agricultural Guidance and Guarantee Fund (EAGGF), which seeks to improve agriculture through its Guidance section, and to stabilise markets against world price fluctuations through market intervention, with levies and refunds on exports. At present common market organizations cover over 95% of EEC agricultural production.

Following the disappearance of stable currency parities, artificial currency levels have been applied in the CAP. This factor, together with over-production due to high producer prices, meant that the CAP consumed about two-thirds of the Communities' budget. It was agreed in May 1992 to reform CAP and lessen over-production by reducing the price supports to farmers by 29% for cereals, 15% for beef and 5% for dairy products. Compensatory grants are available to farmers who remove land from production or take early retirement.

*The European Monetary System (EMS).* Founded in March 1979 to control inflation, protect European trade from international disturbances and ultimately promote convergence between the European economies. The *Exchange Rate Mechanism (ERM)* is run by the finance ministries and central banks of the EU countries on a day-to-day basis; monthly reviews are carried out by the EU Monetary Committee (finance ministries) and the EU Committee of Central Bankers. Greece and Sweden are not in the ERM, and the UK suspended its membership on 17 Sept. 1992. Members are obliged to restrict the fluctuations in the value of their currencies to a variation 'band', of 15% (2.25% for Germany and the Netherlands) higher or lower than a central rate established by comparing all the currencies in the ERM and the European Currency Unit, the ecu (XEU). If a currency reaches its top or bottom limits, central banks are obliged to buy or sell currency on the foreign exchanges. Further stabilization measures would involve adjustment of national interest rates, central bank borrowing from other central banks or withdrawal of reserves from the European Monetary Co-operation Fund. The adjustment of last resort is re- or devaluation.

In March 1995, £1 = ecu 0.80; US\$1 = ecu 1.29.

*European Monetary Union (EMU).* EMU currency is scheduled to come into use on 1 Jan. 2002 and will consist of the *euro* of 100 cents, with coins of 1, 2, 5, 10, 20 and 50 cents and 1 euro and notes of 5, 10, 20, 50, 100, 200 and 500 euros. From 1 July 2002 it will be the only legal currency in EMU countries. EU member countries not in EMU will select a central rate for their currency in consultation with members of the euro bloc and the European Central Bank. The rate is set according to an assessment of each country's chances of joining the euro zone.

An agreement on the legal status of the euro and currency discipline, the Stability and Growth Pact, was reached by all member states at the Dublin summit on 13 Dec. 1996, to be finalized as a legal text mid-1997. Financial penalties will be applied to member states running a GDP deficit (negative growth) of up to 0.75%. If GDP falls between 0.75% and 2%, EU finance ministers will have discretion as to whether to apply penalties. Members running an excessive deficit will be automatically exempt from penalties in the event of a natural disaster or if the fall in GDP is at least 2% over 1 year.

*Competition.* The Competition (anti-trust) law of the EU is based on 2 principles: That businesses should not seek to nullify the creation of the common market by the erection of artificial national (or other) barriers to the free movement of goods; and against the abuse of dominant positions in any market. These two principles have led among other things to the outlawing of prohibitions on exports to other Member States, of price-fixing agreements and of refusal to supply; and to the refusal by the Commission to allow mergers or take-overs by dominant undertakings in specific cases. Increasingly heavy fines are imposed on offenders.

## THE EUROPEAN ATOMIC ENERGY COMMUNITY (EURATOM)

Like the EEC, Euratom came into being on 1 Jan. 1958 following a Treaty signed in Rome on 25 March 1957, and it had the same member states as the EEC. Its task is to promote common efforts between its members in the development of nuclear energy for peaceful purposes, and for this purpose it has monopoly powers of acquisition of fissile materials for civil purposes. It is in no way concerned with military uses of nuclear power.

The execution of the Treaty now rests with the European Commission, which is advised by the Scientific and Technical Committee (28 members). Major decisions rest with the Council. Euratom has 1 substantial research institute of its own, at Ispra, in Italy; it does other work in co-operation with research institutes in the member states, or in joint and international undertakings.

A common market for nuclear materials and equipment came into force, and external tariffs were suspended, in Jan. 1959.

## EUROPEAN FREE TRADE ASSOCIATION (EFTA)

The Stockholm Convention establishing the Association entered into force on 3 May 1960. Founder members were Austria, Denmark, Norway, Portugal, Sweden, Switzerland and the UK. With the accession of Austria, Denmark, Finland, Portugal, Sweden and the UK to the EU, EFTA was reduced to 4 member countries by 1996: Iceland, Liechtenstein, Norway and Switzerland.

Free trade in industrial goods among members was achieved by 1966. Co-operation with the EU began in 1972 with the signing of free trade agreements and culminated in the establishment of a European Economic Area (EEA), encompassing the free movement of goods, services, capital and labour throughout EFTA and EU countries. The EEA Agreement was signed by all members of the EU and EFTA on 2 May 1992, but was rejected by Switzerland in a referendum on 6 Dec. 1992. Entry into force took place on 1 Jan. 1994.

Its main provisions are: Free movement of products within the EEA from 1993 (special arrangements to cover food, energy, coal and steel); EFTA to assume EU rules on company law, consumer protection, education, the environment, research

and development and social policy; EFTA to adopt EU competition rules on anti-trust matters, abuse of a dominant position, public procurement, mergers and state aid; EFTA to create an EFTA Surveillance Authority and an EFTA Court; individuals to be free to live, work and offer services throughout the EEA, with mutual recognition of professional qualifications; capital movements to be free with some restrictions on investments; EFTA countries to maintain their own domestic agricultural policies if they wish.

The EEA-EFTA states have established a *Surveillance Authority* and a *Court* to ensure implementation of the Agreement among the EFTA-EEA states. Political direction is given by the EEA Council which meets twice a year at ministerial level, while ongoing operation of the Agreement is overseen by the EEA Joint Committee. Legislative power remains with national governments and parliaments.

EFTA has formal relations with several other states. Declarations on co-operation were signed with Hungary, Czechoslovakia and Poland (June 1990), Bulgaria, Estonia, Latvia, Lithuania and Romania (Dec. 1991), Slovenia (May 1992), Albania (Dec. 1992), and Egypt, Morocco and Tunisia (Dec. 1995). Free trade agreements have followed with Czechoslovakia (March 1992 – with protocols on succession with the Czech Republic and Slovakia in April 1993), Poland and Romania (Dec. 1992), Bulgaria and Hungary (March 1993) and Slovenia (July 1995); free trade agreements with Turkey (Dec. 1991), Israel (Sept. 1992) and Estonia, Latvia and Lithuania (Dec. 1995) have also been signed, and contacts with the Gulf Co-operation Council established. Co-operation with Yugoslavia was suspended in Nov. 1991.

The operation of the free trade area among the EFTA states is the responsibility of the EFTA Council which meets regularly in Geneva at the level of ambassadors. The Council is assisted by a Secretariat and a number of standing committees. Each EFTA country holds the chairmanship of the Council for 6 months.

## ORGANIZATION FOR SECURITY AND CO-OPERATION IN EUROPE (OSCE)

Initiatives from both NATO and the Warsaw Pact culminated in the first summit Conference on Security and Co-operation in Europe (CSCE) attended by heads of state and government in Helsinki on 30 July–1 Aug. 1975, which adopted a 'Final Act' laying down 10 principles concerning human rights, self-determination and the inter-relationships of the participant states. Conferences followed in Belgrade (1977–78), Madrid (1980–83), Stockholm (1984–86) and Vienna (1986–89). At the Paris summit of 19–21 Nov. 1990 the members of NATO and the Warsaw Pact signed a Treaty on the Reduction of Conventional Forces in Europe (CFE) and a declaration that they were 'no longer adversaries' and did not intend to 'use force against the territorial integrity or political independence of any state'. All the 34 participants adopted the Confidence and Security-Building Measures (CSBMs), which pertained to the exchange of military information, verification of military installations, objection to unusual military activities etc., and signed the Charter of Paris.

On 1 Jan. 1995 the CSCE changed its name to the Organization for Security and Co-operation in Europe (OSCE).

*Members.* In 1996 the 54 member nations were: Albania, Armenia, Austria<sup>1</sup>, Azerbaijan, Belgium<sup>1</sup>, Belarus, Bosnia-Herzegovina, Bulgaria<sup>1</sup>, Canada<sup>1</sup>, Croatia, Cyprus<sup>1</sup>, the Czech Republic<sup>2</sup>, Denmark<sup>1</sup>, Estonia, Finland<sup>1</sup>, France<sup>1</sup>, Georgia, Germany<sup>1</sup>, Greece<sup>1</sup>, Hungary<sup>1</sup>, Iceland<sup>1</sup>, Ireland<sup>1</sup>, Italy<sup>1</sup>, Kazakhstan, Kyrgyzstan, Latvia, Liechtenstein<sup>1</sup>, Lithuania, Luxembourg<sup>1</sup>, Macedonia, Malta<sup>1</sup>, Moldova, Monaco<sup>1</sup>, Netherlands<sup>1</sup>, Norway<sup>1</sup>, Poland<sup>1</sup>, Portugal<sup>1</sup>, Romania<sup>1</sup>, Russia (succeeding USSR<sup>1</sup>), San Marino<sup>1</sup>, Slovakia<sup>2</sup>, Slovenia, Spain<sup>1</sup>, Sweden<sup>1</sup>, Switzerland<sup>1</sup>, Tajikistan, Turkey<sup>1</sup>, Turkmenistan, Ukraine, UK<sup>1</sup>, USA<sup>1</sup>, Uzbekistan, Vatican<sup>1</sup> and Yugoslavia<sup>1</sup>.

<sup>1</sup> Founder member.

<sup>2</sup> Founder member as part of the former Czechoslovakia.

The Charter sets out principles of human rights, democracy and the rule of law to which all the signatories undertake to adhere, lays down the bases for east-west co-operation and other future action, and institutionalizes the OSCE. The *Council of Foreign Ministers* is the highest decision-making body and meets at least once a year. The Council's agent is the *Committee of Senior Officials*. It meets 4 times a year at the *Secretariat* in Prague. There is also a *Conflict Prevention Centre* in Vienna and an *Office for Democratic Institutions and Human Rights* in Warsaw. The *Parliamentary Assembly* is formally independent, but maintains close links with the OSCE process. Meetings take place annually in OSCE capitals in rotation. It has a secretariat in Copenhagen. The *High Commissioner on National Minorities* has the duty of early and impartial evaluation of ethnic conflicts and recommendation of action. There is an office in The Hague.

In July 1992 the member nations unanimously agreed to set up an armed peacekeeping force.

The annual budget is US\$30.6m.

## EUROPEAN BANK FOR RECONSTRUCTION AND DEVELOPMENT (EBRD, BERD)

*History and Membership.* A treaty to establish the EBRD was signed May 1990; it was inaugurated on 15 April 1991. It had 41 original members: the European Commission, the European Investment Bank, all the EEC countries and all the countries of East Europe except Albania. Albania became a member in Oct. 1991, all the republics of the former USSR in March 1992 and Bosnia-Herzegovina in April 1996, bringing membership to 60 in 1997.

Its founding capital was of ecu 10,000m., of which the USA contributed 10%, the UK, France, Germany, Italy, Japan 8.5% each, and the USSR 6%. In 1996 its capital base was doubled to reach ecu 20,000m. by 2008. 77.5% of the extra ecu 10,000m. is in the form of 'callable shares'.

*Objectives.* It was set up to lend funds at market rates to Central and Eastern European companies and countries 'which are committed to, and applying, the principles of multi-party democracy and market economics'. Facilities were extended to the countries of the former USSR in 1992.

A policy statement of May 1991 placed initial emphasis on programmes to support the creation and strengthening of infrastructure; privatization, reform of the financial sector, including development of capital markets and privatization of commercial banks; development of productive competitive private sectors of small and medium-sized enterprises in industry, agriculture and services; restructuring industrial sectors to put them on a competitive basis; encouraging foreign investment and cleaning up the environment.

Under a phased programme, countries which certain development criteria graduate out of the Bank's sphere of operations. EBRD was operating in 26 countries in 1996, and by June 1996 had signed 317 projects totalling ecu 6,500m.

*Organization.* There is a Board of Governors with full management powers, and a 23-member Board of Directors which is involved in day-to-day operations.

Administration costs were frozen in 1993, and rose 3.5% in 1994.

*President:* Jacques de Larosière (b. 1930; France).

*General Secretary:* Bart le Blanc.

## COLOMBO PLAN

*History:* Founded in 1950 to promote the development of newly independent Asian member countries, the Colombo Plan has grown from a group of 7 Commonwealth nations into an international organization of 24 countries. Originally the Plan was conceived for a period of 6 years. This was renewed from time to time until the Consultative Committee gave the Plan an indefinite span of life in 1980; its need and relevance will henceforth be examined only if considered necessary.

The Plan is multilateral in approach but bilateral in operation: Multilateral in that it takes cognizance of the problems of development of member countries in the Asia and Pacific region and endeavours to deal with them in a co-ordinated way; bilateral because negotiations for assistance are made direct between a donor and a recipient country.

*Aims:* The aims of the Colombo Plan are: (a) to promote interest in and support for the economic and social development in Asia and the Pacific; (b) to keep under review economic and social progress in the region and help accelerate development through co-operative effort; and (c) to facilitate development assistance to and within the region.

*Member Countries:* Afghanistan, Australia, Bangladesh, Bhutan, Burma, Cambodia, Fiji, India, Indonesia, Iran, Japan, South Korea, Laos, Malaysia, Maldives, Nepal, New Zealand, Pakistan, Papua New Guinea, Philippines, Singapore, Sri Lanka, Thailand and USA.

*Structure:* There are four organs which give focus to the Plan:

*Consultative Committee:* The Committee is the highest deliberative body of the Plan and consists of Ministers of member Governments who meet once in two years. The Ministerial meeting is preceded by a meeting of senior officials who are directly concerned with the operation of the Plan in various countries.

*Colombo Plan Council:* The Council is also a deliberative body which meets several times a year in Colombo, where most member countries have resident diplomatic missions, to review the economic and social development of the Asia-Pacific region and promote co-operation among member countries.

*Colombo Plan Bureau:* Its functions include servicing the meetings of the Colombo Plan Council and the Consultative Committee, carrying out research, and dissemination of statistical and other information relating to activities under the Plan. Since 1973 the Bureau has been operating a Drug Advisory Programme to assist national and regional efforts to eliminate the causes and ameliorate the effects of drug abuse.

*Colombo Plan Staff College:* The Colombo Plan Staff College for Technician Education, established in 1975, transferred from Singapore to the Philippines in 1987. The College helps member countries in developing their systems of technician education, mainly through training courses, seminars and consultancies. It is separately financed by most Colombo Plan member countries and functions under the guidance of its own Governing Board consisting of the heads of member countries' diplomatic missions resident in the Philippines.

*Flag:* Dark blue with a central white disc containing the Colombo Plan logo in black.

*Headquarters:* Colombo Plan Bureau, 12 Melbourne Avenue, PO Box 596, Colombo 4, Sri Lanka.

## ASIA-PACIFIC ECONOMIC CO-OPERATION GROUP (APEC)

The APEC was founded in Nov. 1989 to devise programmes of co-operation between member nations and hold annual meetings of trade and foreign ministers. It was institutionalized in June 1992 after a meeting in Bangkok at which it was agreed to set up a *Secretariat* in Singapore. There are 19 member states: Australia, Brunei, Canada, Chile, China, Hong Kong, Indonesia, Japan, South Korea, Malaysia, Mexico, New Zealand, Papua New Guinea, Peru, the Philippines, Singapore, Taiwan, Thailand and the USA.

At the Bogor (Indonesia) summit of Nov. 1994 it was agreed to work towards the establishment of a free trade zone by 2020, and at the Manila summit of Nov. 1996 a plan of action (Manila Action Plan for APEC, MAPA) was adopted to this effect. It came into operation on 1 Jan. 1997.

*Executive Director:* Rusli Noor.

## ASSOCIATION OF SOUTH EAST ASIAN NATIONS (ASEAN)

*History and Membership.* ASEAN is a regional organization formed by the governments of Indonesia, Malaysia, the Philippines, Singapore and Thailand through the Bangkok Declaration which was signed by their foreign ministers on 8 Aug. 1967. Brunei joined in 1984 and Vietnam in 1995. Burma, Cambodia, Laos and Papua New Guinea have observer status.

*Objectives.* The main objectives are to accelerate economic growth, social progress and cultural development, to promote active collaboration and mutual assistance in matters of common interest, to ensure the stability of the South East Asian region and to maintain close co-operation with existing international and regional organizations with similar aims. Principal projects concern economic co-operation and development, with the intensification of intra-ASEAN trade and trade between the region and the rest of the world; joint research and technological programmes; co-operation in transportation and communications; promotion of tourism and South East Asian studies; including cultural, scientific, educational and administrative exchanges.

*Organs.* The highest authority in ASEAN are the Heads of Government of the Member Countries who meet as and when necessary to give directions to ASEAN. The highest policy-making body is the Meeting of Foreign Ministers, commonly known as the Annual Ministerial Meeting, which convenes in each of the ASEAN member countries on a rotational basis in alphabetical order. The Standing Committee, comprising the Foreign Minister of the country hosting the Ministerial Meeting in that particular year and the accredited ambassadors of the other member countries, carries out the work of the Association in between the Ministerial Meetings and handles the routine matters to ensure continuity and to make decisions based on the guidelines or policies set by the Ministerial Meetings and submit for the consideration of the Foreign Ministers all reports and recommendations of the various ASEAN committees. There are 5 economic committees under the ASEAN Economic Ministers and 5 non-economic committees that recommend and draw up programmes for ASEAN co-operation. These committees are responsible for the operation and implementation of ASEAN projects in their respective fields. Each

ASEAN capital has an ASEAN National Secretariat. The central secretariat for ASEAN is located in Jakarta, Indonesia, and is headed by the Secretary General, a post that revolves among the member states in alphabetical order every 3 years. Bureau directors and other officers of the ASEAN Secretariat remain in office for 3 years.

The *Asean Free Trade Area (AFTA)* was set up by all the member states in Oct. 1991 with the aim of creating a common market in 15 years, with a common tariff regime for manufactured and processed agricultural goods (Common Effective Preferential Tariff, CEPT) as a first step. In Oct. 1992 it was agreed that CEPT would be put into effect on 1 Jan. 1993 with progressive tariff reductions.

The *ASEAN Regional Forum* was founded at a meeting of ASEAN foreign ministers at Bangkok in July 1994 to discuss security issues. It comprised in 1997: The 7 ASEAN members, the 4 ASEAN observers, Australia, Canada, China, India, Japan, South Korea, New Zealand, Russia, the USA and the EU countries ('Dialogue Partners').

*Secretary-General:* Roderick Yong (Brunei Darussalam).

*Headquarters:* POB 2072, Jakarta, Indonesia.

## ORGANIZATION OF AMERICAN STATES (OAS)

On 14 April 1890 representatives of the American republics, meeting in Washington at the First International Conference of American States, established an 'International Union of American Republics' and, as its central office, a 'Commercial Bureau of American Republics', which later became the Pan American Union. This international organization's object was to foster mutual understanding and co-operation among the nations of the western hemisphere. Since that time, successive inter-American conferences have greatly broadened the scope of work of the organization.

This led to the adoption on 30 April 1948 by the Ninth International Conference of American States, at Bogotá, Colombia, of the Charter of the Organization of American States. This co-ordinated the work of all the former independent official entities in the inter-American system and defined their mutual relationships.

The Charter of 1948 subsequently was amended by the Protocol of Buenos Aires (1967) and the Protocol of Cartagena de Indias (1985). The purposes of the OAS are to strengthen the peace and security of the continent; promote and consolidate representative democracy, with due respect for the principle of non-intervention; prevent possible causes of difficulties and ensure the pacific settlement of disputes among member states; provide for common action in the event of aggression; seek the solution of political, juridical and economic problems; promote by co-operative action economic, social and cultural development; and achieve an effective limitation of conventional weapons in order to devote maximum resources to economic and social development. Within the framework of the UN, the OAS is a regional organization.

In Dec. 1992 the OAS General Assembly adopted the Protocol of Washington to amend the OAS Charter by incorporating certain provisions of a resolution (1080) on representative democracy adopted at the 21st Regular Session in 1991, and to deal with the issue of critical poverty. Specifically, the General Assembly approved a new article which provides that a member of OAS whose democratically-constituted government has been overthrown by force may be suspended from the exercise of the right to participate in the sessions of OAS organs, and spells out the way such suspension shall be applied. The Protocol of Washington also incorporates

among the essential purposes of the OAS the eradication of extreme poverty which constitutes an obstacle to the full democratic development of the peoples of the hemisphere.

In June 1993 the General Assembly adopted the Protocol of Managua which introduces additional Charter amendments. The current Inter-American Councils on Economic and Social Affairs and on Education, Science and Culture are to be replaced with a new Inter-American Council for Integral Development. Other measures are designed to improve the delivery of technical co-operation to the member states, in an effort to help eradicate extreme poverty from the hemisphere.

Both the Protocol of Washington and the Protocol of Managua will enter into force when ratified by two-thirds of the OAS member states.

Membership is on a basis of absolute equality. Each country has one vote and there is no veto power. Member countries (1996): Antigua and Barbuda, Argentina, Bahamas, Barbados, Belize, Bolivia, Brazil, Canada, Chile, Colombia, Costa Rica, Cuba (not present government), Dominica, Dominican Republic, Ecuador, El Salvador, Grenada, Guatemala, Guyana, Haiti, Honduras, Jamaica, Mexico, Nicaragua, Panama, Paraguay, Peru, St Kitts and Nevis, St Lucia, St Vincent and the Grenadines, Suriname, Trinidad and Tobago, USA, Uruguay, Venezuela.

With the emergence of democratically-elected governments throughout the continent, the OAS has been increasingly concerned with the preservation, protection and promotion of democracy. At its 21st Regular Session (Santiago, Chile, June 1991) the OAS General Assembly adopted *The Santiago Commitment to Democracy and the Renewal of the Inter-American System*, as well as a resolution (1080) on representative democracy. The latter calls for collective action in the event of a 'sudden or irregular interruption of the democratic political institutional process or of the legitimate exercise of power by the democratically-elected government in any of the Organization's member states'.

At its 20th Special Session (Feb. 1994, Mexico City) the OAS General Assembly approved 2 resolutions, one containing a *General Policy Framework and Priorities: Partnership for Development* and the second agreeing on a *Commitment on a Partnership for Development and Struggle to Overcome Extreme Poverty*. At its 24th Regular Session (June 1994, Belém do Pará) the General Assembly adopted the Declaration of Belém do Pará in which the Ministers of Foreign Affairs and Heads of Delegation of Member States, declared: Their commitment to strengthening the OAS as the main hemispheric forum of political consensus so that it may support the realization of the aspirations of member states in promoting and consolidating peace, democracy, social justice, and development, in accordance with the purposes and principles of the Charter; Their decision to promote and deepen co-operative relations in the economic, social, educational, cultural, scientific, technological, and political fields; Their commitment to continue and further the dialogue on hemispheric security in order to consolidate and strengthen mutual confidence; Their determination to continue to contribute to the objective of general and complete disarmament, under effective international control; Their determination to strengthen regional co-operation to increase the effectiveness of efforts to combat the illicit use of narcotic drugs and traffic therein; Their decision to co-operate in a reciprocal effort towards preventing and punishing terrorist acts, methods and practices, and the development of international law in this matter; and, Their commitment to promote economic and social development for the indigenous populations of their countries.

The OAS also carries out programmes to promote the economic and social development of its member states. Specialized training is provided for Latin American and Caribbean citizens each year in development-related fields, and development projects are executed each year in response to requests from member governments.

Under its Charter the OAS accomplishes its purposes by means of:

- (a) The *General Assembly*, which meets annually.
- (b) The *Meeting of Consultation of Ministers of Foreign Affairs*, held to consider problems of an urgent nature and of common interest.
- (c) The Councils: The *Permanent Council*, which meets on a permanent basis at OAS headquarters and carries out decisions of the General Assembly, assists the

member states in the peaceful settlement of disputes, acts as the Preparatory Committee of that Assembly, submits recommendations with regard to the functioning of the Organization, and considers the reports to the Assembly of the other organs; the *Inter-American Economic and Social Council* and the *Inter-American Council for Education, Science and Culture*, both of which promote and co-ordinate the Organization's activities in their respective spheres of competence and render the governments such specialized services as they may request. Each of the Councils is composed of a representative from each member state, appointed by the government of that state.

(d) The *Inter-American Juridical Committee* which acts as an advisory body to the OAS on juridical matters and promotes the development and codification of international law. Eleven jurists, elected for 4-year terms by the General Assembly, represent all the American States.

(e) The *Inter-American Commission on Human Rights* which oversees the observance and protection of human rights. 7 members elected for 4-year terms by the General Assembly represent all the OAS member states.

(f) The *General Secretariat*, which is the central and permanent organ of the OAS.

## LATIN AMERICAN ECONOMIC GROUPINGS

**Central American Common Market (CACM)**. In Dec. 1960 El Salvador, Guatemala, Honduras and Nicaragua concluded the General Treaty of Central American Economic Integration under the auspices of the Organization of Central American States (ODECA) in Managua. A protocol signed by all 6 members in Oct. 1993 reaffirmed an eventual commitment to regional integration with a common external tariff of 20%. It is to be introduced voluntarily and gradually. Members in 1995 were: Costa Rica, El Salvador, Guatemala, Honduras, Nicaragua and Panama.

*Headquarters:* 4a Avda 10-25, Zona 14, Apdo 1237, Guatemala City, Guatemala.

**The Andean Group.** On 26 May 1969 an agreement was signed by Bolivia, Chile, Colombia, Ecuador and Peru creating the Andean Group. Venezuela was initially actively involved but did not sign the agreement until 1973. Chile withdrew from the Group in 1977. Members: Bolivia, Colombia, Ecuador, Peru and Venezuela. The Act of Caracas signed at the Group's 5th meeting in May 1991 established a free trade zone between member states to come into effect on 1 Jan. 1992 as the first step towards the creation of a common market in 1995. There is a common external tariff in 4 bands from 5% to 20%. Tariffs between Bolivia, Colombia and Ecuador were abolished in Oct. 1992.

The Group's *Presidential Council* is composed of the presidents of the member states.

At the 8th summit meeting in Trujillo (Peru) in March 1996 the formation of the Andean Community (Andean Integration System, SAI) was announced. The existing administrative machinery is to be replaced by a Secretariat in Lima headed by a Secretary-General elected by the *Council of Foreign Ministers*.

*Headquarters:* Avda Paseo de la Republica 3895, Casilla 18-1177, Lima 27, Peru.

### **Mercado Común del Sur (Mercosur)**

Founded in March 1991 by the Treaty of Asunción between Argentina, Brazil, Paraguay and Uruguay the treaty committed the signatories to the progressive reduction of tariffs culminating in the formation of a common market of 1 Jan. 1995. This duly came into effect as a free trade zone affecting 90% of commodities. On 1 Oct. 1996 Chile, and on 1 Jan. 1997 Bolivia, became associate members, becoming part of the free trade zone, but continuing to act unilaterally in trade arrangements with third countries.

A common external tariff applies to trade with countries outside Mercosur. Details were agreed at foreign minister level by the Protocol of Ouro Preto signed on 17 Dec. 1994. The member states' foreign ministers form a council responsible for political questions, the chairmanship of which rotates every 6 months. The permanent executive body is the 'group' of member states, which takes decisions by consensus. There is an arbitration tribunal whose decisions are binding on member countries. There is a *Secretariat* in Montevideo.

**Group of Three.** In June 1994 the presidents of Colombia, Mexico and Venezuela signed a free trade pact which came into effect on 1 Jan. 1995. The pact aims gradually to eliminate tariff and most non-tariff barriers between the signatories, and establish a dispute resolution body.

## **CARIBBEAN COMMUNITY (CARICOM)**

*Establishment and Functions.* The Treaty establishing the Caribbean Community, including the Caribbean Common Market, and the Agreement establishing the Common External Tariff for the Caribbean Common Market, was signed by the Prime Ministers of Barbados, Guyana, Jamaica and Trinidad and Tobago at Chaguaramas, Trinidad, on 4 July 1973, and entered into force on 1 Aug. 1973. 6 further countries signed the Treaty of Chaguaramas on 17 April 1974: Belize, Dominica, Grenada, St Lucia, St Vincent and the Grenadines and Montserrat, and the Treaty came into effect for those countries on 1 May 1974. Antigua acceded to membership on 4 July and St Kitts-Nevis on 26 July 1974, Bahamas (not Common Market) on 4 July 1983 and Suriname on 4 July 1995.

The Caribbean Community has 3 areas of activity: (i) economic co-operation through the Caribbean Common Market; (ii) co-ordination of foreign policy; (iii) functional co-operation in areas such as health, education and culture, youth and sports, science and technology, and tax administration.

The Caribbean Common Market provides for the establishment of a Common External Tariff, a common protective policy and the progressive co-ordination of

external trade policies; the adoption of a scheme for the harmonization of fiscal incentives to industry; double taxation arrangements among member countries; the co-ordination of economic policies and development planning; and a special regime for the less developed countries of the community.

Some of the principal issues on the regional agenda include: Restructuring of regional institutions and organs; participation in the North American Free Trade Agreement (NAFTA) and analysis of its impact on existing arrangements; strengthening of relations with the wider Caribbean through existing organizations; and the deepening of the integration process within CARICOM through the formation of a Single Market.

In 1990 a target date of 1994 for the creation of a common market was agreed. A common tariff was applied by some members in 1991–92.

*Membership:* Antigua and Barbuda, Bahamas, Barbados, Belize, Dominica, Grenada, Guyana, Jamaica, Montserrat, St Kitts and Nevis, St Lucia, St Vincent and the Grenadines, Suriname and Trinidad and Tobago. The British Virgin Islands and Turks and Caicos Islands are associate members. The Dominican Republic and Haiti have observer status.

*Structure:* The *Conference of Heads of Government* is the principal organ of the Community, and its primary responsibility is to determine the policy of the Community. It is the final authority of the Community and the Common Market, and for the conclusion of treaties and relationships between the Community and international organizations and States. It is responsible for financial arrangements for meeting the expenses of the Community.

The *Common Market Council* is the second highest organ of the Community and consists of Ministers of Government designated by each member state. Decisions in both the Conference and the Council are in the main taken on the basis of unanimity.

The *Bureau of Heads of Government* was established on 1 Jan. 1993 with competence to initiate proposals, update consensus, mobilize action and secure the implementation of Community decisions. It comprises the current Chairman of the Conference of Heads of Government, rotating on a 6-monthly basis, and the outgoing and incoming Chairmen, as well as the Secretary-General as chief executive officer.

The *Secretariat*, successor to the Commonwealth Caribbean Regional Secretariat, is the principal administrative organ of the Community and of the Common Market. The Secretary-General is appointed by the Conference on the recommendation of the Council for a term not exceeding 5 years and may be reappointed. The Secretary-General shall act in that capacity in all meetings of the Conference, the Council, and of the institutions of the Community.

*Institutions* of the Community, established by the Heads of Government Conference, are: Conference of Ministers responsible for Health; Standing Committees of Ministers responsible for Education, Tourism, Labour, Foreign Affairs, Finance, Agriculture, Energy, Mines and Natural Resources, Industry, Science and Technology, Transport and Legal Affairs, respectively.

*Associate Institutions:* Caribbean Development Bank; Caribbean Examinations Council; Council of Legal Education; University of the West Indies; University of Guyana; Caribbean Meteorological Organization.

The inaugural meeting of the *Association of Caribbean Community Parliamentarians* (ACCP) took place in Barbados in May 1996. The ACCP arose out of a concept presented by the Prime Minister of Barbados at the 8th Conference of Heads of Government Meeting in 1987. It is a representative and deliberative institution which associates the people of the region through their chosen representatives with the promotion of regional development.

*Flag:* Divided horizontally light blue over dark blue; in the centre a white disc bearing the linked letters CC in light blue and dark blue respectively.

*Chairman:* Lester Bird (Antigua and Barbuda).

*Secretary-General:* Edwin Carrington.

*Headquarters:* Bank of Guyana Building, PO Box 10827, Georgetown, Guyana.

The language of the Community is English.

## THE LEAGUE OF ARAB STATES

*Origin.* An Arab conference met in Alexandria in the autumn of 1944; it formulated the 'Alexandria Protocol', which delineated the outlines of the Arab League. It was found that neither a unitary state nor a federation could be achieved, but only a league of sovereign states. A covenant, establishing such a league, was signed in Cairo on 22 March 1945 by the representatives of Egypt, Iraq, Saudi Arabia, Syria, Lebanon, Jordan and Yemen. There were (1995) 22 members of the League: Algeria, Bahrain, Comoros, Djibouti, Egypt, Iraq, Jordan, Kuwait, Lebanon, Libya, Mauritania, Morocco, Oman, Palestine, Qatar, Saudi Arabia, Somalia, Sudan, Syria, Tunisia, United Arab Emirates and Yemen.

*Organization.* The machinery of the League consists of a Council, a number of Special Committees and a Permanent Secretariat. On the Council each state has one vote. The Council may meet in any of the Arab capitals. Its functions include mediation in any dispute between any of the League states or a League state and a country outside the League. The Council has a Political Committee consisting of the Foreign Ministers of the Arab states. There are also 22 specialized agencies.

The Permanent Secretariat of the League, under a Secretary-General (who enjoys, along with his senior colleagues, full diplomatic status), has its seat in Cairo.

The League considers itself a regional organization within the framework of the United Nations at which its secretary-general is an observer.

*Secretary-General:* Esmat Abdel Meguid (Egypt; b. 1923; elected for a 5-year term May 1991).

*Flag:* Dark green with the seal of the Arab League in white in the centre.

*Arab Common Market.* The Arab Common Market came into operation on 1 Jan. 1965. The agreement, reached on 13 Aug. 1964 and open to all the Arab League

states, has been signed by Iraq, Jordan, Syria and Egypt. The agreement provides for the abolition of customs duties on agricultural products and natural resources within 5 years, by reducing tariffs at an annual rate of 20%. Customs duties on industrial products are to be reduced by 10% annually. The agreement also provides for the free movement of capital and labour between member countries, the establishment of common external tariffs, the co-ordination of economical development and the framing of a common foreign economic policy.

A later declaration enjoins members to combine efforts to protect their mutual sovereignty, independence and territorial integrity.

**Secretary-General:** Jamil al Houjailan (Saudi Arabia; appointed March 1996).

**Headquarters:** POB 7153, Riyadh 11462, Saudi Arabia.

In March 1991 the 6 member states together with Egypt and Syria established an armed regional peace-keeping force by the Damascus Declaration, which also envisaged political and economic co-operation. The Declaration was effectively superseded by the Security Pact signed on 13 Nov. 1995 by Bahrain, Oman, Saudi Arabia and UAE. A 6,000-strong Rapid Deployment Force is stationed in Saudi Arabia.

In April 1991 members created an aid fund to promote development in Arab countries which had helped liberate Kuwait in 1991.

## SOUTHERN AFRICAN DEVELOPMENT COMMUNITY (SADC)

The SADC was founded by treaty on 17 Aug. 1992 to develop the activities of the former Southern African Development Co-ordination Council, which had been set up in 1980 to combat the effects of sanctions against South Africa. The 10 founder member countries were Angola, Botswana, Lesotho, Malawi, Mozambique, Namibia, Swaziland, Tanzania, Zambia and Zimbabwe. South Africa joined in Aug. 1994 and Mauritius became the 12th member in Aug. 1995.

The aim of the SADC is to promote economic integration. The founding treaty imposes binding obligations on members, and provides for the establishment of an arbitration tribunal. At the Johannesburg summit in Aug. 1995 an agreement was reached committing members to the sharing of water resources. A treaty to eliminate internal trade barriers by 2000 is being drafted.

The *Frontline States Organisation* is the political and security arm of SADC, comprising all members except Malawi, Mauritius, Lesotho and Swaziland.

*Secretary:* Kaire Mbuende.

## DANUBE COMMISSION

The Danube Commission was constituted in 1949 based on the Convention regarding the regime of navigation on the Danube, which was signed in Belgrade on 18 Aug. 1948. The Belgrade Convention reaffirmed that navigation on the Danube from Ulm to the Black Sea, with access to the sea through the Sulina arm and the Sulina Canal, is equally free and open to the nationals, merchant shipping and merchandise of all states as to harbour and navigation fees as well as conditions of merchant navigation.

The Danube Commission is composed of representatives from the countries on the Danube (1 for each of these countries), namely, Austria, Bulgaria, Hungary, Romania, Russia, Slovakia, Ukraine and Yugoslavia. Croatia, Germany and Moldova have observer status.

The functions of the Danube Commission are to check that the provisions of the Convention are carried out, to establish a uniform buoying system on all the Danube's navigable waterways and to establish the basic regulations for navigation on the river. The Commission co-ordinates the regulations for river, customs and sanitation control as well as the hydrometeorological service and collects statistical data concerning navigation on the Danube.

The Danube Commission enjoys legal status. It has its own seal and flag. The members of the Commission and elected officers enjoy diplomatic immunity. The Commission's official buildings, archives and documents are inviolable. French and Russian are the official languages of the Commission.

## ANTARCTIC TREATY

Antarctica is an island continent some 15.5m. sq. km in area which lies almost entirely within the Antarctic Circle. Its surface is composed of an ice sheet over rock, and it is uninhabited except for research and other workers in the course of duty. It is in general ownerless; for countries with territorial claims, see ARGENTINA; AUSTRALIA: Australian Antarctic Territory; CHILE; FRANCE: French Southern and Antarctic Territories; NEW ZEALAND: Ross Dependency; NORWAY: Queen Maud Land; UNITED KINGDOM: British Antarctic Territory.

12 countries which had maintained research stations in Antarctica during International Geophysical Year, 1957–58, (Argentina, Australia, Belgium, Chile, France, Japan, New Zealand, Norway, South Africa, the USSR, the UK and the USA) signed the Antarctic Treaty (Washington Treaty) on 1 Dec. 1959. Austria, Brazil, Bulgaria, Canada, China, Colombia, Cuba, Czechoslovakia, Denmark, Ecuador, Finland, Germany, Greece, Hungary, India, Italy, South Korea, North Korea, the Netherlands, Papua New Guinea, Peru, Poland, Romania, Spain, Sweden, Switzerland and Uruguay have subsequently acceded to the Treaty. The Treaty reserves the Antarctic area south of 60° S. lat. for peaceful purposes, provides for international co-operation in scientific investigation and research, and preserves, for the duration of the Treaty, the *status quo* with regard to territorial sovereignty, rights and claims. The Treaty entered into force on 23 June 1961. The 39 nations party to the Treaty (26 full voting signatories and 13 adherents) meet biennially. Decisions taken by the signatories of the 1959 Washington Treaty must be unanimous.

An agreement reached in Madrid in April 1991 and signed by all 39 parties in Oct. imposes a ban on mineral exploitation in Antarctica for 50 years, at the end of which any one of the 26 voting parties may request a review conference. After this the ban may be lifted by agreement of three quarters of the nations then voting, which must include the present 26. The agreement demilitarizes the continent, establishes the right to scientific research for all countries and creates a procedure for monitoring the environment.

**KEY HISTORICAL EVENTS.** A military coup on 17 July 1973 led by Mohammad Daoud overthrew King Zahir Shah and set up a Republic. President Daoud was killed in a military coup in April 1978 which led to the establishment of a pro-Soviet government.

In Dec. 1979 Soviet troops invaded Afghanistan on the pretext of a 1978 Treaty of Friendship. Dr Sayid Mohammed Najibullah was elected President in Sept. 1987 by the Revolutionary Council. After talks in Nov.

1991 with Afghan opposition movements ('mujahideen') the Soviet government agreed to transfer its support from the Najibullah regime to an 'Islamic Interim Government'. As mujahideen insurgents closed in on Kabul President Najibullah stepped down on 16 April 1992. On 28 April an interim council received power from the outgoing government. Factional fighting between troops of the Minister of Defence, Ahmed Shah Massoud, and the Hezb-i-Islami, led by Gulbuddin Hekmatyar, continued until the signing of a peace agreement on 21 May providing for the withdrawal of armed forces from Kabul and the establishment of a neutral zone. On 11 Aug. 1992 fighting between government forces and the Hezb broke out again.

Late in 1994 a newly-formed militant Islamic movement, 'Taliban' (i.e. 'students of religion') took possession of Kandahar and routed Hekmatyar's Hezb-i-Islami at Kabul in Feb. 1995. They were in turn defeated by the troops of President Rabbani, who regained possession of Kabul by 11 March 1995, but had rallied by Sept. 1995 and captured Herat, carrying out air and rocket raids on Kabul in Nov. 1995. On 13 May 1996 Hekmatyar and President Rabbani formed an alliance against the Taliban.

On 26 Sept. 1996 Taliban forces captured Kabul and set up an interim government under Mohamed Rabbani. Former President Najibullah and his brother were hanged, and Afghanistan was declared a complete Islamic state under Sharia law.

Government forces which had retreated to the north of Kabul, in alliance with an Uzbek warlord, Abdul Rashid Dostam, and a pro-Iranian Sh'ite faction, Hezb-i-Wahdat, then counter-attacked.

A new Taliban offensive was launched on 27 Dec. 1996 which established a battle line some 50 km north of Kabul.

Peace talks held under UN auspices in Islamabad on 13-15 Jan. 1997 between the Taliban and their opponents broke down on the issue of demilitarizing Kabul.

**TERRITORY AND POPULATION.** Afghanistan is bounded in the north by Turkmenistan, Uzbekistan and Tajikistan, east by China, east and south by Pakistan and west by Iran.

The area is 251,773 sq. miles (652,090 sq. km). Population according to the last (1979) census was 15,551,358, of which some 2.5m. were nomadic tribes. Estimate (1994, excluding nomads) 20.5m. (21% urban). Population density, 25 per sq. km. In 1995 there remained 3.5m. refugees in Pakistan and Iran. Infant mortality, 1991, 296 per 1,000 live births; annual growth rate, 2.6%; expectation of life, 42.5 years in 1990.

The capital, Kabul, had an estimated population of 0.7m. in 1993. Other towns (with UN population estimates, 1988): Kandahar (225,500), Herat (177,300), Mazar i Sharif, (130,600), Jalalabad (55,000).

Main ethnic groups: Pashtun, 62%; Tajiks, 20%; Uzbeks, 9%; Hazaras, 9%. The official languages are Pashto and Dari.

**CLIMATE.** The climate is arid, with a big annual range of temperature and very little rain, apart from the period Jan. to April. Winters are very cold, with considerable snowfall, which may last the year round on mountain summits. Kabul. Jan. 27°F (-2.8°C), July 76°F (24.4°C). Annual rainfall 13" (338 mm).

**CONSTITUTION AND GOVERNMENT.** After the departure of President Najibullah power was exercised by a 10-member Ruling Council chaired by Burhanuddin Rabbani who became interim President of the Republic on 28 June 1992. In Dec. 1992 a Grand Council of 1,335 national delegates convened and re-elected Burhanuddin Rabbani President. The Grand Council was wound up after 205 of its members had been designated a constituent assembly. President Rabbani's mandate expired in June 1994 but he remained in office.

## DEFENCE

**Army.** Army organization disintegrated into factional groups after the deposition of President Najibullah in April 1992. Equipment included 1,200 T-54/-55/-62 main battle tanks. Strength was (1993) about 40,000, mainly conscripts, but most units of the Army are well below strength, largely as a result of desertions.

**Air Force.** Prior to the overthrow of the regime of President Najibullah in 1992 the Air Force had about 180 combat aircraft and 5,000 officers and men. Since then, the service has also been broken into various factions and few combat aircraft remain airworthy; the helicopters and transport aircraft fleet are also largely grounded.

**KEY HISTORICAL EVENTS.** Angola was a Portuguese colony until 11 June 1951, when it became an Overseas Province of Portugal. On 11 Nov. 1975 Angola became fully independent as the People's Republic of Angola. The People's Liberation Movement of Angola (MPLA) and the National Union for the Total Independence of Angola (UNITA) committed themselves to putting their rival claims to power to a popular vote, but the agreement broke down in battles which left MPLA in control of the government and

UNITA banished to the countryside. A peace agreement between the government and UNITA was signed on 31 May 1991. The agreement provided for a political-military mission backed by US, Soviet and Portuguese experts to supervise the ceasefire under UN monitoring. In Sept. 1992 José Eduardo dos Santos was re-elected President against the UNITA leader Jonas Savimbi, but the latter refused to accept the result, and fighting broke out again. On 15 Sept. 1993 the UN Security Council unanimously voted not to supply UNITA with war materiel. On 20 Nov. 1994 an agreement was signed in Lusaka between President Dos Santos and a representative of UNITA, but in the absence of Jonas Savimbi. The agreement envisages a ceasefire, the integration of UNITA's forces into the Angolan military, the formation of a coalition government and the holding of fresh elections. On 8 Feb. 1995 the UN Security Council unanimously resolved to send to Angola a force of 7,000 military and 1,000 civilian personnel.

On 15 April 1995 the government, UNITA and the UN Mission for Angola (UNAVEM II) signed an agreement for the installation of UN military observers. On 6 May 1995 Dos Santos and Savimbi met and agreed to apply the agreement of 20 Nov. 1994. However, on 4 Dec. 1995 UNITA declared it would no longer participate in the disarmament of its forces under the Lusaka agreement because of an offensive by government troops. In April 1996 the government suspended its participation in the joint commission applying the peace agreement on the grounds that UNITA had since Nov. 1995 sent only 23,000 troops for disarmament out of 63,000.

**KEY HISTORICAL EVENTS.** On 29 Nov. 1920 Armenia was proclaimed a Soviet Socialist Republic. The Soviet-Turkish Treaty of Kars (March 1921), confirmed the Turkish possession of the former Government of Kars and of the Surmali District of the Government of Yerevan. From 1922 to 1936, Armenia formed part of the Transcaucasian Soviet Federal Socialist Republic. In 1936 it was proclaimed a constituent republic of the USSR. In Dec. 1991 it became a member of the CIS.

**TERRITORY AND POPULATION.** Armenia covers an area of 29,800 sq. km (11,490 sq. miles). It is bounded in the north by Georgia, in the east by Azerbaijan and in the south and west by Turkey and Iran. The head of state is the *President*, directly elected for 5-year terms. Parliament is a 190-member *National Assembly*, of which 150 members are directly elected on a first-past-the-post system, and 40 by proportional representation, distributed among those parties gaining more than 5% of votes cast. The government is nominated by the President.

Presidential elections were held on 22 Sept. 1996. There were 4 candidates. President Ter-Petrosyan was re-elected by 51.75% of the 2,210,189 votes cast. OSCE observers noted 'very serious irregularities' in the conduct of the elections.

**KEY HISTORICAL EVENTS.** On 1 Jan. 1901 the former British colonies of New South Wales, Victoria, Queensland, South Australia, Western Australia and Tasmania were federated under the name of the 'Commonwealth of Australia', the designation of 'colonies' being at the same time changed into that of 'states', except in the case of Northern Territory, which was transferred from South Australia to the Commonwealth as a 'territory' on 1 Jan. 1911.

In 1911 the Commonwealth acquired from New South Wales the Canberra site for the Australian federal capital.

**TERRITORY AND POPULATION.** Australia, excluding external territories, covers a land area of 7,682,300 sq. km, extending from Cape York (10° 41' S) in the north some 3,680 km to Tasmania (43° 39' S), and from Cape Byron (153° 39' E) in the east some 4,000 km west to Western Australia (113° 9' E). Aboriginals have been included in population statistics only since 1967. At the 1991 census they numbered 257,333. A 1992 High Court ruling that the Meriam people of the Murray Islands had land rights before the European settlement reversed the previous assumption that Australia was *terra nullius* before that settlement. The Native Title Act setting up a system for deciding land claims by Aborigines came into effect on 1 Jan. 1994.

**CLIMATE.** Over most of the continent, four seasons may be recognised. Spring is from Sept. to Nov., Summer from Dec. to Feb., Autumn from March to May and Winter from June to Aug., but because of its great size there are climates that range from tropical monsoon to cool temperate, with large areas of desert as well. In Northern Australia there are only two seasons, the wet one lasting from Nov. to March, but rainfall amounts diminish markedly from the coast to the interior. Central and southern Queensland are subtropical, north and central New South Wales are warm temperate, as are parts of Victoria, Western Australia and Tasmania, where most rain falls in winter. Canberra. Jan. 68°F (20°C), July 42°F (5.6°C). Annual rainfall 23" (629 mm). Adelaide. Jan. 73°F (22.8°C), July 52°F (11.1°C). Annual rainfall 21" (528 mm). Brisbane. **CONSTITUTION AND GOVERNMENT.** *Federal Government:* Under the Constitution legislative power is vested in a Federal Parliament, consisting of the

Queen, represented by a Governor-General, a Senate and a House of Representatives. Under the terms of the constitution there must be a session of parliament at least once a year.

The *Senate* comprises 76 Senators (12 for each State voting as one electorate and as from Aug. 1974, 2 Senators respectively for the Australian Capital Territory and the Northern Territory). Senators representing the States are chosen for 6 years. The terms of Senators representing the Territories expire at the close of the day next preceding the polling day for the general elections of the House of Representatives. In general, the Senate is renewed to the extent of one-half every 3 years, but in case of disagreement with the House of Representatives, it, together with the House of Representatives, may be dissolved, and an entirely new Senate elected. The *House of Representatives* consists, as nearly as practicable, of twice as many Members as there are Senators, the numbers chosen in the several States being in proportion to population as shown by the latest statistics, but not less than 5 for any original State. Elections to the Senate are on the single transferable vote system; voters list candidates in order of preference. A candidate must reach a quota to be elected, otherwise the lowest-placed candidate drops out and his or her votes are transferred to other candidates. Elections to the House of Representatives are on the alternative vote system; voters list candidates in order of preference, and if no one candidate wins an overall majority, the lowest-placed drops out and his or her votes are transferred. The Northern Territory has been represented by 1 Member in the House of Representatives since 1922, and the Australian Capital Territory by 1 Member since 1949 and 2 Members since May 1974. The Member for the Australian Capital Territory was given full voting rights as from the Parliament elected in Nov. 1966. The Member for the Northern Territory was given full voting rights in 1968. The House of Representatives continues for 3 years from the date of its first meeting, unless sooner dissolved.

Every Senator or Member of the House of Representatives must be a subject of the Queen, be of full age, possess electoral qualifications and have resided for 3 years within Australia. The franchise for both Houses is the same and is based on universal (males and females aged 18 years) suffrage. Compulsory voting was introduced in 1925. If a Member of a State Parliament wishes to be a candidate in a federal election, he must first resign his State seat.

Executive power is vested in the *Governor-General* advised by an Executive Council. The Governor-General presides over the Council, and its members hold office at his pleasure. All Ministers of State, who are members of the party or parties commanding a majority in the lower House, are members of the Executive Council under summons. A record of proceedings of meetings is kept by the Secretary to the Council. At Executive Council meetings the decisions of the Cabinet are (where necessary) given legal form, appointments made, resignations accepted, proclamations, regulations and the like made.

The policy of a ministry is, in practice, determined by the Ministers of State meeting without the Governor-General under the chairmanship of the Prime Minister. This group is known as the *Cabinet*. There are 11 Standing Committees of the Cabinet comprising varying numbers of Cabinet and non-Cabinet Ministers. In Labour Governments all Ministers have been members of Cabinet. In Liberal and National Country Party Governments, only the senior ministers. Cabinet meetings are private and deliberative and records of meetings are not made public. The Cabinet does not form part of the legal mechanisms of Government; the decisions it takes have, in themselves, no legal effect. The Cabinet substantially controls, in ordinary circumstances, not only the general legislative programme of Parliament but the whole course of Parliamentary proceedings. In effect, though not in form, the Cabinet, by reason of the fact that all Ministers are members of the Executive Council, is also the dominant element in the executive government of the country.

The legislative powers of the Federal Parliament embrace trade and commerce, shipping, etc.; taxation, finance, banking, currency, bills of exchange, bankruptcy, insurance; defence; external affairs, naturalization and aliens, quarantine, immigration and emigration; the people of any race for whom it is deemed necessary to make special laws; postal, telegraph and like services; census and statistics; weights

and measures; astronomical and meteorological observations; copyrights; railways; conciliation and arbitration in disputes extending beyond the limits of any one State; social services; marriage, divorce etc.; service and execution of the civil and criminal process; recognition of the laws, Acts and records, and judicial proceedings of the States. The Senate may not originate or amend money bills; and disagreement with the House of Representatives may result in dissolution and, in the last resort, a joint sitting of the two Houses. No religion may be established by the Commonwealth. The Federal Parliament has limited and enumerated powers, the several State parliaments retaining the residuary power of government over their respective territories. If a State law is inconsistent with a Commonwealth law, the latter prevails.

The Constitution also provides for the admission or creation of new States. Proposed laws for the alteration of the Constitution must be submitted to the electors, and they can be enacted only if approved by a majority of the States and by a majority of all the electors voting.

The Australia Acts 1986 removed residual powers of the British government to intervene in the government of Australia or the individual states.

The 38th Parliament was elected on 21 March 1996.

*State Government*: In each of the 6 States (New South Wales, Victoria, Queensland, South Australia, Western Australia, Tasmania) there is a State government whose

constitution, powers and laws continue, subject to changes embodied in the Australian Constitution and subsequent alterations and agreements, as they were before federation. The system of government is basically the same as that described above for the Commonwealth—*i.e.*, the Sovereign, her representative (in this case a Governor), an upper and lower house of Parliament (except in Queensland, where the upper house was abolished in 1922), a cabinet led by the Premier and an Executive Council. Among the more important functions of the State governments are those relating to education, health, hospitals and charities, law, order and public safety, business undertakings such as railways and tramways, and public utilities such as water supply and sewerage. In the domains of education, hospitals, justice, the police, penal establishments, and railway and tramway operation, State government activity predominates. Care of the public health and recreative activities are shared with local government authorities and the Federal Government, social services other than those referred to above are now primarily the concern of the Federal Government, and the operation of public utilities is shared with local and semi-government authorities.

*Administration of Territories.* Since 1911, responsibility for administration and development of the Australian Capital Territory (ACT) has been vested in Federal Ministers and Departments. The ACT became self-governing on 11 May 1989.

The ACT House of Assembly has been accorded the forms of a legislature, but continues to perform an advisory function for the Minister for the Capital Territory.

On 1 July 1978 the Northern Territory of Australia became a self-governing Territory with expenditure responsibilities and revenue-raising powers broadly approximating those of a State.

*Local Government.* The system of municipal government is broadly the same throughout Australia, although local government legislation is a State matter.

Each State is sub-divided into areas known variously as municipalities, cities, boroughs, towns, shires or district councils, totalling about 900. Within these areas the management of road, street and bridge construction, health, sanitary and garbage services, water supply and sewerage, and electric light and gas undertakings, hospitals, fire brigades, tramways and omnibus services and harbours is generally part of the functions of elected aldermen and councillors. State governments may also be responsible for some services.

In some instances, *e.g.*, in New South Wales, a number of local government authorities combine to conduct a public undertaking such as the supply of water or electricity. State taxation revenue was \$A26,757m. in 1993–94; local, \$A5,266m.

## INTERNATIONAL RELATIONS

**Membership.** Australia is a member of the UN, the Commonwealth, OECD, Colombo Plan, the South Pacific Forum and the South Pacific Bureau for Economic Co-operation.

## ECONOMY

**Policy.** Since 1942 the Federal Government alone has levied taxes on incomes. In return for vacating this field of taxation, the State Governments are reimbursed by grants from the Federal Government out of revenue received. Payments to the States represent about one-third of Federal Government outlays, and in turn the payments State Governments receive from the Federal Government account for nearly half of their revenues.

The Financial Agreement of 1927 established the Australian Loan Council which represents the Federal and six State Governments, and co-ordinates domestic and overseas borrowings by these governments, including annual borrowing programmes. The Federal Government acts as a central borrowing agency in raising loans to finance the major part of those programmes. The Loan Council in 1984 agreed upon arrangements for the co-ordination of borrowings by semi-government and local authorities and government-owned companies.

Reforms were initiated at a special Premiers' Conference in Oct. 1990 to form a partnership between the Commonwealth, States, Territories and local government with a view to improving national efficiency, international competitiveness and enhancing delivery and quality of government services. In July 1991 the premiers agreed a programme of inter-state standardization and integration in such areas as the railway system, electricity grid, product control and professional qualifications.

**Performance.** GDP at factor cost (at current prices) was \$A412,314m. in 1995 (\$A389,371 in 1994). Real GDP growth year-on-year was 3.8% in Sept. 1996.

**Budget.** In 1929, under a financial agreement between the Federal Government and States, approved by a referendum, the Federal Government took over all State debts existing on 30 June 1927 and agreed to pay \$A15.17m. a year for 58 years towards the interest charges thereon, and to make substantial contributions towards a sinking fund on State debt. The Sinking Fund arrangements were revised under an amendment to the agreement in 1976.

Seven shares are held by the Australian Government and the major trading banks while the eighth share is held equally by the 4 State banks. The main objective of the bank is to facilitate the provision of loans to primary producers on longer terms than are otherwise generally available. The role of the bank is restricted to re-financing loans made by banks and other financial institutions.

In March 1994 1,588,500 wage and salary earners worked in the public sector and 4,160,200 in the private sector.

The following table shows the distribution of employed persons in 1994 according to the *Australian Standard Classification of Occupations*:

Labourers and related workers	1,222.5	(439.2)
	8,230.8	(3,557.7)

In June 1996, 766,700 persons (8.5% of the labour force) were unemployed, (including 311,400 females) of whom 380,300 persons were seeking full-time work. In June 1995, 243,100 persons had been unemployed for more than one year. In Aug. 1996 there were 63,500 job vacancies. 773,659 unemployment beneficiaries received a total of \$A7,061m. in the year to June 1996; 46,050 sickness beneficiaries received a total of \$A413.2m. in the year to June 1996 and 39,026 mature age allowance beneficiaries received a total of \$A356.6m. in the year ended June 1995.

**Trade Unions.** In June 1994 there were 157 trade unions with 2,890,200 members (1,135,600 females). About 44% of wage and salary earners (36% females) were estimated to be members of unions. In 1994 there were 26 unions with fewer than 100 members and 13 unions with 80,000 or more members. Many of the larger trade unions are affiliated with central labour organizations, the oldest and by far the largest being the Australian Council of Trade Unions formed in 1927. In July 1992 the Industrial Relations Legislation Amendment Act freed the way for employers and employees to negotiate enterprise-based awards and agreements. In 1995 wage accord trade unions committed themselves to the objective of keeping inflation at 2-3%, and the government agreed to create 0.6m. jobs by 1999 and raised the 'safety net' wage rates to a weekly \$A12-14.

**FOREIGN ECONOMIC RELATIONS.** In 1990 Australia and New Zealand completed a Closer Economic Relations agreement (initiated in 1983) which establishes free trade in goods. Gross foreign debt was \$A235,482m. as at 30 June 1996.

**Commerce.** Merchandise imports and exports for years ending 30 June, in \$A1m.:

<sup>1</sup> The Australian National Railways operates services of the former Commonwealth Railways, the non-metropolitan South Australian Railways and the Tasmanian Railways.

<sup>2</sup> Excludes Adelaide metropolitan rail passenger services and the Tasmanian Region.

<sup>3</sup> The South Australian State Transport Authority operates services in the Adelaide metropolitan area.

<sup>4</sup> Inter-system traffic is included in the total for each system over which it passes.

The State railway gauges are: New South Wales, 1,435 mm; Victoria, 1,600 mm (325 km 1,435 mm); Queensland, 1,067 mm (111 km 1,435 mm); South Australia, 1,600 mm for 2,533 km, 1,824 km 1,435 mm and the rest 1,067 mm; West Australia, 137 km, 1,435 mm and the rest 1,067 mm, and Tasmania, 1,067 mm. Australian National Railways comprises 3,530 km of 1,435 mm ('standard') gauge, 1,173 km of 1,600 mm ('broad') gauge and 1,532 km of 1,067 mm ('narrow') gauge routes. Under various Commonwealth-State standardization agreements, all the State capitals are now linked by standard gauge track (except Darwin; the Central Australia railway extends only as far north as Alice Springs).

The National Rail Corporation operating as 'National Rail' was incorporated in Sept. 1991; terminal operations commenced in 1993. It is scheduled to take over inter-state rail freight operations and the ownership of rail assets.

There are also private industrial and tourist railways, and tramways in Adelaide, Melbourne and Sydney.

**Civil Aviation.** Qantas Airways, Australia's international airline, in 1995 operated 4 A300B4-200s, 16 B-737-300s, 17 B-737-400s, 3 B-747-200Bs, 2 B-747-200B Combis, 6 B-747-300s, 18 B-747-400s, 7 B-767-200ERs and 14 B-767-300ERs. In 1993-94 10.6m. passengers and 475,962 tonnes of freight were flown on international flights. Revenue was \$A2,568.4m. in 1993–94, expenditure \$A2,228.4m. There were 3,992 post offices and other agencies in 1994. 4,325m. postal items were handled.

Internal telecommunications were operated by Telecom Australia, while services to other countries were operated by the Overseas Telecommunications Corporation. In 1991 these merged to form Telstra, a general carrier providing both domestic and international services in competition with other licensed general carriers. Telstra was scheduled for privatization in 1997. In 1997 commercial providers comprised a general carrier, a fibre-optic local telephone network and a mobile telephone network.

3 telecommunications satellites are in orbit covering the entire continent.

Broadcasting is regulated by the Australian Broadcasting Authority, established in 1992 under the Broadcasting Services Act 1992. Foreign ownership of commercial radio and TV companies is restricted to 20%. The national broadcasting service is provided by the Australian Broadcasting Corporation (ABC), an independent statutory corporation receiving 85% of its funding from sales and other revenues, and the Special Broadcasting Service. The latter's function is to provide multi-lingual radio and TV services for all Australians, reflecting a multicultural society. There are also commercial radio and TV services operated by companies under licence, subscription TV services, public radio services operated on a non-profit basis and a parliamentary radio service to state capitals, Canberra and Newcastle. The short-wave international service Radio Australia broadcasts in English, Bahasa Malay, Cantonese, Chinese, French, Khmer, Thai, Tok Pisin and Vietnamese. ## SOCIAL INSTITUTIONS

**Justice.** The judicial power of the Commonwealth of Australia is vested in the High Court of Australia (the Federal Supreme Court), in the Federal courts created by the Federal Parliament (the Federal Court of Australia and the Family Court of Australia) and in the State courts invested by Parliament with Federal jurisdiction.

**High Court.** The High Court consists of a Chief Justice and 6 other Justices, appointed by the Governor-General in Council. The Constitution confers on the High Court original jurisdiction, *inter alia*, in all matters arising under treaties or affecting consuls or other foreign representatives, matters between the States of the Commonwealth, matters to which the Commonwealth is a party and matters between residents of different States. Federal Parliament may make laws conferring original jurisdiction on the High Court, *inter alia*, in matters arising under the Constitution or under any laws made by the Parliament. It has in fact conferred jurisdiction on the High Court in matters arising under the Constitution and in matters arising under certain laws made by Parliament.

The High Court may hear and determine appeals from its own Justices exercising original jurisdiction, from any other Federal Court, from a Court exercising Federal jurisdiction and from the Supreme Courts of the States. It also has jurisdiction to hear and determine appeals from the Supreme Courts of the Territories. The right of appeal from the High Court to the Privy Council in London was abolished in 1986.

**Other Federal Courts.** Since 1924, 4 other Federal courts have been created to exercise special Federal jurisdiction, *i.e.* the Federal Court of Australia, the Family Court of Australia, the Australian Industrial Court and the Federal Court of

**Bankruptcy.** The Federal Court of Australia was created by the Federal Court of Australia Act 1976 and began to exercise jurisdiction on 1 Feb. 1977. It exercises such original jurisdiction as is invested in it by laws made by the Federal Parliament including jurisdiction formerly exercised by the Australian Industrial Court and the Federal Court of Bankruptcy, and in some matters previously invested in either the High Court or State and Territory Supreme Courts. The Federal Court also acts as a court of appeal from State and Territory courts in relation to Federal matters. Appeal from the Federal Court to the High Court will be by way of special leave only. The State Supreme Courts have also been invested with Federal jurisdiction in bankruptcy.

**State Courts.** The general Federal jurisdiction of the State courts extends, subject to certain restrictions and exceptions, to all matters in which the High Court has jurisdiction or in which jurisdiction may be conferred upon it.

**Industrial Tribunals.** The chief federal industrial tribunal is the Australian Conciliation and Arbitration Commission, constituted by presidential members (with the status of judges) and commissioners. The Commission's functions include settling industrial disputes, making awards, determining the standard hours of work and wage fixation. Questions of law, the judicial interpretation of awards and imposition of penalties in relation to industrial matters, are dealt with by the Industrial Division of the Federal Court.

**Religion.** Under the Constitution the Commonwealth cannot make any law to establish any religion, to impose any religious observance or to prohibit the free exercise of any religion. The following percentages refer to those religions with the largest number of adherents at the census of 1986. The census question on religious adherence was not obligatory, however.

Christian, 73% of population; Catholic, 26%; Anglican, 23.9%; Uniting, 7.6%; Presbyterian, 3.6%; Orthodox, 2.7%; Baptist, 1.3%; Lutheran, 1.3%; Church of Christ, 0.6%; Religion other than Christian 2%. No religion 12.7%, No statement 12.3%.

The Anglican Synod voted for the ordination of 10 women in Nov. 1992.

**Education.** The Governments of the Australian States and the Northern Territory have the major responsibility for education, including the administration and substantial funding of primary, secondary, and technical and further education. In most States, a single Education Department is responsible for these three levels, but in New South Wales and South Australia there is a separate department responsible solely for technical and further education and in Victoria, a Technical and Further Education Board. Furthermore, in New South Wales an Education Commission advises the Minister on primary, secondary and post-secondary education.

The Australian Government is responsible for education in Norfolk Island, Christmas Island and the Cocos (Keeling) Islands. It also provides supplementary finance to the States and is responsible for the total funding of universities and colleges of advanced education. It has special responsibilities for student assistance, education programmes for Aboriginal people and children from non-English-speaking backgrounds, and for international relations in education.

The Australian Constitution empowers the Federal Government to make grants to the States and to place conditions upon such grants. The National Board of Employment, Education and Training was established in 1988 to advise the Federal Government on the financial needs of educational institutions. It is assisted by 4 councils: The Schools Council, the Higher Education Council, the Employment and Skills Formation Council and the Australian Research Council.

The Commonwealth has been working with the states to develop a national perspective for schools and a common curriculum. The Curriculum Corporation has been established under the auspices of the Australian Education Council.

School attendance is compulsory between the ages of 6 and 15 years (16 years in Tasmania), at either a government school or a recognized non-government educational institution. Many children attend pre-schools for a year before entering

school (usually in sessions of 2-3 hours, for 2-5 days per week). Government schools are usually co-educational and comprehensive. Non-government schools have been traditionally single-sex, particularly in secondary schools, but there is a trend towards co-education. Tuition is free at government schools, but fees are normally charged at non-government schools.

In post-secondary education, tuition fees were abolished in 1974 and student allowances are provided for full-time students subject to a means test. Universities are autonomous institutions. From 1 Jan. 1989 the university and college of advanced education sectors were merged by the Federal Government. The resulting institutions are self-governing, though funded by the Federal Government. A private university sector is developing. The major part of technical and further education is provided in government-administered technical and further education institutions (TAFE). These had 1,782,225 students in 1993.

In 1996 there were 36 universities in the Unified National System which receive Commonwealth funding. These operate under state legislation. Outside this system, the Australian National University, Canberra University and the Australian Maritime College receive Commonwealth funding on a contract basis. There were 585,396 university students in 1994. Academic staff (and students) by university: NSW: Sydney, 2,500 (30,995); New South Wales, 1,823 (26,295); New England, 544 (13,638); Newcastle, 858 (14,721); Macquarie, 754 (15,526); Wollongong, 833 (11,266); Southern Cross, 283 (6,374); Sydney University of Technology, 1,011 (20,986); Western Sydney, 1,073 (21,207); Charles Sturt, 572 (16,369); Vic.: Melbourne, 2,576 (29,930); Monash, 2,391 (37,316); La Trobe, 1,380 (21,180); Deakin, 1,039 (24,538); Ballarat, 256 (3,911); Victoria University of Technology, 630 (13,693); Swinburne University of Technology, 420 (8,831); Royal Melbourne Institute of Technology, 1,244 (24,343); Qld.: Queensland University of Technology, 1,252 (25,874); Central Queensland, 347 (8,383); Southern Queensland, 386 (12,957); Bond (1993), 310 (1,643); SA: Adelaide, 1,041 (12,899); Flinders, 777 (10,243); South Australia, 1,209 (21,817); WA: Western Australia, 958 (12,370); Curtin University of Technology, 1,052 (19,326); Edith Cowan, 830 (16,845); Murdoch, 461 (7,860); Notre Dame (1993), 33 (200); Tas.: Tasmania, 877 (11,618); NT: Northern Territory, 275 (3,779); ACT: Canberra, 416 (8,553); Australian National, 1,494 (10,290); Australian Catholic University, 520 (8,439).

Teacher education usually takes place in colleges of advanced education, though a substantial number of secondary teachers and a few primary teachers receive their pre-service education in a university.

The Australian Government provides assistance for students. The Assistance for Isolated Children Scheme provides special support to families whose children are isolated from schooling or are handicapped. AUSTUDY is a means-tested scheme to assist students aged 16 years and over enrolled for full-time study in approved courses at secondary and post-secondary institutions. Allowances are also available

for post-graduate study and overseas study. Aboriginal students are eligible for assistance under the ABSTUDY scheme. Federal government expenditure on these schemes was \$A1,602m. in 1994. In addition, under the Higher Education Contribution Scheme students may be funded by a government loan repaid interest-free later through the tax system. The Federal Government introduced a supplementary loans scheme for eligible students in 1993. The States also offer various schemes of assistance, principally at the primary and secondary levels.

National bodies with a co-ordinating, planning or funding rôle include: the Australian Education Council, comprising the Federal and State Ministers of Education, the Conference of Directors-General of Education, the Australian Council for Educational Research and advisory bodies, the National Aboriginal Education Committee, and the Vocational Education Employment and Training Advisory Committee.

Commonwealth government expenditure on education (public and private sectors) in 1994-95 was estimated at \$A10,056m.

**Health.** In 1992 there were 1,079 acute hospitals; there were an average 4.5 hospital beds per 1,000 population. There were 1,104 hospitals (general). The Royal Flying Doctor Service serves remote areas. Commonwealth government expenditure on health (1994-95) was estimated at \$A17,276m.

**Welfare.** All Commonwealth Government social security pensions, benefits and allowances are financed from the Commonwealth Government's general revenue. In addition, assistance is provided for welfare services.

Expenditure on main programmes, 1994-95, \$A43,449m.

The following summarizes the conditions of the major benefits.

*Age and disability pensions*—age pensions are payable to men 65 years of age or more and women 60 years and 6 months of age or more who have lived in Australia for a specified period and, unless permanently blind, also satisfy an income test. Persons over 16 years of age who are permanently blind or permanently incapacitated for work to the extent of at least 85% may receive an invalid pension. Invalid pension is paid subject to a residence qualification, income and assets test, unless the person is permanently blind. Additional amounts are paid to pensioners with dependent children. Supplementary assistance may be paid to a pensioner paying rent or private lodging subject to an income test. Remote area allowance is payable to pensioners living in certain remote areas, except for those aged 70 or more receiving the special rate of age pension. Supplementary assistance, additional pension for children, mother's/guardian's allowance and remote area allowance are not taxable.

In 1994-95, age pensioners received a total of \$A11,734m., and disability support pensioners received \$A4,556m.

*Wife pension*—payable to the wife of an age or invalid pensioner if she is not eligible for a pension in her own right. The payment is not subject to an income test nor is it taxable. The amount paid out in 1994–95 was \$A1.6m. to 1,314 recipients.

*Unemployment and sickness benefits*—are paid, subject to an income test, to persons between the ages of 18 and 16 respectively and age pensioners who are unemployed, able and willing to work and making efforts to obtain work, or temporarily unable to work because of sickness or injury. Unemployment benefit was replaced in July 1991 by a two-payment structure under the 'Newstart Strategy'. A 'Jobsearch Allowance' is payable to persons aged 18 and over who have been unemployed for less than 12 months, and to unemployed 16 and 17-year olds. A 'Newstart Allowance' is payable to those who have been unemployed for more than 1 year and are aged 18 and over. Income support under this structure is means-tested and linked to active labour market programmes. To be granted benefit a person must have resided in Australia for at least 12 months preceding his or her claim or intend to remain in Australia permanently. For unemployment benefit purposes unemployment must not be due to industrial action by that person or by members of a union to which that person is a member. Special benefits may be granted to per-

sons not qualified above. For numbers of beneficiaries and amounts paid *see* LABOUR, *above*.

*Service Pensions* are paid by the Department of Veterans' Affairs, similar to the age and invalid pensions provided by the Department of Social Security. Male Veterans who have reached the age of 60 years or are permanently unemployable, and who served in a theatre of war, are eligible subject to an income test. Female Veterans who served abroad and who have reached the age of 55 or are permanently unemployable, are also eligible. Wives of service pensioners are also eligible provided that they do not receive a pension from the Department of Social Security. *Disability pension* is a compensatory payment in respect of incapacity attributable to war service. It is paid at a rate commensurate with the degree of incapacity and is free of any income test. A separate allowance may be paid to dependents. In 1993-94 \$A2,382m. of service pensions and \$A1,507m. of disability and dependents' pensions were paid out; in 1994 there were 325,800 eligible veterans.

In addition to cash benefits, welfare services are provided either directly or through State and Local government authorities and voluntary agencies, for people with special needs.

*Medicare*. On 1 Feb. 1984 the Commonwealth Government introduced a universal health scheme known as Medicare. This covers: Automatic entitlement under a single public health fund to medical and optometrical benefits of 85% of the Medical Benefits Schedule fee, with a maximum patient payment for any service where the Schedule fee is charged; access without direct charge to public hospital accommodation and to inpatient and outpatient treatment by doctors appointed by the hospital; the restoration of funds for community health to approximately the same real level as 1975; a reduction in charges for private treatment in shared wards of public hospitals, and increases in the daily bed subsidy payable to private hospitals.

The Medicare programme is financed in part by a 1.5% levy on taxable incomes, with low income cut-off points, which were \$A12,689 p.a. for a single person in 1995 and \$A22,975 p.a. for a family with an extra allowance of \$A2,258 for each child. The Commonwealth Government subsidises registered health insurance organizations by contributing to the Health Benefits, and makes an annual contribution to the Reinsurance Trust Fund of \$A20m. for payments of benefits to patients with hospital treatment in excess of 35 days.

Medicare benefits are available to all persons ordinarily resident in Australia. Visitors from UK, New Zealand, Italy, Sweden, the Netherlands and Malta have immediate access to necessary medical treatment, as do all visitors staying more than 6 months.

*Medical Benefits*. The Health Insurance Act provides for a Medical Benefits Schedule which lists medical services and the Schedule (standard) fee applicable in each State in respect of each medical service. Schedule fees are set and updated by an independent fees tribunal appointed by the Government. The fees so determined are to apply for Medicare benefits purposes.

*Home and Community Care Program* was introduced in 1985 to provide support services to enable aged and disabled persons to live at home. It is jointly funded by the Commonwealth and State or Territory Governments. Commonwealth funding was \$A399m. in 1994-95.

It was surrendered by New South Wales on 1 Jan. 1911 (Jervis Bay port area was additionally transferred in 1915). Canberra became the seat of the Commonwealth government on 9 May 1927.

**TERRITORY AND POPULATION.** The area is 2,432 sq. km (including Jervis Bay area). Population (1991 census), 280,085 (140,922 females). 1995 estimate, 304,125. Vital statistics for 1994: Births, 4,461; deaths, 1,222; marriages, 1,661; divorces, 931; Infant mortality (per 1,000 live births), 4.7.

The parliament of the ACT, the *Legislative Assembly*, consists of 17 members elected for a 3-year term. Its responsibilities are at state and local government level. The Legislative Assembly elects a Chief Minister and a 3-member cabinet. At the elections of 19 Feb. 1995 the Liberal Party won 7 seats, Labor 6, Greens 2 and ind 2. The Liberals formed a coalition government with the minority parties.

*Chief Minister:* Kate Carnell.

**PRODUCTION.** Outside Canberra the Territory is mainly reserved for forestry and nature conservation (Namadgi National Park is 105,000 ha). A considerable amount of reafforestation (mostly pine) has been undertaken, the total area of coniferous plantations at 30 June 1993 being 17,000 ha. Farming is mainly in grazing: Livestock (1995 estimate), 12,780 cattle, 77,741 sheep, and 269,875 poultry. In 1994-95, 1,052 tonnes of beef and veal and 440 tonnes of greasy wool were produced.

## NORTHERN TERRITORY

**KEY HISTORICAL EVENTS.** The Northern Territory, after forming part of New South Wales, was annexed on 6 July 1863 to South Australia and in 1901 entered the Commonwealth as a corporate part of South Australia. It passed under the control of the Commonwealth Government on 1 Jan. 1911. The Commonwealth Government retained responsibility until Self-Government was granted on 1 July 1978.

**TERRITORY AND POPULATION.** The Northern Territory is bounded by the 26th parallel of S. lat. and 129° and 138° E. long. Its total area is 1,346, 200 sq. km and includes adjacent islands. The greater part of the interior consists of a tableland rising gradually from the coast to a height of about 700 metres. On this tableland there are large areas of excellent pasturage. The southern part of the Territory is generally sandy and has a small rainfall, but water may be obtained by means of sub-artesian bores.

The resident population of the Territory at the 1991 Census was 156,503. Estimate, 30 June 1995 was 173,878. The capital, seat of Government and principal port is Darwin, on the north coast; population 66,800 in June 1995. Other main centres include Katherine (8,800), 330 km south of Darwin; Alice Springs (25,100), in Central Australia; Tennant Creek (3,000), a rich mining centre 500 km north of Alice Springs; Nhulunbuy (3,800), a bauxite mining centre on the Gove Peninsula in eastern Arnhem Land; and Jabiru, a model town built to serve the rich Uranium Province in eastern Arnhem Land. Palmerston is a Darwin satellite town (12,200); Yulara (2,169 in 1991) is a resort village serving Uluru National Park and Ayers Rock. There also are a number of large self-contained Aboriginal communities. Aboriginals numbered 39,287 and Torres Strait Islanders 623 at the 1991 Census.

Vital statistics for 1994: Births, 3,626; deaths, 776; marriages, 765; divorces (1992), 345. Infant mortality per 1,000 live births, 11.3.

**CONSTITUTION AND GOVERNMENT.** The Northern Territory (Self-Government) Act 1978 established the Northern Territory as a body politic as from 1 July 1978, with Ministers having control over and responsibility for Territory finances and the administration of the functions of government as specified by the Federal Government. Regulations have been made conferring executive authority for the bulk of administrative functions. At 31 Dec. 1979 the only important powers retained by the Commonwealth related to rights in respect of Aboriginal land, some significant National Parks and the mining of uranium and other substances prescribed in the Atomic Energy Act. Proposed laws passed by the Legislative Assembly require the assent of the Administrator. The Governor-General may disallow any law assented to by the Administrator within 6 months of the Administrator's assent.

The Northern Territory has federal representation, electing 1 member to the House of Representatives and 2 members to the Senate.

The Legislative Assembly has 25 members, directly elected for a period of 4 years. The Chief Minister, Deputy Chief Minister and Speaker are elected by, and from, the members. The *Administrator* (Austin Asche, QC) appoints Ministers on the advice of the Leader of the majority party.

The Legislative Assembly, elected in 1994, comprised in 1996: Country Liberal Party, 16; Australian Labor Party, 8; Independents, 1.

These are each managed by a mayor and a municipal council elected at intervals of not more than 4 years by universal adult franchise. Provision has been made for a limited form of local government for smaller communities. In 1996 there were 6 municipal and 32 community government councils and 29 other incorporated community associations responsible for local government.

## AUSTRALIAN EXTERNAL TERRITORIES

**AUSTRALIAN ANTARCTIC TERRITORY.** An Imperial Order in Council of 7 Feb. 1933 placed under Australian authority all the islands and territories other than Adélie Land situated south of 60° S. lat. and lying between 160° E. long. and 45° E. long. The Order came into force with a Proclamation issued by the Governor-General on 24 Aug. 1936 after the passage of the Australian Antarctic Territory Acceptance Act 1933. The boundaries of Adélie Land were definitively fixed by a French Decree of 1 April 1938 as the islands and territories south of 60° S. lat. lying between 136° E. long. and 142° E. long. The Australian Antarctic Territory Act 1954 declared that the laws in force in the Australian Capital Territory are, so far as they are applicable and are not inconsistent with any ordinance made under the Act, in force in the Australian Antarctic Territory.

The area of the territory is estimated at 6,119,818 sq. km (2,362,875 sq. miles).

There is a research station on MacRobertson Land at lat. 67° 37' S. and long. 62° 52' E. (Mawson), one on the coast of Princess Elizabeth Land at lat. 68° 34' S. and long. 77° 58' E. (Davis) and one at lat. 66° 17' S. and long. 110° 32' E. (Casey). The Antarctic Division also operates a station on Macquarie Island.

**COCOS (KEELING) ISLANDS.** The Cocos (Keeling) Islands are 2 separate atolls comprising some 27 small coral islands with a total area of about 14.2 sq. km, and are situated in the Indian Ocean at 12° 05' S. lat. and 96° 53' E. long. They lie 2,768 km north-west of Perth and 3,685 km west of Darwin.

The main islands are West Island (the largest, about 10 km from north to south) on which is an airport and an animal quarantine station, and most of the European community; Home Island, occupied by the Cocos Malay community; Direction, South and Horsburgh Islands, and North Keeling Island, 24 km to the north of the group.

The islands were discovered in 1609 by Capt. William Keeling but remained uninhabited until 1826. In 1857 the islands were annexed to the Crown; in 1878 responsibility was transferred from the Colonial Office to the Government of Ceylon, and in 1886 to the Government of the Straits Settlement. By indenture in 1886 Queen Victoria granted all land in the islands to George Clunies-Ross and his heirs in perpetuity (with certain rights reserved to the Crown). In 1903 the islands were incorporated in the Settlement of Singapore and in 1942–46 temporarily placed under the Governor of Ceylon. In 1946 a Resident Administrator, responsible to the Governor of Singapore, was appointed.

On 23 Nov. 1955 the Cocos Islands were placed under the authority of the Australian Government as the Territory of Cocos (Keeling) Islands. An Administrator, appointed by the Governor-General, is the Government's representative in the Territory and is responsible to the Minister for Territories and Local Government. The Cocos (Keeling) Islands Council, established as the elected body of the Cocos Malay community in July 1979, advises the Administrator on all issues affecting the Territory.

In 1978 the Australian Government purchased the Clunies-Ross family's entire interests in the islands, except for the family residence. A Cocos Malay co-opera-

tive was established to take over the running of the Clunies-Ross copra plantation and to engage in other business with the Commonwealth in the Territory, including construction projects. In 1993 the Australian Government took control of the Clunies-Ross family residence also.

The population of the Territory (1993) was 593, distributed between Home Island (75%) and West Island (25%).

The islands are low-lying, flat and thickly covered by coconut palms, and surround a lagoon in which ships drawing up to 7 metres may be anchored, but which is extremely difficult for navigation.

An equable and pleasant climate, affected for much of the year by the south-east trade winds. Temperatures range over the year from 68° F (20° C) to 88° F (31.1° C) and rainfall averages 80" (2,000 mm) a year.

The Cocos (Keeling) Islands Act 1955 is the basis of the Territory's administrative, legislative and judicial systems. Under section 8 of this Act, those laws which were in force in the Territory immediately before the transfer continued in force there.

**CHRISTMAS ISLAND** is an isolated peak in the Indian Ocean, lat. 10° 25' 22" S., long. 105° 39' 59" E. It lies 360 km S., 8° E. of Java Head, and 417 km N. 79° E. from Cocos Islands, 1,310 km from Singapore and 2,623 km from Fremantle. Area about 135 sq. km. The climate is tropical with temperatures varying little over the year at 27° C. The wet season lasts from Nov. to April with an annual total of about 2,673 mm. The island was formally annexed by the UK on 6 June 1888, placed under the administration of the Governor of the Straits Settlements in 1889, and incorporated with the Settlement of Singapore in 1900. Sovereignty was transferred to the Australian Government on 1 Oct. 1958. The population at the 1991 census was 1,275; 1994 estimate, 2,500 of whom 1,300 were of Chinese, 400 of Malay and 800 of Australian/European origin.

The legislative, judicial and administrative systems are regulated by the Christmas Island Act, 1958–73. They are the responsibility of the Commonwealth Government and operated by an Administrator. The Territory underwent major changes to its legal system when the Federal Parliament passed the Territories Law Reform Bill of 1992; Commonwealth and State laws applying in the state of Western Australia now apply in the Territory as a result, although some laws have been repealed to take into account the unique status of the Territory. The first Island Assembly was elected in Sept. 1985, and is now replaced by the elected members of the Christmas Island Shire Council.

Extraction and export of rock phosphate dust is the main industry. The Government is also encouraging the private sector development of tourism.

**Electricity.** Production (1994–95) 20m. kWh.

**Roads.** In 1993 there were 205 km of roads, 917 passenger cars and 362 commercial vehicles.

**NORFOLK ISLAND.** 29° 02' S. lat. 167° 57' E. long., area 3,455 ha, population, (June 1986), 1,977. The island was formerly part of the colony of New South Wales and then of Van Diemen's Land. It was a penal colony 1788–1814 and 1825–55. In 1856 it received all 194 descendants of the *Bounty* mutineers from Pitcairn Island. It has been a distinct settlement since 1856, under the jurisdiction of the state of New South Wales; and finally by the passage of the Norfolk Island Act 1913, it was accepted as a Territory of the Australian Government. The Norfolk Island Act 1957 is the basis of the Territory's legislative, administrative and judicial systems. An Administrator, appointed by the Governor-General and responsible to the Minister for Territories and Local Government, is the senior government representative in the Territory.

The Norfolk Island Act 1979 gives Norfolk Island responsible legislative and executive government to enable it to run its own affairs to the greatest practicable extent. Wide powers are exercised by the Norfolk Island Legislative Assembly of 9 elected members, and by an Executive Council, comprising the executive members of the Legislative Assembly who have ministerial-type responsibilities. The seat of administration is Kingston, the only major settlement. The Act preserves the Commonwealth's responsibility for Norfolk Island as a Territory under its authority, indicating Parliament's intention that consideration would be given to an extension of the powers of the Legislative Assembly and the political and administrative institutions of Norfolk Island within 5 years. Some powers were transferred in 1985 and further transfers are being considered.

The office of the Administrator's financed from Commonwealth expenditure which in 1991–92 was approximately \$A493,000; local revenue for 1990–91 totalled \$A6,411,000; expenditure, \$A6,222,000.

Public revenue is derived mainly from tourism, the sale of postage stamps, customs duties, liquor sales and company registration and licence fees. Residents are not liable for income tax on earnings within the Territory, nor are death and personal stamp duties levied.

In 1991–92, 27,351 visitors travelled to Norfolk. Descendants of the *Bounty* mutineer families constitute the 'original' settlers and are known locally as 'Islanders', while later settlers, mostly from Australia, New Zealand and UK, are identified as 'mainlanders'. Over the years the Islanders have preserved their own lifestyle and customs, and their language remains a mixture of West Country English, Gaelic and Tahitian. The resident population in 1993 was 2,665.

**Roads.** There are 80 km of roads (53 km paved), 1,802 passenger cars and 90 commercial vehicles.

**Telecommunications.** There is one post office and (1984) 1,090 telephones, 400 television and (1987) 1,500 radio receivers.

**Press.** There is one weekly with a circulation of 1,200.

## SOCIAL INSTITUTIONS

**Justice.** The island's Supreme Court sits as required and a Court of Petty Sessions exercises both civil and criminal jurisdiction.

**Religion.** 40% of the population are Anglicans.

**Education.** A school is run by the New South Wales Department of Education covering pre-school to 10th year. It had 322 pupils at 30 June 1990.

**Health.** In 1985 there were 2 doctors, a pharmacist and a hospital with 20 beds.

**HEARD AND McDONALD ISLANDS.** These islands, about 2,500 miles south-west of Fremantle, were transferred from UK to Australian control as from 26 Dec. 1947. Heard Island is about 43 km long and 21 km wide; Shag Island is about 8 km north of Heard. The total area is 412 sq. km (159 sq. miles). The McDonald Islands are 42 km to the west of Heard. In 1985–88 a major research programme was set up by the Australian National Antarctic Research Expeditions to investigate the wildlife as part of international studies of the Southern Ocean ecosystem. Subsequent expeditions followed from June 1990 throughout 1992.

**TERRITORY OF ASHMORE AND CARTIER ISLANDS.** By Imperial Order in Council of 23 July 1931, Ashmore Islands (known as Middle, East and West Islands) and Cartier Island, situated in the Indian Ocean, some 320 km off the north-west coast of Australia (area, 5 sq. km), were placed under the authority of the Commonwealth.

Under the Ashmore and Cartier Islands Acceptance Act, 1933, the islands were accepted by the Commonwealth under the name of the Territory of Ashmore and Cartier Islands, and the effective date was proclaimed by the Governor-General to be 10 May 1934. It was the intention that the Territory should be administered by the State of Western Australia, but owing to administrative difficulties the Territory was annexed to and deemed to form part of the Northern Territory of Australia (by amendment to the Act in 1938) with relevant laws of the Northern Territory, applying to the Territory of Ashmore and Cartier Islands. Responsibility for the administration of Ashmore and Cartier Islands rests with the Minister for the Arts, Sport, the Environment, Tourism and Territories.

On 16 Aug. 1983 a national nature reserve was declared over Ashmore Reef and the area so declared is now known as Ashmore Reef National Nature Reserve.

The islands are uninhabited but Indonesian fishing boats, which have traditionally plied the area, fish within the Territory and land to collect water in accordance with an agreement between the governments of Australia and Indonesia.

**TERRITORY OF CORAL SEA ISLANDS.** The Coral Sea Islands became a Territory of the Commonwealth of Australia under the Coral Sea Islands Act 1969. It comprises scattered reefs and islands over a sea area of about 1m. sq. km. The Territory is uninhabited apart from a meteorological station on Willis Island.

## NEW SOUTH WALES

**KEY HISTORICAL EVENTS.** New South Wales became a British possession in 1770; the first settlement was established at Port Jackson in 1788; a partially elective Council was established in 1843, and an elective Parliament and responsible government in 1856. New South Wales federated with the other Australian states to form the Commonwealth of Australia in 1901.

**TERRITORY AND POPULATION.** New South Wales is situated between the 29th and 38th parallels of S. lat. and 141st and 154th meridians of E. long., and

comprises 309,433 sq. miles (801,600 sq. km), inclusive of Lord Howe Island, 6 sq. miles (17 sq. km), but exclusive of the Australian Capital Territory (911 sq. miles, 2,359 sq. km) and 28 sq. miles (73 sq. km) at Jervis Bay.

**Lord Howe Island**, 31° 33' 4" S., 159° 4' 26" E., which is part of New South Wales, is situated about 702 km north-east of Sydney; area, 1,654 ha, of which only about 120 ha are arable; resident population, estimate (30 June 1989), 320. The Island, which was discovered in 1788, is of volcanic origin. Mount Gower, the highest point, reaches a height of 866 metres.

The Lord Howe Island Board manages the affairs of the Island and supervises the *Kentia* palm-seed industry.

**CONSTITUTION AND GOVERNMENT.** Within the State there are three levels of government: The Commonwealth Government, with authority derived from a written constitution; the State Government with residual powers; the local government authorities with powers based upon a State Act of Parliament, operating within incorporated areas extending over almost 90% of the State.

The Constitution of New South Wales is drawn from several diverse sources; certain Imperial statutes such as the Commonwealth of Australia Constitution Act (1900); the Australian States Constitution Act (1907); an element of inherited English law; amendments to the Commonwealth of Australia Constitution Act; the (State) Constitution Act; the Australia Acts of 1986; the Constitution (Amendment) Act 1987 and certain other State Statutes; numerous legal decisions; and a large amount of English and local convention.

The Parliament of New South Wales may legislate for the peace, welfare and good government of the State in all matters not specifically reserved to the Commonwealth Government.

The State Legislature consists of the Sovereign, represented by the Governor, and two Houses of Parliament, the Legislative Council (upper house) and the Legislative Assembly (lower house).

Australian citizens aged 18 and over, and other British subjects who were enrolled prior to 26 Jan. 1984, men and women aged 18 years and over, are entitled to the franchise. Voting is compulsory. The optional preferential method of voting is used for both houses.

The Legislative Council has 42 members elected for a term of office equivalent to three terms of the Legislative Assembly, with 21 members retiring at the same time as the Legislative Assembly elections. The whole State constitutes a single electoral district. In 1995, the Council consisted of the following parties: Australian Labor Party (ALP), 17; Liberal Party of Australia (Lib), 12; National Party (NP), 6; Call to Australia Group (CTA), 2; Australian Democrats (AD), 2; A Better Future for Our Children, 1; Shooters' Party, 1; The Greens, 1.

The Legislative Assembly has 99 members elected in single seat electoral districts for a maximum period of 4 years. The Legislative Assembly elected in 1995 consisted of the following parties: ALP, 50; Lib, 29; NP, 17; ind, 3.

Since 1 July 1993, an area established for local government purposes is known as a council or city council, and the terms municipality or shire have been abandoned (except for Sutherland Shire). At 1 July 1993 there were 39 city councils and 138 councils. In addition there is one unincorporated area in the far west of the State. Local government councils most importantly provide the general services of administration, health, community amenities, recreation and culture, roads and debt servicing. County councils administer electricity or water supply or render other local services of common benefit in districts which comprise a number of councils.

Industrial tribunals are authorized to fix minimum rates of wages and other conditions of employment. Their awards may be enforced by law, as may be industrial agreements between employers and organizations of employees, when registered.

The principal State arbitration and conciliation tribunal is the Industrial Commission of New South Wales. The Commission is empowered to exercise all the powers conferred on subsidiary tribunals, and has in addition authority to determine any widely defined 'industrial matter', to adjudicate in case of illegal strikes and lockouts, to investigate union ballots when irregularities are alleged and to hear appeals from subsidiary tribunals. Subsidiary tribunals are Conciliation Committees for various industries, each having an equal number representing employers and employees and a Conciliation Commissioner as chairman.

**Trade Unions.** Registration of trade unions is effected under the New South Wales Trade Union Act 1881, which follows substantially the Trade Union Acts of 1871 and 1876 of England. Registration confers a quasi-corporate existence with power to hold property, to sue and be sued, etc., and the various classes of employees covered by the union are required to be prescribed by the constitution of the union. For the purpose of bringing an industry under the review of the State industrial tribunals, or participating in proceedings relating to disputes before Commonwealth tribunals, employees and employers must be registered as industrial unions, under State or Commonwealth industrial legislation respectively. At 30 June 1993, there were 93 trade unions with a total membership of 1,037,500. In Aug. 1993 38% of employees were members of trade unions.

Queensland elects 25 members to the Commonwealth House of Representatives.

The Elections Act, 1983, provides franchise for all males and females, 18 years of age and over, qualified by 6 months' residence in Australia and 3 months in the electoral district.

**CONSTITUTION AND GOVERNMENT.** South Australia was formed into a British province by letters patent of Feb. 1836, and a partially elective Legislative Council was established in 1851. The present Constitution dates from 24 Oct. 1856. It vests the legislative power in an elected Parliament, consisting of a Legislative Council and a House of Assembly. The former is composed of 22 members. Every 4 years half the members retire, and the resulting vacancies are filled at a general election on the basis of proportional representation with the State as one multi-member electorate. The qualifications of an elector are, to be an Australian citizen, or a British subject who on 25 Jan. 1984 was enrolled on a Commonwealth electoral roll and/or at some time between 26 Oct. 1983 and 25 Jan. 1984 inclusive was enrolled on an electoral roll for a South Australian Assembly district or a Commonwealth electoral roll in any State. The person must be of at least 18 years of age and have lived continuously in Australia for at least 6 months, in South Australia for at least 3 months and in the sub-division for which he is enrolled at least 1 month. War service may substitute for residential qualifications in some cases. By the Constitution Act Amendment Act, 1894, the franchise was extended to women, who voted for the first time at the general election of 25 April 1896. The qualifications for election as a member of both Houses are the same as for an elector. Certain persons are ineligible for election to either House.

The House of Assembly consists of 47 members elected for 4 years, representing single electorates. Election of members of both Houses takes place by preferential secret ballot. Voting is compulsory for those on the Electoral Roll.

The House of Assembly, elected on 11 Dec. 1993, consists of the following members: Liberal Party of Australia (LP), 36; Australian Labor Party (ALP), 11. The Legislative Council consists of 11 LP, 9 ALP and 2 Australian Democrat members.

Electors enrolled (11 Dec. 1993) numbered 1,006,035.

The executive power is vested in a Governor appointed by the Crown and an Executive Council, consisting of the Governor and the Ministers of the Crown. The

Governor has the power to dissolve the House of Assembly but not the Legislative Council unless that Chamber has twice consecutively with an election intervening defeated the same or substantially the same Bill passed in the House of Assembly by an absolute majority.

## TASMANIA

**KEY HISTORICAL EVENTS.** Abel Janszoon Tasman discovered Van Diemen's Land (Tasmania) on 24 Nov. 1642. The island became a British settlement in 1803 as a dependency of New South Wales; in 1825 its connection with New South Wales was terminated; in 1851 a partially elected Legislative Council was established, and in 1856 responsible government came into operation. On 1 Jan. 1901 Tasmania was federated with the other Australian states into the Commonwealth of Australia.

**TERRITORY AND POPULATION.** Tasmania is a group of islands separated from the mainland by Bass Strait with an area (including islands) of 68,049 sq. km, or 6.8m. ha, of which 6,408,600 ha form the area of the main island. The population at 10 consecutive censuses (including full-blood Aborigines from 1966) was:

	<i>Population</i>		<i>Population</i>
1933	227,599	1971	390,413

1961	350,340	1986	436,353
1966	371,435	1991	452,837

At the census of 30 June 1991, 24,251 were born in the UK or Ireland, 11,779 in other European countries and 396,313 in Australia. Estimated resident population at 30 June 1994, 472,357 (238,129 females).

**CONSTITUTION AND GOVERNMENT.** Parliament consists of the Governor, the Legislative Council and the House of Assembly. The Council has 19 members, elected by adults with 6 months' residence. Members sit for 6 years, 3 retiring annually and 4 every sixth year. There is no power to dissolve the Council. Vacancies are filled by by-elections. The House of Assembly has 35 members; the maximum term for the House of Assembly is 4 years. Women received the right to vote in 1903. Proportional representation was adopted in 1907, the method now being the single transferable vote in 7-member constituencies. Casual vacancies in the House of Assembly are determined by a transfer of the preference of the vacating member's ballot papers to consenting candidates who were unsuccessful at the last general election.

A Minister must have a seat in one of the two Houses.

At the elections of Feb. 1996 the Liberal Party won 16 seats in the House of Assembly, the Australian Labor Party 14, the Tasmanian Greens 4, and 1.

A minority Liberal government was formed on 15 March 1996, comprising:

*Premier, Treasurer, Minister for State Development:* Tony Rundle.

*Deputy Premier, Minister for Education and Vocational Training, Arts, Sports and Recreation:* Sue Napier. *Police and Public Safety, Forests, Mines:* John Beswick. *Transport, Energy, Inland Fisheries:* Thomas Cleary. *Finance, Public Sector Employment, Industrial Relations, Leader of the Government in the House:* Ron Cornish. *Attorney General, Justice, Tourism, Workplace Safety:* Ray Groom. *Environment, Land Management:* Peter Hogman. *Status of Women, Community Development, Local Government, Multicultural Ethnic Affairs, Aboriginal Affairs:* Denise Swan. *Community and Health Services:* Peter McKay. *Primary Industries and Fisheries, Racing:* Bill Bonde.

**Local Government.** The State is divided into 29 municipal areas comprising the cities of Hobart, Launceston, Glenorchy, Clarence, Burnie and Devonport and 26 municipalities. The number of municipalities was reduced from 46 in 1993 because of the amalgamation of smaller into larger municipalities. The cities and municipalities are managed by elected aldermen and councillors, respectively, with reference to local matters such as sanitation and health services, domestic water supplies and roads and bridges within each particular area. The chief source of revenue is rates (based on assessed annual value) levied on owners of property.

**Tasmanian Islands.** 2 inhabited Tasmanian islands (King and Flinders) are organized as municipalities. Nearly 1,360 km south-east lies Macquarie Island (123 sq. km), part of the State, and used only as a research base and meteorological station.

## ECONOMY

**Budget.** The revenue is derived chiefly from taxation (pay-roll, motor, lottery and land tax, business franchises and stamp duties), and from grants and reimbursements from the Commonwealth Government. Customs, excise, sales and income tax are levied by the Commonwealth Government, which makes grants to Tasmania for both revenue and capital purposes. Commonwealth payments to Tasmania in 1991-92 totalled \$A1,074m.

Specific Purpose Grants are mainly used to provide essential services such as

hospitals, housing, roads and educational services, while General Purpose Revenue Funds have been paid since 1942 to compensate the State for the loss of income tax to the federal government.

Consolidated Revenue Fund receipts and expenditure, in \$A1,000, for financial years ending 30 June:

	1986-87	1987-88	1988-89	1989-90	1990-91	1991-92

Net State and local government debt, 1991-92, \$A3,306m.

In 1991-92 State taxation revenue amounted to \$A558m., of which pay-roll tax provided \$A135m.; motor tax, \$A64m.; stamp duties, \$A67m.; business franchises, \$A97m. and lottery tax, \$A22m.

**Banking and Finance.** Trading bank activity in Tasmania is divided between 3 private banks and the Commonwealth Trading Bank. For the month of Dec. 1988 liabilities represented by depositors' balances averaged \$A749m. and assets represented by advances, \$A929m. The 6 savings banks operating in Tasmania are the Commonwealth Savings Bank, 2 trustee savings banks and 3 private savings banks operated by trading banks. At 31 Dec. 1988 total savings bank deposits were \$A1,761m.

## ENERGY AND NATURAL RESOURCES

**Electricity.** Installed capacity was 2,490 MW in 1994-95. Production, 1994-95, 8,855m. kWh. **CONSTITUTION AND GOVERNMENT.** Victoria, formerly a portion of New South Wales, was, in 1851, proclaimed a separate colony, with a partially elective Legislative Council. In 1856 responsible government was conferred, the legislative power being vested in a parliament of two Houses, the Legislative Council and the Legislative Assembly. At present the Council consists of 44 members who are elected for 2 terms of the Assembly, one-half retiring at each election. The Assembly consists of 88 members, elected for 4 years from the date of its first meeting unless sooner dissolved by the Governor. Members and electors of both Houses must be aged 18 years and Australian citizens or those British subjects previously enrolled as electors, according to the Constitution Act 1975. No property qualification is required, but judges, members of the Commonwealth Parliament, undischarged bankrupts and persons convicted of an offence which is punishable by life imprisonment, may not be members of either House. Single voting (one elector one vote) and compulsory preferential voting apply to Council and Assembly elections. Enrolment for Council and Assembly electors is compulsory. The Council may not initiate or amend money bills, but may suggest amendments in such bills other than amendments which would increase any charge. A bill shall not become law unless passed by both Houses.

*Governor:* Richard E. McGarvie.

In the exercise of the executive power the Governor is advised by a Cabinet of responsible Ministers. Section 50 of the Constitution Act 1975 provides that the number of Ministers shall not at any one time exceed 22, of whom not more than 6 may sit in the Legislative Council and not more than 17 may sit in the Legislative Assembly.

At the elections of 23 March 1996 the Liberal and National Party coalition was re-elected, with 34 seats in the Legislative Council and 58 in the Legislative Assembly. The Liberal-National coalition Cabinet was as follows in April 1997:

*Premier, Minister for Multicultural Affairs and for the Arts:* Jeffrey Gibb Kennett.

The only unincorporated areas are the Yallourn Works Area, French Island (154 sq. km), Lady Julia Percy Island (1.3 sq. km), Bass Strait Islands (3.8 sq. km) and part of the Gippsland Lakes (309 sq. km). The constitution of cities, towns, boroughs and shires is based on statutory requirements concerning population, rate revenue and net annual value of rateable property.

There were 4 building societies in 1994.

## ENERGY AND NATURAL RESOURCES

**Electricity.** Electricity is supplied by the State Electricity Commission of Victoria either directly or through 11 metropolitan councils which buy in bulk and distribute electricity through their own systems.

Electricity production in 1993–94 was 35,442m. kWh.

About 90% of the power generated for the state system is supplied by 4 brown-coal fired generating stations. There are 2 other thermal stations and 3 hydro-electric stations in north east Victoria. Victoria is also entitled to approximately 30% of the output of the Snowy Mountains hydro-electric scheme and half the output of the Hume hydro-electric station, both of which are in New South Wales.

**Oil and Natural Gas.** Crude oil in commercially recoverable quantities was first discovered in 1967 in 2 large fields offshore in East Gippsland in Bass Strait between 65 and 80 km from land. These fields, with 10 other fields since discovered, have been assessed as containing initial recoverable reserves of more than 2,930m. bbls of treated crude oil. Estimated reserves of crude oil (1994) 113,000m. litres; gas, 139,000m. cu. metres.

In 1993–94 Victoria produced 58% of Australia's crude oil and 31% of its natural gas. Production of crude oil (1991), 110,617,000 bbls.

Natural gas was discovered offshore in East Gippsland in 1965. The initial recoverable reserves of treated gas are 220,400m. cu. metres. Reserves are suffi-

cient for at least 30 years. Natural gas is distributed to residential and industrial consumers through a network of 23,400 km of mains.

Liquefied petroleum gas is produced after extraction of the propane and butane fractions from the untreated oil and gas.

**Brown Coal.** Major deposits of brown coal are located in the Central Gippsland region and comprise approximately 94% of the total resources in Victoria. In 1993 the resource was estimated to be 0.2m. megatonnes, of which about 52,000 megatonnes was economically recoverable. It is young and soft with a water content of 60% to 70%. In the La Trobe Valley section of the region, the thick brown coal seams underlie an area from 10 to 30 km wide extending over approximately 70 km from Yallograin in the west to the south of Sale in the east. It can be won continuously in large quantities and at low cost by specialized mechanical plant.

The primary use of these reserves is to fuel electricity generating stations. Production of brown coal in 1993-94 was 48,214,000 tonnes, value \$A401m.

**Minerals.** Production, 1994-95: Gold, 4,100 kg; 1992-93 (in tonnes): Diatomite, 1,375; gypsum, 0.18m.; kaolin, 115,000; 1991-92: Bauxite, 5,021 tonnes (none mined since).

**Land Settlement.** Of the total area of Victoria (22.76m. ha), 13,973,915 ha on 30 June 1984 were either alienated or in process of alienation. The remainder (8,786,085) constituted Crown land as follows: Perpetual leases, grazing and other leases and licences, 2,160,352; reservations including forest and timber reserves, water, catchment and drainage purposes, national parks, wildlife reserves, water frontages and other reserves, plus unoccupied and unreserved including areas set aside for roads, 6,625,733.

**Agriculture.** In 1993-94 the total area of land utilized for agricultural activity was 13,017,333 ha, and the gross value of agricultural commodities produced was \$A5,536,522,000. There were 37,330 agricultural establishments. The following table shows the area under the principal crops and the produce of each for 3 seasons (in 1,000 units)<sup>1</sup>:

## WESTERN AUSTRALIA

**KEY HISTORICAL EVENTS.** In 1791 Vancouver, in the *Discovery*, took formal possession of the country about King George Sound. In 1826 the Government of New South Wales sent 20 convicts and a detachment of soldiers to King George Sound and formed a settlement then called Frederickstown. In 1829 Charles Fremantle took possession of the territory. In 1829 Captain Stirling, newly appointed Lieut.-Governor, founded the colony now known as the State of Western Australia. On 1 Jan. 1901 Western Australia became one of the 6 federated States within the Commonwealth of Australia.

**TERRITORY AND POPULATION.** Western Australia lies between 113° 09' and 129° E. long. and 13° 44' and 35° 08' S. lat.; its area is 2,525,500 sq. km.

The population at each census from 1947 was as follows <sup>1</sup>:

	<i>Males</i>	<i>Females</i>	<i>Total</i>		<i>Males</i>	<i>Females</i>	<i>Total</i>

<sup>1</sup> 1961 and earlier exclude persons of predominantly Aboriginal descent; from 1966 figures refer to total population (*i.e.*, including Aborigines). Figures from 1971 are based on estimated resident population.

The population count at the 1991 census was 1,586,393. Of these 1,097,500 were born in Australia. Married persons numbered 683,554 (340,607 males and 342,947 females); widowers, 12,967; widows, 53,892; divorced, 29,854 males and 36,247 females; never married, 199,261 males and 156,450 females. Estimated resident population at 31 Dec. 1994 was 1,715,300 (853,900 females).

Perth, the capital, had an estimated resident population of 1,239,400 at June 1994. Of this, the area administered by the City of Perth had a population of 80,517 while the population in the area for which the City of Fremantle is responsible (which includes the chief port of the State) was 23,834.

**CONSTITUTION AND GOVERNMENT.** In 1870 partially representative government was instituted, and in 1890 the administration was vested in the Governor, a Legislative Council and a Legislative Assembly. The Legislative Council was, in the first instance, nominated by the Governor, but it was provided that in the event of the population of the colony reaching 60,000, it should be elective. In 1893 this limit of population being reached, the Colonial Parliament amended the Constitution accordingly.

The *Legislative Council* consists of 34 members elected for a term of 4 years. There are 6 electoral regions for Legislative Council elections. 4 return 5 members and 2, 7 members. Each member represents the entire region.

There are 57 members of the *Legislative Assembly*, each member representing one of the 57 electoral districts of the State. Members are elected for the duration of the

Assembly which may be for a period of up to 4 years. The qualifications applying to candidates and electors are identical for the Legislative Council and the Legislative Assembly. A candidate must be at least 18 years of age and free from legal incapacity, be an Australian citizen, and be enrolled, or qualified for enrolment, as an elector. A member of the Commonwealth Parliament or of the legislature of a territory or another state, an undischarged bankrupt or a debtor against whose estate there is a subsisting receiving order in bankruptcy, or a person who has been attainted or convicted of treason or felony is disqualified from membership of the legislature. No person may hold office as a member of the Legislative Assembly and the Legislative Council at the same time. An elector must be at least 18 years of age, be an Australian citizen (or a British subject who was at some time within the 3 months preceding 26 Jan. 1984 an elector of the Assembly or the Commonwealth parliament), be free from legal incapacity, and must have resided in Western Australia for 3 months continuously and in the electoral district for which he or she claims enrolment for a continuous period of 1 month immediately preceding the date of his or her claim. Enrolment is compulsory for all qualified persons. Voting at elections is on the preferential system and is compulsory for all enrolled persons. A system of proportional representation is used to elect members of the Legislative Council.

Ordinary members of the legislature were paid (1996) a salary of \$A81,042 a year with an additional electorate allowance, ranging from \$A19,512 to \$A36,099 a year according to location of the electorate. All members of Parliament also receive a basic postage and lettergram allowance of \$A5,400.

In addition to the basic member's salary, electorate and postage allowances, the Premier receives a salary and expense of office allowances of \$A105,452. On the same basis the Deputy Premier receives \$A66,512; the Leader of the Government in the Legislative Council \$A59,490; and other ministers \$A48,970.

Legislative Assembly representation after the Dec. 1996 election: Liberal Party, 29; Australian Labor Party, 19; National Party of Australia, 6; Independent, 3. Legislative Council: Liberal Party, 15; Australian Labor Party, 13; National Party of Australia, 3; Independent, 2; Greens (Western Australia), 1.

*Local Government.* The only unincorporated area in mainland Western Australia is King's Park, a public reserve of about 403 ha. in Perth. Including the lord-mayoralty of Perth there were 18 cities, 11 towns and 110 shires at 30 June 1993. The executive body in each of these districts is normally an elected council, presided over by a mayor (city and town) or a president (shire), but in certain circumstances it may be a commissioner appointed by the Governor. Their functions include road construction and repair, the provision of parks and recreation grounds, the administration of building controls and health and library services. Finance is

derived largely from rates levied on property owners as well as charges for services and government grants.

## ECONOMY

**Budget.** Revenue and expenditure (in \$A), as reported in the Consolidated Revenue Fund, in years ended 30 June:

## ENERGY AND NATURAL RESOURCES

**Minerals.** Mining is important. Until the mid-1960s the major mineral produced was gold. It was then replaced by iron ore in terms of value, and has at various times fallen behind nickel concentrates, bauxite, oil, mineral sands and salt. In the latter half of the 1980s gold enjoyed a resurgence and in 1987-88 exceeded iron ore in value terms.

The total ex-mine value of minerals from mining and quarrying in 1993-94 was \$A12,924m. Principal minerals produced in 1993-94 were: Iron ore, 124.3m. tonnes, value \$A2,630.6m.; gold bullion, 193 kg, value \$A3,256.8m.; crude oil, 8,752.6 kilolitres, value \$A1,299.8m.; natural gas, 4,915,300m. kilolitres, value \$A441.9m.; salt, 6.8m. tonnes, value \$A152.3m.; diamonds, 27.7m. carats, value \$A470.2m.; heavy mineral sands concentrates valued at \$A416.3m.; alumina, 7,933.3 tonnes, value \$A1,702.1m.; nickel concentrates, 678,667 tonnes, value \$A637m.; tin concentrates, 209 tonnes, value \$A1.4m.; black coal, 5m. tonnes, value \$A235.1m.

**Fisheries.** The catch of fish, crustaceans and molluscs in 1991-92 totalled 55,484 tonnes for a gross value of \$A374.2m. Of this, rock lobsters, with a total catch of 12,202 tonnes accounted for \$A252.1m.

## INDUSTRY AND TRADE

**Industry.** Heavy industry is concentrated in the south-west, and is largely tied to export-orientated mineral processing, especially alumina and nickel. Other significant manufacturing industries include meat and seafood processing, production of timber and wood products, metal fabrication and production of industrial and mining machinery. The North West Shelf development has stimulated recent growth in industries involved in providing materials and equipment during the construction phase, as well as in new and existing industries using gas in processing.

The following table shows manufacturing industry statistics for 1993-94 <sup>1</sup>:

The Western Australian Industrial Appeal Court consists of 3 Judges, one of whom is the Presiding Judge. The members are nominated by the Chief Justice of Western Australia. An appeal lies to the Court from decisions of the President of the Western Australian Industrial Commission, the Full Bench or the Commission in Court Session. The Western Australian Industrial Commission consists of a President (who must be a judge), a Chief Industrial Commissioner, a Senior Commissioner, and 'such number of other Commissioners as may, from time to time, be necessary'. The President or a Commissioner sitting or acting alone constitutes the Commission and may exercise the appropriate powers of the Commission. The Commission can inquire into any industrial matter and make an award, order or declaration relating to such matter. The Commission may also make inquiries where industrial action has occurred or is likely to occur. The Commission in Court Session is constituted by not less than 3 Commissioners sitting or acting together, and may make General Orders, hear matters referred by the Commission, and hear appeals from decisions of Boards of Reference.

The Full Bench is constituted by not less than 3 members of the Commission, 1 of whom is the President, and may hear matters referred by the Commission on questions of law, and appeals from decisions of the Commission and Industrial Magistrates.

The following table shows details of the number of industrial awards, unions and members registered with the Western Australian Industrial Commission.

**KEY HISTORICAL EVENTS.** The Belorussian Soviet Socialist Republic was set up on 1 Jan. 1919.

On 25 Aug. 1991, following the unsuccessful coup, the Supreme Soviet adopted a declaration of independence, and the republic was renamed the 'Republic of Belarus' in Sept. In Dec. it became a founder member of the CIS.

A referendum held over 9–24 Nov. 1996 was in favour of extending the President's term of office by a further 2 years to 5 years; increasing the President's powers to rule by decree; and the creation of an upper house of parliament. On 12 Nov. 1996 the chair of the Electoral Commission refused to validate the results of the vote and was summarily sacked by President Lukashenka. On 12 Nov. the President also sacked the Prime Minister. The intervention of the Russian Prime Minister secured a settlement between the President and the Speaker, by which the referendum was to have had a purely consultative status. It was agreed that a constitutional assembly should be set up chaired by the President and consisting of 50 members selected by him and 50 by parliament in the same proportions as the latter's party composition. Parliament agreed for its part not to start impeachment proceedings against the President. However, President Lukashenka immediately reneged on the Russian-brokered agreement and declared that the results of the referendum would after all be binding. This was endorsed by a majority of parliament on 26 Nov. 1996.

On 2 Nov. 1939 western Belorussia was incorporated with an area of over 108,000 sq. km and a population of 4.8m. The 1989 census population was 10,151,806, of whom 77.9% were Belorussians, 13.2% Russians, 4.12% Poles, 2.9% Ukrainians and 1.1% Jews. Estimate, Jan. 1994, 10,367,000 (53% female; 68.2% urban).

At the third round on 29 Nov. 1995 for 141 constituencies not elected in May, turn-

out was 61.8%; 20 candidates were elected. A fourth round was held on 10 Dec. 1995 and enough deputies were elected to form a quorum. Presidential elections were held on 23 June 1994. The electorate was 7.2m.; turn-out was 79%. **CONSTITUTION AND GOVERNMENT.** According to the constitution of 1831, Belgium is a constitutional, representative and hereditary monarchy. The legislative power is vested in the King, the federal parliament and the community and regional councils. The King convokes parliament after an election or the resignation of a government, and has the power to dissolve it in accordance with Article 46 of the Constitution.

Constitutional reforms begun in Dec. 1970 culminated in May 1993 in the transformation of Belgium from a unitary into a 'federal state, composed of communities and regions'. The communities are 3 in number and based on language: Flemish, French and German. The regions also number 3, and are based territorially: Flemish; Walloon and the Capital Brussels.

Since 1995 the federal parliament has consisted of a 150-member *Chamber of Representatives*, directly elected by obligatory universal suffrage from 20 constituencies on a proportional representation system for 4-year terms; and a *Senate* of 71 members (excluding senators by right, i.e. certain members of the Royal Family). 25 senators are elected by a Flemish, and 15 by a French, electoral college; 21 are designated by community councils (10 Flemish, 10 French and 1 German). These senators co-opt a further 10 senators (6 Flemish and 4 French).

The federal parliament's powers relate to constitutional reform, federal finance,

foreign affairs, defence, justice, internal security, social security and some areas of public health. The Senate is essentially a revising chamber, though it may initiate certain legislation, and is equally competent with the Chamber of Representatives in matters concerning constitutional reform and the assent to international treaties.

The number of ministers in the federal government is limited to 15. The Council of Ministers, apart from the Prime Minister, must comprise an equal number of Dutch- and French-speakers. Members of parliament, if appointed ministers, are replaced in parliament by the runner-up on the electoral list for the minister's period of office. Community and regional councillors may not be members of the Chamber of Representatives or Senate.

Elections were held on 21 May 1995. The electorate was 7,199,440; turn-out was 6,562,149. Flemish Christian Social Party (CVP) won 29 seats with 17.18% of votes cast, Flemish Liberal and Democratic Party (VLD) 21 with 13.15%, Francophone Socialist Party (PS) 21 with 11.87%, Flemish Socialist Party (SP) 20 with 12.56%, Francophone Liberal Reform Party-Democratic Front of Francophones (PRL-FDF) 18 with 10.26%, Francophone Christian Social Party 12 with 7.73%, Vlaams Blok (VB) 11 with 7.83%, Francophone Ecology Party (ECOLO) 6 with 4.01%, Volksunie (VU) 5 with 4.67%, Flemish Ecology Party (AGALEV) 5 with 4.43%, National Front (FN) 2 with 2.28%.

A 4-party coalition government was formed in June 1995 which in Jan. 1997 comprised:

*Prime Minister:* Jean-Luc Dehaene (CVP).

*Community, Regional and Local Government.* Communities and Regions elect parliaments ('councils') which in turn form governments. The Flemish Community and the Flemish Region are represented by a single council, whereas the French Community and the Walloon Region have a council each. There are also councils for the Brussels Capital Region and the German-speaking Region.

The areas of competence of Community Councils are culture, education, the media, medicine, protection of young people, the use of languages, some branches of scientific research and international relations affecting any of these areas.

Regional Councils have responsibility for land use, town-planning, the environ-

ment, conservation and rural renewal, housing, water resources, overseeing provincial and local authorities, labour, public works, transport, the economy, credit, foreign trade, agriculture, energy, some branches of scientific research and international relations affecting any of these areas. Regions raise their own revenues and also have a right to draw upon central government funds in some cases. Grants are available from the federal budget when the regional average product is lower than the national level.

# BOSNIA- HERCEGOVINA

Capital: Sarajevo  
Population: 4.37m. (1991)

Republika Bosna i  
Hercegovina

**KEY HISTORICAL EVENTS.** The country was settled by Slavs in the 7th century, the original clan system evolving between the 12th and 14th centuries into a principality under a *Ban*, during which time the Bogomil Christian heresy spread from Bulgaria in the Patarene form. Bosnia was conquered by the Turks in 1463, and many of the population were gradually converted to Islam. At the Congress of Berlin (1878) the territory was assigned to Austro-Hungarian administration under nominal Turkish suzerainty. Austria-Hungary's outright annexation in 1908 generated international tensions which contributed to the

outbreak of the First World War.

On 15 Oct. 1991 the National Assembly adopted a 'Memorandum on Sovereignty', the Serbian deputies abstaining. This envisaged Bosnian autonomy within a Yugoslav federation. A referendum on independence was held on 29 Feb.-1 March 1992. Turn-out was 63.04%, the Serbian population largely boycotting it; 99.78% of votes cast were in favour. In March 1992 an agreement was reached under EC auspices by Moslems, Serbs and Croats to set up 3 autonomous ethnic communities under a central Bosnian authority.

Bosnia-Herzegovina declared itself independent on 5 April 1992, and was recognized by the EU and USA on 7 April. The 2 Serbian members of the Bosnian collective presidency resigned. Fighting broke out between the Serb, Croat and Moslem communities, with particularly heavy casualties and destruction in Sarajevo, leading to extensive Moslem territorial losses and an exodus of refugees. UN-sponsored ceasefires from June on were repeatedly violated. On 29 June the UN Security Council unanimously voted the deployment of UN forces to secure the functioning of Sarajevo Airport and protect humanitarian aid missions.

On 13 Aug. 1992 the UN Security Council voted by 12 to nil with 3 abstentions (China, India and Zimbabwe) to authorize the use of force if necessary to ensure the delivery of humanitarian aid to besieged civilians.

Internationally-sponsored peace talks were held in Geneva in Jan. and at the UN in Feb. 1993, but Serb-Moslem-Croat fighting continued.

A NATO ultimatum of 10 Feb. 1994 gave Bosnian Serbs 10 days to withdraw their artillery from around Sarajevo.

NATO forces used air strikes for the first time against Serb forces at Gorazde on 10 April 1994.

In Aug. 1994 Yugoslavia ceased supplying Bosnian Serbs and sealed the frontier.

An upsurge in fighting began in Oct. 1994 with Moslem-Croat attacks in the Bihac area. The Moslem advance was beaten back by Serb forces which bombed Bihac with napalm on 18 Nov. NATO air forces retaliated with a raid on the Serbian airfield, but Serb forces occupied Bihac.

On 12 Nov. 1994 the USA ceased to participate in enforcing the embargo on the supply of arms to Bosnian forces.

On 23 Dec. 1994 Bosnian Serbs and Moslems signed a country-wide interim ceasefire agreement under the good offices of former US President Carter. Bosnian Croats also signed on 2 Jan. 1995. However, Croatian Serbs and the Moslem secessionist forces under Fikret Abdic did not sign the agreement, and fighting continued.

On 28 May 1995 Bosnian Serb forces took some 400 UN peacekeeping troops hostage. Under pressure from Serbian President Milosevic all had been released by 18 June.

On 16 June 1995 Bosnian government forces launched an attack to break the Bosnian Serb siege of Sarajevo.

On 11 July 1995 Bosnian Serb forces began to occupy UN security zones despite retaliatory NATO air strikes, and on 28 Aug. shelled Sarajevo.

In order to stop the shelling of UN safe areas more than 60 NATO aircraft attacked Bosnian Serb military installations on 30-31 Aug. 1995. Further air strikes on military targets began on 5 Sept. after Bosnian Serbs failed to comply with demands that they withdraw heavy weapons from around Sarajevo.

On 26 Sept. in Washington the foreign ministers of Bosnia, Croatia and Yugoslavia (the latter negotiating for the Bosnian Serbs) agreed a draft Bosnian constitution under which a central government would handle foreign affairs and commerce and a Serb Zone and a Moslem-Croat Federation would run their internal affairs. The Bosnian Presidency and Parliament would be elected, one third from the Serb Republic (i.e. the Serb zones of Bosnia) and two thirds from the Moslem-Croat Federation. A ceasefire was negotiated which came into force on 12 Oct. 1995.

In Dayton (OH) on 21 Nov. 1995 the prime ministers of Bosnia, Croatia and Yugoslavia initialled a US-brokered agreement to end hostilities in Bosnia, and this was signed by the respective presidents on 14 Dec. in Paris. Under this the Bosnian state is to be divided into a Serb Republic containing 49% of Bosnian territory and a Croat-Moslem Federation; a central government authority representing all ethnic groups and responsible for foreign and monetary policy and citizenship issues is to be established and free elections held. On 20 Dec. 1995 a 63,000-strong NATO contingent (IFOR) took over from UN peacekeeping forces to enforce the Paris peace agreements and set up a 4-km separation zone between the Serb and Moslem-Croat territories. Some 1,500 advisers have been sent by the UN to help in the formation and training of local civil police units.

Following the expiry of the mandate of IFOR on 20 Dec. 1996 a new NATO 30,000-strong Stabilization Force (SFOR) took over peacekeeping duties until mid-1998. Czech, Polish and Russian troops are also attached to SFOR.

**CONSTITUTION AND GOVERNMENT.** On 18 March 1994 in Washington Bosnian Moslems and Croats reached an agreement for the creation of a federation of cantons with a central government responsible for foreign affairs, defence and commerce. It is envisaged that there will be a president elected by a 2-house legislature alternating annually between the nationalities.

On 30 March 1994 a 123-member constituent assembly adopted the constitution by 112 votes in favour. On 31 May 1994 the National Assembly approved the creation of the Moslem Croat federation. Alija Izetbegović remained the unitary states's President. An interim government with Hasan Muratović as *Prime Minister* was formed on 30 Jan. 1996.

Following the Dayton agreement the following government structure was established in 1996:

Heading the state is a 3-member *Presidency* (1 Croat, 1 Moslem, 1 Serb) with a rotating president. The Presidency is elected by direct universal suffrage, and is responsible for foreign affairs and the nomination of the prime minister. There is a

2-chamber parliament: The *Chamber of Representatives* (which meets in Sarajevo) comprises 42 directly elected deputies, two-thirds Croat and Moslem and one-third Serb; and the *Chamber of Peoples* (which meets in Lukavica) comprises 5 Croat, 5 Moslem and 5 Serb delegates.

Below the national level the country is divided into 2 self-governing entities along ethnic lines.

The **Croat-Moslem Federation** is headed by a President and Vice-President, alternately Croat and Moslem, a 140-member Chamber of Representatives and a 74-member Chamber of Peoples. The **Serb Republic** is also headed by an elected President and Vice-President, and there is a National Assembly of 140 members, elected by proportional representation.

Elections were held on 14 Sept. 1996 for all these institutions for a 2-year term of office. The electorate was 2.34m. Representatives of 49 parties and 33 independent candidates in all stood for the elections, which were monitored by the OSCE and 1,200 international observers. OSCE estimated that turn-out was 82%.

Elected to the national *Presidency* were Alija Izetbegović (b. 1925; Moslem; Party of Democratic Action, SDA; *President*); Momčilo Krajišnik (Serb; Serb Democratic Party, SDS; *Vice-President*); Kresimir Zubak (Croat; Croat Democratic Union, HDZ; *Vice-President*). The *President of the Serb Republic* is Biljana Plavšić (SDS). Party composition of the ethnic parliaments: Croat-Moslem, 54% SDA, 24.5% HDZ; Serb, 52% SDS, 16% SDA.

Central government is conducted by a *Council of Ministers*, which comprises Moslem and Serb Co-Prime Ministers and a Croat Deputy Prime Minister. The Co-Prime Ministers alternate in office every week. In Jan. 1997 the Council of Ministers included:

*Co-Prime Ministers*: Haris Silajdžić (Moslem); Boro Bošić (Serb).

*Deputy Prime Minister*: Neven Tomić (Croat). *Minister of Foreign Affairs*: Jadranko Prlić (Croat). *Foreign Trade*: Hasan Muratović. *Civil Affairs*: Spasoje Albijanić (Croat). These 3 ministries are also jointly controlled by 2 deputy ministers from each community.

**CLIMATE.** Because of its latitude, the climate is predominantly tropical, but factors such as altitude, prevailing winds and distance from the sea cause certain variations, though temperatures are not notably extreme. In tropical parts, winters are dry and summers wet, while in Amazonia conditions are constantly warm and humid. The N.E. sertão is hot and arid, with frequent droughts. In the south and east, spring and autumn are sunny and warm, summers are hot, but winters can be cold when polar air-masses impinge. Brasília. Jan. 72°F (22.3°C), July 68°F (19.8°C). **KEY HISTORICAL EVENTS.** Tradition recounts the establishment of a Tutsi kingdom in the 16th century. German military occupation in 1890 incorporated the territory into German East Africa. From 1919 Burundi formed part of Ruanda-Urundi administered by the Belgians, first as a League of Nations mandate and then as a UN trust territory. Internal self-government was granted on 1 Jan. 1962, followed by independence on 1 July 1962.

On 8 July 1966 Prince Charles Ndizeye deposed his father Mwami Mwambutsa IV, suspended the constitution and made Capt. Michel Micombero Prime Minister. On 1 Sept. Prince Charles was enthroned as Mwami Ntare V. On 28 Nov., while the Mwami was attending a Head of States Conference in Kinshasa (Congo), Micombero declared Burundi a republic with himself as president.

On 31 March 1972 Prince Charles returned to Burundi from Uganda and was placed under house arrest. On 29 April 1972 President Micombero dissolved the Council of Ministers and took full power; that night heavy fighting broke out between rebels from both Burundi and neighbouring countries, and the ruling Tutsi, apparently with the intention of destroying the Tutsi hegemony. Prince Charles was killed during the fighting and it was estimated that up to 120,000 were killed. On 14 July 1972 President Micombero reinstated a Government with a Prime Minister. On 1 Nov. 1976 President Micombero was deposed by the Army, as was President Bagaza on 3 Sept. 1987. Pierre Buyoya assumed the presidency on 1 Oct. 1987.

On 21 Oct. 1993 President Ndadaye and 6 ministers were killed in an attempted military coup. A wave of Tutsi-Hutu massacres broke out. On 6 April 1994 President Ntaryamira was killed, possibly assassinated, together with the President of Rwanda.

On 25 July 1996 the army seized power, installing Maj. Pierre Buyoya as President after deposing President Sylvestre Ntibantunganya, dissolving parliament and prohibiting political parties. Parties were permitted to function again in Sept. 1996.

**TERRITORY AND POPULATION.** Burundi is bounded in the north by Rwanda, east and south by Tanzania and west by Zaïre, and has an area of 27,834 sq. km (10,759 sq. miles). On 23 Oct. 1991 the warring factions and 19 countries signed an agreement in Paris instituting a ceasefire in Cambodia to be monitored by UN troops. On 31 Oct. the UN Security Council unanimously agreed to establish a UN Transitional Authority in Cambodia (UNTAC), and on 28 Feb. 1992 the Security Council voted to send a force of 22,000

soldiers, police and officials to disarm the factions and organize elections.

Following the election of a constituent assembly in May 1993, a new constitution was promulgated on 23 Sept. 1993 restoring parliamentary monarchy.

During 1993-94 the Khmer Rouge continued hostilities against the government in disregard of the 1991 Paris Agreement, refusing to take part in the 1993 elections. They were formally banned by the National Assembly in June 1994. By 1996 the Khmer Rouge had split into two warring factions. The leader of one, Ieng Sary, who had been sentenced to death in his absence for genocide, was pardoned by the King in Sept. 1996. In early Nov. 1996 Ieng Sary and some 4,000 of his forces threw in their lot with government forces.

**MONARCHY.** A parliamentary monarchy was re-established by the 1993 constitution. Prince **Norodom Sihanouk** (b. 31 Oct. 1922) regained the throne (which had been abolished in 1955) as King on 23 Sept. 1993. He had previously reigned from 1941 to 1955. The protocol of succession is to be determined by a Throne Council consisting of the Speaker and 2 Deputy Speakers, the First and Second Prime Ministers and 2 Buddhist patriarchs. In Jan. 1996 King Sihanouk's wife, Queen Monineath, was dubbed 'First Lady'.

The constitution converted the constituent assembly into a legislature sitting for a 5-year term.

An 18-member government was formed in Oct. 1993 which comprised in Oct. 1996: *First Prime Minister*: Prince Ranariddh (b. 1944, son of King Sihanouk; FUNCINPEC).

## INTERNATIONAL RELATIONS

**Membership.** Cambodia is a member of the UN and an observer at ASEAN.

## ECONOMY

**Policy.** Reforms of 1989 permit a much greater role for the private sector.

**Currency.** The unit of currency is the *riel* (KHR) of 100 *sen*. There are banknotes of 5, 50, 100, 200, 500 and 1,000 riels. In March 1997, £1 = 3,742.22 riels; US\$1 = 2,300 riels; DM1 = 1,362.44 riels.

**Banking and Finance.** In 1964 all bank functions were taken over by the National Bank of Cambodia, which is the bank of issue.

## ENERGY AND NATURAL RESOURCES

**Electricity.** Production (1986) 142m. kWh.

**Minerals.** There are phosphates and high-grade iron-ore deposits. Some small-scale gold panning and gem (mainly zircon) mining is carried out.

**Agriculture.** The majority of the population is engaged in agriculture, fishing or forestry. Some 8m. ha of the total land area are cultivable. In 1980, 1.5m. ha were cultivated. Before the spread of war the high productivity provided for a low, but well-fed standard of living for the peasant farmers, the majority of whom owned the land they worked before agriculture was collectivized. A relatively small proportion of the food production entered the cash economy. The war and unwise pricing policies led to a disastrous reduction in production to a stage in which the country became a net importer of rice. Private ownership of land was restored by the 1989 Constitution.

A crop of 2.25m. tonnes of rice was produced in 1992. Rubber production in 1992 amounted to 35,000 tonnes. Production of other crops, 1992 (in tonnes): Maize, 50,000; dry beans, 47,000; soya beans, 18,000.

Livestock (1992): Cattle, 2.27m.; buffaloes, 794,000; pigs, 1.73m.; horses, 19,000; poultry, 8m.

**Forestry.** Some 8m. ha of the land area are covered by forests, 3.8m. ha of which are reserved by the Government to be awarded to concessionaires, and are not at present worked to any extent. The remainder is available for exploitation by the local residents, and as a result some areas are over-exploited and conservation is not practised. There are substantial reserves of pitch pine.

**Fisheries.** There are large freshwater fish resources.

**INDUSTRY.** Some development of industry had taken place before the spread of open warfare in 1970, but little was in operation by the 1990s except rubber processing, sea-food processing, jute sack making and cigarette manufacture. In the private sector small family concerns produce a wide range of goods. Apart from rice-mills, about 70 factories were functioning in 1994.

**FOREIGN ECONOMIC RELATIONS.** Foreign investment has been encouraged since 1989. Legislation of 1994 exempts profits from taxation for 8 years, removes duties from various raw and semi-finished materials and offers tax incentives to investors in tourism, energy, the infrastructure and labour-intensive industries.

**Commerce.** Total trade between Cambodia and UK (British Department of Trade returns, in £1,000 sterling):

	1992	1993	1994	1995	1996
Imports to UK	4	711	1,672	7,531	21,932
Exports and re-exports from UK	1,238	3,113	2,327	2,989	3,343

## COMMUNICATIONS

**Railways.** Main lines link Phnom Penh with Sisophon near the Thai border and the port of Kompong Som (total 603 km, metre-gauge). After a long period of disruption due to political unrest, limited services were restored on both lines in 1992, when 1.2m. passengers and 0.1m. tonnes of freight were carried.

**Civil Aviation.** Pochentong airport is 10 km from Phnom Penh. Royal Air Cambodia was reconstituted in Jan. 1995 with 60% of the equity government-owned. It had 1 B-737-400 in 1995. **Shipping.** There is an ocean port at Kompong Som; the port of Phnom Penh can be reached by the Mekong (through Vietnam) by ships of between 3,000 and 4,000 tonnes.

**Telecommunications.** There are telephone exchanges in all the main towns; number of telephones in 1981, 7,315. Broadcasting is provided by the state-owned Voice of the People of Cambodia and Cambodian Television (colour by PAL). In 1993 there were an estimated 70,000 TV and 0.8m. radio sets.

**Press.** In 1984 there were 16 daily newspapers. There is 1 daily in English.

## SOCIAL INSTITUTIONS

**KEY HISTORICAL EVENTS.** The former German colony of Kamerun was occupied by French and British troops in 1916. The greater portion of the territory (422,673 sq. km) was in 1919 placed under French administration, excluding the territory ceded to Germany in 1911, which reverted to French Equatorial Africa. The portion under French trusteeship was granted full internal autonomy on 1 Jan. 1959 and complete independence was proclaimed on 1 Jan. 1960.

The portion assigned to British trusteeship consisted of 2 parts where separate plebiscites were held in Feb. 1961. The northern part decided in favour of joining Nigeria, while the southern part decided to join the Cameroon Republic. This was implemented on 1 Oct. 1961 with the formation of a Federal Republic of Cameroon. As a result of a national referendum, Cameroon became a unitary republic on 2 June 1972. In Jan. 1984 the country was renamed the Republic of Cameroon.

**TERRITORY AND POPULATION.** Cameroon is bounded in the west by the Gulf of Guinea, north-west by Nigeria, east by Chad and the Central African Republic, and south by Congo, Gabon and Equatorial Guinea. The total area is 475,442 sq. km. On 29 March 1994 Cameroon asked the International Court of Justice to confirm its sovereignty over the Bakassi Peninsula, occupied by Nigerian troops. Population (1987 census) 10,494,000. Estimate (1992) 12,198,000 (6,089,000 females; 38% urban); density, 25.7 per sq. km. Population growth rate (1991): 3.4%; infant mortality, 86 per 1,000 live births; expectation of life: Males, 53.5 years; females, 56.5.

**KEY HISTORICAL EVENTS.** The first European discovery of Canada was made by John Cabot in 1497. France claimed possession in 1534. The territories which now constitute Canada came under British power at various times by settlement, conquest or cession. The Hudson's Bay Company's charter, conferring rights over all the territory draining into Hudson Bay, was granted in 1670; Canada, with all its dependencies, was ceded to Great Britain by France in 1763; Vancouver Island was acknowledged to be British by

the Oregon Boundary Treaty of 1846, and British Columbia was established as a separate colony in 1858. As originally constituted, Canada was composed of Upper and Lower Canada (now Ontario and Quebec), Nova Scotia and New Brunswick. They were united under the British North America Act, 1867. Provision was made in the Act for the admission of British Columbia, Prince Edward Island, Newfoundland, Rupert's Land and the Northwest Territory into the Union. In 1870, Rupert's Land and the Northwest Territory were annexed and named the Northwest Territories, Canada compensating the Hudson's Bay Company in cash and land. By the same action the Province of Manitoba was created from a small portion of this territory and they were admitted into the Confederation in 1870. In 1871 British Columbia was admitted, and Prince Edward Island in 1873. Alberta and Saskatchewan, originally parts of the Northwest Territories, were admitted in 1905. Newfoundland joined in 1949.

In 1931 Norway recognized the Canadian title to the Sverdrup group of Arctic islands.

The Statute of Westminster, 1931, removed what legal limitations existed as regards Canada's legislative autonomy.

**TERRITORY AND POPULATION.** Canada is bounded in the north-west by the Beaufort Sea, north by the Arctic Ocean, north-east by Baffin Bay, east by the Davis Strait, Labrador Sea and Atlantic Ocean, south by the USA and west by the Pacific Ocean and USA (Alaska). **CLIMATE.** The climate ranges from polar conditions in the north to cool temperate in the south, but with considerable differences between east coast, west coast and the interior, affecting temperatures, rainfall amounts and seasonal distribution. Winters are very severe over much of the country, but summers can be very hot inland. *See* individual provinces for climatic details.

**CONSTITUTION AND GOVERNMENT.** In Nov. 1981 the Canadian government agreed on the provisions of an amended constitution, to the end that it should replace the British North America Act and that its future amendment should

be the prerogative of Canada. These proposals were adopted by the Parliament of Canada and were enacted by the UK Parliament as the Canada Act of 1982. This was the final act of the UK Parliament in Canadian constitutional development. The Act gave to Canada the power to amend the Constitution according to procedures determined by the Constitutional Act 1982. The latter added to the Canadian Constitution a charter of Rights and Freedoms, and provisions which recognize the nation's multi-cultural heritage, affirm the existing rights of native peoples, confirm the principle of equalization of benefits among the provinces, and strengthen provincial ownership of natural resources.

Parliament consists of the Senate and the House of Commons. The members of the *Senate* are appointed until age 75 by summons of the Governor-General under the Great Seal of Canada. Members appointed before 2 June 1965 may remain in office for life. The Senate consists of 104 senators, namely, 24 from Ontario, 24 from Quebec, 10 from Nova Scotia, 10 from New Brunswick, 4 from Prince Edward Island, 6 from Manitoba, 6 from British Columbia, 6 from Alberta, 6 from Saskatchewan, 6 from Newfoundland, 1 from the Yukon Territory and 1 from the Northwest Territories. Each senator must be at least 30 years of age and reside in the province for which he or she is appointed. The *House of Commons* is elected by universal secret suffrage, by a first-past-the-post system, for 5-year terms. Representation is based on the population of all the provinces taken as a whole with readjustments made after each census.

The Special Joint Committee of the Senate and the House of Commons on a Renewed Canada released a unanimous report on 28 Feb. 1992 (Beaudoin-Dobbie Report). Another constitutional document was released on 16 July 1992 by the provincial premiers which summarized the multilateral meetings on the Constitution. A final constitutional accord was arrived at by the provinces and the federal government in Aug. 1992. At a national referendum on 26 Oct. 1992 proposed constitutional reforms were rejected by 54.4% of votes cast.

The Maritime Air Group includes 28 Sea King for embarked service.

Naval personnel in 1996 numbered about 9,500, with 4,000 reserves. The main bases are Halifax, where about two-thirds of the fleet is based and Esquimalt (British Columbia).

Combat units include 5 squadrons of F-18 Hornet fighters, 4 of P-3 Orion patrol aircraft and 3 with Sea King anti-submarine helicopters.

## INTERNATIONAL RELATIONS

**Membership.** Canada is a member of the UN, the Commonwealth, OAS, OECD, and NATO.

## ECONOMY

**Performance.** GDP was \$780,027m. in 1995 (\$750,053m. in 1994).

**Budget.** Federal government revenue and expenditure (in \$1m.):

	1992	1993	1994	1995
Revenue	135,540	134,306	138,635	146,566
Expenditure	163,783	168,301	166,120	172,397

In 1995 revenue comprised (in \$1m.): Direct taxes from persons, 85,908; from businesses, 13,893; from non-residents, 1,696; indirect taxes, 30,255; other transfers, 20; investments, 14,794. Expenditure: Goods and services, 32,791; transfers to persons, 54,176; to businesses, 4,728; to non-residents, 2,303; to other governments, 32,125; interest on public debt, 46,274.

On 31 March 1994 the net public debt was \$409,100m.

On 1 Jan. 1991 a 7% Goods and Services Tax (GST) was introduced, superseding a 13.5% manufacturers' sales tax.

**Currency.** The unit of currency is the *Canadian dollar* (CAD) of 100 *cents*. There are coins of 1, 5, 10, 25, 50 cents and \$1, and notes of \$2, \$5, \$10, \$20, \$50, \$100 and \$1,000. In June 1994, gold reserves were 5.03m. fine troy oz., and foreign exchange reserves totalled US\$9,575m. \$22,270m. were in circulation in April 1994. In March 1997, £1 = \$2.23; US\$1 = \$1.37; DM1 = \$0.81.

**Banking and Finance.** The Bank of Canada (established 1935) is the central bank and bank of issue. The *governor* (in 1997 Gordon G. Thiessen) is appointed by the Bank's directors for 7-year terms. The Minister of Finance owns the capital stock of

the Bank on behalf of Canada. Banks in Canada are chartered under the terms of the Bank Act, which imposes strict conditions on capital reserves, returns to the federal government, types of lending operations, ownership and other matters. In Aug. 1994 there were 60 chartered banks – 7 domestic and 53 foreign. The 6 biggest domestic banks had 7,971 branches serving over 1,600 communities in all provinces and both territories in Canada and 259 branches in 56 other countries. The foreign bank subsidiaries operate 269 offices in Canada. The First Nations Bank was founded in Dec. 1996 to provide finance to Inuit and Indian entrepreneurs.

Bank charters expire every 10 years which gives the federal government an opportunity to a review and amend sections of the Bank Act. Extensive changes were brought into force in June 1992. As a result of the substantial revision, bank charters were only renewed for 5 years. It is expected that after the next review in 1997, the government will revert to decennial reviews. The chartered banks make regular detailed returns to and are subject to periodic inspection by the Superintendent of Financial Institutions, an official appointed by the Government.

The Bank Act of 1980 required chartered banks to maintain a statutory primary reserve of 10% on demand deposits, 3% on foreign-currency deposits and 2% on notice deposits, with an additional 1% on the portion of notice deposits exceeding \$500m. This reserve is required to be maintained in the form of notes and deposits with the Bank of Canada. A secondary reserve of 4% in the form of treasury bills, government bonds, etc., is also required.

There are stock exchanges at Calgary (Alberta Stock Exchange), Montreal, Toronto, Vancouver and Winnipeg.

**Weights and Measures.** The legal weights and measures are in transition from the Imperial to the International system of units. The Metric Commission, established in June 1971, co-ordinates Canada's conversion to the metric system.

**Forestry.** Forestry is of great economic importance, and forestry products (pulp, newsprint, building timber) constitute Canada's most valuable exports. As of 1986, the total area of land covered by forests was estimated at 453.3m. ha, of which 243.7m. ha were classed as productive forest land.

In 1992, 186m. cu. metres of timber were felled, including 171.8m. cu metres of conifers. 6.8m. cu metres were cut for fuel.

**Fur Trade.** In 1991-92, 1,919,025 wild-life and ranch raised pelts valued at \$45,372,131, were taken (1,745,369 pelts in 1990-91). In wild-life pelt production marten led in total value; in fur farm production, mink. In 1995, 917,300 mink pelts were produced from fur farms with a value of \$55.1m. There were, in 1992, 571 fur farms reporting fox and 257 mink.

**Fisheries.** In 1993, the fishing fleet comprised 432 vessels totalling 169,900 GRT.

In 1994, Atlantic landings totalled 719,131 tonnes, Pacific 314,977 tonnes. Fresh-water landings totalled 27,300 tonnes.

Unemployed, Dec. 1996: 1,485 (females, 651).

Average weekly earnings in industry in Oct. 1996 were \$592-64.

In 1995, 1,607,000 working days were lost in industrial disputes.

**Trade Unions.** Union membership in 1994 was 4,077,987 (4,089,000 in 1992), 29-2% of the workforce. 60-8% of the membership was affiliated to the Canadian Labour Congress, 6-3% to the Confédération des Syndicats Nationaux and 4-9% to the Canadian Confederation of Labour. 19-4% of unions were unaffiliated.

It is generally established by legislation, both federal and provincial, that a trade union to which the majority of employees in a unit suitable for collective bargaining belong, is given certain rights and duties. An employer is required to meet and negotiate with such a trade union to determine wage-rates and other working conditions of his employees. The employer, the trade union and the employees affected are bound by the resulting agreement. If an impasse is reached in negotiation conciliation services provided by the appropriate government board are available. Generally, work stoppages do not take place until an established conciliation or mediation procedure has been carried out and are prohibited while an agreement is in effect.

**FOREIGN ECONOMIC RELATIONS.** A North American Free Trade Agreement (NAFTA) between Canada, Mexico and the USA was signed on 7 Oct. 1992 and came into force on 1 Jan. 1994.

## COMMUNICATIONS

**Roads.** The total length of federal and provincial territorial roads and highways at the end of March 1991 was 290,194 km.

In general highways are controlled and maintained by the provinces who also have the responsibility of providing assistance to their municipalities and townships. Federal expenditures are directed largely to the maintenance of national park highways, Indian Reserve roads and designated provincial/territorial highway construction in projects. The Alaska Highway is part of the Canadian highway system.

In 1991 intercity and rural bus services carried 15.3m. passengers 163.6m. vehicle-km, earning \$408.2m.

Registered motor vehicles totalled 17,223,039 in 1991; they included 13,061,084 passenger cars and taxis, 3,679,804 trucks and truck tractors, 64,208 buses and 324,118 motor cycles.

There were 4,210 fatalities in road accidents in 1990.

**Railways.** Canada has 2 great trans-continental systems: The Canadian National Railway system (CN), a body privatized in 1995 which operated 32,500 km (1994) of routes, and the Canadian Pacific Railway (CP), a joint-stock corporation operating 30,039 km (1994). A government-funded organization, VIA Rail, operates passenger services; 3.6m. passengers were carried in 1995. There are several provincial and private railways.

There are metros in Montreal, Toronto and Vancouver, and tram/light rail systems in Calgary, Edmonton and Toronto.

**Civil Aviation.** Civil aviation is under the jurisdiction of the federal government. The technical and administrative aspects are supervised by Transport Canada, while the economic functions are assigned to the National Transportation Agency.

In 1992 Canadian airports handled 40,405,937 revenue passengers on major scheduled services and 675,738,100 kg of cargo. Operating revenue for commercial air carriers (1992) was \$7,459.7m.; operating expenditure, \$7,698.8m.

The 2 major airlines are Air Canada (privatized in July 1989) and Canadian Airlines International. In 1995, Air Canada operated 34 A320-200s, 3 B-747-100s, 3 B-747-200B Combis, 3 B-747-400 Combis, 8 B-767-200s, 14 B-767-200ERs, 1 B-767-300ER, 8 Canadair RJs, 35 DC-9-30s, 1 L-1011-1 and 2 L-1011-100s; Canadian Airlines International, 12 A320-200s, 38 B-737-200 Advs, 1 B-737-200C, 7 B-737-200C Advs, 4 B-747-400s, 11 B-767-300ERs, 5 DC-10-30s and 5 DC-10-30ERs.

A total of 58,820 vessel movements in international shipping at Canadian ports in 1991 loaded and unloaded 234m. tonnes of cargo, totalling a GRT of 605,281,315.

The major canals are those of the St Lawrence–Great Lakes waterway. In 1992, traffic on the Montreal–Lake Ontario Section of the Seaway numbered 2,493 transits carrying 31.4m. cargo tonnes; on the Welland Canal Section, 3,140 transits with 33.2m. cargo tonnes.

The Canadian Radio-Television and Telecommunications Commission is an independent authority established by parliament in 1968 to regulate public and private radio and television. The Canadian Broadcasting Corporation operates 2 national TV networks, one in English and one in French, and there are 3 private TV networks. In 1995, 2,245 cable TV systems delivered programmes to 7.7m. households.

There were 841 originating radio stations operating in 1996, of which 333 were AM and 508 FM. There were also 968 radio rebroadcasters.

## SOCIAL INSTITUTIONS

**Justice.** There is a Supreme Court in Ottawa, having general appellate jurisdiction in civil and criminal cases throughout Canada. The Exchequer Court (established in 1875) was replaced by the Federal Court in 1971. This has a Trial Division, consisting of the Associate Chief Justice and 9 other judges, and an Appeal Division, consisting of the Chief Justice and 3 other judges. Its seat is in Ottawa, but each Division may sit in any place in Canada. Decisions of the Trial Division may be appealed to the Appeal Division, those of the latter to the Supreme Court. There is a Superior Court in each province and county courts, with limited jurisdiction, in most of the provinces, all the judges in these courts being appointed by the Governor-General. Police, magistrates and justices of the peace are appointed by the provincial governments.

For the year ended 31 Dec. 1995, 2,651,058 Criminal Code Offences (excluding traffic) were reported, including 586 homicides. 203,900 cases were heard in Youth Courts.

**Royal Canadian Mounted Police (RCMP).** The RCMP is a civil force maintained by the federal government. Established in 1873 as the North-West Mounted Police, it became 'Royal' in 1904. Its sphere of operations was expanded in 1918 to include all of Canada west of Thunder Bay. In 1920 the force absorbed the Dominion Police, its headquarters was transferred from Regina to Ottawa, and its title was changed to Royal Canadian Mounted Police. The force is responsible to the Solicitor-General of Canada and is controlled by a Commissioner who holds the rank of Deputy Minister. The Commissioner is empowered to appoint peace officers in all the provinces and territories of Canada.

The responsibilities of the RCMP are national in scope. The administration of justice within the provinces, including the enforcement of the Criminal Code of Canada, is the responsibility of provincial governments, but all the provinces except Ontario and Quebec have entered into contracts with the RCMP to enforce criminal and provincial laws under the direction of the respective Attorneys-General. In addition, in these 8 provinces the RCMP is under agreement to provide police services to municipalities. The RCMP is also responsible for all police work in the Yukon and Northwest Territories enforcing federal law and territorial ordinances. The 13 Divisions, alphabetically designated, make up the strength of the RCMP across Canada; they comprise 52 sub-divisions which include 723 detachments. Headquarters Division, as well as the Office of the Commissioner, is located in Ottawa.

Assisting the criminal investigation work of the RCMP is the Directorate of Identification Services; its services, together with those of divisional and sub-divisional units, and of 8 Crime Detection Laboratories, are available to police forces throughout Canada. The Canadian Police Information Centre at RCMP Headquarters, a national computer network, is staffed and operated by the RCMP. Law Enforcement agencies throughout Canada have access via remote terminals to information on stolen vehicles, licences and wanted persons.

In Feb. 1993, the Force had a total strength of 21,311 including regular members, special constables, civilian members and public service employees. It maintained 6,992 motor vehicles, 92 police service dogs and 156 horses.

The Force has 13 divisions actively engaged in law enforcement, 1 Headquarters Division and 1 training division. Marine services are divisional responsibilities and the Force currently has 402 boats at various points across Canada. The Air Direc-

torate has stations throughout the country and maintains a fleet of 21 fixed-wing aircraft and 8 helicopters.

Total police personnel in Canada at the end of 1994 numbered 74,902. Apart from the RCMP, Ontario and Quebec have police forces, as do most municipal centres. In 1995, 9% of police officers were women.

**Education.** Under the Constitution the provincial legislatures have powers over education. These are subject to certain qualifications respecting the rights of denominational and minority language schools. School board revenues derive from local taxation on real property and government grants from general provincial revenue.

In 1996-97 there were 16,096 elementary and secondary public and private schools and 198 community colleges. There were 541,650 children in pre-elementary institutions; 4,969,317 children in elementary and secondary schools with 306,498 teachers; and 388,976 students in community colleges.

Enrolment for Indian and Inuit children, 1992-93: Federal schools, 5,096; band operated schools, 49,426; provincial schools, 44,418; private schools, 1,950.

In 1995-96 there were 48 universities, 1 technical university, 4 university colleges, 10 colleges, 1 Dominican college, 1 college of agriculture, 1 college of art and design, 2 open universities, 2 polytechnics, higher schools of business, public administration, and technology, and institutes of education, microbiology and virology, and scientific research.

In 1996-97 there were 572,179 full-time and 248,231 part-time university students with 36,035 teachers.

**Health.** Constitutional responsibility for health care services rests with the provinces and territories. Accordingly, Canada's national health insurance system consists of an interlocking set of provincial and territorial hospital and medical insurance plans conforming to certain national standards rather than a single national programme. These national standards, which are set out in the Canada Health Act, include: Provision of a comprehensive range of hospital and medical benefits; universal population coverage; access to necessary services on uniform terms and conditions; portability of benefits; and public administration of provincial and territorial insurance plans.

Provinces and territories satisfying these national standards are eligible for federal financial transfer payments. The provinces and territories are entitled to receive equal-per-capita federal health contributions escalated annually by the 3-year average increase in nominal GNP. These federal contributions, estimated at \$3,734m. in 1993-94, are paid in the form of a combination of tax point and cash transfers. Over and above these health transfers, the federal government also provides financial support for such provincial and territorial extended health care service programmes as nursing home care, certain home care services, ambulatory health care services and adult residential care services. These supplementary equal-per-capita cash payments are estimated at \$1,475m. in 1993-94.

The national health insurance programmes were introduced in stages. The Hospital Insurance and Diagnostic Services Act was passed in 1957, providing prepaid coverage to all Canadians for in-patient and, at the option of each province and territory, out-patient hospital services. The Medical Care Act was introduced in 1966 to extend universal coverage to all medically-equipped services provided by medical practitioners. The Canada Health Act, which took effect 1 April 1984, consolidated the original federal health insurance legislation and clarified the national standards provinces and territories are required to meet in order to qualify for full federal health contributions.

The approach taken by Canada is one of state-sponsored health insurance. Accordingly, the advent of insurance programmes produced little change in the ownership of hospitals, almost all of which are owned by non-government non-profit corporations, or in the rights and privileges of private medical practice. Patients are free to choose their own general practitioner. Except for a small percent of the population whose care is provided for under other legislation (such as serving members of the Canadian Armed Forces and inmates of federal penitentiaries), all residents are eligible, regardless of whether they are in the work force. Benefits are available without upper limit so long as they are medically necessary, provided any registration obligations are met.

In addition to the benefits qualifying for federal contributions, provinces and territories provide additional benefits at their own discretion. Most fund their portion of health costs out of general provincial and territorial revenues. There are no co-charges for medically necessary short-term hospital care or medical care. Most provinces and territories have charges for long-term chronic hospital care geared, approximately, to the room and board portion of this OAS-GIS payment mentioned under Social Welfare. In 1991, total health expenditures were about \$66.77m., representing 10.2% of GNP. Public sector spending accounts for about 72.2% of total national health expenditure.

**Social Welfare.** The social security system provides financial benefits and social services to individuals and their families through a variety of programmes administered by federal, provincial and municipal governments, and voluntary organizations. Federally, Human Resources and Labour is responsible for research into the areas of social issues, provision of grants and contributions for various social services, and the administration of several income security programmes. These services are: The Old Age Security programme, introduced in 1952 and to which were added the Guaranteed Income Supplement in 1967 and the Spouse's Allowance in 1975; and the Canada Pension Plan and Canada Assistance Plan which came into being in 1966.

The Old Age Security (OAS) pension is payable to persons 65 years of age and over who satisfy the residence requirements stipulated in the Old Age Security Act. The amount payable, whether full or partial, is also governed by stipulated conditions, as is the payment of an OAS pension to a recipient who absents himself from Canada. OAS pensioners with little or no income apart from OAS may, upon application, receive a full or partial supplement known as the Guaranteed Income Supplement (GIS). Entitlement is normally based on the pensioner's income in the preceding year, calculated in accordance with the Income Tax Act. The spouse of an OAS pensioner, aged 60 to 64, meeting the same residence requirements as those stipulated for OAS, may be eligible for a full or partial Spouse's Allowance (SPA). SPA is payable, on application, depending on the annual combined income of the couple (not including the pensioner spouse's basic OAS pension or GIS). In 1979, the SPA programme was expanded to include a spouse, who is eligible for SPA in the month the pensioner spouse dies, until the age of 65 or until remarriage (Extended Spouse's Allowance). Since Sept. 1985, SPA has also been available to low income widow(er)s aged 60-64 regardless of the age of their spouse at death. For the third quarter of 1993, the basic OAS pension was \$383.51 monthly; the maximum Guaranteed Income Supplement was \$455.76 monthly for a single pensioner or a married pensioner whose spouse was not receiving a pension or a Spouse's Allowance, and \$296.87 monthly for each spouse of a married couple where both were pensioners. The maximum Spouse's Allowance for the same

quarter was \$680.38 monthly (equal to the basic pension plus the maximum GIS married rate), and \$751.13 for widow(er)s. Total OAS/GIS/SPA benefit expenditures for 1991-92 were \$18,921m.; in July 1992, over 3m. Canadians received benefits through these programmes.

The Canada Pension Plan (CPP) is designed to provide workers with a basic level of income protection in the event of retirement, disability or death. Benefits may be payable to a contributor, a surviving spouse or an eligible child. As of 1 Jan. 1992, payment of actuarially adjusted retirement benefits may begin as early as age 60 or as late as age 70. Benefits are determined by the contributor's earnings and contributions made to the Plan. Contribution is compulsory for most employed and self-employed Canadians 18 to 65 years of age. The CPP does not operate in Quebec, which has exercised its constitutional prerogative to establish a similar plan. In 1993, the maximum retirement pension payable under CPP was \$667.36, the maximum disability pension was \$812.85, and the maximum surviving spouse's pension was \$400.42 (for survivors 65 years of age and over). For survivors under 65 years of age CPP pays a reduced flat rate. In 1993 CPP was funded by equal contributions of 2.5% of pensionable earnings from the employer and 2.5% from the employee (self-employed persons contribute the full 5%), in addition to the interest on the investment of excess funds. In 1993, the range of yearly pensionable earnings was from \$3,300 to \$33,400; a person who earned and contributed at less than the maximum level receives monthly benefits at rates lower than the maximum allowable under CPP. In July 1993, over 3.8m. Canadians received Canada or Quebec Pension Plan benefits. Total expenditures in 1992-93 for CPP were about \$13,100m.

Social security agreements co-ordinate the operation of the Old Age Security and the CPP with the comparable social security programmes of certain other countries.

The Federal Government passed legislation in Nov. 1992, which replaced the Family Allowances programme with a new Child Tax Benefit, administered jointly by Human Resources and Labour and Revenue Canada. The programme delivered Canada its first payments in Jan. 1993.

## CANADIAN PROVINCES

The 10 provinces have each a separate parliament and administration, with a Lieut.-Governor, appointed by the Governor-General in Council at the head of the executive. They have full powers to regulate their own local affairs and dispose of their revenues, provided only they do not interfere with the action and policy of the central administration. Among the subjects assigned exclusively to the provincial legislatures are: The amendment of the provincial constitution, except as regards the office of the Lieut.-Governor; property and civil rights; direct taxation for revenue purposes; borrowing; management and sale of Crown lands; provincial hospitals, reformatories, etc.; shop, saloon, tavern, auctioneer and other licences for local or provincial purposes; local works and undertakings, except lines of ships, railways, canals, telegraphs, etc., extending beyond the province or connecting with other provinces, and excepting also such works as the Canadian Parliament declares are for the general good; marriages, administration of justice within the province; education. On 18 July 1994 the federal and provincial governments signed an agreement easing inter-provincial barriers on government procurement, labour mobility, transport licences and product standards. Federal legislation of Dec. 1995 grants provinces a right of constitutional veto.

For the administration of the 2 territories *see* Northwest Territories, Yukon Territory *below*.

<sup>1</sup> Excludes data from incompletely enumerated Indian reserves and Indian settlements.

<sup>2</sup> Comparison of the 1991 census data with data from earlier censuses is affected by a change in the definition of the 1991 census population. Persons in Canada on student authorizations, Minister's permits, and as refugee claimants were enumerated in the 1991 census but not in previous censuses. These persons are referred to as non-permanent residents.

<sup>3</sup> For data on the new territory of Nunavut in course of formation *see* NORTHWEST TERRITORIES: Constitution and Government.

**Local Government.** Under the terms of the British North America Act the provinces are given full powers over local government. All local government institutions are, therefore, supervised by the provinces, and are incorporated and function under provincial acts.

The acts under which municipalities operate vary from province to province. A municipal corporation is usually administered by an elected council headed by a mayor or reeve, whose powers to administer affairs and to raise funds by taxation and other methods are set forth in provincial laws, as is the scope of its obligations to, and on behalf of, the citizens. Similarly, the types of municipal corporations, their official designations and the requirements for their incorporation vary between provinces. The following table sets out the classifications as at the 1991 census:

**Justice.** The administration of justice within the provinces, including the enforcement of the Criminal Code of Canada, is the responsibility of provincial governments, but all the provinces except Ontario and Quebec have entered into contracts with the Royal Canadian Mounted Police (RCMP) to enforce criminal and provincial law. In addition, in these 8 provinces the RCMP is under agreement to provide police services to municipalities.

## ALBERTA

**KEY HISTORICAL EVENTS.** The southern half of the province of Alberta was part of Rupert's land which was granted by royal charter in 1670 to the Hudson's Bay Company. The intervention by the North West Company in the fur trade after 1783 led to the establishment of trading posts. In 1869 Rupert's land was transferred from the Hudson's Bay Company (which had absorbed its rival in 1821) to the new Dominion, and in the following year this land was combined with the former Crown land of the North Western Territories to form the Northwest Territories.

In 1882 'Alberta' first appeared as a provisional 'district', consisting of the southern half of the present province. In 1905 the Athabasca district to the north was added when provincial status was granted to Alberta.

**TERRITORY AND POPULATION.** The area of the province is 661,185 sq. km; 644,389 sq. km being land area and 16,796 sq. km water area. The population (estimate 1 July 1992) was 2,565,200; the urban population (1991), centres of 1,000 or over, was 2,030,893 and the rural 514,660. Population (4 July 1991) of the 16 cities (*see below under Local Government for definition*): Calgary, 710,677; Edmonton, 616,741; Lethbridge, 60,974; Red Deer, 58,134; Medicine Hat, 43,265; St Albert, 42,146; Fort McMurray, 34,706; Grande Prairie, 28,271; Leduc, 13,970; Camrose, 13,420; Spruce Grove, 12,884; Fort Saskatchewan, 12,078; Airdrie, 12,456; Lloydminster (Alberta portion), 10,042; Wetaskiwin, 10,634; Drumheller, 6,277.

Vital statistics, *see* CANADA: Territory and Population.

**CLIMATE.** A continental climate: Long, cold winters and mild summers. Rain-fall amounts are greatest between May and Sept. Edmonton. Jan. 5°F (-15°C), July 63°F (17°C). Annual rainfall 13.6" (345.6 mm).

**CONSTITUTION AND GOVERNMENT.** The constitution of Alberta is contained in the British North America Act of 1867, and amending Acts; also in the Alberta Act of 1905, passed by the Parliament of the Dominion of Canada, which created the province out of the then Northwest Territories. All the provisions of the British North America Act, except those with respect to school lands and the public domain, were made to apply to Alberta as they apply to the older provinces of Canada. On 1 Oct. 1930 the natural resources were transferred from the Dominion to provincial government control. The province is represented by 6 members in the Senate and 26 in the House of Commons of Canada.

The executive is vested nominally in the Lieut.-Governor, who is appointed by the federal government, but actually in the Executive Council or the Cabinet of the legislature. Legislative power is vested in the Assembly in the name of the Queen.

Members of the Legislative Assembly are elected by the universal vote of adults over the age of 18 years.

There are 83 members in the legislature (elected 15 June 1993): 51 Progressive Conservative, 32 Liberal.

*Lieut.-Governor:* H. A. Olson.

*Flag:* Blue with the shield of the province in the centre.

The members of the Ministry were as follows in Feb. 1997:

*Premier, President of Executive Council, Minister of Federal and Intergovernmental Affairs:* Hon. Ralph Klein (b. 1942; Progressive Conservative).

*Minister of Advanced Education and Career Development:* Jack Ady. *Energy:* Pat Black. *Family and Social Services, Aboriginal Affairs, Government House Leader:* Stockwell Day. *Provincial Treasurer:* Jim Dinning. *Environmental Protection:* Ty Lund. *Health:* Halvar Jonson. *Community Development:* Shirley McClellan. *Without portfolio responsible for Science and Research:* Dianne Mirosh. *Agriculture, Food and Rural Development:* Walter Paszkowski. *Federal and Intergovernmental Affairs:* Ken Rostad. *Municipal Affairs and Housing:* Tom Thurber. *Transportation and Utilities:* Robert Fischer. *Economic Development and Tourism:* Stephen West. *Justice and Attorney-General:* Brian Evans. *Education:* Gary Mar. *Labour:* Murray Smith. *Public Works, Supplies and Services:* Stan Woloshyn. *Without portfolio responsible for Children's Services:* Pearl Calahasen.

**Local Government.** The local government units are City, Town, New Town, Village, Summer Village, County, Municipal District and Improvement District.

There are 16 cities (*see* TERRITORY AND POPULATION, *above*). These cities operate under the Municipal Government Act. The governing body consists of a mayor and a council of from 6 to 20 members. A city can be incorporated by order of the Lieut.-Governor-in-Council. A population of 10,000 is required on incorporation.

There are no limits of area specified in the statutes for any of the different local government units. The population requirement for a Town as specified in the Municipal Government Act is 1,000 people, and the area at incorporation is that of the original village.

A Village must contain 75 separate and occupied dwellings. The Municipal Government Act requires each dwelling to have been occupied continuously for a period of at least 6 months. A Summer Village must contain 50 separate dwellings.

A rural county area is an area incorporated through an order of the Lieut.-Governor-in-Council under the provisions of the County Act. One board of councillors deal with both municipal and school affairs.

A rural Municipal District is an area which has been incorporated under the Municipal Government Act. In Municipal Districts separate boards control municipal and school affairs.

Areas not incorporated as counties or Municipal Districts are termed Improvement Districts or Special Areas. Sparsely populated, such districts are administered and taxed by the Department of Municipal Affairs of the provincial government.

There are no requirements as to the minimum number of residents of a County or Municipal District.

**FINANCE.** The budgetary revenue and expenditure (in \$1m.) for years ending 31 March were as follows:

## ENERGY AND NATURAL RESOURCES

**Oil.** In 1991, 72,178,000 cu. metres of crude oil were produced with gross sales value of \$8,783.9m. Alberta produced 80% of Canada's crude petroleum output in 1988.

Oil sands underlie some 60,000 sq. km of Alberta, the 4 major deposits being: The Athabasca, Cold Lake, Peace River and Buffalo Head Hills deposits. Some 7% (3,250 sq. km) of the Athabasca deposit can be exploited through open-pit mining. The rest of the Athabasca, and all the deposits in the other areas, are deeper reserves which must be developed through in situ techniques. These reserves reach depths of 760 metres.

Two oil sands mining plants in the Fort McMurray area produced 13.2m. cu. metres of synthetic crude oil in 1991.

**Gas.** Natural gas is found in abundance in numerous localities. In 1991, 85,203m. cu. metres valued at \$4,306.5m. were produced. Production of natural gas by-products was 22,486,000 cu. metres, valued at \$2,120m.

**Minerals.** Coal reserves are estimated at 2,300,000m. tonnes, of which 720,000m. tonnes are recoverable. Production (1991) 32.35m. tonnes valued at \$541.1m.

Value of total mineral production decreased from \$19,110.4m. in 1990 to \$16,147.7m. in 1991.

Number of farms (1991) 57,245.

For particulars of agricultural production and livestock *see* CANADA: Agriculture. Farm cash receipts in 1991 totalled \$4,210.3m., of which crops contributed \$1,526.1m., livestock and products, \$2,245.2m., and direct payments, \$439m.

**Forestry.** Forest land in 1991 covered some 203,000 sq. km. In 1990-91 9,326,603 cu. metres were cut from land managed by the Crown.

**Fisheries.** The largest catch in commercial fishing is whitefish. Perch, tullibee, walley, pike and lake trout are also caught in smaller quantities. In 1984 a provincial fish marketing policy was implemented and a new commercial fishery licensing system was implemented in 1987. Commercial fish production in 1990-91 was 2,210 tonnes, value \$2.49m.

**INDUSTRY.** The leading manufacturing industries are food and beverages, petroleum refining, metal fabricating, wood industries, primary metal, chemical and chemical products and non-metallic mineral products industries. There were in 1987 2,590 manufacturing establishments, in which were employed 78,220 persons, who earned in salaries and wages \$2,278,685,000.

Manufacturing shipments had a total value of \$19,278,590m. in 1991. Chief among these shipments were: Food, \$4,350.7m.; beverages, 348.6; chemicals and chemical products, \$3,209.8m.; refined petroleum and coal products, \$3,336.1m.; primary metals, \$861.8m.; fabricated metal products, \$1,052.1m.; wood, \$840.8m.; printing, publishing and allied products, \$760.7m.; machinery, \$831.2m.; paper and

allied products, \$911.7m.; non-metal mineral products, \$706.8m.; furniture and fixtures, \$213.4m.; other, \$258.7m.

Total retail sales (1991) \$18,950m.

Tourism is important and in 1991 contributed an estimated \$2,770m. to the economy.

## COMMUNICATIONS

**Roads.** In 1992 there were 155,325 km of roads and highways, including 110,555 km gravelled and 21,208 km paved.

At 31 March 1992 there were 1,875,212 motor vehicles registered, including 1,467,732 passenger cars.

## SOCIAL INSTITUTIONS

**Justice.** The Supreme Judicial authority of the province is the Court of Appeal. Judges of the Court of Appeal and Court of Queen's Bench are appointed by the Federal Government and hold office until retirement at the age of 75. There are courts of lesser jurisdiction in both civil and criminal matters. The Court of Queen's Bench has full jurisdiction over civil proceedings. A Provincial Court which has jurisdiction in civil matters up to \$2,000 is presided over by provincially appointed judges. Youth Courts have power to try boys and girls 12–17 years old inclusive for offences against the Young Offenders Act.

The jurisdiction of all criminal courts in Alberta is enacted in the provisions of the Criminal Code. The system of procedure in civil and criminal cases conforms as nearly as possible to the English system.

**Education.** Schools of all grades are included under the term of public school (including those in the separate school system which are publicly supported). The same board of trustees controls the schools from kindergarten to university entrance. In 1991–92 there were 481,843 pupils enrolled in grades 1–12, including private schools and special education programmes. The University of Alberta (in Edmonton), organized in 1907, had, in 1991–92, 34,050 full-time students; the University of Calgary, formerly part of the University of Alberta and autonomous from April 1966, had 17,881 and the University of Lethbridge, organized in 1966, had 3,659. The Athabasca University had in 1991–92, 11,500 part-time students. Banff Centre for Continuing Education had in 1991–92, 1,130 part-time students. ## BRITISH COLUMBIA

**KEY HISTORICAL EVENTS.** Vancouver Island was organized as a colony in 1849; the mainland as far as the watershed of the Rocky Mountains was

organized as a colony following a gold rush on the Fraser River in 1859. The two were united as the colony of British Columbia in 1866; this became a Canadian Province in 1871.

**TERRITORY AND POPULATION.** British Columbia has an area of 952,263 sq. km. The capital is Victoria. The province is bordered westerly by the Pacific Ocean and Alaska Panhandle, northerly by the Yukon and Northwest Territories, easterly by the Province of Alberta and southerly by the USA along the 49th parallel. A chain of islands, the largest of which are Vancouver Island and the Queen Charlotte Islands, affords protection to the mainland coast.

The 1991 census population was 3,282,061.

The principal cities and their 1991 census populations are as follows: Metropolitan Vancouver, 1,602,502; Metropolitan Victoria, 287,897; Kelowna, 75,950; Prince George, 69,653; Matsqui, 68,064; Kamloops, 67,057; Nanaimo, 60,129; Chilliwack, 50,228; Penticton, 27,258; Mission, 26,202; Vernon, 23,514; North Cowichan, 21,373; Campbell River, 21,175; Abbotsford, 18,864; Port Alberni, 18,403.

Vital statistics, *see* CANADA: Territory and Population.

**CLIMATE.** The climate is cool temperate, but mountain influences affect temperatures and rainfall very considerably. Driest months occur in summer. Vancouver. Jan. 36°F (2.2°C), July 64°F (17.8°C). Annual rainfall 58" (1,458 mm).

**CONSTITUTION AND GOVERNMENT.** British Columbia (then known as New Caledonia) originally formed part of the Hudson's Bay Company's concession. In 1849 Vancouver Island and in 1858 British Columbia were constituted Crown Colonies; in 1866 the two colonies amalgamated. The British North America Act of 1867 provided for eventual admission into Canadian Confederation, and on 20 July 1871 British Columbia became the sixth province of the Dominion.

British Columbia has a unicameral legislature of 75 elected members. Government policy is determined by the Executive Council responsible to the Legislature. The Lieut.-Governor is appointed by the Governor-General of Canada, usually for a term of 5 years, and is the head of the executive government of the province.

*Lieut.-Governor:* His Honour the Hon. Garde B. Gardom, QC.

The Legislative Assembly is elected for a maximum term of 5 years. There are 75 electoral districts. Every Canadian citizen 18 years and over, having resided a minimum of 6 months in the province, duly registered, is entitled to vote. The province is represented in the Federal Parliament by 32 members in the House of Commons, and 6 Senators.

At the Legislative Assembly elections of 28 May 1996 the New Democratic Party (NDP) gained 39% of votes cast and 39 seats, the Liberal Party gained 33 seats, the Reform Party 2 seats and the Progressive Democratic Alliance 1.

The 14-member NDP Executive Council comprised in Dec. 1996:

*Premier and President of the Executive Council, and Minister Responsible for Youth:* Hon. Glen Clark.

*Deputy Premier and Minister of Employment and Investment, and Municipal Affairs and Housing:* Hon. Dan Miller. *Aboriginal Affairs:* Hon. John Cashore. *Agriculture, Fisheries and Food:* Hon. Corky Evans. *Attorney General and Minister responsible for Multiculturalism, Human Rights and Immigration:* Hon. Ujjal Dosanjh. *Education, Skills, Training and Labour:* Hon. Moe Sihota. *Environment, Lands and Parks:* Hon. Paul Ramsey. *Finance and Corporate Relations and Minister responsible for Intergovernmental Relations:* Hon. Andrew Petter. *Forests:* Hon. David Zirnelt. *Health and Minister responsible for Seniors:* Hon. Joy MacPhail. *Small Business, Tourism and Culture:* Hon. Penny Priddy. *Social Services:* Hon. Dennis Streifel. *Transportation and Highways:* Hon. Lois Boone. *Women's Equality:* Hon. Sue Hammell.

*Local Government.* Vancouver City was incorporated by statute and operates under the provisions of the Vancouver Charter of 1953 and amendments. This is the only

incorporated area in British Columbia not operating under the provisions of the Municipal Act. Under this Act municipalities are divided into the following classes: (a) a village with a population between 500 and 2,500, governed by a council consisting of a mayor and 4 aldermen; (b) a town with a population between 2,500 and 5,000, governed by a council consisting of a mayor and 4 aldermen; (c) a city where the population exceeds 5,000 governed by a council consisting of a mayor and 6 or 8 aldermen depending on population; (d) a district where the area exceeds 810 hectares and the average density is less than 5 persons per hectare, governed by a council consisting of a mayor and 6 or 8 aldermen depending on population; (e) an Indian government district.

There are 2 other forms of local government: The Regional District covering a number of areas both incorporated and unincorporated, governed by a board of directors; and the improvement district governed by a board of 3 trustees.

Revenue for municipal services is derived mainly from real-property taxation, although additional revenue is derived from licence fees, business taxes, fines, public utility projects and grants-in-aid from the provincial government.

Passenger service is provided by VIA Rail, a Crown Corporation and the publicly owned British Columbia Railway. In 1995 the American company Amtrak began operating a service between Seattle and Vancouver after a 14-year hiatus. British Columbia is also served by the freight trains of the B.C. Hydro and Power Authority, the Northern Alberta Railways Company and the Burlington Northern and Southern Railways Inc. The combined route-mileage of mainline track operated by the CPR, CNR and BCR totals 6,800 km. The system also includes CPR and CNR wagon ferry connections to Vancouver Island, between Prince Rupert and Alaska, and interchanges with American railways at southern border points. A metro line was opened in Vancouver in 1986 (29 km). A commuter rail service linking Vancouver and the Fraser Valley was established in 1995 (69 km).

**Civil Aviation.** International airports are located at Vancouver and Victoria. Daily interprovincial and intraprovincial flights serve all main population centres. Small public and private airstrips are located throughout the province. Total passenger arrivals and departures on scheduled services (1994) 10.8m.

## MANITOBA

**KEY HISTORICAL EVENTS.** The Hudson's Bay Company formed a colony on the Red River in 1812, which was part of territory annexed to Canada in 1870. The Metis colonists (part-Indian, mostly French-speaking, Catholic) objected to the arrangements for the purchase of the Company territory by Canada and the province of Manitoba was created to accommodate them. It was extended northwards and westwards in 1881 and to Hudson Bay in 1912.

**TERRITORY AND POPULATION.** The area of the province is 250,946 sq. miles (649,947 sq. km), of which 211,721 sq. miles are land and 39,225 sq. miles water. From north to south it is 1,225 km and at the widest point it is 793 km.

In 1995 the estimated population was 1,131,100. Population (estimate 1991) of Winnipeg, the capital, 652,355; other principal cities: Brandon, 38,567; Thompson, 14,977; Portage la Prairie, 13,186; Flin Flon, 7,119.

Vital statistics *see* CANADA: Area and Population.

**CLIMATE.** The climate is cold continental, with very severe winters but pleasantly warm summers. Rainfall amounts are greatest in the months May to Sept. Winnipeg. Jan. -3°F (-19.3°C), July 67°F (19.6°C). Annual rainfall 21" (539 mm).

**CONSTITUTION AND GOVERNMENT.** Manitoba was known as the Red River Settlement before its entry into the Dominion in 1870. The provincial government is administered by a *Lieut.-Governor* assisted by an *Executive Council* (Cabinet) which is appointed from and responsible to a *Legislative Assembly* of 57 members elected for 5 years. Women were enfranchised in 1916. The Electoral Division Act, 1955, created 57 single-member constituencies and abolished the transferable vote. There are 28 rural electoral divisions, and 29 urban electoral divisions. The province is represented by 6 members in the Senate and 14 in the House of Commons of Canada.

*Lieut.-Governor:* Yvon Dumont (appointed 1993).

*Flag:* The British Red Ensign with the shield of the province in the fly.

Elections to the Legislative Assembly were held on 25 April 1995: the Progressive Conservative Party gained 31 seats, the New Democratic Party, 20 and the Liberal Party, 7.

The members of the Progressive Conservative Ministry in Oct. 1996 were:

*Premier, President of the Executive Council, Minister of Federal-Provincial Relations:* Gary Albert Filmon.

*Deputy-Premier, Minister of Industry, Trade and Tourism:* James Erwin Downey. *Family Services:* Bonnie Mitchelson. *Natural Resources:* Albert Driedger. *Education and Training:* Linda McIntosh. *Culture, Heritage and Recreation:* Harold Gilleshammer. *Finance:* Eric Stefanson. *Highways and Transportation:* Glen Findlay. *Justice:* Rosemary Vodrey. *Consumer and Corporate Affairs:* James A. **Local Government.** Rural Manitoba is organized into rural municipalities which vary widely in size. Some have only 4 townships (a township is 6 sq. miles), while the largest has 22 townships. The province has 106 rural municipalities, as well as 36 incorporated towns, 38 incorporated villages and 5 incorporated cities.

On 1 Jan. 1972, the cities and towns comprising the metropolitan area of Winnipeg were amalgamated to form the City of Winnipeg. A mayor and council are elected to a central government, but councillors also sit on 'community committees' which represent the areas or wards they serve. These committees are advised by non-elected residents of the area on provision of municipal services within the community committee jurisdiction. Taxing powers and overall budgeting rest with the central council. The mayor is elected at the same time as the councillors in a city-wide vote. Revisions to the City of Winnipeg Act came into effect with the municipal elections held in Oct. 1977.

Since Jan. 1945, 17 Local Government Districts have been formed in the less densely populated areas of the province. They are administered by a provincially appointed person, who acts on the advice of locally elected councils.

In the extreme north, many communities have locally elected councils, while others are administered directly by the Department of Northern Affairs. This department provides most of the funding in all these northern settlements.

**FINANCE.** Provincial revenue and expenditure (current account) for fiscal years ending 31 March (in Canadian \$1m.):

**Oil.** Crude oil production in 1995 was valued at \$90.3m.

**Minerals.** Total value of mineral production in 1995 was about \$1,032m. Principal minerals mined are nickel, zinc, copper, and small quantities of gold and silver.

**Agriculture.** Rich farmland is the main primary resource, although the area in farms is only about 14% of the total land area. In 1996 the total value of agricultural production was (estimated) \$2,376m., with \$1,410m. from crops, \$966m. from livestock.

**Forestry.** About 51% of the land area is wooded, of which 334,460 sq. km is productive forest land. Total sales of wood-using industries (1996, estimate) \$138.1m.

## INDUSTRY AND TRADE

**Industry.** Manufacturing, the largest industry in the province, encompasses almost every major industrial activity in Canada. Estimated exports in 1995 totalled \$5,456m. Manufacturing employed about 62,000 persons in 1995. Due to the agricultural base of the province, the food and beverage group of industries is by far the largest, valued at \$1,851m. in 1995. The next largest segments are transportation equipment, \$1,022.9m., primary metals, \$654.3m. and electric, \$286.1m.

## NEW BRUNSWICK

**KEY HISTORICAL EVENTS.** Touched by Jacques Cartier in 1534, New Brunswick was first explored by Samuel de Champlain in 1604. It was ceded by the French in the Treaty of Utrecht in 1713 and became a permanent British possession in 1763. It was separated from Nova Scotia and became a province in June 1784, as a result of the great influx of United Empire Loyalists. Responsible government came into being in 1848, and consisted of an executive council, a legislative council (later abolished) and a House of Assembly.

**TERRITORY AND POPULATION.** The area of the province is 28,354 sq. miles (73,440 sq. km), of which 27,834 sq. miles (72,090 sq. km) are land area. The population (census 1991) was 723,900. Estimate (1996) 762,501. Of the individuals identifying a single ethnic origin (at the 1991 census), 33% were British and 32.8% French. Other significant ethnic groups were German, Dutch and Scandinavian. Among those who provided a multiple response 9.2% were of British and French descent and 5.4% British and other. **Local Government.** Under the reforms introduced in 1967 the province has assumed complete administrative and financial responsibility for education, health, welfare and administration of justice. Local government is now restricted to provision of services of a strictly local nature. Under the new municipal structure, units include existing and new cities, towns and villages. Counties have disappeared as municipal units. Areas with limited populations have become local service districts. The former local improvement districts have become towns, villages or local service districts depending on their size.

**FINANCE.** The ordinary budget (in Canadian \$1m.) is shown as follows (financial years ended 31 March):

	1992	1993	1994	1995
Gross revenue	3,762.3	3,994.3	4,022.9	4,293.9
Gross expenditure	3,947.6	4,266.0	4,272.9	4,357.9

Funded debt and capital loans outstanding (exclusive of Treasury Bills) as of 31 March 1995 was \$6,288.8m. Sinking funds held by the province at 31 March 1995, \$1,921.8m. The ordinary budget excludes capital spending.

## ENERGY AND NATURAL RESOURCES

**Electricity.** Hydro-electric, thermal and nuclear generating stations of NB Power had an installed capacity of 4,116 MW at 31 March 1996, consisting of 15 generating stations. The Mactaquac hydroelectric development near Fredericton has a name plate capacity of 672 MW. The largest thermal generating station, Coleson Cove, near Saint John, has 1,006 MW of installed capacity. Atlantic Canada's first nuclear generating station, a 635 MW plant on a promontory in the Bay of Fundy, near Saint John, went into operation in 1983. New Brunswick is electrically interconnected with utilities in neighbouring provinces of Quebec, Nova Scotia and Prince Edward Island, as well as the New England States of the USA. The sale of out-of-province power accounted for 18.4% of revenue in 1995-96. Total revenue amounted to \$1,018.1m.

**Minerals.** In 1995, approximately 17 different metals, minerals and commodities were produced. These included lead, zinc, copper, cadmium, bismuth, gold, silver, antimony, potash, salt, lime, stone, gas, coal, sand and gravel, clay, peat and marl. The total value of minerals produced in 1995 reached \$1,002m. The top 3 contributors to mineral production are zinc, silver and lead, accounting for 61.3% of total value in 1995. In Canada in 1995, New Brunswick ranked first in the production of bismuth, zinc, and lead, second in antimony and silver, and fifth in the production of copper. Brunswick Mining operates 2 zinc-lead-copper mines, Brunswick and Heath Steele, which together represent over one-half of total Provincial mining production. Potash production continues at 2 mines near Sussex. Not all of the province's minerals have been explored sufficiently and research continues. The Geological Survey of Canada and the New Brunswick Department of Natural Resources and Energy plan to commit \$6.8m. over 5 years in exploration of the eastern part of the province.

**Agriculture.** The total area under crops is estimated at 122,247 ha. Farms numbered 3,252 and averaged 116 ha each (census 1991). Potatoes account for 22.3% of total farm cash income. Mixed farming is common throughout the province. Dairy farming is centred around the larger urban areas, and is located mainly along the Saint John River Valley and in the south-eastern sections of the province. Income from dairy products provides 20.9% of farm cash income. New Brunswick is self-sufficient in fluid milk and supplies a processing industry. For particulars of agricultural production and livestock, see CANADA: Agriculture. Farm cash receipts in 1995 were \$295.9m.

**Forestry.** New Brunswick contains some 61,000 sq. km of productive forest lands. The value of manufacturing shipments for the wood related industries in 1995 was \$2,922m., representing 38.2% of total shipments in the province. The paper and allied industry group is the largest component of the industry, contributing 71.5%

of forestry output. In 1995 wood industries employed about 16,182 people for all aspects of the forest industry, including harvesting, processing and transportation. Practically all forest products are exported from the province's numerous ports and harbours near which many of the mills are located or sent by road or rail to the USA.

**Fisheries.** Commercial fishing is one of the most important primary industries of the province, in 1995 employing 9,082. Nearly 50 commercial species of fish and shellfish are landed, including scallop, shrimp, crab, herring and cod. Landings in 1995 (127,452 tonnes) amounted to \$188.1m. In 1996 there were 130 fish processing plants employing an average of 6,870 people. In 1995 molluscs and crustaceans ranked first with a value of \$165.6m., 88% of the total landed value; pelagic fish second, 10.6%, and groundfish third, 0.9%. Exports (1995) \$464.1m., mainly to the USA and Japan.

**INDUSTRY.** In 1996 there were 1,461 manufacturing and processing establishments, employing on average 42,700 persons. New Brunswick's location, with deepwater harbours open throughout the year and container facilities at Saint John, makes it ideal for exporting. Industries include food and beverages, paper and allied industries, and timber products. Nearly 20% of the industrial labour force work in Saint John.

**TOURISM.** Tourism is one of the leading contributors to the economy. In 1995, tourism revenues reached an all time high of \$726m.

## COMMUNICATIONS

**Roads.** There are 1,541.9 km of arterial highways and 2,381.7 km of collector roads, all hard-surfaced, and 12,279.9 km of local roads provide access to most areas. The main highway system, including 596.4 km of the Trans-Canada Highway, links the province with the principal roads in Quebec, Nova Scotia, and Prince Edward Island, as well as the Interstate Highway System in the eastern seaboard states of the USA. Passenger vehicles, 31 March 1995, numbered 328,112; commercial vehicles, 181,506; motor cycles, 9,963.

**Railways.** New Brunswick is served by main lines of both Canadian Pacific and Canadian National railways.

**Telecommunications.** In 1994 the New Brunswick Telephone Co. Ltd had 502,584 access lines in service. The province is served by 27 radio stations. 14 are privately owned and 4 owned by the Canadian Broadcasting Corporation, 3 are university stations and 6 community stations. 10 stations broadcast in French, 3 are bilingual and the CBC International Service broadcasts in several languages from its station at Sackville. The province is served by 6 television stations, 2 of which broadcast in French.

**Press.** New Brunswick had (1996) 4 daily newspapers, 1 in French, and 18 weekly newspapers, 3 in French and 3 bilingual.

**EDUCATION.** Public education is free and non-sectarian. There are 4 universities. The University of New Brunswick at Fredericton (founded 13 Dec. 1785 by the Loyalists, elevated to university status in 1823, reorganized as the University of New Brunswick in 1859) had 7,906 full-time students at the Fredericton campus and 1,948 full-time students at the Saint John campus (1995-96); Mount Allison University at Sackville had 2,279 full-time students; the Université de Moncton at Moncton, 4,139 full-time students, with 498 and 599 full-time students respectively at its satellite campuses at Shippegan and Edmundston; St Thomas University at Fredericton, 1,883 full-time students.

## NEWFOUNDLAND AND LABRADOR

**KEY HISTORICAL EVENTS.** Archaeological finds at L'Anse-au-Meadow in northern Newfoundland show that the Vikings had established a colony there at about A.D. 1000. This site is the only known Viking colony in North America. Newfoundland was discovered by John Cabot 24 June 1497, and was soon frequented in the summer months by the Portuguese, Spanish and French for its fisheries. It was formally occupied in Aug. 1583 by Sir Humphrey Gilbert on behalf of the English Crown, but various attempts to colonize the island remained unsuccessful. Although British sovereignty was recognized in 1713 by the Treaty of Utrecht, disputes over fishing rights with the French were not finally settled till 1904. By the Anglo-French Convention of 1904, France renounced her exclusive fishing rights along part of the coast, granted under the Treaty of Utrecht, but retained sovereignty of the offshore islands of St Pierre and Miquelon.

**TERRITORY AND POPULATION.** Area, 143,501 sq. miles (371,690 sq. km) of which freshwater, 13,139 sq. miles (34,030 sq. km). In March 1927 the Privy Council decided the boundary between Canada and Newfoundland in Labrador. This area, now part of the Province of Newfoundland and Labrador, is 102,699 sq. miles. The coastline is extremely irregular. Bays, fiords and inlets are numerous and there are many good harbours with deep water close to shore. The coast is rugged with bold rocky cliffs from 200 to 400 ft high; in the Bay of Islands some of the islands rise 500 ft, with the adjacent shore 1,000 ft above tide level. The interior is a plateau of moderate elevation and the chief relief features trend north-east and south-west. Long Range, the most notable of these, begins at Cape Ray and extends north-east for 200 miles, the highest peak reaching 2,673 ft. Approximately one-third of the area is covered by water. Grand Lake, the largest body of water, has an area of about 200 sq. miles. The principal rivers flow towards the north-east. On the borders of the lakes and water-courses good land is generally found, particularly in the valleys of the Terra Nova River, the Gander River, the Exploits River and the Humber River, which are also heavily timbered.

Census population, 1991, was 568,474.

The capital of Newfoundland is the City of St John's (1991 population, 171,859, metropolitan area). The other cities are Mt Pearl (23,689), Corner Brook (22,410); important towns are Conception Bay South (17,590), Grand Falls-Windsor (14,693), Gander (10,339), Labrador City (9,061), Happy Valley-Goose Bay (8,610), Stephenville (7,621), Marystown (6,739), Channel-Port aux Basques (5,644), Bay Roberts (5,474), Carbonear (5,259).

Vital statistics *see* CANADA: Territory and Population.

**CLIMATE.** The cool temperate climate is marked by heavy precipitation, distributed evenly over the year, a cool summer and frequent fogs in spring. St. John's. Jan.  $-4^{\circ}\text{C}$ , July  $15.8^{\circ}\text{C}$ . Annual rainfall 1,240 mm.

**CONSTITUTION AND GOVERNMENT.** Until 1832 Newfoundland was ruled by the Governor under instructions of the Colonial Office. In that year a Legislature was brought into existence, but the Governor and his Executive Council were not responsible to it. Under the constitution of 1855, which lasted until its suspension in 1934, the government was administered by the Governor appointed

by the Crown with an Executive Council responsible to the House of Assembly of 27 elected members and a Legislative Council of 24 members nominated for life by the Governor in Council. Women were enfranchised in 1925. At the Imperial Conference of 1917 Newfoundland was constituted as a Dominion.

In 1933 the financial situation had become so critical that the Government of Newfoundland asked the Government of the UK to appoint a Royal Commission to investigate conditions. On the strength of their recommendations, the parliamentary form of government was suspended and Government by Commission was inaugurated on 16 Feb. 1934.

A National Convention, elected in 1946, made, in 1948, recommendations to H.M. Government in Great Britain as to the possible forms of future government to be submitted to the people at a national referendum. Two referenda were held. In the first referendum (June 1948) the three forms of government submitted to the people were: Commission of government for 5 years, confederation with Canada and responsible government as it existed in 1933. No one form of government received a clear majority of the votes polled, and commission of government, receiving the fewest votes, was eliminated. In the second referendum (July 1948) confederation with Canada received 78,408 and responsible government 71,464 votes.

In the Canadian Senate on 18 Feb. 1949 Royal assent was given to the terms of union of Newfoundland and Labrador with Canada, and on 23 March 1949, in the House of Lords, London, Royal assent was given to an amendment to the British North America Act made necessary by the inclusion of Newfoundland and Labrador as the tenth Province of Canada.

Under the terms of union of Newfoundland and Labrador with Canada, which was signed at Ottawa on 11 Dec. 1948, the constitution of the Legislature of Newfoundland and Labrador as it existed immediately prior to 16 Feb. 1934 shall, subject to the terms of the British North America Acts, 1867 to 1946, continue as the constitution of the Legislature of the Province of Newfoundland and Labrador until altered under the authority of the said Acts.

The franchise was in 1965 extended to all male and female residents who have attained the age of 19 years and are otherwise qualified as electors.

The House of Assembly (Amendment) Act, 1979, established 52 electoral districts and 52 members of the Legislature.

Elections were held on 3 May 1993. In Nov. 1994 there were 35 Liberals, 16 Progressive-Conservatives and 1 New Democrat.

The province is represented by 6 members in the Senate and by 7 members in the House of Commons of Canada.

## ENERGY AND NATURAL RESOURCES

**Electricity.** The electrical energy requirements of the province are met mainly by hydro-electric power, with petroleum fuels being utilized to provide the balance. The total amount of energy generated in the province in 1993 was 40,849,949 MWh, of which 96% was derived from hydro-electric facilities. The greater part of the energy produced in 1993 came from Churchill Falls, of which 29,942,214 MWh was sold to Hydro-Quebec under the terms of a long-term contract. Energy consumed in the province during 1993 totalled 10,907,775 MWh, with 9,251,443 MWh, or 85%, coming from hydro-electric facilities.

At Dec. 1994 total electrical generating capacity in the province was 7,343 MW, with hydro-electric plants accounting for 6,601 MW, or 90%. It is estimated that potential additional hydro-electric generating capacity of up to 4-5m. kW can be developed at various sites in Labrador.

**Oil.** Since 1965, 140 wells have been drilled on the Continental Margin of the Province. Only the Hibernia discovery had commercial capability with production starting in the early 1990's. In Sept. 1990 the governments of Canada and Newfoundland and a development consortium signed an agreement to start developing the Hibernia discovery from Oct. 1990.

**Minerals.** The mineral resources are vast but only partially documented. Large deposits of iron ore, with an ore reserve of over 5,000m. tons at Labrador City, Wabush City and in the Knob Lake area are supplying approximately half of Canada's production. Other large deposits of iron ore are known to exist in the Julianne Lake area. There are a variety of other minerals being produced in more limited amounts. The Central Mineral Belt, which extends from the Smallwood Reservoir to the Atlantic coast near Makkovik, holds uranium, copper, beryllium and molybdenite potential.

There is a gold mine at Hope Brook on the south coast east of Port aux Basques.

In 1994, a rich nickel, copper and cobalt discovery was made at Voisey's Bay, Labrador, with defined reserves of 31.7m. tonnes. Production in 1994 (preliminary): Iron ore, 20.9m. tonnes (\$747,038,000); gold, 2,799,360 grammes (\$47,219,000); sand and gravel, 3,128,000 tonnes (\$14,202,000); stone, (\$5,939,000); cement, 56,882 tonnes (\$7,395,000); dolomite, 267,145 tonnes (\$2,885,000).

**Forestry.** The forestry economy in the province is mainly dependent on the operation of 3 newsprint mills. In 1994 the gross value of newsprint exported from these 3 mills totalled \$472m. Lumber mills and saw-log operations produced 57m. flat bd ft in 1994-95.

**Fisheries.** The principal fish landings are cod, flounder, redfish, Queen crabs, lobster, salmon and herring. In 1994 (preliminary) a yearly average of some 2,800 persons were employed by the fish-processing industry and there were 22,045 licensed full-, part-time and casual fishermen engaged in harvesting operations. 207 processing operations were licensed in 1994. The production of fresh and frozen fish products was \$490m. in 1994.

The total catch in 1993 was 245,942 tonnes valued at \$197,125,873, including (in tonnes): Cod, 37,177 (\$24,771,725); flounders and soles, 22,128 (\$8,863,274); herring, 21,355 (\$3,012,684); redfish, 26,284 (\$7,253,497); capelin, 48,469 (\$19,298,947); crab, 23,160 (\$32,058,472); other, 41,612 (\$31,499,911).

## ONTARIO

**KEY HISTORICAL EVENTS.** The French explorer Samuel de Champlain explored the Ottawa River from 1613. The area was governed by the French, first under a joint stock company and then as a royal province, from 1627 and was ceded to Great Britain in 1763. A constitutional act of 1791 created there the province of Upper Canada, largely to accommodate loyalists of English descent who had immigrated after the United States war of independence. Upper Canada entered the Confederation as Ontario in 1867.

**TERRITORY AND POPULATION.** The area is 412,580 sq. miles (1,068,580 sq. km), of which some 344,100 sq. miles (891,190 sq. km) are land area and some 68,480 sq. miles (177,390 sq. km) are lakes and fresh water rivers. The province extends 1,050 miles (1,690 km) from east to west and 1,075 miles (1,730 km) from north to south. It is bounded on the north by the Hudson and James Bays, on the east by Quebec, on the west by Manitoba, and on the south by the USA.

Jan. -10.8°C, July 20.8°C. Annual rainfall (including snow) 911 mm. Toronto. Jan. -4.5°C, July 22.1°C. Annual rainfall 818 mm.

**CONSTITUTION AND GOVERNMENT.** The provincial government is administered by a *Lieut.-Governor*, a cabinet and a single-chamber 130-member *Legislative Assembly* elected by a general franchise for a period of no longer than 5 years. The minimum voting age is 18 years.

*Lieut.-Governor*: Right Hon. Hilary Weston (b. 1942; appointed Dec. 1996).

At the elections on 8 June 1995 to the *Legislative Assembly*, the Progressive Conservative Party won 82 seats (20 in 1990), the Liberal Party, 31 (36), the New Democratic Party (PCP), 16 (74) and independents, 1. Elections were scheduled for 11 March 1997.

In Feb. 1997 the PCP Executive Council comprised:

*Premier:* Michael Harris.

*Deputy Premier, Minister of Finance:* Ernie Eves. *Agriculture, Food and Rural Affairs:* Noble Villeneuve. *Consumer and Commercial Relations:* David Tsubouchi. *Correctional Services and Solicitor-General:* Robert Runciman. *Government House Leader:* David Johnson. *Attorney-General, Minister responsible for Native Affairs:* Charles Harnick. *Health:* Jim Wilson. *Natural Resources:* Chris Hodgson. *Labour:* Elizabeth Witmer. *Intergovernmental Affairs, Minister responsible for Women's Issues:* Dianne Cunningham. *Economic Development, Trade and Tourism:* William Saunderson. *Community and Social Services:* Janet Ecker. *Education and Training:* John Snobelen. *Transportation:* Al Palladini. *Municipal Affairs and Housing:* Allan Leach. *Environment and Energy:* Norman Sterling. *Citizenship, Culture and Recreation:* Marilyn Mushinski. *Minister without portfolio responsible for Privatization:* Rob Sampson. *Minister without portfolio responsible for Seniors:* Cameron Jackson.

*Flag:* The British Red Ensign with the shield of Ontario in the fly.

*Local Government.* Local government is divided into 2 branches, one covering municipal institutions and the other education.

There are 2 levels of municipal government in the southern, settled part of Ontario. The upper level consists of 26 counties plus 13 restructured regional municipalities including metropolitan Toronto. The local level comprises more than 700 cities, towns and townships. Cities with one exception in the traditional county system function independently of the county in which they lie, as do 4 towns and 1 township which have been separated for municipal purposes. There are no separated municipal units in regional governments.

Ontario's local municipalities are governed by councils elected by popular vote.

Lower tier municipal councils are composed of a head of council (mayor or reeve) and councillors. In the case of regional municipalities, one or more regional councillors represent the area municipalities on the regional council. Three regions, Niagara, Metro and Ottawa-Carleton, have their own directly elected upper level councils.

County councils are federations. A county council consists of at least 1 representative of each local municipality, generally the head of the local council. The head of the county council is the warden, who is elected by the council from among its own members.

A regional council may include the heads of council of the local municipalities, as well as a varying number of regional councillors, who are elected on the basis of representation, either directly or indirectly.

No municipality may incur long-term debts over a reasonable level without the sanction of the tribunal created by the Provincial Legislature and known as the Ontario Municipal Board. Debenture obligations incurred by municipalities for utility undertakings are discharged out of revenues derived from the sale of utility services and do not fall upon the ratepayers.

Municipal councils have no jurisdiction for education beyond the collection of taxes for school purposes. Responsibility for providing, operating and maintaining school facilities, and for the supply of teachers, rests with elected local education authorities known as Boards of Education or School Boards. These Boards are now generally organized on a large city, county or regional basis.

Municipal institutions come under the jurisdiction of the Provincial Ministry of Municipal Affairs and Housing. One of the principal functions of the Ministry is to ensure municipalities have the legislative authority to respond to local needs and offer management and administrative support along with financial assistance to Ontario's 815 municipalities. Educational support and guidance at the provincial level is the responsibility of the Ministry of Education and Training, which deals with the training of teachers and the formulation of curriculum.

There are areas in the north where there is little or no settlement of population. Administration of such areas remains in the hands of the Provincial Government.

Where there are municipalities in the north they are single lower tier, with the exception of the regional municipality of Sudbury.

# SASKATCHEWAN

**KEY HISTORICAL EVENTS.** Saskatchewan derives its name from its major river system, which the Cree Indians called 'Kis-is-ska-tche-wan', meaning 'swift flowing'. It officially became a province when it joined the Confederation on 1 Sept. 1905.

In 1670 King Charles II granted to Prince Rupert and his friends a charter covering exclusive trading rights in 'all the land drained by streams finding their outlet in the Hudson Bay'. This included what is now Saskatchewan. The trading company was first known as The Governor and Company of Adventurers of England; later as the Hudson's Bay Company. In 1869 the Northwest Territories was formed, and this included Saskatchewan. In 1882 the District of Saskatchewan was formed. By 1885 the North-West Mounted Police had been inaugurated, with headquarters in Regina (now the capital), and the Canadian Pacific Railway's transcontinental line had been completed, bringing a stream of immigrants to southern Saskatchewan. The Hudson's Bay Company surrendered its claim to territory in return for cash and land around the existing trading posts. Legislative government was introduced.

**TERRITORY AND POPULATION.** Saskatchewan is bounded on the west by Alberta, on the east by Manitoba, on the north by the Northwest Territories and on the south by the USA. The area of the province is 251,700 sq. miles (570,113 sq. km), of which 220,182 sq. miles is land area and 31,518 sq. miles is water. The population, 1991 census, was 988,928. Population of cities, 1991 census: Regina (capital), 179,178; Saskatoon, 186,058; Prince Albert, 34,181; Moose Jaw, 33,593; Yorkton, 15,315; Swift Current, 14,815; North Battleford, 14,350; Estevan, 10,240; Weyburn, 9,673; Lloydminster, 7,241; Melfort, 5,628; Melville, 4,905.

Vital statistics, *see* CANADA: Territory and Population.

**CLIMATE.** A cold continental climate, with severe winters and warm summers. Rainfall amounts are greatest from May to Aug. Regina. Jan. 0°F (-17.8°C), July 65°F (18.3°C). Annual rainfall 15" (373 mm).

## THE NORTHWEST TERRITORIES

**KEY HISTORICAL EVENTS.** The Territory was developed by the Hudson's Bay Company and the North West Company (of Montreal) from the 17th century. The Canadian Government bought out the Hudson's Bay Company in 1869 and the Territory was annexed to Canada in 1870. The Arctic Islands lying north of the Canadian mainland were annexed to Canada in 1880.

A plebiscite held in March 1992 approved the division of the Northwest Territories into 2 separate territories. (For the new territory of Nunavut *see* CONSTITUTION AND GOVERNMENT, *below*).

**TERRITORY AND POPULATION.** The total area of the Territories is 3,426,320 sq. km, divided into 5 administrative regions: Fort Smith, Inuvik, Kitikmeot, Keewatin and Baffin. The population in April 1992 was 57,649, 37% of whom were Inuit (Eskimo), 16% Dene (Indian) and 7% Metis. After the formation of Nunavut the population was reduced to about 36,000. The capital is Yellowknife, population (1991); 15,179. Other main centres (with population in 1991): Iqaluit (3,552), Hay River (3,206), Inuvik (3,206), Fort Smith (2,480), Rankin Inlet (1,706), Rae-Edzo (1,521) and Arviat (1,323).

**CLIMATE.** Conditions range from cold continental to polar, with long hard winters and short cool summers. Precipitation is low. Yellowknife. Jan. mean high  $-24.7^{\circ}\text{C}$ , low  $-33^{\circ}\text{C}$ ; July mean high  $20.7^{\circ}\text{C}$ , low  $11.8^{\circ}\text{C}$ . Annual rainfall 26.7 cm.

**CONSTITUTION AND GOVERNMENT.** The Northwest Territories comprises all that portion of Canada lying north of the 60th parallel of N. lat. except those portions within the Yukon Territory and the Provinces of Quebec and Newfoundland: It also includes the islands in Hudson Bay, James Bay and Ungava Bay except those within the Provinces of Manitoba, Ontario and Quebec.

The Northwest Territories is governed by a Government Leader, with a 7-member cabinet and a Legislative Assembly. The Assembly is composed of 24 members elected for a 4-year term of office. A Commissioner of the Northwest Territories acts as a lieutenant-governor and is the federal government's senior representative in the Territorial government. The seat of government was transferred from Ottawa to Yellowknife when it was named Territorial capital on 18 Jan. 1967.

*Government Leader:* Nellie Cournoyea.

*Commissioner:* Daniel L. Norris.

*Flag:* Vertically, blue, white, blue, with the white of double width and bearing the shield of the Territory.

Legislative powers are exercised by the Executive Council on such matters as taxation within the Territories in order to raise revenue, maintenance of justice, licences, solemnization of marriages, education, public health, property, civil rights and generally all matters of a local nature.

The Territorial Government has assumed most of the responsibility for the administration of the Northwest Territories but political control of Crown lands and non-renewable resources still rests with the Federal Government. On 6 Sept. 1988, the Federal and Territorial Governments signed an agreement for the transfer of management responsibilities for oil and gas resources, located on- and off-shore, in the Northwest Territories to the Territorial Government. In a Territory-wide plebiscite in April 1982, a majority of residents voted in favour of dividing the Northwest Territories into two jurisdictions, east and west. In a plebiscite held in March 1992 residents voted in favour of an east-west boundary line. Constitutions for an eastern and western government have been under discussion since 1992. A referendum was held in Nov. 1992 among the Inuit on the formation of a third territory, **Nunavut** ('Our Land'), in the eastern Arctic, and comprising the present administrative regions of Kitikmeot, Keewatin and Baffin. The electorate was 9,648; turn-out was 80%. 69% of votes cast were in favour. An agreement was signed on 25 May 1993 by the federal Prime Minister beginning the process of establishing this territory. Its area of 2,201,400 sq. km is to be made over to the population of 22,000, of which some 80% are Inuit. The remainder will remain federal property. The capital is Iqaluit (formerly Frobisher Bay) with a 1991 population of 3,552. Rankin Inlet had 1,706 inhabitants in 1991.

## ENERGY AND NATURAL RESOURCES

**Oil and Gas.** As of July 1993, 13 licences for oil and gas exploration were held for 1.4-m. ha, 20 production licences were held for 64,578 ha and 108 significant discovery licences were retained on 695,473 ha.

Crude oil is produced at Norman Wells and piped to Alberta. Value of crude oil production in 1992 was \$142.5m.; 1,850,379 cu. metres.

**Minerals.** Mineral production in 1992 was valued at \$476.2m. 4.7% of Canada's total. The Northwest Territories yielded 12.3% of lead, 15.1% of zinc, 8.8% of gold, and 2% of silver produced in Canada in 1992.

**Trapping and Game.** The 39,629 pelts, furs and hides sold by 1,838 Northwest Territories hunters and trappers in the 1991-92 season were valued at \$2,325,814. The pelts of highest value are those of the polar bear, black and brown bear, wolf, wolverine and lynx. There are some 1.3m. barren-ground caribou, 113,000 muskox and 12,700 polar bears. There are 2 protected herds of wood bison.

**Forestry.** Forest land area in the NWT consists of 61.4m. ha, about 18% of the total land area. The principal trees are white and black spruce, jack-pine, tamarack, balsam poplar, aspen and birch. In 1990-91, 56,000 cu. metres of timber, valued at \$1.83m., was produced.

**Fisheries.** Commercial fishing, principally on Great Slave Lake, in 1991-92 produced 1,431,000 kg of fish valued at \$912,000, principally trout, whitefish and pickerel.

**CO-OPERATIVES.** There are 39 active co-operatives, including 2 housing co-operatives and one central organization to service local co-operatives, in the Northwest Territories. They are active in handicrafts, furs, fisheries, retail stores, hotels and print shops. Total revenue in 1991 was about \$41m.

## COMMUNICATIONS

**Roads.** The Mackenzie Route connects Grimshaw, Alberta, with Hay River, Pine Point, Fort Smith, Fort Providence, Rae-Edzo and Yellowknife. The Mackenzie Highway extension to Fort Simpson and a road between Pine Point and Fort Resolution have both been opened.

Highway service to Inuvik in the Mackenzie Delta was opened in spring 1980, extending north from Dawson, Yukon as the Dempster Highway. The Liard Highway connecting the communities of the Liard River valley to British Columbia opened in 1984.

**Railways.** There is one small railway system in the north which runs from Hay River, on the south shore of Great Slave Lake, 435 miles south to Grimshaw, Alberta, where it connects with the Canadian National Railways, but it is not in use.

**Civil Aviation** (1993). 9 certified airports are operated by the federal Department of Transport and there are 33 certified and 9 uncertified airports operated by the Government of the Northwest Territories. Numerous certified and uncertified airports are operated privately in support of military operations, mining and resource exploration, and tourism. There are also privately-owned float plane bases. Major communities receive daily jet service to southern points. Most smaller communities are served by scheduled turbo-prop air service several times weekly.

**Shipping.** A direct inland-water transportation route for about 1,700 miles is provided by the Mackenzie River and its tributaries, the Athabasca and Slave rivers. Subsidiary routes on Lake Athabasca, Great Slave Lake and Great Bear Lake total more than 800 miles. Communities in the eastern Arctic are resupplied by ship each summer via the Atlantic and Arctic Oceans or Hudson Bay.

**Telecommunications** (1993). There is a postal service in all communities. The CBC northern service operates radio stations at Yellowknife, Inuvik, Iqaluit and Rankin Inlet. All communities receive television via satellite. Telephone service is provided to nearly all communities in the Northwest Territories. Those few communities without service have high frequency or very high frequency radios for emergency use.

## SOCIAL INSTITUTIONS

**Education.** In 1993-94 there were 8 divisional boards of education, which provide for more local and regional control of education. There were also 3 boards of education operating in Yellowknife: A separate school board, a public school board and a board of secondary education.

In 1993-94 there were 80 schools operating, with 1,091 teachers for 16,089 enrolled students. Residences in regional larger communities provide accommodation for students from smaller communities that cannot provide all education services up to grade 12. There is a full range of courses available in the school system: Academic, French immersion, native language and culture, commercial, technical and occupational training, post-secondary programmes, along with a first-year general arts university programme. Financial assistance (from the territorial government) is available to qualifying students for post-secondary studies.

**Health.** In 1988 complete responsibility for health services was transferred to the Territorial Government by the Government of Canada. There are (1993) 8 Boards of Management established to operate, manage and control the health services and programmes in their respective service regions. The health system is comprised of: 6 hospitals, providing both acute and long term care; 6 public health clinics; 43 community health centres; 8 lay dispensaries; 6 boarding homes for patients and escorts travelling.

**Welfare.** Welfare services are provided by professional social workers. Facilities included (1993) for children: 7 group homes and 2 residential treatment centres.

## YUKON TERRITORY

**KEY HISTORICAL EVENTS.** Formerly part of the Northwest Territories, the Yukon was joined to the Dominion as a separate territory on 13 June 1898.

**TERRITORY AND POPULATION.** The Yukon is situated in the extreme north-western section of Canada and comprises 483,450 sq. km. of which 4,480 fresh water. The census population in 1991 was 27,797; June 1996 (estimate), 32,903. Principal centres (with 1996 populations) are Whitehorse, the capital, 23,538; Watson Lake, 1,793; Dawson City, 2,026; Faro, 1,292; Haines Junction, 813.

Vital statistics, *see* CANADA: Territory and Population.

**CLIMATE.** A cold climate in winter with moderate temperatures in summer provide a considerable annual range of temperature and moderate rainfall. Whitehorse. Jan. 5°F (-20°C), July 56°F (14.1°C). Annual rainfall 10" (261 mm). Dawson City. Jan. -22°F (-30°C), July 57°F (15.6°C). Annual rainfall 13" (306.1 mm).

**CONSTITUTION AND GOVERNMENT.** The Yukon was constituted a separate territory in June 1898. It is governed by a Cabinet (Executive Council) appointed from the majority party in the 17-member elected Legislative Assembly. The members are elected for terms not to exceed 4 years. In the territorial elections on 30 Sept. 1996 the New Democratic Party gained 11 seats, the Yukon Party 3 and the Liberal Party 3.

The seat of government is at Whitehorse. A federally appointed Commissioner serves in a similar capacity to the provincial lieutenant governors.

*Commissioner:* Judy Gingell (appointed 12 June 1995)

*Flag:* Vertically green, white, blue, in the proportions 2 : 3 : 2, charged in the centre with the arms of the Territory.

The Yukon government consists of 12 departments, as well as a Women's Directorate and 4 Crown corporations, each taking direction from a responsible Cabinet Minister and generally from Cabinet. Government departments and agencies are responsible for a similar range of activities as found in Canadian provinces, including education, economic development, municipal affairs, housing, social services, transportation, tourism, justice, renewable resources, and finance. The administration of certain programmes, mostly in the the natural resources field, remains under federal control. The Yukon government is, however, involved in negotiations with the federal government on the transfer of further responsibilities to its jurisdiction.

## ECONOMY

**Activities.** GDP at market prices increased by 11.9% in 1995, to \$947m. The key sectors of the economy are mining, tourism and government. Renewable resource industries' production was estimated at \$10m. in 1992. Processing of renewable resources is an important source of economic diversification. In the manufacturing sector, manufacturers' shipments were valued at \$15-20m. in 1992. Forestry is becoming an important source of economic diversification, with production increasing 220% in 1994-95.

**Finance.** The Territorial Government's revenue and expenditure (in \$1,000) for years ended 31 March was:

	1992-93	1993-94	1994-95	1995-96 <sup>1</sup>
Revenue	356,241	473,176	489,894	497,780
Expenditure	420,386	471,705	481,388	489,508

<sup>1</sup> Projected.

## ENERGY AND NATURAL RESOURCES

**Electricity.** Hydro-generated power is supplied through plants at Whitehorse Rapids, Aishihik Lake, Fish Lake and Mayo. Diesel generated power is supplied

from plants at several communities (including Whitehorse, Faro, Haines Junction, Ross River, Dawson City, Mayo and Watson Lake). Current capacity is 78 MW hydro and 52 MW diesel-generated power. Production, 1995, 390,035 MWh, of which 319,399 MWh hydroelectric.

**Oil and Gas.** In 1993, the Canada-Yukon Northern Oil and Gas Accord was signed transferring management and legislative authority of onshore oil and gas resources to the Yukon government. Exploration has been active in the south-east Yukon and Eagle Plains areas. The Kotaneelee gas field in the south-east has 2 wells producing.

**Minerals.** Mining is the main industry. Lead, zinc and gold are the chief minerals. Production in tonnes (and value) in 1995 (preliminary): Gold, 5 (\$77.95m.); zinc, 41,000 (\$58.34m.); lead, 27,000 (\$22.95m.); silver, 1 (\$265,000).

**Agriculture.** Many areas have suitable soils and climate for the production of forages, cereal grains and vegetables, domestic livestock and game farming. In 1995 there were 150 farms operating full- and part-time. There were about 20,000 acres associated with farm operations, of which 14,000 acres were in production or under development. Farm receipts in 1995 were estimated at \$2.6m. Total farm capital, 1995, was \$25m.

**Forestry.** The forests are part of the great Boreal forest region of Canada which stretches from the east coast of Canada into Alaska and north well above the Arctic Circle. Vast areas are covered by coniferous stands in the southern portion of Yukon with white spruce and lodgepole pine forming pure stands on wet sites and in northern aspects. Deciduous species form pure stands or occur mixed with conifers throughout forest areas.

Production from forestry was 420,600 cu. metres in 1994-95.

**Fisheries.** Commercial fishing concentrates on chinook salmon, chum salmon, lake trout and whitefish.

**Game and Furs.** The country abounds with big game, such as moose, goat, caribou, mountain sheep and bear (grizzly and black). The fur trapping industry is considered vital to rural and remote residents and especially First Nations people wishing to maintain a traditional lifestyle. Fur production in 1995 (mostly beaver, lynx, marten, wolf and wolverine) was valued at \$295,365.

**TOURISM.** In 1995 there were 250,882 foreign visitors.

## COMMUNICATIONS

**Roads.** The Alaska Highway and branch highway systems connect Yukon's main communities with Alaska and the provinces and with adjacent mining centres. Interior roads connect the mining communities of Elsa (silver-lead), Faro (lead-zinc-silver) and Dawson City (gold) and mineral exploration properties (lead-zinc and tungsten) north of Ross River. The 727 km Dempster Highway north of Dawson City connects with Inuvik, on the Arctic coast; this highway, the first public road to be built to the Arctic Ocean, was opened in Aug. 1979. The Carcross-Skagway road was opened in May 1979, providing a new access to the Pacific Ocean. As at Dec. 1995 there were 4,732 km of roads, of which 265 km were paved. The other major roads, including the Alaska Highway, have received a new surface treatment which resembles pavement and the rest are all-weather gravel of which 700 km are accessible during the summer months only. Vehicles registered in 1995 totalled 41,329, including 11,074 passenger cars and 20,250 trucks and truck tractors.

**Railways.** The 176-km White Pass and Yukon Railway connected Whitehorse with year-round ocean shipping at Skagway, Alaska, but was closed in 1982. A modified passenger service was restarted in 1988 to take cruise ship tourists from Skagway to the White Pass summit and back.

**Civil Aviation.** In 1995, Canadian International Airlines provided regular daily service between Whitehorse and Vancouver. Regular air service also extended beyond

the Yukon to Yellowknife and Inuvik, Northwest Territories, and Juneau and Fairbanks, Alaska, with connecting service to other points in Alaska and other states in the USA. Regularly scheduled air services extend from Whitehorse to the Yukon communities of Dawson City, Old Crow and Watson Lake, with limited air service to Mayo. Commercial operations offering charter services are located throughout the Territory.

**Shipping.** The majority of goods are shipped into the Territory by truck over the Alaska and Stewart-Cassiar Highways. Some goods are shipped through the ports of Skagway and Haines, Alaska, and then trucked to Whitehorse for distribution throughout the Territory. The majority of goods are transported by road within the Territory, while a modest amount is shipped by air. Although navigable, the rivers are no longer used for shipping.

**Telecommunications.** There are 3 radio stations in Whitehorse and 15 low-power relay radio transmitters operated by CBC, and 6 operated by the Yukon Government. CHON-FM, operated by Northern Native Broadcasting, is broadcast to virtually all Yukon communities by satellite. Dawson City has its own community run radio station, CFYT-FM. There are also 19 basic and 11 extended pay-cable TV channels in Whitehorse, and private cable operations in Faro and Watson Lake. Live CBC national television and TVNC is provided by satellite and relayed to all communities. All telephone and telecommunications are provided by Northwestel, a subsidiary of Bell Canada Enterprises. Microwave stations, satellite ground stations and radio-telephone facilities provide most of the telephone transmission services to the communities.

**Press.** In 1995 there were 1 daily and 1 semi-weekly newspapers in Whitehorse, and a monthly paper in Dawson City and in Faro. There are also periodic specialized publications for francophones, women and the business and mining communities.

## SOCIAL INSTITUTIONS

**Education.** The Yukon Department of Education operates (with the assistance of elected school councils) the Territory's 29 schools, both public and separate, from kindergarten to grade 12. There are also 3 private schools. In Sept. 1995 there were 433 teachers and 6,060 pupils. A separate francophone school opened in Sept. 1988. French immersion is offered from kindergarten through grade 12. Yukon College provides adult education for young and mature students, 26% of whom are of First Nations ancestry; Ayandigut Campus in Whitehorse is the administrative and programme centre for 13 other campuses located throughout the Territory. In the 1995-96 academic year a total of 817 full-time and 2,706 part-time students enrolled in programmes and courses. The Yukon government provides financial assistance to students for post-secondary education whether they study at Yukon College or outside the Territory. Financial assistance is provided to First Nations students by the federal Department of Indian Affairs and Northern Development.

**Health.** In Dec. 1995 there were 2 hospitals with 59 staffed beds, 4 nursing stations, 11 health centres, 98 doctors and 26 dentists. The territorial government operates a medical travel programme to send patients to Edmonton or Vancouver for specialized treatment not available in the Territory.

Following a mutiny in the army, President Patassé on 5 June 1996 accepted an agreement brokered by France which amnestied the mutineers and led to the formation of a government of national unity.

In Jan. 1997 troops mutinying since Dec. 1996 and demanding the replacement of President Patassé killed 2 French soldiers. French forces retaliated, taking prisoner some 50 mutineers. **KEY HISTORICAL EVENTS.** France proclaimed a protectorate over Chad on 5 Sept. 1900, and in July 1908 the territory was incorporated into French Equatorial Africa. It became a separate colony in 1920, and in 1946 one of the 4 constituent territories of French Equatorial Africa. On 28 Nov. 1958 it became an autonomous republic within the French Community and achieved full independence on 11 Aug. 1960.

Conflicts between the government and secessionist groups, particularly in the Moslem north and centre, began in 1965 and developed into civil war. In 1982 forces led by Hissène Habré gained control of the country. In June 1983 the Libyan-backed forces of former President Goukouni Oueddei re-occupied some territory, but by April 1987 they were forced back into the Aozou Strip in the north, occupied by Libyan forces since 1973. A ceasefire took effect in Sept. 1987. There was an attempted coup on 1 April 1989.

Rebel forces of the Popular Salvation Movement led by Idriss Deby entered Chad from Sudan in Nov. 1990 and, meeting little resistance, overcame the government forces of President Hissène Habré, who took refuge in Cameroon. On 4 Dec. 1990 Deby declared himself President.

**TERRITORY AND POPULATION.** Chad is bounded in the west by Cameroon, Nigeria and Niger, north by Libya, east by Sudan and south by the Central African Republic. **KEY HISTORICAL EVENTS.** Chile freed itself from Spanish rule in 1818.

The Marxist coalition government of President Salvador Allende Gossens was ousted on 11 Sept. 1973 by a military junta, headed by Gen. Augusto Pinochet Ugarte, C.in-C. of the Army, who took over the presidency. President Allende committed suicide on the day of the coup.

The new government assumed wide-ranging powers. A constitution of 1981 provided for an eventual return to democracy and Gen. Pinochet was rejected as president in a plebiscite in 1988.

**TERRITORY AND POPULATION.** Chile is bounded in the north by Peru, east by Bolivia and Argentina, and south and west by the Pacific Ocean. The area is 736,905 sq. km (284,520 sq. miles) excluding the claimed Antarctic territory. Many islands to the west and south belong to Chile: The Islas Juan Fernández (179 sq. km with 516 inhabitants in 1982) lie about 600 km west of Valparaíso, and the volcanic Isla de Pascua (Easter Island or Rapa Nui, 118 sq. km with 1,867 inhabitants in 1982), lies about 3,000 km WNW of Valparaíso. Small uninhabited dependencies include Sala y Gómez (400 km east of Easter Is.), San Ambrosio and San Félix (1,000 km northwest of Valparaíso, and 20 km apart) and Islas Diego Ramírez (100 km SW of Cape Horn).

In 1940 Chile declared, and in each subsequent year has reaffirmed, its ownership of the sector of the Antarctic lying between 53° and 90° W. long.; and asserted that the British claim to the sector between the meridians 20° and 80° W. long. overlapped the Chilean by 27°. Seven Chilean bases exist in Antarctica. A law of 1955 put the governor of Magallanes in charge of the 'Chilean Antarctic Territory' which has an area of 1,269,723 sq. km. and a population (1982) of 1,368.

The population at the census of 1992 was 13,231,803 (6,730,478 females). Estimate, 1997, 14,656,194 (83.5% urban in 1993; 7,416,492 females in 1997).

Vital statistics rates, 1991 (per 1,000 population): Birth, 22.4; death, 5.6; infant mortality (per 1,000 live births), 14.6. Growth rate, 1995, 1.5%. Life expectancy (1993), 72 years.

# CHINA

Zhonghua Renmin Gonghe Guo

(People's Republic of China)

Capital: Beijing (Peking)

Population: 1,199m. (1995)

GNP per capita: US\$530 (1994)

HDI/world rank: 0.609/108 (1993)

**KEY HISTORICAL EVENTS.** In the course of 1949 the Communists obtained full control of the mainland of China, and in 1950 also over most islands off the coast (but not Taiwan *see below*). On 1 Oct. 1949 Mao Zedong (Tse-tung) proclaimed the establishment of the People's Republic of China. For the early history of the Communist régime *see* THE STATESMAN'S YEAR-BOOK, 1992–93, p. 355. For the Tiananmen Square demonstration (1989) *see* THE STATESMAN'S YEAR-BOOK, 1994–95, p. 346. Most prominent leader during

this period was sometime Party Leader Deng Xiaoping, who resigned from the Politburo in Nov. 1987 and from the chairmanship of the Military Commissions in Nov. 1989.

**TERRITORY AND POPULATION.** China is bounded in the north by Russia and Mongolia, east by North Korea, the Yellow Sea and the East China Sea, with Hong Kong and Macao as enclaves on the south-east coast; south by Vietnam, Laos, Burma, India, Bhutan and Nepal; west by India, Pakistan, Afghanistan, Tajikistan, Kyrgyzstan and Kazakhstan. The total area (including Taiwan) is estimated at 9,572,900 sq. km (3,696,100 sq. miles). A law of Feb. 1992 claimed the Spratly, Paracel and Diaoyutasi Islands. An agreement of 7 Sept. 1993 at prime ministerial level settled Sino-Indian border disputes which had first emerged in the war of 1962.

At the 1991 census the population was 1,130,510,638 (548,690,231 females). Population estimate, 1995: 1,198.5m. (586.04m. female; 343.01m. urban).

1979 regulations restricting married couples to a single child, a policy enforced by compulsory abortions and economic sanctions, have been widely ignored, and it was admitted in 1988 that the population target of 1,200m. by 2000 would have to be revised to 1,270m. Since 1988 peasant couples have been permitted a second child after 4 years if the first born is a girl, a measure to combat infanticide.

Vital statistics, 1994: Birth rate (per 1,000), 17.7; death rate, 6.49; growth rate, 11.21. There were 9,290,027 marriages and 980,980 divorces in 1994. Expectation of life was 68.5 in 1990.

43.2m. persons of Chinese origin lived abroad in 1993.

A number of widely divergent varieties of Chinese are spoken. The official 'Modern Standard Chinese' is based on the dialect of North China. The ideographic writing system of 'characters' is uniform throughout the country, and has undergone systematic simplification. In 1958 a phonetic alphabet (*Pinyin*) was devised to transcribe the characters, and in 1979 this was officially adopted for use in all texts in the Roman alphabet. The previous transcription scheme (Wade) is still used in Taiwan and Hong Kong.

China is administratively divided into 22 provinces, 5 autonomous regions (originally entirely or largely inhabited by ethnic minorities, though in some regions now outnumbered by Han immigrants) and 4 government-controlled municipalities. These are in turn divided into 335 prefectures, 570 cities (of which 196 are at prefecture level and 371 at county level), 2,166 counties and 669 urban districts.

**Tibet.** For events before and after the revolt of 1959 *see* THE STATESMAN'S YEAR-BOOK, 1964-65 (under TIBET), and 1988-89. On 9 Sept. 1965 Tibet became an Autonomous Region. 301 delegates were elected to the first People's Congress, of whom 226 were Tibetans. The Chief of Government is Gyaincain Norbu. The senior spiritual leader, the Dalai Lama, is in exile. He was awarded the Nobel Peace Prize in 1989. The Banqen Lama died in Jan. 1989. In 1994 the population was

2-36m. (Tibetan, 2-22m.). Birth rate (per 1,000), 1994, 25-64; death rate, 8-7; growth rate, 16-93. Population of the capital, Lhasa, in 1992 was 124,000. Expectation of life was 65 years in 1990. 2m. Tibetans live outside Tibet, in China, and in India and Nepal. Chinese efforts to modernize Tibet include irrigation, road-building and the establishment of light industry: in 1991 there were 328 township and 123 village enterprises employing 21,168 persons; 12,000 persons worked in heavy industry, 16,000 in state-owned enterprises, 1990 output included 136,300 metres of woollen fabrics, 1,000 tonnes of salt, 1,900 tonnes of vegetable oil, 208,200 cu. metres of timber and 132,300 tonnes of cement. Electricity production in 1990 was 330m. kWh, of which 323m. kWh were hydro-electric.

In 1991, 859,000 persons were engaged in agriculture. The total sown area was 213,500 ha, including 41,600 ha sown to wheat, 24,900 ha to soya beans and 10,700 ha to oil-bearing crops. Output (in 1,000 tonnes), 1990: Wheat, 164; soya beans, 60; oil-bearing crops, 17. There were 5-06m. cattle (0-23m. milch cows), 1-26m. draught animals, 0-33m. horses, 0-16m. pigs, 5-66m. sheep and 11-11m. goats in 1991.

In 1991 there were 21,842 km of roads, of which 6,240 km were paved. Air routes link Lhasa with Chengdu, Xian and Kathmandu. Six more were opened in 1987. 30,000 tourists visited Tibet in 1986.

The borders were opened for trade with neighbouring countries in 1980. In July 1988 Tibetan was reinstated as a 'major official language', competence in which is required of all administrative officials.

Monasteries and shrines have been renovated and reopened. There were some 15,000 monks and nuns in 1987. In 1984 a Buddhist seminary in Lhasa opened with 200 students. On 8 Dec. 1995, the Chinese government designated Gyaincain Norbu (b. 1989) the tenth reincarnation of the Panchen Lama; this was repudiated by the Tibetan government-in-exile. In 1988 there were 2,437 primary schools, 67 secondary schools, 14 technical schools and 3 higher education institutes. The total number of primary school pupils in 1990-91 was 101,000. A university was established in 1985. In 1990 there were some 9,000 medical personnel and 1,006 medical institutions, with a total of about 5,000 beds.

Since 1987 there have been several anti-Chinese demonstrations in which a number of people have been killed.

**CLIMATE.** Most of China has a temperate climate but, with such a large country, extending far inland and embracing a wide range of latitude as well as containing large areas at high altitude, many parts experience extremes of climate, especially in winter. Most rain falls during the summer, from May to Sept., though amounts decrease inland. Peking (Beijing). Jan. 24°F (−4-4°C), July 79°F (26°C). Annual rainfall 24-9" (623 mm). Chongqing. Jan. 45°F (7-2°C), July 84°F (28-9°C). Annual rainfall 43-7" (1,092 mm). Shanghai. Jan. 39°F (3-9°C), July 82°F (27-8°C). Annual rainfall 45-4" (1,135 mm). Tianjin. Jan. 24°F (−4-4°C), July 81°F (27-2°C). Annual rainfall 21-5" (533-4 mm).

**CONSTITUTION AND GOVERNMENT.** On 21 Sept. 1949 the *Chinese People's Political Consultative Conference* met in Beijing, convened by the Chinese Communist Party. The Conference adopted a 'Common Programme' of 60 articles and the 'Organic Law of the Central People's Government' (31 articles). Both became the basis of the Constitution adopted on 20 Sept. 1954 by the 1st National

People's Congress, the supreme legislative body. The Consultative Conference continued to exist after 1954 as an advisory body. Its 8th session was convened in 1993. It has 2,093 members.

New Constitutions were adopted in 1975, 1978, 1982 (for details see THE STATESMAN'S YEAR-BOOK 1993-94, p. 358) and 1993, the latter embodying the principles of a 'Socialist market economy'.

The *National People's Congress* can amend the Constitution and nominally elects and has power to remove from office the highest officers of state. The Congress elects a *Standing Committee* (which supervises the State Council) and the *President* and *Vice-President* for a 5-year term. Congress has 2,978 deputies and is elected for a 5-year term and meets once a year for 2 or 3 weeks. When not in session, its business is carried on by its *Standing Committee*. It is composed of deputies elected on a constituency basis by direct secret ballot. Any voter, and certain organizations, may nominate candidates. Nominations may exceed seats by 50–100%. The 8th Congress was elected in March 1993.

The *State Council* is the supreme executive organ and comprises the Prime Minister, Deputy Prime Ministers and State Councillors (in Sept. 1996: Li Tieying, Chi Haotian, Song Jian, Li Guixian, Ismail Amat, Peng Peiyun, Luo Gan, Chen Junsheng.)

*President*: Jiang Zemin (b. 1926; sworn in April 1993).

*Deputy President*: Rong Yiren.

In Sept. 1996 the government comprised:

*Prime Minister*: Li Peng.

*National anthem*: *March of the Volunteers*; words by Tien Han, tune by Nieh Erh.

*De facto* power is in the hands of the Communist Party of China, which had 57m. members in 1997. There are 8 other parties, all members of the Chinese People's Political Consultative Conference.

The members of the Politburo in Sept. 1996 (the first 7 constituting its Standing Committee) were Jiang Zemin (*General Secretary*), Li Peng, Qiao Shi, Zhu Rongji, Liu Huaqing, Hu Jintao, Li Ruihuan, Tian Jiyun, Li Tieying, Ding Guangen, Huang Ju, Jiang Chunyun, Li Lanqing, Qian Qichen, Wei Jianxing, Wu Bangguo, Xie Fei, Yang Baibing, Zou Jiahua; candidate members, Wen Jibao, Wang Hanbin.

*Local Government*. There are 4 administrative levels: (1) Provinces, Autonomous Regions and the municipalities directly administered by the Government; (2) prefectures and autonomous prefectures (*zhou*); (3) counties, autonomous counties and municipalities; (4) towns. Local government organs ('congresses') exist at provincial, county and township levels and in national minority autonomous prefec-

tures, but not in ordinary prefectures which are just agencies of the provincial government. Up to county level congresses are elected directly. Elections take place every 3 years. Any person proposed by 10 electors may stand after political vetting. There are quotas for Party members and women. Multiple candidacies are permitted at local elections.

**DEFENCE.** President Jiang Zemin is chairman of the State and Party's Military Commissions. China is divided into 7 military regions. The military commander also commands the air, naval and civilian militia forces assigned to each region.

Conscription is compulsory but for organizational reasons selective: Only some 10% of potential recruits are called up. Service is 3 years with the Army and 4 years with the Air Force and Navy.

A military academy to train senior officers in modern warfare was established in 1985.

**Army.** The Army (PLA: 'People's Liberation Army') is divided into main and local forces. Main forces, administered by the 7 military regions in which they are stationed but commanded by the Ministry of Defence, are available for operation anywhere and are better equipped. Local forces concentrate on the defence of their own regions. There are 24 Integrated Group Armies comprising 78 infantry, 10 armoured and 5 artillery divisions; and 15 engineer regiments. Equipment includes some 700 T-34/85 and T-54, 6,000 T-59 and 200 T-69 main battle tanks. Land-based missile forces consisted of (1995 estimate): 17 intercontinental and 70 intermediate range. Military aviation has 8 Gazelle armed helicopters, 20 S-70 Black Hawk and 24 Mi-17 transport helicopters. Total strength in 1994 was 2.93m. including 1.28m. conscripts and 136,000 women.

There is a para-military force of 0.6m. People's Armed Police under PLA command.

**Navy.** The naval arm of the PLA comprises 1 nuclear-powered ballistic missile armed submarine, 5 nuclear-propelled fleet submarines, 1 diesel-powered cruise missile submarine and some 40 patrol submarines. Surface combatant forces include 18 missile-armed destroyers, 36 frigates, some 185 missile craft and 150 torpedo craft. There is a mixed coastal and inshore patrol force of some 500 vessels and 50 riverine craft. The mine warfare force consists of 40 ex-Soviet offshore minesweepers, some 12 inshore, and about 60 unmanned drones. There are 55 landing ships of various types and some 150 craft. Major auxiliaries number over 100, including 2 underway replenishment oilers and 1 fleet stores ship, and there are several hundred minor auxiliaries, yard craft and service vessels.

The land-based naval air force of about 620 combat aircraft, primarily for defensive and anti-submarine service, is organized into 3 bomber and 6 fighter divisions. The force includes some 120 H-5 torpedo bombers, about 100 Q-5 fighter/ground attack aircraft and 600 fighters, including J-5 (MiG-17), J-6 (MiG-19), and J-7 (MiG-21) types. Maritime patrol tasks are performed by 15 Be-6 and a small number of PS-5 flying boats, and anti-submarine operations by 40 Z-5 and 15 Super Frelon helicopters from shore and about 10 Z-9 afloat. There are also about 60 communications, training and transport aircraft.

Main naval bases are at Qingdao (North Sea Fleet), Shanghai (East Sea Fleet), and Zhanjiang (South Sea Fleet).

In 1996 personnel numbered some 260,000, including 25,000 in the naval air force, 25,000 coastal defence troops and 5,000 naval infantry.

**Air Force.** The Air Force has an estimated 3,500 front-line aircraft, organized in 100 regiments of jet-fighters and about 12 regiments of tactical bombers, plus reconnaissance, transport and helicopter units. Each regiment is made up of 3 or 4 squadrons (each 12 aircraft), and 3 regiments form a division.

Equipment includes about 500 J-7 (MiG-21) and 2,000 J-6 (MiG-19) interceptors and fighter-bombers, with about 500 H-5 (Il-28) jetbombers, about 120 H-6 Chinese-built copies of the Soviet Tu-16 twin-jet strategic bomber, plus 500 Q-5 twin-jet fighter-bombers, evolved from the MiG-19, while 50 Su-27 fighters have been supplied by Russia. About 100 of a locally-developed fighter designated J-8

(known in the west as 'Finback') are in service. Transport aircraft include about 500 Y-5 (An-2), Y-8 (An-12), Y-12, An-24/26, Il-76, Challenger and Il-14 fixed-wing types, plus 300 Z-5 (Mi-4) and Z-6 (Mi-8) helicopters, as well as 6 Super Puma VIP transport helicopters. Total strength (1996) 470,000 (160,000 conscripts), including 220,000 in air defence organization.

**Policy.** A ninth 5-year plan covers 1996–2000; there is also a 15-year strategic plan 'Long-Term Target for 2010'. These plans envisage a continued opening to the outside world, an enhanced development of agriculture, the reduction of tariff barriers and the development of the poorer regions.

A Communist Party statement of Nov. 1993 declared that public ownership should remain the mainstay of the economy, but alongside a modern enterprise system suited to the demands of a market economy in which government control is separated from management.

**Budget.** 1994 revenue was 521,810m. yuan; expenditure, 579,260m. yuan. Of this, local government revenue accounted for 231,160m. yuan and expenditure, 403,820m. yuan.

Notes are issued for 1, 2 and 5 *jiao* and 1, 2, 5, 10, 50 and 100 *yuan* and coins for 1, 2 and 5 *fen*. Foreign exchange reserves in Sept. 1994 were US\$39,830m. Gold reserves in 1994 were 12.67m. troy oz. of gold. Annualized inflation was 21.7% in 1994. The yuan was floated to reflect market forces on 1 Jan. 1994 though remaining state-controlled, and the official rate of exchange was abolished. It became convertible for current transactions from 1 Dec. 1996. In March 1997, £1 = 13.53 yuan; US\$1 = 8.30 yuan; DM1 = 4.91 yuan.

**Banking and Finance.** The People's Bank is the central bank and bank of issue (*Director*: Dai Xianglong, b. 1945). There are 6 other banks: The Industrial and Commercial Bank, the State Development Bank, the Agricultural Bank, the Bank of China, the People's Construction Bank and the Communications Bank. Legislation of 1995 permitted the establishment of commercial banks; credit co-operatives may be transformed into banks, mainly to provide credit to small businesses. Insurance is handled by the People's Insurance Company. There were also (1994) 350,813 credit co-operatives. The Bank of China is responsible for foreign banking operations.

Savings bank deposits were 2,151,880m. yuan in 1994.

There are stock exchanges in the Shenzhen Special Economic Zone and in Shanghai. A securities trading system linking 6 cities (Securities Automated Quotations System) was inaugurated in 1990 for trading in government bonds.

**Weights and Measures.** The metric system is in general use alongside traditional units of measurement, for which *see* THE STATESMAN'S YEAR-BOOK, 1975–76, p. 826 and 1954, pp. 877–88.

## ENERGY AND NATURAL RESOURCES

**Electricity.** Installed capacity, 1996, 0.2m. MW. Sources of energy in 1996: Coal 74%; hydroelectric power, 19%; oil and gas, 5%; nuclear, 2%. Generating is not centralized; local units range between 30 and 60 MW of output. Output in 1994: 928,100m. kWh.

Intensive agriculture and horticulture have been practised for millennia. Present-day policy aims to avert the traditional threats from floods and droughts by soil conservancy, afforestation, irrigation and drainage projects, and to increase the 'high stable yields' areas by introducing fertilizers, pesticides and improved crops. 48.76m. ha were irrigated in 1994.

'Township and village enterprises' in agriculture comprise enterprises previously run by the communes of the Maoist era, co-operatives run by rural labourers and individual firms of a certain size. The latter tries cases, hears appeals and supervises the people's courts.

People's courts are composed of a president, vice-presidents, judges and 'people's assessors' who are the equivalent of jurors. 'People's conciliation committees' are charged with settling minor disputes.

There are also special military courts.

Procuratorial powers and functions are exercised by the Supreme People's Procuracy and local procuracies.

**Religion.** The government accords legality to 5 religions only: Buddhism, Islam, Protestantism, Roman Catholicism and Taoism. Confucianism, Buddhism and Taoism have long been practised. Confucianism has no ecclesiastical organization and appears rather as a philosophy of ethics and government. Taoism—of Chinese origin—copied Buddhist ceremonial soon after the arrival of Buddhism two millennia ago. Buddhism in return adopted many Taoist beliefs and practices. It is no longer possible to estimate the number of adherents to these faiths. A more tolerant attitude towards religion had emerged by 1979, and the Government's Bureau of Religious Affairs was reactivated.

Ceremonies of reverence to ancestors have been observed by the whole population regardless of philosophical or religious beliefs.

A bishop of Beijing was consecrated in 1979 without the consent of the Vatican and 2 auxiliary bishops of Shanghai in 1984. Archbishop Gong Pinmei, arrested in 1955, was freed in 1988. Protestants are members of the All-China Conference of Protestant Churches. 2 Protestant bishops were installed in 1988, the first for 30 years.

Legislation of 1994 prohibits foreign nationals from setting up religious organizations.

**Education.** In 1990 182m. persons over 15 (128m. female) were illiterate. In 1994

# HONG KONG

## SPECIAL ADMINISTRATIVE REGION

**KEY HISTORICAL EVENTS.** Hong Kong island and the southern tip of the Kowloon peninsula were ceded by China to Britain after the first and second Anglo-Chinese Wars by the Treaty of Nanking 1842 and the Convention of Peking 1860. The New Territories were leased to Britain for 99 years by China in 1898. Talks began in Sept. 1982 between Britain and China over the future of Hong Kong after the lease expiry in 1997. On 19 Dec. 1984, the two countries signed the Joint Declaration of the British and Chinese Governments on the Question of Hong Kong which entered into force on 27 May 1985. By the terms of this Hong Kong became, with effect from 1 July 1997, a Special Administrative Region of the People's Republic of China enjoying a high degree of autonomy, and vested with executive, legislative and independent judicial power, including that of final adjudication. It was agreed that the laws currently in force in Hong Kong would remain basically unchanged. The existing social and economic systems, and the present life-style, were to remain unchanged for another 50 years. This 'one country, two systems' principle, embodied in the Basic Law, which was enacted by the National People's Congress of the People's Republic of China in 1990, has become the constitution for the Hong Kong Special Administrative Region. In June 1991 the Legislative Council approved a Bill of Rights. China (People's Republic) objected to it.

China's selection on 21 Dec. 1996 of a provisional legislature which began functioning simultaneously with the Legislative Council in Jan. 1997 instead of after the latter's abolition on 30 June 1997 was protested by the UK as having no basis in the 1984 Joint Declaration.

**TERRITORY AND POPULATION.** Hong Kong island is situated off the southern coast of the Chinese mainland 32 km east of the mouth of the Pearl River. The area of the island is 79.99 sq. km. It is separated from the mainland by a fine natural harbour. On the opposite side is the peninsula of Kowloon (46.27 sq. km). Total area of the Territory is 1,091 sq. km, a large part of it being steep and unproductive hillside. Country parks and special areas cover over 40% of the land area. Since 1945, the Government has reclaimed over 5,400 ha from the sea, principally from the seafronts of Hong Kong and Kowloon, facing the harbour. The 'New Territories' are on the mainland, north of Kowloon.

The population was 5,674,100 at the 1991 census. Estimate (30 June 1996) 6,310,000. Annual growth rate, 1995, 2.1%. Vital statistics, 1994: Known births, 71,646 (34,368 females); known deaths, 29,950; registered marriages, 38,264. Rates (per 1,000, 1995): Birth, 11.2; death, 5.1; infant mortality, 4.6; natural increase, 6.9. Life expectancy, 1995: Males, 75.7 years; females, 81.3. Some 43,100 persons emigrated in 1995. The British Nationality Scheme enables persons to acquire citizenship without leaving Hong Kong. There were 45,986 legal immigrants from China in 1995. 60% of the population was born in Hong Kong, 34% in China (1991 census). The population of Vietnamese migrants ('boat people') in Oct. 1996 was 12,710. All remaining 'boat people' were repatriated by Jan. 1997.

The official languages are Chinese and English.

**CLIMATE.** The climate is sub-tropical, tending towards temperate for nearly half the year, the winter being cool and dry and the summer hot and humid, May to Sept. being the wettest months. Jan. 60°F (15.8°C), July 84°F (28.8°C). Annual rainfall 87" (2,214.3 mm).

**THE BRITISH ADMINISTRATION.** Hong Kong was administered by the Hong Kong Government. The Governor was the head of Government and presided over the *Executive Council*, which advised the Governor on all important matters. The last British Governor was Chris Patten. In Oct. 1996, the Executive Council consisted of 3 ex-officio members and 10 appointed members, of whom 1

was an official member. The chief functions of the *Legislative Council* were to enact laws, control public expenditure and put questions to the administration on matters of public interest. The Legislative Council elected in Sept. 1995 was, for the first time, constituted solely by election. It comprised 60 members, of whom 20 were elected from geographical constituencies, 30 from functional constituencies encompassing all eligible persons in a workforce of 2.9m., and 10 from an election committee formed by members of 18 district boards. A president was elected from and by the members.

At the elections on 17 Sept. 1995, turn-out for the geographical seats was 35.79%, and for the functional seats (21 of which were contested), 40.42%. The Democratic Party and its allies gained 29 seats, the Liberal Party 10 and the pro-Beijing Democratic Alliance, 6. The remaining seats went to independents.

**CONSTITUTION AND GOVERNMENT.** In Dec. 1995 the Standing Committee of China's National People's Congress set up a Preparatory Committee of 150 members (including 94 from Hong Kong) to oversee the retrocession of Hong Kong to China on 1 July 1997. In Nov. 1996 the Preparatory Committee nominated a 400-member Selection Committee to select the Governor of Hong Kong and a provisional legislature to replace the Legislative Council. The Selection Committee was composed of Hong Kong residents, with 60 seats reserved for delegates to the National People's Congress and appointees of the People's Political Consultative Conference. On 11 Dec. 1996 Tung Chee-hwa was elected Governor by 80% of the Selection Committee's votes.

On 21 Dec. 1996 the Selection Committee selected a provisional legislature which began its activities in Jan. 1997 while the Legislative Council was still functioning. In Jan. 1997 the provisional legislature began repealing some civil rights legislation.

*Governor:* Tung Chee-hwa (b. 1937).

*Chief Secretary:* Anson Chan, CBE, JP.

*Financial Secretary:* Donald Tsang, OBE, JP.

**Local Government.** There are 2 municipal councils, the Urban Council and the Regional Council. With all appointed seats abolished in 1995, 59 of 80 seats were open to direct election in the March 1995 elections. Turn-out was 25.8%. Elections to the 18 Consultative District Boards set up in 1982 were held in Sept. 1994; turn-out was 33.1%.

At local council elections on 18 Sept. 1994 for 346 council seats turn-out was 33.1%. The United Democratic Party gained 77 seats; the Alliance for Democracy, 28; the Democratic Alliance for a Better Hong Kong (pro-Beijing), 37; the Liberal Party, 30, the United Democrats of Hong Kong won 11 out of 27 seats, independents 11, the Liberal Democratic Federation 3 and Communists 2.

## ECONOMY

There are coins of HK\$10, HK\$5, HK\$2, HK\$1, 50 cents, 20 cents and 10 cents. Currency in circulation in Aug. 1996, HK\$83,174m.

**Weights and Measures.** Metric, British Imperial, Chinese and US units are all in current use in Hong Kong. However, Government departments have now effectively adopted metric units; all new legislation uses metric terminology and existing legislation is being progressively metricated. Metrication is also proceeding in the private sector.

## ENERGY AND NATURAL RESOURCES

**Electricity.** Production (1992) 34,914m. kWh.

**Water.** Reservoirs are needed to store the summer rainfall in order to meet supply requirements. There are 17 impounding reservoirs with a total capacity of 586m. cu. metres. Water is also purchased (720m. cu. metres in 1996).

**Agriculture.** Agriculture supplies about a quarter of domestic demand. Only 3.4% of the total land area is suitable for crop farming and most produce derives from intensive market gardening: 1,350 ha were under cultivation in 1995. In 1995, 88,000 tonnes of vegetables and 4,820 tonnes of fruit and nuts were produced. Poultry production was 24,921 tonnes; milk, 407 tonnes; eggs, 1,112 tonnes. There were 0.21m. pigs in 1995.

**Fisheries.** The fishing fleet of 4,800 vessels supplies about 62% of fresh marine fish consumed locally. In 1995 the marine fish catch was 203,300 tonnes. Inland freshwater farming and coastal marine farming provided 8,200 tonnes of fish.

**INDUSTRY.** An economic policy based on free enterprise and free trade; a skilled work force; an efficient commercial infrastructure; the modern and efficient seaport (including container shipping terminals) and airport facilities; a geographical position relative to markets in North America; and traditional trading links with the UK all contributed to Hong Kong's success as a modern industrial territory.

In 1995 there were 31,114 manufacturing firms employing 386,106 persons. Firms by product type (and persons employed): Textiles and clothing, 7,046 (139,931); plastics, 2,250 (15,997); electronics, 1,109 (44,078); watches and clocks, 1,006 (12,119); electrical appliances, 136 (2,589); ship-building, 374 (4,510).

**Labour.** In the third quarter of 1995 the labour force (economically active population aged 15 and over) totalled 3.09m. (1.18m. female). The employed population included 0.81m. administrative and managerial workers, professional and associate professionals, 0.55m. clerks, 0.51m. in elementary occupations, 0.42m. service and shop sales workers, 0.36m. craft and related workers and 0.32m. plant and machine operators and assemblers. The unemployment rate was 3.27% in 1995.

## EXTERNAL ECONOMIC RELATIONS

**Commerce.** Industry is mainly export-oriented. The total value of domestic exports in 1995 was HK\$231,657m.; re-exports, HK\$1,112,470m. The major markets for domestic exports were USA (26.4%), People's Republic of China (27.4%), Germany (5.3%), Singapore (5.3%) and Japan (5.1%). The total value of imports in 1995 was HK\$1,491,121m., mainly from the People's Republic of China (36.2%), Japan (14.8%), Taiwan (8.7%), USA (7.7%), Singapore (5.2%) and South Korea (4.9%).

In 1995 domestic exports included (in HK\$1m.): Textiles and clothing, 88,030; electronic products, 64,168; clocks and watches, 13,667; jewellery, 5,791; plastic products, 5,096; printed matter, 4,865. The chief import items were machinery and transport equipment (553,206), chemicals (111,834) and foodstuffs (58,153).

Visible trade normally carries an adverse balance which is offset by a favourable balance of invisible trade, in particular transactions in connexion with air transportation, shipping, tourism and banking services.

Hong Kong has a free exchange market. Foreign merchants may remit profits or repatriate capital. Import and export controls are kept to the minimum, consistent with strategic requirements.

Total trade between Hong Kong and UK (British Department of Trade returns, in £1,000 sterling) is given as follows:

	1992	1993	1994	1995	1996
Imports to UK	2,397,362	2,997,774	3,079,611	3,538,821	4,072,935

## SOCIAL INSTITUTIONS

**Justice.** The common law of England and the rules of equity were in force so far as they are applicable to the circumstances of Hong Kong. UK Acts of Parliament, however, were only binding if expressly applied to Hong Kong. By 1997 Hong Kong possessed a comprehensive body of law which owed its authority to its own legislature. The Hong Kong Act of 1985 provided for Hong Kong ordinances to replace English laws in specified fields.

The courts of justice comprise the Supreme Court (which includes the Court of Appeal and the High Court), the District Court (which includes the Family Court), the Magistracies, the Coroner's Court, the Juvenile Court and 4 tribunals. The Court of Appeal hears appeals on all matters, civil and criminal, from the lower courts. Further appeal lies at present from the Court of Appeal to the Judicial Committee of the Privy Council in London. But pursuant to the Joint Declaration, the powers of final judgement shall be vested in the Court of Final Appeal to be set up in the territory in July 1997. While the High Court has unlimited jurisdiction in both civil and criminal matters, the District Court has limited jurisdiction. The maximum term of imprisonment it may impose is 7 years. Magistracies exercise criminal jurisdiction over a wide range of indictable and summary offences, and the powers of punishment are generally restricted to a maximum of 2 years' imprisonment. The Lands Tribunal determines on statutory claims for compensation over land and certain landlord and tenant matters. The Labour Tribunal provides a quick and inexpensive method of settling disputes between employers and employees. The Small Claims Tribunal deals with monetary claims involving amounts not exceeding HK\$15,000.

After being in abeyance for 25 years, the death penalty was abolished in 1992.

91,886 crimes were reported in 1995. The prison population was 13,117 in 1995.

**Police.** In July 1995, the establishment of the Royal Hong Kong Police Force was 27,324.

**Social Welfare.** The Government co-ordinates and implements expanding programmes in social welfare, which include social security, family services, child care, services for the elderly, youth and community work, probation and corrections and rehabilitation. 170 non-governmental organizations are subsidized by public funds.

The Government gives non-contributory cash assistance to needy families, unemployed able-bodied adults, the severely disabled and the elderly. Caseload as at 31 Dec. 1995 totalled 623,029. Victims of natural disasters, crimes of violence and traffic accidents are financially assisted.

The first President, Fulbert Youlou, was deposed on 15 Aug. 1963 by a coup led by Alphonse Massamba-Débat, who became President on 19 Dec. Following a second coup in Aug. 1968, the Army took power under the leadership of Major Marien Ngouabi, whose col-

league, Major Alfred Raoul, was appointed President from 3 Sept. until 1 Jan. 1969, when Ngouabi himself became President. A Marxist-Leninist state was introduced in 1970. Ngouabi was assassinated on 18 March 1977, and succeeded by Col. Joachim Yhombi-Opango, who in turn was replaced on 5 Feb. 1979 by Col. Denis Sassou-Nguesso. Multi-party democracy was restored in 1992.

# CROATIA

Republika Hrvatska

Capital: Zagreb

Population: 4.84m. (1994)

GNP per capita: US\$2,530 (1994)

**KEY HISTORICAL EVENTS.** The original Croats migrated to their present territory in the 6th century and were converted to Roman Catholicism. Croatia was united with Hungary by a personal union of thrones in 1091 and remained under Hungarian administration until the end of the first world war. On 1 Dec. 1918 Croatia became a part of the new Kingdom of Serbs, Croats and Slovenes, which was renamed Yugoslavia in 1929.

During the second world war an independent fascist (Ustaša) state was set up under the aegis of the German occupiers. During the Communist period Croatia became one of the 6 'Socialist Republics' constituting the Yugoslav federation. (See THE STATESMAN'S YEAR-BOOK, 1991-92, p. 1607).

At a referendum on 19 May 1991 turn-out was 82.97% of the electorate of 3.6m. 94.17% of votes cast were in favour of Croatia becoming an independent sovereign state with the option of joining a future Yugoslav confederation as opposed to remaining in the existing Yugoslav federation. The Krajina, and other predominantly Serbian areas of Croatia, proclaimed the desire for union with Serbia and seized power by force of arms. Croatian forces and Serb insurgents backed by federal forces ostensibly of law and order became embroiled in a conflict throughout 1991 until the arrival of a UN peace-keeping mission at the beginning of 1992 and the establishment of 4 UN ('pink zones') peace-keeping zones. Croatia obtained a reduction in the UN peace-keeping forces after 1 April 1995.

In early May 1995 Croatian forces retook Western Slavonia from the Serbs and opened the Zagreb-Belgrade highway. Serb rockets fell on Zagreb during the campaign, and civilians were killed. In a 60-hour operation mounted on 4 Aug. 1995 the former self-declared Serb Republic of Krajina was occupied, provoking an exodus of 0.18m. Serb refugees. Croats who had left the area in 1991 began to return. On 12 Nov. 1995 the Croatian government and Bosnian Serbs reached an agreement to place Eastern Slavonia, the last Croatian territory still under Bosnian Serb control, under UN administration for at least a year.

**TERRITORY AND POPULATION.** Croatia is bounded in the north by Slovenia and Hungary and in the east by Yugoslavia and Bosnia-Herzegovina. It includes the areas of Dalmatia, Istria and Slavonia which no longer have administrative status. Its area is 56,538 sq. km. Population at the 1991 census was 4,784,265 (50.8% urban), of whom the predominating ethnic groups were Croats (3,736,356) and Serbs (581,663). Estimate, 1994, 4,837,000; density, 85.5 per sq. km. Principal towns (with 1991 census population): Zagreb (726,770), Split (189,388), Rijeka (167,964), Osijek (104,761).

At the beginning of 1991 there were some 0.6m. resident Serbs. A law of Dec. 1991 guaranteed the autonomy of Serbs in areas where they are in a majority after the establishment of a permanent peace.

Vital statistics:

	<i>Live births</i>	<i>Marriages</i>	<i>Deaths</i>	<i>Growth rate per 1,000</i>

1992	46,970	22,169	51,800	-1.01
1993	48,535	23,021	50,846	-0.5

Rates, 1994: Birth, 10.9 per 1,000 population; death, 11.1; infant mortality, 10.2 per 1,000 live births.

The official language is the western variant of Serbo-Croat (in Croatia called Croato-Serb or, familiarly, Croatian).

**CLIMATE.** Inland Croatia has a Central European type of climate, with cold winters and hot summers, but the Adriatic coastal region experiences a Mediterranean climate with mild, moist winters and hot, brilliantly sunny summers with less than average rainfall. Jan./July temperature/annual rainfall: Dubrovnik, 9.2°C/24.7°C/1,006 mm. Zadar, 7.2°C/23.5°C/688 mm. Rijeka, 6.2°C/23°C/1,251 mm. Zagreb, 0°C/23.5°C/652 mm. Osijek, 0.6°C/20.8°C/541 mm.

**CONSTITUTION AND GOVERNMENT.** A new constitution was adopted on 21 Dec. 1990. The *President* is elected by parliament for 5-year terms. Franjo Tudjman was elected President in May 1990, and re-elected on 3 Aug. 1992 against 7 opponents by 56.7% of votes cast. Parliament consists of the 127-member *Sabor*, in which 12 seats are reserved for the Croat diaspora and 3 for the Serb minority. It is elected by a combination of proportional representation and first-past-the-post methods. There is also an upper house, the 68-member *Chamber of Counties*, composed of representatives of counties elected by proportional representation, and 5 members nominated by the President. The role of the Chamber of Counties is primarily consultative.

At elections to the Sabor on 29 Aug. 1995 the electorate was 3.6m.; turn-out was 66%. **KEY HISTORICAL EVENTS.** Cuba, except for the brief British occupancy in 1762–63, remained a Spanish possession from its discovery by Columbus in 1492 until 10 Dec. 1898, when the sovereignty was relinquished under the terms of the Treaty of Paris, which ended the struggle of the Cubans against Spanish rule. Cuba became independent as a republic.

The revolutionary movement against the Batista dictatorship, led by Dr Fidel Castro Ruíz, started on 26 July 1953. It achieved power on 1 Jan. 1959, when

Batista fled the country. Emigrés made an unsuccessful invasion at the Bay of Pigs on 17 April 1961.

**TERRITORY AND POPULATION.** The island of Cuba forms the largest and most westerly of the Greater Antilles group and lies 135 miles south of the tip of Florida, USA. The area is 110,860 sq. km, and comprises the island of Cuba, (104,945 sq. km.); the Isle of Youth (Isla de la Juventud, formerly the Isle of Pines; 2,200 sq. km.), and some 1,600 small isles ('cays'; 3,715 sq. km.). Population, census (1981) 9,723,605; estimate, 1994, 10,977,000; density, 99 per sq. km.

Legislative power is vested in the *National Assembly of People's Power*, which meets twice a year and consists of 589 deputies elected for a 5-year term by universal suffrage. Lists of candidates are drawn up by mass organizations (trade unions, etc.). The National Assembly elects a 31-member *Council of State* as its permanent organ. The Council of State's President, who is head of state and of government, nominates and leads a Council of Ministers approved by the National Assembly.

## INTERNATIONAL RELATIONS

**Membership.** Cuba is a member of the UN and SELA.

## ECONOMY

**Policy.** Prices were increased by at least 50% on 1 June 1994. The Central Planning Board was abolished in Jan. 1995. Since 1995 the government has been tolerant of some private enterprise, though the state sector remains dominant.

**Budget.** The 1995 budget envisaged revenue of 11,680m. pesos and expenditure of 12,680m. pesos. Hard-currency earners and the self-employed became liable to a 10-50% income tax in Nov. 1995.

**Currency.** The unit of currency is the *Cuban peso* (CUP) of 100 *centavos*, which is not convertible although an official exchange rate is announced daily reflecting any changes in the strength of the US dollar. The US dollar has been legal tender since 1993. There are coins of 1, 5, 20 and 40 centavos and 1 peso, and notes of 3, 5, 10, 20 and 50 pesos. 11,750m. pesos were in circulation in 1994. In March 1997, £1 = 30.91 pesos; US\$1 = 19 pesos; DM1 = 11.25 pesos.

**Banking and Finance.** The central bank is the National Bank of Cuba, created in 1948 (with capital of US\$10m.) which began operating on 27 April 1950 (*Governor*, Francisco Soberón Valdés). On 14 Oct. 1960 all banks were nationalized. Changes to the banking structure beginning in 1996 divested the National Bank of its commercial functions, and created new commercial and investment institutions. 11 foreign banks had representative offices in 1996; foreign branches are not permitted.

All insurance business was nationalized in Jan. 1964. A National Savings Bank was established in 1983.

**Weights and Measures.** The metric system is legally compulsory, but the American and old Spanish systems are much used. The sugar industry uses the Spanish long ton (1.03 tonnes) and short ton (0.92 tonne). Cuba sugar sack = 329.59 lb. or 149.49 kg. Land is measured in *caballerías* (of 13.4 ha or 33 acres).

re-organized as 'units of basic co-operative production'. These units have the use of the land in perpetuity from the state. Unit workers select their own managers, and are paid an advance on earnings. 294,700 persons were employed in these units in 1995. In 1963 private holdings were reduced to a maximum of 5 *caballerías*. In Sept. 1984 there were 1,472 co-operatives comprising 70,000 *caballerías* of land. In 1994 farmers were permitted to trade on free market principles after state delivery quotas had been met.

The most important product is sugar and its by-products. 1996-97 production was 4.4m. tonnes (3.4 tonnes in 1995-96). Production of other important crops in 1992 was (in 1,000 tonnes): Tobacco, 44; rice, 308; coffee, 25; maize, 95.

**INDUSTRY.** In 1996, manufacturing accounted for 27% of GDP. All industrial enterprises had been state-controlled, but in 1995 the economy was officially stated to comprise state property, commercial property based on activity by state enterprises, joint co-operative and private property. Production in 1989 was: Textiles, 218.6m. sq. metres (cotton fabrics 182.6m. sq. metres); cement (1989), 3,800m. tonnes; wheat flour, 398,000 tonnes; fuel oil (1989), 4,152,800 tonnes; diesel oil (1989), 1,178,500 tonnes; processed crude oil, 7,916,000 tonnes; steel, 314,200 tonnes; steel bars, 367,100 tonnes; nickel and cobalt, 46,500 tonnes; copper, 2,759,100 tonnes; 314,700 tyres; 231,200 inner tubes; leather shoes, 11.00m. pairs; paint (1989), 121,000 hectolitres; soft drinks (1989), 2,396,500 hectolitres; 308,500m. cigars; 16,519,700m. cigarettes; fertilizers, 898,600 tonnes; 2,345 buses; 172,700 radios; 70,500 TVs; 9,100 refrigerators; sulphuric acid, 381,500 tonnes; fine salt, 114,900 tonnes.

Under legislation of Sept. 1994 employees made redundant must be assigned to other jobs or to strategic social or economic tasks; failing this, they are paid 60% of former salary.

**Trade Unions.** The Workers' Central Union of Cuba groups 23 unions.

**FOREIGN ECONOMIC RELATIONS.** Foreign debt to non-communist countries was US\$9,100m. at the end of 1994. Since July 1992 foreign investment has been permitted in selected state enterprises, and Cuban companies have been able to import and export without seeking government permission. Foreign ownership is recognized in joint ventures. A free-trade zone opened at Havana 1993. 3 more are envisaged in legislation of 1996. In 1994, the productive, real estate and service sectors were opened to foreign investment. Legislation of 1995 opened all sectors of the economy to foreign investment except defence, education and health services. 100% foreign-owned investments, and investments in property, are now permitted.

**KEY HISTORICAL EVENTS.** For the history of Cyprus to 1974 *see* THE STATESMAN'S YEAR-BOOK, 1990-91, p. 400.

On 15 July 1974 a coup was staged by supporters of the military junta then ruling Greece and President Makarios left until 7 Dec. 1974.

Turkey invaded the island on 20 July 1974, eventually occupying the northern part. 0.2m. Greek Cypriots fled to live as refugees in the south. The UN General Assembly unanimously adopted resolutions calling for the withdrawal of all foreign troops from Cyprus and the return of refugees to their homes, but without result.

On 13 Feb. 1975 a Turkish Cypriot Federated State was proclaimed. Rauf Denktas was appointed President. On 15 Nov. 1983 the Turkish state unilaterally proclaimed itself the 'Turkish Republic of Northern Cyprus' (TRNC). In Nov. 1983 and May 1984 the UN Security Council declared all secessionist actions illegal. Several UN-inspired talks were held 1985-91 without success.

In March 1991 the UN Security Council adopted unanimously a resolution rejecting new TRNC demands. In Sept. discussions were held between the UN Secretary-General's representatives, the Cypriot president and Rauf Denktas. In Oct. the UN Secretary-General rejected Rauf Denktas's demands for the recognition of separate sovereignty for the TRNC including a right to secession.

Further talks were held without results in May-Aug. 1992. On 26 Aug. the UN Security Council adopted a resolution endorsing the Secretary-General's ideas and territorial adjustments as the basis for reaching an agreement. Talks were held in Oct. 1992 and in 1993 after the election of President Clerides without result. Cyprus has accepted confidence-building measures suggested by the UN but these were opposed by the TRNC. In July 1994 the UN Security Council adopted a resolution reaffirming its position that a settlement must be based on a single sovereignty and exclude any form of partition or succession. In Oct. 1994 informal talks were held between President Clerides and Rauf Denktas, but no progress was made.

**KEY HISTORICAL EVENTS.** Czechoslovakia came into existence on 28 Oct. 1918, when the Czech National Committee took over the government of the Czech lands upon the dissolution of Austria-Hungary. Two days later the Slovak National Council manifested its desire to unite politically with the Czechs. On 14 Nov. 1918 the first Czechoslovak National Assembly declared the Czechoslovak State to be a republic with T. G. Masaryk as President (1918–35). For territorial changes up to and during the Second World War see

THE STATESMAN'S YEAR-BOOK, 1995-96, p. 464. Liberation by the Soviet Army and US Forces was completed by May 1945 and territories taken by Germans, Poles and Hungarians were restored to Czechoslovak sovereignty. Subcarpathian Ruthenia was transferred to the USSR.

Elections were held in May 1946, at which the Communist Party obtained about 38% of the votes.

A coalition government under a Communist Prime Minister, Klement Gottwald, remained in power until 20 Feb. 1948, when 12 of the non-Communist ministers resigned in protest against infiltration of Communists into the police. In Feb. a predominantly Communist government was formed by Gottwald. In May elections resulted in an 89% majority for the government and President Beneš resigned.

In 1968 pressure for liberalization culminated in the overthrow of the Stalinist leader, Antonín Novotný, and his associates. The Communist Party introduced an 'Action Programme' of far-reaching reforms. Soviet pressure to abandon this programme was exerted between May and Aug. 1968, and finally, Warsaw Pact forces occupied Czechoslovakia on 21 Aug. The Czechoslovak government was compelled to accept a policy of 'normalization' (i.e., abandonment of most reforms) and the stationing of Soviet forces.

Mass demonstrations demanding political reform began in Nov. 1989. After the authorities' use of violence to break up a demonstration on 17 Nov., the Communist leader resigned. On 30 Nov. the Federal Assembly abolished the Communist Party's sole right to govern, and a new Government was formed on 3 Dec. The protest movement continued to grow, and on 10 Dec. another government was formed. Gustáv Husák resigned as President, and was replaced by Václav Havel on the unanimous vote of 323 members of the Federal Assembly on 29 Dec.

On 25 Nov. 1992 the Federal Assembly voted the dissolution of the Czech and Slovak Federal Republic. This came into effect at midnight on 31 Dec. 1992. Economic property was divided in accordance with a federal law of 13 Nov. 1992. Real estate became the property of the republic in which it was located. Other property was divided by specially-constituted commissions in the proportion of 2 (Czech Republic) to 1 (Slovakia) on the basis of population size. Military materiel was divided on the 2:1 principle. Regular military personnel were invited to choose which armed force they would serve in.

**TERRITORY AND POPULATION.** The Czech Republic is bounded in the west by Germany, north by Poland, east by Slovakia and south by Austria. Minor exchanges of territory to straighten their mutual border were agreed between the Czech Republic and Slovakia on 4 Jan. 1996, but the Czech parliament refused to ratify them on 24 April 1996. Its area is 78,864 sq. km. At the 1991 census the population was 10,302,215. 1996 estimate, 10,331,206 (51.4% female; 74.7% urban); density, 131 per sq. km. Vital statistics rates (per 1,000 population), 1995: Birth, 9.3; death, 11.4; marriage, 5.3; divorce, 3; infant mortality, (per 1,000 live births), 7.7. Expectation of life, 1995: Males, 64.8 years; females, 74.2 years.

**CLIMATE.** The climate is much modified by marine influences, and the effect of the Gulf Stream, to give winters that may be both cold or mild and often cloudy. Summers may be warm and sunny or chilly and rainy. In general, the east is drier

than the west. Long periods of calm weather are exceptional and windy conditions are common. Copenhagen. Jan. 33°F (0.5°C), July 63°F (17°C). Annual rainfall 650 mm. Esbjerg. Jan. 33°F (0.5°C), July 61°F (16°C). Annual rainfall 800 mm. 10% of rainfall precipitates as snow.

**ROYAL HOUSE.** The reigning Queen is **Margrethe II**, b. 16 April 1940; married 10 June 1967 to Prince Henrik, b. Count de Monpezat. She succeeded to the throne on the death of her father, King Frederik IX, on 14 Jan. 1972; *offspring*: Crown Prince Frederik, b. 26 May 1968; Prince Joachim, b. 7 June 1969, married 18 Nov. 1995 Alexandra Manley (b. 30 June 1964).

*Mother of the Queen*: Queen Ingrid, b. Princess of Sweden, 28 March 1910.

*Sisters of the Queen*: Princess Benedikte, b. 29 April 1944 (married 3 Feb. 1968 to Prince Richard of Sayn-Wittgenstein-Berleburg); Princess Anne-Marie, b. 30 Aug. 1946 (married 18 Sept. 1964 to King Constantine of Greece).

The crown was elective from the earliest times but became hereditary by right in 1660. The direct male line of the house of Oldenburg became extinct with King Frederik VII on 15 Nov. 1863. In view of the death of the king, without direct heirs, the Great Powers signed a treaty at London on 8 May 1852, by the terms of which the succession to the crown was made over to Prince Christian of Schleswig-Holstein-Sonderburg-Glücksburg, and to the direct male descendants of his union with the Princess Louise of Hesse-Cassel. This became law on 31 July 1853. Linked to the constitution of 5 June 1953, a new law of succession, dated 27 March 1953, has come into force, which restricts the right of succession to the descendants of King Christian X and Queen Alexandrine, and admits the sovereign's daughters to the line of succession, ranking after the sovereign's sons.

The Queen receives a tax-free annual sum of 43.5m. kroner from the state (1997).

**CONSTITUTION AND GOVERNMENT.** The present constitution is founded upon the Basic Law of 5 June 1953. The legislative power lies with the Queen and the *Folketing* (parliament) jointly. The executive power is vested in the monarch, who exercises authority through the ministers. The judicial power is with the courts. The monarch must be a member of the Evangelical-Lutheran Church, the official Church of the State and may not assume major international obligations without the consent of the Folketing. The Folketing consists of one chamber. All men and women of Danish nationality of more than 18 years of age and permanently resident in Denmark possess the franchise and are eligible for election to the Folketing, which is at present composed of 179 members; 135 members are elected by the method of proportional representation in 17 constituencies. In order to attain an equal representation of the different parties, 40 additional seats are divided among such parties which have not obtained sufficient returns at the constituency elections. 2 members are elected for the Faroe Islands and 2 for Greenland. The term of the legislature is 4 years, but a general election may be called at any time. The Folketing convenes every year on the first Tuesday in October. Besides its legislative functions, it appoints every 6 years judges who, together with the ordinary members of the Supreme Court, form the *Rigsret*, a tribunal which can alone try parliamentary impeachments.

At the elections on 21 Sept. 1994 the electorate was 3,988,787; turn-out was 84%. The Social Democratic Party (SD) won 62 seats with 34.6% of votes cast (69 with 37.4% in 1990); the Liberal Party, 42 with 23.3% (29 with 15.8%); the Conservative Party, 27 with 15% (30 with 16%); the Socialist Party, 13 with 7.3% (15 with 8.3%); the Progress Party, 11 with 6.4% (12 with 6.4%); the Social Liberal Party (SL; formerly Radical Liberal Party), 8 with 4.6% (7 with 3.5%); the Red-Green Alliance, 6 with 3.1%; the Centre Democrats (CD), 5 with 2.8% (9 with 5.1%); ind., 1 with 1%.

Following the 1994 elections a coalition government of the Social Democratic (S), Social Liberal (RV) and Centre Democratic (CD) Parties took office on 21 Sept. 1994, consisting in Dec. 1996 of:

*Prime Minister*: Poul Nyrup Rasmussen (b. 1943; S).

*Local Government.* For administrative purposes Denmark is divided into 275 communes; each of them has a district council of between 7 and 31 members, headed by an elected mayor. The city of Copenhagen forms a district by itself and is governed by a city council of 55 members, elected every 4 years, and an executive, consisting of the chief burgomaster and 6 burgomasters, appointed by the city council for 4 years. There are 14 counties, each of which is administered by a county council of between 13 and 31 members, headed by an elected mayor. All councils are elected directly by universal suffrage and proportional representation for 4-year terms. There are also about 2,100 parishes. Government at this level is administered by parish councils elected for 4 years.

The counties and Copenhagen are superintended by the Ministry of Interior Affairs. The municipalities are superintended by 14 local supervision committees, headed by a state county prefect who is a civil servant appointed by the Queen.

County and municipal elections were held on 16 Nov. 1993. The Social Democrats won 34.9% of votes cast, the Liberals 28.8% (county elections).

**DEFENCE.** Military defence is organized in accordance with the Defence Act of Dec. 1993. The overall organization of the Danish Armed Forces comprises the Defence Command, the Army, the Navy, the Air Force and interservice authorities and institutions. To this should be added the Home Guard, which is an indispensable part of Danish military defence. The Home Guard is based on the Home Guard Act of May 1982 as amended in Dec. 1993.

In accordance with the Defence Act the Chief of Defence has full command of the 3 services: The Army, the Navy and the Air Force. The Chief of Defence and the Defence Staff constitute the Defence Command.

The Constitution of 1849 declared it the duty of every fit man to contribute to the national defence, and this provision is still in force. According to the Personnel Act of May 1982 as amended in June 1986 and Dec. 1993, military personnel comprises officers, non-commissioned officers and privates. Private personnel are provided by conscription and by recruiting of volunteers. Selection of conscripts takes place at the age of 18–19 years, and the conscripts are normally called up for service  $\frac{1}{2}$ –1 $\frac{1}{2}$  years later. Afterwards conscripts may be recalled for refresher training or musters. The initial training period for conscripts is between 4 and 12 months.

army is organized in brigades and some brigade size structures, headquarters units and support units. The brigade units are organized in 5 mechanized infantry brigades including the Danish Reaction Brigade. The field army is equipped with 353 battle tanks, about 529 armoured personnel carriers and 161 light armoured fighting vehicles as well as artillery including 76 self-propelled howitzers. The Army has 12 AS-550 Fennec anti-armour and 12 Hughes 500 helicopters for observation and liaison. The local defence units are organized in infantry battalions and some artillery battalions as well as a number of support units. The men of the latest annual service groups form the troops of the line, while those of the previous years form the local defence, the reserve and the reserve for the Home Guard.

**Navy.** The Navy, some 6,000 strong (including 1,800 civilians and 500 conscripts) in 1996, is supported by 5,000 reservists. The wartime strength is 9,500. The naval Air Arm comprises 8 Lynx helicopters, and the naval Home Guard operates 35 inshore patrol craft.

Coastal Defence forces comprise 1 permanent fortress armed with 150mm guns and 2 mobile coastal batteries with Harpoon missiles.

Additional forces of a paramilitary nature include 4 icebreakers, 6 pollution control vessels and 6 survey vessels. The 2 main naval bases are at Frederikshavn and Korsør.

In addition the Air Force has a number of supplementary units, including 1 transport squadron (3 C-130 Hercules and 3 Gulfstream III), 1 helicopter search and rescue squadron (8 S-61As), and a control and warning system. T-17 Supporter aircraft are used for initial pilot training, and pilots continue training at EURO-NATO Joint Jet Pilot Training in the USA.

**Home Guard.** The overall Home Guard organization comprises the Home Guard Command, the Army Home Guard, the Naval Home Guard, the Air Force Home Guard and the Service Corps.

The personnel of the Home Guard is recruited on a voluntary basis. The personnel establishment of the Home Guard was in 1996 about 66,000 persons (52,000 in the Army Home Guard, 4,400 in the Navy Home Guard, 7,800 in the Air Force Home Guard and 1,800 in the Service Corps.).

**INTERNATIONAL RELATIONS.** In a referendum in June 1992 the electorate voted against ratifying the Maastricht Treaty for closer political union within the EU. Turn-out was 82%. 50.7% of votes were against ratification, 49.3% in favour. **Justice.** The lowest courts of justice are organized in 82 tribunals (*byretter*), where minor cases are dealt with by a single judge. The tribunals at Copenhagen have a president and 41 other judges and Århus a president and 15 other judges; the other tribunals have 1 to 11. Cases of greater consequence are dealt with by the 2 superior courts (*Landsretterne*); these courts are also courts of appeal for the above-named minor cases. The Eastern superior court in Copenhagen has a president and 45 other judges and the Western in Viborg, a president and 22 other judges. From these an

appeal lies to the Supreme Court in Copenhagen, composed of a president and 15 other judges. Judges under 65 years of age can be removed only by judicial sentence.

In 1994, 16,254 men and 1,871 women were convicted of violations of the criminal code, fines not included. In 1994, the daily average population in penal institutions was 3,454 men and 173 women, of whom 789 men and 48 women were on remand.

**Religion.** There is complete religious liberty. The state church is the Evangelical-Lutheran. About 90% of the population belong to it. It is divided into 10 dioceses each with a Bishop. The Bishop together with the Chief Administrative Officer of the county make up the diocesan governing body, responsible for all matters of ecclesiastical local finance and general administration. Bishops are appointed by the Crown after an election by the clergy and parish council members. Each diocese is divided into a number of deaneries (107 in the whole country) each with its Dean and Deanery Committee, who have certain financial powers.

**Education.** Education has been compulsory since 1814. The *folkeskole* (public primary and lower secondary school) comprises a pre-school class (*børnehaveklasse*), a 9-year basic school corresponding to the period of compulsory education and a 1-year voluntary tenth form. Compulsory education may be fulfilled either through attending the *folkeskole* or private schools or through home-instruction, on the condition that the instruction given is comparable to that given in the *folkeskole*. The *folkeskole* is mainly a municipal school and no fees are paid. In the year 1994–95, 2,311 primary and lower secondary schools had 586,339 pupils; they employed 56,323 teachers in 1992–93. 18.9% of the total number of schools were private schools and they were attended by 11.4% of the total number of pupils. The 9-year basic school is in practice not streamed. However, a certain differentiation may take place in the eighth and ninth forms.

On completion of the eighth and ninth forms the pupils may sit for the leaving examination of the *folkeskole* (*folkeskolens afgangsprøve*). On completion of the tenth form the pupils may sit for either the leaving examination of the *folkeskole* (*folkeskolens afgangsprøve*) or the advanced leaving examination of the *folkeskole* (*folkeskolens udvidede afgangsprøve*).

For 14–18 year olds there is an alternative of completing compulsory education at continuation schools, with the same leaving examinations as in the *folkeskole*. In the year 1994–95 there were 225 continuation schools with 19,459 pupils.

Under certain conditions the pupils may continue school either in the 3-year gymnasium (upper secondary school) or 2-year *studenterkursus* (adult upper secondary school) ending with *studentereksamen* (upper secondary school leaving examination) or in the 2-year or 3-year higher preparatory examination course ending with the *højere forberedelseseksamen*. There were (1994–95) 153 of these upper secondary schools with 75,793 pupils. Another way of continuing school is to attend HHX (*Højere handelseksamen*) which are diploma courses within the field of trade and commerce (21,773 pupils were enrolled in 1994–95), or HTX (*Højere teknisk eksamen*) which are technical diploma courses (5,755 pupils in 1994–95).

Vocational education and training consists of a 1/2-year or 1-year basic course, followed by a second part of 2–4 years. Vocational education and training cover courses in commerce and trade, iron and metal industry, chemical industry, construction industry, graphic industry, service trades, food industry, agriculture, horticulture, forestry and fishery, transport and communication, and health related auxiliary programmes.

In 1994–95, 48,746 students were enrolled within trade and commerce. 75,416 students were enrolled within technical education.

Tertiary education comprises all education after the 12th year of education, no matter whether the 3 years after the 9th form of the *folkeskole* have been spent on a course preparing for continued studies (*studentereksamen*, *højere forberedelseseksamen* or *HHX/HTX*), or a course preparing for a vocation (*EUD*). Tertiary education can be divided into 2 main groups, short courses of further education and long courses of higher education. There was a total of 17,596 students at short courses of further education.

There were 18 teacher-training colleges with 10,009 students and 33 colleges for training of personnel for kindergartens, leisure-time and social care institutions with 11,163 students.

Degree-courses in engineering: The Technical University of Denmark had 7,130 students. 9 engineering colleges had 7,125 students.

Universities: The University of Copenhagen (founded 1479) 27,339 students. The University of Århus (founded in 1928) 17,786 students. The University of Odense (founded in 1964) 9,211 students. Roskilde University Centre (founded in 1972) 4,896 students. Aalborg University Centre (founded in 1974) 8,564 students.

Other types of post-secondary education: The Royal Veterinary and Agricultural University had 3,135 students. The Danish School of Pharmacy had 1,011 students. The 10 colleges of economics, business administration and modern languages had 24,589 students. The 2 schools of architecture had 1,873 students. 7 academies of music had 1,138 students. The 2 schools of librarianship had 835 students. The Royal Danish School of Educational Studies had 2,104 students. The 5 schools of social work had 1,404 students. The 2 colleges of home economics had 515 students. The School of Visual Arts had 183 students. The 28 schools of nursing had 8,995 students. The 3 military academies had 603 students.

Among adult education the most well-known are *Folkeskolehøjskoler*, folk high schools (with 60,174 students). Adult education in general programmes, single subjects (since 1978, with 98,465 students), labour market training courses for semi-skilled workers and for skilled workers (with 182,187 students) and courses in single subject education at vocational schools (with 140,785 students).

**Social Security.** The main body of Danish social welfare legislation is consolidated in 7 acts concerning (1) public health security, (2) sick-day benefits, (3) social pensions (for early retirement and old age), (4) employment injuries insurance, (5) employment services, unemployment insurance and activation measures, (6) social assistance including assistance to handicapped, rehabilitation, child and juvenile guidance, day-care institutions, care of the aged and sick, and (7) family allowances.

*Public health security*, covering the entire population, provides free medical care, substantial subsidies for certain essential medicines together with some dental care and a funeral allowance. Hospitals are primarily municipal and the hospital treatment is normally free. All employed workers are granted daily sickness allowances, others can have limited daily sickness allowances. Daily cash benefits are granted in the case of temporary incapacity for work because of illness, injury or child-birth to all persons who earn an income derived from personal work. The benefit is paid up to the rate of 100% of the average weekly earnings. There was however a maximum rate of 2,617 kroner a week in 1995.

*Social pensions* cover the entire population. Entitlement to old-age pensions at the full rates is subject to the condition that the beneficiary has been ordinarily resident in Denmark for a number of years (40). For a shorter period of residence, the benefits are reduced proportionally. The basic amount of the old-age pension in July 1996 was 131,184 kroner a year to married couples and 90,756 to single persons. Various supplementary allowances, depending on age and income, may be payable with the basic amount. Persons aged 60–66 may, depending on health and income, apply for an early retirement pension. Persons over 67 years of age are entitled to the basic amount. The pensions to a married couple are calculated and paid to the husband and the wife separately. Early retirement pension to a disabled person is payable at ages 18–66 years, having regard to the degree of disability (physical as well as otherwise), at a rate of up to 143,544 kroner to a single person. Early retirement pensions may be subject to income regulation. The same applies to the basic amount of the old age pension to persons aged 67–69. Members of the unemployment funds have a right to early retirement pay at ages 60–66 years.

*Employment injuries insurance* provides for disablement or survivors' pensions and compensations. The scheme covers practically all employees.

*Employment services* are provided by regional public employment agencies. The insurance against unemployment provides daily allowances and the coverage is about 85% of the unemployed. The unemployment insurance system is based on state subsidized insurance funds linked to the trade unions. The unemployment insurance funds had in Aug. 1996 a membership of 2,204,127.

The *Social Assistance Act* applies to the field of social legislation which rules the individually granted benefits in contrast to the other fields of social legislation which apply to fixed benefits.

Total social expenditure, including hospital and health services, statutory pensions, etc, amounted in the financial year 1994 to 303,397.2m. kroner.

**KEY HISTORICAL EVENTS.** Being a Spanish colony since 1532, Ecuador became independent in 1822 as part of the federation of Gran Colombia. It seceded in 1830.

Following his election in July 1996, Congress deposed President Bucarám on 6 Feb. 1997 on the grounds of mental incompetence and elected the Speaker, Fabián Alarcón as President.

**TERRITORY AND POPULATION.** Ecuador is bounded on the north by Colombia, on the east and south by Peru and on the west by the Pacific ocean. The frontier with Peru has long been a source of dispute. The latest delimitation of it was in the treaty of Rio, 29 Jan. 1942, when, after being invaded by Peru, Ecuador lost over half her Amazonian territories. Ecuador unilaterally denounced this treaty in Sept. 1961. Fighting between Peru and Ecuador began again in Jan. 1981 over this border issue but a ceasefire was agreed in early Feb. Following a confrontation of soldiers in Aug. 1991 the foreign ministers of both countries signed a pact creating a security zone, and took their cases to the UN in Oct. 1991. Armed clashes with Peruvian forces broke out again in Jan. 1995. On 26 Jan. further armed clashes broke out with Peruvian forces in the undemarcated mutual border area ('Condor Cordillera'). On Feb. 2 talks were held under the auspices of the guarantor nations of the 1942 Protocol of Rio de Janeiro (Argentina, Brazil, Chile and the USA) but fighting continued. Ceasefires were agreed on 17 Feb., which was broken, and on 28 Feb. On 25 July 1995 an agreement between Ecuador and Peru established a demilitarized zone along their joint frontier. The frontier was re-opened on 4 Sept. 1995. On 23 Feb. 1996 Ecuador and Peru signed 3 further agreements to regulate the dispute.

No definite figure of the area of the country can yet be given, as this part of the frontier has not been delimited (2,289 sq. km). One estimate of the area of Ecuador is 275,830·0 sq. km, excluding the litigation zone between Peru and Ecuador, which is 190,807 sq. km, but including the **Galápagos** Archipelago (8,010 sq. km), situated in the Pacific ocean about 960 km west of Ecuador and comprising 13 islands and 19 islets. These were discovered in 1535 by Fray Tomás de Berlanga and had a population of 10,207 in 1996. They are a national park, and had about 80,000 visitors in 1995.

The population is an amalgam of European, Amerindian and African origins. Some 40% of the population is Amerindian: Quechua, Swiwiar, Achuar and Zaparo. In May 1992 they were granted title to the 1m. ha of land they occupy in Pastaza.

The official language is Spanish. Quechua and other languages are also spoken.

The President appoints and leads a Council of Ministers. A referendum on constitutional reform was held in Nov. 1995.

Legislative power is vested in a unicameral 82-member *National Congress*, also directly elected, 12 members on a national basis for a 4-year term and 70 on a provincial basis for a 2-year term. Voting is obligatory for all literate citizens of 18-65 years. Mid-term Congressional elections were held on 19 May 1996. The Social Christian Party won 28 seats; the Roldosista Party, 18.

Throughout the 1980s the Farabundo Martí National Liberation Front (FMLN) waged guerilla war against the government.

Talks between the government and the FMLN in April 1991 led to constitutional reforms in May envisaging the establishment of civilian control over the armed forces and a reduction in their size. In May the UN Security Council decided to send a mission to observe the government-FMLN negotiations, in the first place for one year. An agreement reached in Sept. 1991 permits the FMLN to participate in a newly-created police force under civilian authority. On 16 Jan. 1992 the government and the FMLN signed a peace agreement. A permanent ceasefire began on 1 Feb., and the FMLN agreed to demobilize by 15 Dec.

# EQUATORIAL GUINEA

República de Guinea  
Ecuatorial

*Capital:* Malabo  
*Population:* 420,000 (1992)  
*GNP per capita:* US\$430 (1994)  
*HDI/world rank:* 0.461/131 (1993)

**KEY HISTORICAL EVENTS.** Equatorial Guinea was a Spanish colony (Territorios Españoles del Golfo de Guinea) until 1 April 1960. The territory was then divided into two Spanish provinces with a status comparable to the metropolitan provinces until 20 Dec. 1963, when they were re-joined as an autonomous Equatorial Region. It became an independent Republic on 12 Oct. 1968 as a federation of the two provinces, and a unitary state was established on 4 Aug. 1973. The first President, Francisco Macías Nguema, was declared President-for-Life on 14 July 1972, but was overthrown by a military coup on 3 Aug. 1979. A Supreme Military Council then created was the sole political body until constitutional rule was resumed on 12 Oct. 1982.

**TERRITORY AND POPULATION.** The mainland part of Equatorial Guinea is bounded north by Cameroon, east and south by Gabon, and west by the Gulf of Guinea in which lie the islands of Bioko (formerly Macías Nguema, formerly Fernando Póo) and Annobón (called Pagalu from 1973 to 1979). The total area is 28,051 sq. km (10,831 sq. miles) and the population at the last (1983) census was 304,000. Estimate (1992) 420,000. Another 110,000 are estimated to remain in exile abroad.

The 7 provinces are grouped into 2 regions, Continental (C), chief town Bata and Insular (I), chief town Malabo, with areas and populations as follows:

	<i>Sq. km</i>	<i>Census 1983</i>	<i>Chief town</i>
Annobón (I)	17	2,006	San Antonio de Palea
Bioko Norte (I)	776	46,221	Malabo
Bioko Sur (I)	1,241	10,969	Luba
Centro Sur (C)	9,931	52,393	Evinayong
Kié-Ntem (C)	3,943	70,202	Ebebiyin
Litoral (C)	6,665 <sup>1</sup>	66,370	Bata
Wele-Nzas (C)	5,478	51,839	Mongomo

<sup>1</sup> Including the adjacent islets of Corisco, Elobey Grande and Elobey Chico (17 sq. km).

In 1986 the largest towns were Bata (17,000) and the capital Malabo (10,000).

The main ethnic group on the mainland is the Fang, which comprises 85% of the total population; there are several minority groups along the coast and adjacent islets. On Bioko the indigenous inhabitants (Bubis) constitute 60% of the population there, the balance being mainly Fang and coast people. On Annobón the indigenous inhabitants are the descendants of Portuguese slaves and still speak a Portuguese patois. The official language is Spanish.

**CLIMATE.** The climate is equatorial, with alternate wet and dry seasons. In Río Muni, the wet season lasts from Dec. to Feb.

**CONSTITUTION AND GOVERNMENT.** A Constitution was approved in Aug. 1982 by 95% of the votes cast in a plebiscite. It provided for an 11-member Council of State, and for a 41-member House of Representatives of the People, the latter being directly elected on 28 Aug. 1983 for a 5-year term and re-elected on 10 July 1988. The President appointed and leads a Council of Ministers.

On 12 Oct. 1987 a single new political party was formed as the *Partido Democrático de Guinea Ecuatorial*.

A referendum on 17 Nov. 1991 approved the institution of multi-party demo-

cacy, and a law to this effect was passed in Jan. 1992. The electorate is restricted to citizens who have resided in Equatorial Guinea for at least 10 years. A new parliament, the *National Assembly*, has 80 seats. At the elections on 21 Nov. 1993 candidates from 8 parties stood. The main opposition parties called for a boycott. Turn-out was 30%. Presidential elections were held on 25 Feb. 1996. It was announced that President Nguema Mbasogo had been re-elected by 99% of votes cast. Parliamentary elections were held on 26 Feb. 1996.

*President of the Supreme Military Council, Minister of Defence:* Brig.-Gen. Teodoro Obiang Nguema Mbasogo (b. 1943).

In Sept. 1996 the government comprised:

*Prime Minister:* Angel Seriche Dougan.

This ended in 1952 when the UN sanctioned its federation with Ethiopia. In 1962 Ethiopia became a unitary state and Eritrea was incorporated as a province. Eritreans began an armed struggle for independence, from 1972 under the leadership of the Eritrean People's Liberation Front (EPLF) which culminated successfully in the capture of Asmara on 24 May 1991. From then on the EPLF maintained a *de facto* independent

administration which was recognized by the Ethiopian government succeeding the deposed President Mengistu.

# ESTONIA

Eesti Vabariik

(Republic of Estonia)

*Capital:* Tallinn

*Population:* 1.6m. (1992)

*GNP per capita:* US\$2,820 (1994)

*HDI/world rank:* 0.749/68 (1993)

**KEY HISTORICAL EVENTS.** The early Estonians did not create state units and were subjected to Viking incursions. In 1346 the Danes relinquished Estonia to German rule, and it became part of the Holy Roman Empire and then a Swedish possession in the middle of the 17th century. On Sweden's defeat by Peter the Great, Estonia passed to the Russian Empire in 1721. For events during the 1917 Russian Revolution see *THE STATESMAN'S YEAR-BOOK*, 1995–96, p. 521.

An independent republic was proclaimed in May 1919.

The secret protocol of the Soviet-German agreement of 23 Aug. 1939 assigned Estonia to the Soviet sphere of interest. An ultimatum (16 June 1940) led to the formation of a government acceptable to the USSR. On 21 July the Estonian parliament proclaimed the establishment of an Estonian Soviet Socialist Republic and applied to join the USSR; on 6 Aug. the Supreme Soviet of the USSR accepted the application.

On 30 March 1990 the Estonian Supreme Soviet proclaimed that the Soviet occupation of Estonia on 17 June 1940 had not disrupted the continuity of the former republic, and adopted, by 73 votes to nil with 3 abstentions, a declaration calling for the eventual re-establishment of full sovereignty. At a referendum in March 1991 (77.8% of votes cast were in favour of independence. While an attempted coup was taking place in the USSR parliament declared independence on 20 Aug. 1991. A fully independent status was conceded by the USSR State Council on 6 Sept. 1991.

**TERRITORY AND POPULATION.** Estonia is bounded in the west and north by the Baltic Sea, east by Russia and south by Latvia. There are over 1,000 offshore islands, of which the largest are Saaremaa and Hiiumaa, but only 14 are permanently inhabited. Area, 45,100 sq. km (17,413 sq. miles); population, 1,595,000 (1992 estimate). The 1989 census population was 1,565,662, of whom Estonians accounted for 61.5%, Russians 30.3%, Ukrainians 3.1%, Belorussians 1.8% and Finns 1.1%. A census is scheduled for Jan. 2000. Vital statistics rates (1991, per 1,000 population): Birth, 14, death, 12; infant mortality (per 1,000 live births), 12. There were 25,587 induced abortions in 1993 (29,406 in 1991). Expectation of life was 70 years in 1991.

The capital is Tallinn (1994 population, 490,000). Other large towns are Tartu (110,100), Kohtla-Järve (75,000), Narva (85,000) and Pärnu (60,000). There are 15 districts, 33 towns and 26 urban settlements.

The constitution came into effect on 4 July 1992. It defines Estonia as a 'democratic state guided by the rule of law, where universally recognized norms of international law are an inseparable part of the legal system.' It provides for a 101-member national assembly (*Riigikogu*) elected for 4-year terms. There are 11 electoral districts with 8 to 11 mandates each. Candidates may be elected a) by gaining more than 'quota', i.e. the number of votes cast

in a district divided by the number of its mandates; b) by standing for a party which attracts for all of its candidates more than the quota, in order of listing; c) by being listed nationally for parties which clear a 5% threshold and eligible for the seats remaining according to position on the lists. The head of state is the *President*, elected by the Riigikogu for 5-year terms. Presidential candidates must gain the nominations of at least 20% of parliamentary deputies. If no candidate wins a two-thirds majority in any of 3 rounds, the Speaker convenes an electoral college composed of parliamentary deputies and local councillors. At this stage any 21 electors may nominate an additional candidate. The electoral college elects the President by a simple majority.

Presidential elections were held in 3 rounds on 26–27 Aug. 1996. There were 2 candidates. No candidate gained sufficient votes to be elected. On 20 Sept. 1996, President Meri was re-elected by an electoral college against 4 opponents.

# ETHIOPIA

Federal Democratic  
Republic of Ethiopia

*Capital:* Addis Ababa  
*Population:* 55m. (1994)  
*GNP per capita:* US\$130 (1994)  
*HDI/world rank:* 0.237/168 (1993)

**KEY HISTORICAL EVENTS.** Modern Ethiopia dates from the reign of the Emperor Theodore (1855–68). Menelik II (1889–1913) defeated would-be Italian colonists in 1896 and united the country. In 1936 Ethiopia was eventually conquered by the Italians, who were in turn defeated by the Allied forces in 1941 when the Emperor returned.

A provisional military government deposed the Emperor and assumed power on 12 Sept. 1974. In Feb. 1977 Lieut.-Col. Mengistu Haile Mariam became Chairman of the Provisional Military Administrative Council, and in Sept. 1987

he was elected President of the newly-inaugurated People's Democratic Republic.

Following ever-increasing territorial gains by the insurgent Ethiopian People's Revolutionary Democratic Front (EPRDF) and the Eritrean People's Liberation Front (EPLF), Mengistu stepped down as president and fled the country. An interim EPRDF government led by Meles Zenawi took over after the flight of President Mengistu. In July 1991 a conference of 24 political groups called to appoint a transitional government agreed a democratic charter guaranteeing freedom of expression and association and the right to self-determination for ethnic groups. An 87-member Council of Representatives was formed which unanimously elected Meles President.

Eritrea seceded, and became independent on 24 May 1993.

**TERRITORY AND POPULATION.** Ethiopia is bounded in the north-east by Eritrea, east by Djibouti and Somalia, south by Kenya and west by Sudan. It has a total area of 1,098,000 sq. km. The secession of Eritrea in 1993 left Ethiopia without a coastline. An Eritrean-Ethiopian agreement of July 1993 gives Ethiopia rights to use the Eritrean ports of Assab and Massawa.

The first census was carried out in 1984: Population, 42,019,418 (without Eritrea, 39,570,266). Estimate (1994), 55m. (15% urban). Growth rate was 2.9% in 1989; expectation of life, (1991): Males, 47 years; females, 50.

The 1994 Constitution provides for a federation of 9 regions: Afar, Amhara, Benshangli, Gambella, Harar, Oromia, The Peoples of the South, Somalia and Tigre.

The population of the capital, Addis Ababa, was estimated at 1.7m. in 1990. Other large towns (population, May 1984): Dire Dawa, in Hararge, 98,104; Nazret, in Shoa, 76,284; Bahr Dar, 54,800; Debre Zeit, 51,143.

There are 6 major ethnic groups (in % of total population in 1996): Oromo, 31%; Amhara, 30%; Tigrinya, 7%; Gurage, 4.7%; Somali, 4.1%; Sidamo, 3.2%. There are also some 60 minor ethnic groups and 286 languages are spoken. The *de facto* official language is Amharic, though Oromo-speakers form the largest group.

**CLIMATE.** The wide range of latitude produces many climatic variations between the high, temperate plateaus and the hot, humid lowlands. The main rainy season lasts from June to Aug., with light rains from Feb. to April, but the country is very vulnerable to drought. Addis Ababa. Jan. 59°F (15°C), July 59°F (15°C). Annual rainfall 50" (1,237 mm). Harar. Jan. 65°F (18.3°C), July 64°F (17.8°C). Annual rainfall 35" (897 mm). Massawa. Jan. 78°F (25.6°C), July 94°F (34.4°C). Annual rainfall 8" (193 mm).

**CONSTITUTION AND GOVERNMENT.** A 547-member constituent assembly was elected on 5 June 1994; turn-out was 55%. The EPRDF gained 484 seats. On 8 Dec. 1994 it unanimously adopted a new federal Constitution which provides for the creation of a federation of 9 regions based (except the capital and

the southern region) on a predominant ethnic group. These regions have the right of secession after a referendum. The *President*, a largely ceremonial post, is elected by parliament, the 548-member *Council of People's Representatives*. There is also an upper house, the 117-member *Federal Council*.

Parliamentary and regional elections were held in May and June 1995. The electorate was 24m. Candidates from 47 parties stood. The EPRDF won 593 seats.

*President*: Negasso Guidada (b. 1950; EPRDF; elected 22 Aug. 1995).

A new government was formed on 24 Aug. 1995 which comprised in Nov. 1996:

*Prime Minister*: Meles Zenawi (b. 1955; EPRDF).

*Deputy Prime Minister, Minister of Defence*: Tamrat Layne. *Deputy Prime Minister for Economic Affairs*: Kassu Illala. *Agriculture*: Teketel Forsido. *Education*: Guenet Zewde. *Finance*: Sufyan Ahmed. *Foreign Affairs*: Seyoum Mesfin. *Health*: Adam Ibrahim. *Information and Culture*: Wolde-Mikael Chamo. *Justice*: Mehetema Solomon. *Labour and Social Affairs*: Hassan Abdullah. *Mines and Energy*: Azedin Ali. *Economic Development and Co-operation*: Girma Biru. *Public Works and Urban Development*: Haile Aseged. *Trade and Industry*: Kassahun Ayele. *Transport and Communications*: Abdul Meyid Hussein. *Water Resources*: Shiferaw Yarso.

*Local Government*. Local authority elections were held on 21 June 1992. The electorate was about 33m.

## Republic of Fiji

*Capital:* Suva

*Population:* 803,500 (1996)

*GNP per capita:* US\$2,320 (1994)

*HDI/world rank:* 0.853/47 (1993)

**KEY HISTORICAL EVENTS.** The first European discovery of the Fiji Islands was by the Dutch navigator Abel Tasman in 1643, and they were recorded in detail by Capt. Bligh after the mutiny of the *Bounty* (1789). In the 19th century the search for sandalwood, in which enormous profits were made, brought many ships. The influence of the deserters, shipwrecked sailors and missionaries who settled on the islands disrupted the pattern of life of the indigenous Fijians and gave rise to inter-tribal wars until Fiji was

ceded to Britain on 10 Oct. 1874. Fiji became an independent state within the Commonwealth on 10 Oct. 1970. Following the electoral defeat of the Fijian-dominated National Alliance Party by an Indian-supported coalition in April 1987, Brig. Sitiveni Rabuka seized power after two coups, and declared Fiji a republic in Oct.; membership of the Commonwealth lapsed.

**TERRITORY AND POPULATION.** Fiji comprises 332 islands and islets (about one-third are inhabited) lying between 15° and 22° S. lat. and 174° E. and 177° W. long. The largest is Viti Levu, area 10,429 sq. km (4,027 sq. miles), next is Vanua Levu, area 5,556 sq. km (2,145 sq. miles). The island of Rotuma (47 sq. km, 18 sq. miles), about 12° 30' S. lat., 178° E. long., was added to the colony in 1881. Total area, 7,078 sq. miles (18,333 sq. km).

Total population (census, 1986), 715,375 (38.7% urban). The 1994 estimated total population of 778,750 consisted of 392,500 ethnic Fijians (50.4% of the population); 344,250 Indians (44.2%, whose ancestors had been introduced as field workers by the British) and 42,000 of other races (5.4%). 1996 estimate, 803,500 (40% urban).

Suva, the capital, is on the south coast of Viti Levu; population (census, 1986), 71,608. Lautoka had 28,728 inhabitants in 1986.

Vital statistics, 1987: Crude birth rate per 1,000 population, Fijian, 30.7, Indian, 25.6; crude death rate per 1,000 population, Fijian, 5.4, Indian, 5.2. Growth rate, 1989–90, 1.3%. Average life expectancy (1993), 61.4 years for males and 65.2 for females.

**CLIMATE.** A tropical climate, but oceanic influences prevent undue extremes of heat or humidity. The S.E. Trades blow from May to Nov., during which time nights are cool and rainfall amounts least. Suva. Jan. 80°F (26.7°C), July 73°F (22.8°C). Annual rainfall 117" (2,974 mm).

**CONSTITUTION AND GOVERNMENT.** On 25 July 1990 a new constitution was promulgated giving 'indigenous Fijians' the right to hold the prime ministership and a guaranteed 37 seats in the 70-seat *House of Representatives*. Fijian citizens of Indian descent have 27 seats, other races 5, and the Polynesian island of Rotuma, 1. The Upper House has 24 seats for Fijians, 9 for other races and 1 for Rotuma.

The *President* must be an indigenous Fijian, and is chosen by the Great Council of Chiefs.

At the elections of 18–25 Feb. 1994 the Soqosoqo ni Vakavulewa ni Taukei (SVT) won 31 of the 'indigenous' seats and the Fijian Nationalist United Front 1. The National Federation Party won 20 of the Indian seats, the Fiji Labour Party 13 and the General Voters' Party (non-Fijian, non-Indian) 5.

In Oct. 1996 the government comprised:

*President:* Ratu Sir Kamisese Mara, GCMG, KBE (sworn in 18 Jan. 1994).

**KEY HISTORICAL EVENTS.** Since the Middle Ages Finland had been a part of the realm of Sweden. In the 18th century parts of south-eastern Finland were conquered by Russia, and the rest of the country was ceded to Russia by the peace treaty of Hamina in 1809. Finland became an autonomous Grand Duchy which retained its previous laws and institutions under its Grand Duke, the Emperor of Russia. After the Russian revolution Finland declared itself independent on 6 Dec. 1917. The Civil War, in which 'Whites' supported by Germans fought 'Reds' supported by revolutionary Russians, was won by the

'Whites'. After the war relations between Finland and Soviet Russia were normalised in the Dorpat (Tartu) peace treaty of 14 Oct. 1920.

On 30 Nov. 1939 Soviet troops invaded Finland, after Finland had rejected territorial concessions demanded by the USSR. These, however, had to be made in the peace treaty of 12 March 1940, amounting to 32,806 sq. km and including the Carelian Isthmus, Viipuri and the shores of Lake Ladoga. When the German attack on the USSR was launched in June 1941 Finland again became involved in the war against the USSR. On 19 Sept. 1944 an armistice was signed in Moscow. Finland agreed to cede to Russia the Petsamo area in addition to cessions made in 1940 (total 42,934 sq. km). The peace treaty was signed in Paris on 10 Feb. 1947.

Every citizen over the age of 18 is eligible for Parliament, which is elected for 4 years, but can be dissolved sooner by the President.

The *President* is elected for 6 years by direct popular vote. In case no candidate wins an absolute majority, a second round is held between the 2 most successful candidates. Presidential elections were held in 2 rounds on 16 Jan. and 6 Feb. 1994. Martti Ahtisaari won the first round against 10 opponents with 25.9% of votes cast,

and the second against 1 opponent with 53.9%. Turn-out at the second round was 82.3%.

The governor directs the activities of the provincial office (*lääninhallitus*, Sw.: *länsstyrelse*) and of local districts (*kihlakunta*, Sw.: *härad*). In 1997 the number of local districts was 90.

The unit of local government is the municipality (*kunta*, Sw.: *kommun*). Main fields of municipal activities are local planning, roads and harbours, sanitary services, education, health services and social aid. The municipalities raise taxes independent from state taxation. Two categories of municipalities are distinguished by names: Towns (*kaupunki*, Sw.: *stad*) and other municipalities. In 1997 there were altogether 452 municipalities of which 105 were towns. In all municipalities municipal councils are elected for terms of 4 years; all inhabitants (men and women) of the municipality who have reached their 18th year are entitled to vote and eligible. Several municipalities regularly form associations for the administration of common institutions, e.g., a hospital or a vocational school, as well as for regional development and planning. Elections were held on 20 Oct. 1996. The SDP gained 24.5% of votes cast, the Centre Party, 21.8%.

The autonomous province of Åland has considerable self-government rights. It elects a 30-member Legislature (*Lagting*), which in turn elects the provincial Executive Board. **KEY HISTORICAL EVENTS.** The republic proclaimed on the fall of the Bourbon monarchy in 1792 lasted until the First Empire, under Napoleon I, was established in 1804. The Bourbon monarchy was restored in 1814 and (with an interval during 1815) lasted until the abdication of Louis Philippe in 1848. The Second Republic was established on 12 March 1848, the Second Empire (under Louis Napoleon) on 2 Dec. 1852. The Third Republic was established on 4 Sept. 1870 following the capture and imprisonment of

Louis Napoleon in the Franco-Prussian war, and lasted until the German occupation of 1940. Power during the occupation was nominally exercised by the Vichy regime of Marshal Pétain. Following the liberation of 1944, the Fourth Republic was established on 24 Dec. 1946 but was dogged throughout by weak governments with unstable parliamentary support. It collapsed on 4 Oct. 1958 under the impetus of military revolt in Algeria, following which General de Gaulle assumed power. He subsequently inspired the constitution of the Fifth Republic, now in force.

The official language is French. Regional languages are also spoken. In 1990 the Conseil Supérieur de la Langue Française (established 1989) recommended minor orthographic changes, to be introduced in schools in 1991. Legislation of 1994 (*loi Toubon*) seeks to restrict the use of foreign words in official communications, broadcasting and advertisements. (A previous such decree dated from 1975). The Constitutional Court has ruled that imposing such restrictions on private citizens would infringe their freedom of expression.

**CLIMATE.** The north-west has a moderate maritime climate, with small temperature range and abundant rainfall, but inland, rainfall becomes more seasonal, with a summer maximum, and the annual range of temperature increases. Southern France has a Mediterranean climate, with mild moist winters and hot dry summers. Eastern France has a continental climate and a rainfall maximum in summer, with thunderstorms prevalent.

Paris. Jan. 37°F (3°C), July 64°F (18°C). Annual rainfall 22.9" (573 mm).  
Bordeaux. Jan. 41°F (5°C), July 68°F (20°C). Annual rainfall 31.4" (786 mm).

**CONSTITUTION AND GOVERNMENT.** The Constitution of the Fifth Republic, superseding that of 1946, came into force on 4 Oct. 1958. It consists of a preamble, dealing with the Rights of Man, and 92 articles.

France is a republic, indivisible, secular, democratic and social; all citizens are equal before the law (Art. 2). National sovereignty resides with the people, who exercise it through their representatives and by referendums (Art. 3). Constitutional reforms of July 1995 widened the range of issues on which referendums may be called. Political parties carry out their activities freely, but must respect the principles of national sovereignty and democracy (Art. 4).

The head of state is the *President*, who sees that the Constitution is respected; ensures the regular functioning of the public authorities, as well as the continuity of the state; is the protector of national independence and territorial integrity (Art. 5). The President is elected for 7 years by direct universal suffrage (Art. 6). The President appoints a Prime Minister and, on the latter's advice, appoints and dismisses the other members of the Government (*Council of Ministers*) (Art. 8); presides over the Council of Ministers (Art. 9); may dissolve the National Assembly, after consultation with the Prime Minister and the Presidents of the two Houses (Art. 12); appoints to the civil and military offices of the state (Art. 13). In times of crisis, the President may take such emergency powers as the circumstances demand; the National Assembly cannot be dissolved during such a period (Art. 16).

At the first round of presidential elections on 23 April 1995, Lionel Jospin gained the largest number of votes (23.31% of those cast) against 8 opponents. At the second round on 7 May 1995, the electorate was 39,976,944; turn-out was 79.77%. Jacques Chirac was elected President against Jospin by 52.64% of votes cast.

*President:* Jacques Chirac (RPR; sworn in 17 May 1995).

Parliament consists of the *National Assembly* and the *Senate*. The National Assembly is elected by direct suffrage by the second ballot system (by which candidates winning 50% or more of the vote in their constituencies are elected, candidates winning less than 12.5% are eliminated and other candidates go on to a second round of voting) and the Senate by indirect suffrage (Art. 24). Since 1996 it has convened for an annual 9-month session. It comprises 577 Deputies, elected for a 5-year term from single-member constituencies (555 in Metropolitan France and 22 in the various overseas departments and dependencies).

The Senate comprises 321 Senators elected for 9-year terms (one-third every 3 years) by an electoral college in each Department or overseas dependency, made up of all members of the Departmental Council or its equivalent in overseas dependencies, together with all members of Municipal Councils within that area; there are 296 Senators for Metropolitan France, 13 for the Overseas Departments and dependencies, and 12 for French citizens residing outside France and its dependencies.

The *Speaker* of the Senate deputizes for the President of the Republic in the event of the latter's incapacity. Following the partial election held on 24 Sept. 1995, the Senate was composed of (by group, including 'affiliates'): UDF, 129; RPR, 94; Socialist group, 75; Communist group, 15; ind, 8. In Oct. 1995 René Monory was elected *Speaker* of the Senate for a second 3-year term.

The *Constitutional Council* is composed of 9 members whose term of office is 9 years (non-renewable), one-third every 3 years; 3 are appointed by the President of the Republic, 3 by the President of the National Assembly, and 3 by the President of the Senate; in addition, former Presidents of the Republic are, by right, life members of the Constitutional Council (Art. 56). It oversees the fairness of the elections of the President (Art. 58) and Parliament (Art. 59) and of referendums (Art. 60), and acts as a guardian of the Constitution (Art. 61). Its President is Roland Dumas (appointed 1995).

The *Economic and Social Council* advises on Government and Private Members' Bills (Art. 69). It comprises representatives of employers', workers' and farmers' organizations in each Department and Overseas Territory.

At the elections of 21 and 28 March 1993 to the National Assembly the electorate was 38,968,660. In the first round, turn-out was 68.93%. The Rassemblement pour la République (Republican Rally, RPR; Gaullists) won 42 seats with 20.39% of votes cast; its coalition partner, the Union for French Democracy (UDF), 36 with 19.08%; right-wing parties, 2 with 4.71%. Vote for parties gaining no seats: Socialist Party (PS), 17.59%; National Front, 12.41%; Communist Party (PCF), 9.18%; Greens, 4.01%; Ecology, 3.62%. In the second round, turn-out was 67.52%. The RPR gained 28.27% of votes cast, the PS 28.25%, the UDF 25.84%, the National Front 5.66%, the PCF 4.61%. Seats in the National Assembly: RPR, 247 (126 in 1988); UDF, 213 (131); PS and allies, 70 (282); various right-wing parties, 24 (11); PCF, 23 (26); National Front, nil (1).

*European Parliament.* France has 87 representatives. At the June 1994 elections

turn-out was 53.5%. The RPR-UDF won 29 seats with 25.5% of votes cast (group in European Parliament: Liberal, Democratic and Reformist Group; Popular European Party); the PS, 16 with 14.5% (European Socialist Party); the Other Europe group, 13 with 12.3%; the Radical Energy group, 13 with 12%; the National Front, 10 with 10.5% (Europe of Nations); the Communist Party, 6 with 6.9%.

*Local and Regional Government.* France is divided into 22 regions for national development, planning and budgetary policy. Many of these regions are broadly comparable with the provinces of pre-revolutionary France, and give a measure of recognition to the distinctive personalities of peripheral areas such as Alsace and Brittany. In March 1982 state-appointed Regional Prefects were abolished and their executive powers transferred to the Presidents of the Regional Councils, which are directly elected.

Local revenue is raised from residence, business and property taxes and amounted to 262,700m. francs in 1995 (250,000m. francs in 1994).

By a law of 13 May 1991 **Corsica** became a territorial collectivity. After the regional elections of March 1992 it had an assembly which elects an executive council. Since Feb. 1995 the **Pays Basque**, which formed part of the department Pyrénées-Atlantique, has had an elected 65-member council bringing together parliamentary deputies, regional and general councillors and representatives of mayors.

There are 96 departments within the 22 regions each governed by a directly-elected *General Council*. From 1982 the powers of the councils' presidents were extended to take over local administration and expenditure from the departmental prefects with responsibility for public order. Legislation of 1993 provides for the election every 3 years of half the members of these councils. Councillors elected in 1992 will serve for 6 years. Those elected in March 1994 will serve for 7 years. Elections for 2,009 seats in the *General Councils* were held in 2 rounds on 20 and 27 March 1994. The electorate was 18,563,056; turn-out was 60.39% at the first round and 58.78% at the second. The PS gained 532 seats, the UDF 446, the RPR 382, various right-wing groups 309, various left-wing groups 171, the Communist Party 145, Greens 7, the National Front 3, others 12.

The unit of local government is the *commune*, the size and population of which vary very much. There were, in 1995, in the 96 metropolitan departments, 36,763 communes. Most of them (30,919) had fewer than 1,500 inhabitants. The local affairs of the commune are under a Municipal Council, composed of from 9 to 36 members, elected by universal suffrage for 6 years. In 1995, there were 512,850 municipal councillors. Each Municipal Council elects a mayor, who is both the representative of the commune and the agent of the central government. Communes are associated in the *Assemblée des Districts et des Communautés de France*, and also co-operate in inter-commune public enterprise projects, of which there were some 1,200 in 1995.

Municipal elections were held in June 1995.

In Paris the *Conseil de Paris* is composed of 109 members elected from the 20 *arrondissements*. It combines the functions of departmental General and Municipal Council.

The Law on Guidance for Territorial Management (*loi* Pasqua, 1995) has created a new territorial entity, the *pays*. These do not replace administrative divisions, but group regions, departments or communes according to historical, geographical or employment area criteria, with a view to their economic development. Some 200 *pays* had been formed by 1996.

**DEFENCE.** The President of the Republic is the supreme head of defence policy and exercises command over the Armed Forces. He is the only person empowered to give the order to use nuclear weapons. He is assisted by the Council of Ministers, which studies defence problems, and by the *Defence Council* and the *Restricted Defence Committee*, which formulate directives. The Prime Minister is responsible for national defence, exercising his military responsibilities and co-ordinating inter-

ministry defence activities through the General Secretariat of National Defence (SGDN). Under the Prime Minister's authority, the Minister of Defence is responsible for the execution of military policy, in particular the organization and administration of the Armed Forces.

The Ministry of Defence has overall responsibility for defence. The preparation and control of the Armed Forces is exercised by the Chief of Staff of the Armed Forces, the Chiefs of Staff of the 3 services—Army, Navy and Air—and the head of the *Gendarmerie*.

Legislation of 1996 inaugurated a wide-ranging reform of the defence system over 1997–2002, with regard to the professionalization of the armed forces, the modification and modernization of equipment and the restructuring of the defence industry.

French forces are not formally under the NATO command structure, although France signed the NATO strategic document on Eastern Europe in Nov. 1991. The Minister of Defence attends informal NATO meetings which have an agenda of French interest, but not the formal twice-yearly meetings. Since Dec. 1995 France has taken a seat on the NATO Military Committee. In 1996, 16,143 service personnel were stationed in Germany, 24,395 in the overseas departments and territories, 7,708 on UN peacekeeping missions and 1,336 constituted the 'French Maritime Presence' abroad.

The General Directorate for Armament (DGA) is responsible for all aspects of the procurement of defence equipment. It employs 48,800 personnel, and co-ordinates another 200,000 others employed in the defence industry. A reform programme for the GDA designed to modernize equipment and reduce costs was initiated in 1996.

Conscription is for 10 months. It is scheduled for abolition in 2000. Conscripts may not be compelled to serve abroad unless war is declared.

**Army.** The Army consisted in 1996 of 236,626 personnel, of whom 8,600 were women and 132,319 were conscripts.

The Army comprises 1 corps with 3 armoured and 1 infantry divisions, 1 armoured division in Eurocorps, 1 Franco-German brigade, 7 armoured, 6 mechanized infantry, 8 artillery, 3 mountain infantry and 4 motorized infantry regiments and 3 anti-tank and 3 reconnaissance squadrons, and corps units including 1 armoured reconnaissance, 1 parachute special forces, 1 motorized infantry, 1 missile-launching, 5 surface-to-air missile, 2 combat helicopter and 4 engineer regiments.

The Rapid Action Force (FAR) comprises 41,516 personnel organized, equipped and trained for rapid engagement either in Europe or over large distances elsewhere; it includes 1 parachute division, 1 air-portable marine division, a light armoured division, 1 mountain division and 1 air-mobile division, together with various specialized units.

Equipment includes 766 AMX-30/30B2 and 51 Leclerc main battle tanks, 337 AMX-10RC armoured vehicles, 1,364 other armoured vehicles, 1,435 pieces of artillery, 181 Roland surface-to-air missile systems and 1,440 Milan anti-tank weapons.

The *Aviation Légère de l'Armée de Terre* (ALAT) with about 7,000 personnel is an integral part of the Army, equipped with over 600 helicopters of various types for observation, reconnaissance, combat area transport, liaison and supply duties.

The *Foreign Legion* was formed in 1831 for duty in North Africa. It is officered by French nationals and based at Aubagne, near Marseilles. About half the other ranks are French. It numbered 8,500 in 1996.

**Gendarmerie.** The para-military police force exists to ensure public security and maintain law and order, as well as participate in the operational defence of French territory as part of the armed forces. It consisted in 1995 of 93,000 personnel including 12,000 conscripts, 2,600 women and 1,000 civilians. It comprises a territorial force of 57,000 personnel in 3,640 brigades throughout the country, a mobile force of 17,000 personnel in 128 squadrons and specialized formations including the Republican Guard, the Air Force and Naval Gendarmeries and an anti-terrorist unit. It is equipped with 28 VBC-90 armoured gun-carriers, 121 light

armoured cars, 155 armoured vehicles and 33 troop transport vehicles, as well as 40 helicopters.

**Navy.** The missions of the Navy are to provide the prime element of the French independent nuclear deterrent through its force of strategic submarines, to assure the security of the French offshore zones, to contribute to NATO's missions and to provide on-station and deployment forces overseas in support of French territorial interests and UN commitments.

French territorial seas and economic zones are organized into 3 maritime regions, each under the authority of a Maritime Prefect (with headquarters in Cherbourg, Brest and Toulon). Offshore, the seas and oceans are divided into 5 zones: Atlantic, Mediterranean, Indian Ocean, Pacific and Antilles-Guiana. Home-based forces are commanded by Commanders-in-Chief based in Brest and Toulon, those in the Indian Ocean and Pacific by Flag Officers based afloat in the Indian Ocean, and at Nouméa (in New Caledonia). Naval forces in the Caribbean come under a joint force commander based at Cayenne.

Pressures on public expenditure have dictated a phased reduction in fleet strength over 1997–2000, but following is a summary of the strength of the fleet at the end of the years shown:

	1991	1992	1993	1994	1995	1996
Aircraft carriers	2	1	1	1	1	2
Strategic-missile submarines	5	4	5	5	5	5
Other submarines	13	14	14	13	13	12
Cruisers	1	1	1	1	1	1
Destroyers	4	4	4	4	4	4
Frigates	34	34	35	36	35	35

The strategic deterrent force comprises 5 nuclear-powered strategic-missile submarines, including the first of 4 new-generation ships of a new, much larger, class of ships, *Le Triomphant*, which entered service in 1996, displaces 14,200 tonnes and deploys 16 M-45 missiles. The others comprise *L'Inflexible*, 9,100 tonnes, completed in 1985, together with 2 older vessels, *Le Foudroyant* and *L'Indomptable*, completed in 1974 and 1976, now converted to the same standard, and deploying 16 M-4 missiles.

There are also 6 2,700 tonne nuclear-powered submarines and 6 operational diesel submarines.

The principal surface ships are the aircraft carriers *Clemenceau* and *Foch* of 33,300 tonnes each, completed in 1961 and 1963, one of which is kept operational. The operational carrier embarks an air group typically comprising 16 Super-Etendard strike aircraft, 4 Etendard reconnaissance, 8 F-8P Crusader fighters, 6 Alize anti-submarine and warning and a flight of 4 utility helicopters. *Clemenceau* was to be withdrawn from service in 1997 and *Foch* in 1999, when the nuclear-powered replacement, *Charles de Gaulle*, which was launched at Brest in 1994, is expected to commission. There is 1 cruiser, the helicopter cruiser *Jeanne d'Arc*, of 12,600 tonnes completed in 1963 and used in peacetime as a training vessel. She could perform amphibious or anti-submarine tasks in war. In these roles she could accommodate up to 8 Lynx helicopters, and 700 personnel. Her armament comprises 6 Exocet and 4 100mm guns.

Other surface combatants include 4 guided-missile destroyers and 35 frigates of which 17 carry helicopters. A modern mine countermeasure force consists of 9 tripartite coastal minehunters and 5 others and 4 diver support vessels. The amphibious force includes 4 dock landing ships of which one is assigned to the Pacific nuclear test centre, 5 medium landing ships, and some 30 craft. Patrol forces include 20 coastal and 2 inshore patrol vessels. The Navy deploys a substantial support force which includes 5 large and 1 small tankers, 15 other maintenance and logistic ships, 5 weapon system trials ships and 6 survey and research ships. There are several hundred minor auxiliaries.

All warships, and a proportion of naval weapons, are produced by the government armaments service, of which the naval element, *Direction des Constructions Navales* (DCN), operates the shipbuilding yards as well as dockyards. Building takes place at Cherbourg, Brest and Lorient.

The naval air arm, *Aéronautique Navale*, numbers some 7,500 personnel. Operational aircraft include 50 Super-Etendard nuclear-capable strike aircraft, 8 Etendard reconnaissance aircraft, 15 US-built Crusader F-8P all-weather fighters, 20 Alize turboprop anti-submarine aircraft, 8 Atlantic, 20 Atlantique and 5 Gardian maritime reconnaissance aircraft. The Crusaders' life has been extended to keep a carrier squadron operational until 1999, when the maritime Rafale combat aircraft will enter service on board the *Charles de Gaulle*. Rotary wing strength includes 16 commando Super Frelon, and 35 anti-submarine and search-and-rescue Lynx helicopters. Numerous training, utility and transport aircraft bring the total strength to about 300 comprising 200 fixed-wing aircraft and 100 helicopters.

A small Marine force of 3,500 'Fusiliers Marins' provides 4 assault groups, an attack swimmer section as well as numerous naval base protection units.

Personnel in 1996 numbered 63,300, including 17,250 conscripts and 2,500 women.

**Air Force.** Created in 1934, the Air Force was reorganized in June 1994. France is divided into 3 air regions corresponding to the 3 military defence regions and 2 air defence zones. There are 2 operational commands (Strategic Air Forces Command—CFAS; Air Defence and Air Operations Command—CDAOA) and 5 organizational commands (Combat Air Force Command—CFAC; Projection Air Force Command—CFAP; Air Observation System, Information and Communication Command—CASSIC; Training Command—CEAA; Air Base Protection Infantry Command—CFCA). The CFAS is responsible for nuclear weapons; all other combat aircraft are operated by the CFAC under the authority of the CDAOA.

The Conventional Forces in Europe (CFE) agreement imposes a ceiling of 450 combat aircraft. Equipment summary (main types only) Combat: 125 Mirage 2000 B/C, 60 Mirage 2000 N, 30 Mirage 2000 D, 16 Mirage IV P, 30 Mirage F1 B/C, 40 Mirage F1 CT, 40 Mirage F1 CR, 80 Jaguar A/E. ## INTERNATIONAL RELATIONS

**Membership.** France is a member of the UN, the Council of Europe, NATO, WEU and the EU. At a referendum in Sept. 1992 to approve the ratification of the Maastricht treaty on European union of 7 Feb. 1992, 12,967,498 votes (50.81%) were cast for and 12,550,651 (49.18%) against.

France is a signatory to the Schengen Accord of June 1990 which abolishes border controls between France and Austria, Belgium, Denmark, Finland, Germany, Greece, Iceland, Italy, Luxembourg, the Netherlands, Norway, Portugal, Spain and Sweden.

France is the focus of the *French-speaking Community* (*Communauté Francophone*) which formally links France with many of its former colonies in Africa. A wide range of agreements both with members of the Community and with other French-speaking countries extend to economic and technical matters and in particular to the disbursement of overseas aid. On 18 Dec. 1996 at Marrakesh 49 ministers of the Community resolved to create a Secretary-Generalship, of whom the first incumbent was expected to be nominated in Nov. 1997.

## ECONOMY

**Policy.** For planning in France from 1947 to 1993, *see* THE STATESMAN'S YEAR-BOOK, 1993-94, p. 567.

A second phase of privatization (the first was in 1986-87) involving some 20 state enterprises was initiated by legislation of May 1993. The state retains the right to acquire a 'golden share' to give itself veto powers in the national interest.

**Currency.** The unit of currency is the *franc* (FRF) of 100 *centimes*. Coins are issued for 5, 10 and 20 centimes and 1, 2, 5 and 10 francs, and notes for 20, 50, 100, 200 and 500 francs. Currency in circulation in Dec. 1994 was 1,676,000m. francs. Annualized rate of inflation was 1.7% in 1996. In March 1997, £1 sterling = 9.30 francs; US\$1 = 5.70 francs; DM1 = 3.37 francs.

13 former French colonies (Benin, Burkina Faso, Cameroon, Central African Republic, Chad, Comoros, Congo, Côte d'Ivoire, Gabon, Mali, Niger, Senegal and Togo), the former Spanish colony of Equatorial Guinea and the former Portuguese colony of Guinea-Bissau are members of a *Franc Zone*, the CFA (Communauté Financière Africaine). Comoros uses the Comorian franc. From 1948 to 1994 1 French franc = 50 francs CFA. The franc CFA was devalued by 50% on 11 Jan. 1994, the Comorian franc by 25%.

The *franc CFP* (*Comptoirs Français du Pacifique*) is the common currency of the French dependencies of French Polynesia, New Caledonia and Wallis and Futuna.

**Banking and Finance.** The central bank and bank of issue is the Banque de France, founded in 1800, and nationalized on 2 Dec. 1945. In 1993 it received greater autonomy in line with EU conditions. Its governor is appointed for a 6-year term (renewable once) and heads the 9-member Council of Monetary Policy (*Governor*: Jean-Claude Trichet, b.1943, appointed Sept. 1993).

The National Credit Council, formed in 1945 to regulate banking activity and consulted in all political decisions on monetary policy, comprises 45 members nominated by the Government; its president is the Minister for the Economy, its vice-president is the Governor of the Banque de France. Four principal deposit banks were nationalized in 1945 and the remainder in 1982 but the latter were privatized in 1987. In 1996 there were 1,445 banks and other credit institutions, including 400 shareholder-owned banks and 342 mutual or savings banks.

The state savings organization Caisse Nationale d'Epargne is administered by the post office on a giro system. There are also commercial savings banks (*Caisses d'épargne et de prévoyance*). Deposited funds are centralized by a non-banking body, the *Caisse de Dépôts et Consignations*, which finances a large number of local authorities and state aided housing projects, and carries an important portfolio of transferable securities.

There is a stock exchange (Bourse) in Paris.

**Weights and Measures.** The metric system is in general use.

## ENERGY AND NATURAL RESOURCES

**Electricity.** The state-owned monopoly Electricité de France is responsible for power generation and supply under the Ministry of Industry. France is not rich in natural energy resources. In 1994 there were 56 nuclear reactors in operation, and some 80% of the electricity output was nuclear-produced, providing 38% of total energy consumption. In 1994 a further 41.2% came from oil, 13% from gas, 6.2% from coal and 1.8% from renewable resources. Production (in 1m. kWh): 1994, 454,476, of which 80,606 was hydroelectric and 341,616 nuclear.

**Oil and Gas.** In 1994, 2.8m. tonnes of crude oil were produced. The greater part came from the Parentis oilfield in the Landes. The importation and distribution of natural gas is the responsibility of the government monopoly Gaz de France. Production of natural gas was 37,263m. cu. metres in 1993.

**Minerals.** Principal minerals and metals produced in 1993, in 1,000 tonnes: Coal,

10,250; crude steel, 17,106; iron ore, 3,549; pig iron, 12,396; aluminium, 1,264; potash salts, 960.

**Agriculture.** Of the total area of France (54.9m. ha), the utilized agricultural area comprised 28.11m. ha in 1994. 18.3m. ha were arable, 10.6m. ha were pasture, and 1.2m. ha were under permanent crops including vines (0.94m. ha). In 1993 there were 801,000 holdings and 1.6m. persons were employed in agriculture, hunting, fishing and forestry.

The following table shows the area under the leading crops and the production for 3 years:

**Labour** (1994). Out of an economically active population of 22,074,700 persons, 1,127,300 were engaged in agriculture, forestry and fishing, 1,525,600 in building, 1,422,500 in transport and telecommunications, 1,481,100 in manufacturing industries, 608,300 in banking and insurance, 4,278,700 in services, 2,614,100 in commerce. In May 1995, there were 3,250,200 persons registered unemployed. A new definition of 'unemployed' was adopted in Aug. 1995, omitting persons who had worked at least 78 hours in the previous month. By this classification there were 3,121,500 unemployed on 30 Dec. 1996, a rate of 12.7%.

Conciliation boards (*conseils de prud'hommes*) mediate in labour disputes. They are elected for 5-year terms by 2 colleges of employers and employees. 14,453,277 voters were registered at the Dec. 1992 elections.

In 1996 the minimum wage (SMIC) was 37.72 francs an hour or 6,398 francs a month. SMIC affects about 1.48m. wage-earners. Retirement age is 60. A 5-week annual holiday is statutory.

The average annual wage was 114,314 francs in 1994.

**Trade Unions.** There were 5 confederations in 1995: the CGT (Confédération Générale du Travail), founded in 1895; the CGT-FO (Confédération Générale du Travail-Force Ouvrière) which broke away from the CGT in 1948 as a protest against Communist influence therein; the CFTC (Confédération Française des Travailleurs Chrétiens), which was founded in 1919 and divided in 1964, with a breakaway group retaining the old name and the main body continuing under the new name of CFDT (Confédération Française Démocratique du Travail); and the CGC (Confédération Générale des Cadres) formed in 1944 which only represents managerial and supervisory staff.

Unions are not required to publish membership figures, but in 1993 the CGT had an estimated 0.63m. members and the CFDT, 0.65m.

**FOREIGN ECONOMIC RELATIONS.** Privatization legislation of May 1993 permits foreign nationals to acquire more than 20% of a firm's capital (the previous limit).

## COMMUNICATIONS

**Roads.** In 1993 there were 354,000 km of departmental roads and 28,000 km of national road network of which 8,000 km were motorway. In 1994 there were 24.35m. private cars, 3.62m. lorries, 42,029 buses and 0.87m. motorcycles and scooters. In 1993 there were 9,052 road deaths (9,083 in 1992).

**Railways.** As from 1 Jan. 1938 all the independent railway companies were merged with the existing state railway system in a Société Nationale des Chemins de Fer Français (SNCF), which became a public industrial and commercial establishment in 1983.

Legislation which came into effect from the beginning of 1997 vested ownership of the railway infrastructure (track and signalling) in a new-established public corporation, the National Railway Network (RFN). The RFN is funded by payments for usage from the SNCF, government and local subventions and authority capital made available by the state derived from the proceeds of privatization. The SNCF remains responsible for maintenance and management of the rail network. The legislation also envisages the establishment of regional railway services which receive funds previously given to the SNCF as well as a state subvention. These regional bodies negotiate with SNCF for the provision of suitable services for their area.

In 1995, SNCF totalled 31,940 km (13,799 km electrified) and carried 119.6m. tonnes of freight and 741m. passengers. A new railway for high-speed trains (TGV) was completed in 1983 between Paris and Lyon and was extended to Valence in 1994. 2 further routes opened in 1989 to Le Mans to serve Brittany and in 1990 to Tours to serve the south-west. Services from London through the Channel tunnel started in 1994. A high-speed network (TGV Nord) links Paris, Lille and Brussels to the tunnel.

The Paris transport network consisted in 1993 of 202 km of metro, 352 km of regional express railways, 9.1 km of light rail and 7 km of peoplemover. There are also metros in Lille (29 km), Lyon (20.8 km), Toulouse (10 km) and Marseille (19.5 km), and tram/light railway networks in Grenoble (14.6 km), Lille (23 km), Marseille (3 km), Nantes (16.5 km), Rouen (17 km), St Étienne (7 km) and Strasbourg (11.4 km).

**Civil Aviation.** There are 9 international airports: Paris (Orly), Paris (Charles de Gaulle), Bordeaux (Mérignac), Lille (Lesquin), Lyon (Satolas), Marseille-Provence, Nice-Côte d'Azur, Strasbourg (Entzheim) and Toulouse (Blagnac). Air France, UTA and Air Inter, the national airlines, merged in 1990 to control 97% of French air traffic. In 1992 they operated 4 A300B2-100s, 4 A300B4-200s, 6 A310-200s, 4 A310-300s, 7 A320-100s, 13 A320-200s, 5 A340-200s, 6 A340-300s, 19 B-737-200 Advs, 6 B-737-300s, 16 B-737-500s, 6 B-747-100s, 2 B-747-200Bs, 8 B-747-200B Combis, 2 B-747-200B Sud/Combis, 1 B-747-200B(F), 10 B-747-200Fs, 2 B-747-300 Combis, 8 B-747-400s, 5 B-747-400 Combis, 5 B-767-300ERs, 6 Concorde and 11 F-27-500s. In 1994 Air France and Air Inter flew 8,652m. tonne-km (excluding mail) and 52,435m. passenger-km.

**Shipping.** Merchant ships, in 1993, numbered 215 vessels of 3,928,000 GRT. During 1993, 212m. tonnes of cargo were unloaded, of which 130m. tonnes were crude

and refined petroleum products, and 93m. tonnes were loaded; total passenger traffic, 29.2m.

Canals are administered by the public authority France Navigable Waterways (FVN). In 1993 there were 8,500 km of navigable rivers, waterways and canals (of which 1,647 km accessible to vessels over 3,000 tons), with a total traffic of 59.8m. tonnes.

**Telecommunications.** There were 16,877 post offices in 1993. France Télécom became a limited company on 1 Jan. 1997. La Poste is a public enterprise under autonomous management responsible for mail delivery and financial services. In 1994 the telephone system had 31.6m. subscribers. 1.4m. mobile telephones were in use in 1995. In 1995, there were 1.7m. fax machines in use, including 0.4m. domestically.

6.5m. Minitel videotext terminals were rented out by France Télécom to the public in 1995.

Radio and television broadcasting was reorganized under the Act of 7 Aug. 1974 which replaced the Office de Radiodiffusion Télévision Française with 4 broadcasting companies, a production company and an audio-visual institute. The broadcasting authority is the *Conseil Supérieur de l'Audiovisuel*. Radio programmes are broadcast from 874 VHF transmitters of which 418 belong to 4 stations: *France Info*, *France Inter*, *France Musique* and *France Culture*. An external service, Radio-France Internationale, was founded in 1931 as 'Poste Coloniale', and broadcasts in 20 languages. There are 2 state-owned TV channels, Antenne-2 and FR3, which are partly financed by advertising, and 5 commercial channels (colour by SECAM). TV broadcasts must contain at least 60% EU-generated programmes and 50% of these must be French. There were about 49m. radio and 29.3m. TV sets in use in 1993.

**Cinemas.** There were 4,414 screens in 1994; attendances totalled 126m. in 1994 (133m. in 1993). 115 full-length films were made in 1994.

**Press.** There were 68 daily papers published in the provinces in 1994 and 10 national dailies in 1996 (in order of circulation: *L'Equipe*; *Le Monde*; *Le Parisien-Aujourd'hui*; *Le Figaro-L'Aurore*; *Libération*; *France-Soir*; *Les Echos*; *L'Humanité*; *La Tribune Desfossés*; *La Croix*). In 1994, total national daily press circulation was 2.47m. copies.

## SOCIAL INSTITUTIONS

**Justice.** The system of justice is divided into 2 jurisdictions: the judicial, and the administrative.

Within the judicial jurisdiction are common law courts including 473 lower courts (*tribunaux d'instance*, including 11 in overseas departments), 186 higher courts (*tribunaux de grande instance*, including 5 *tribunaux de première instance* in the overseas territories), and 454 police courts (*tribunaux de police*, including 11 in overseas departments).

The *tribunaux d'instance* are presided over by a single judge. The *tribunaux de grande instance* usually have a collegiate composition, although may be presided over by a single judge in some civil cases. The police courts, presided over by a judge on duty in the *tribunal d'instance*, deal with petty offences (*contraventions*); correctional chambers (*chambres correctionnelles*, of which there is at least one in each *tribunal de grande instance*) deal with graver offences (*délits*), including cases involving imprisonment up to 5 years. Correctional chambers consist of 3 judges of a *tribunal de grande instance* (a single judge in some cases). Sometimes in cases of *délit*, and in all cases of more serious *crimes*, a preliminary inquiry is made in secrecy by one of 569 examining magistrates (*juges d'instruction*), who either dismisses the case or sends it for trial before a public prosecutor.

Still within the judicial jurisdiction are various specialised courts, including 227 commercial courts (*tribunaux de commerce*), composed of tradesmen and manufacturers elected for 2 years initially and then for 4 years; 271 conciliation boards (*conseils de prud'hommes*), composed of an equal number of employers and employees elected for 5 years to deal with labour disputes; 437 courts for settling

rural landholding disputes (*tribunaux paritaires des baux ruraux*, including 11 in overseas departments); and 116 social security courts (*tribunaux des affaires de sécurité sociale*).

When the decisions of any of these courts are susceptible of appeal, the case goes to one of the 35 courts of appeal (*cours d'appel*) composed each of a president and a variable number of members. There are 104 courts of assize (*cours d'assises*), each composed of a president who is a member of the court of appeal, and 2 other magistrates, and assisted by a lay jury of 9 members. These try crimes involving imprisonment of over 5 years. The decisions of the courts of appeal and the courts of assize are final. However, the Court of Cassation (*Cour de cassation*) has discretion to verify if the law has been correctly interpreted and if the rules of procedure have been followed exactly. The Court of Cassation may annul any judgment, following which the cases must be retried by a court of appeal or a court of assizes.

The administrative jurisdiction exists to resolve conflicts arising between citizens and central and local government authorities. It consists of 34 administrative courts (*tribunaux administratifs*, including 7 in overseas departments and territories) and 5 administrative courts of appeal (*cours administratives d'appel*). The Council of State is the final court of appeal in administrative cases, though it may also act as a court of first instance.

Cases of doubt as to whether the judicial or administrative jurisdiction is competent in any case are resolved by a *Tribunal de conflits* composed in equal measure of members of the Court of Cassation and the Council of State.

Capital punishment was abolished in Aug. 1981.

On 24 Jan. 1973 the first Ombudsman (*médiateur*) was appointed for a 6-year period.

A revised penal code came into force on 1 March 1994, replacing the *Code Napoléon* of 1810.

Penal institutions consist of: (1) *maisons d'arrêt*, where persons awaiting trial as well as those condemned to short periods of imprisonment are kept; (2) punishment institutions – (a) central prisons (*maisons centrales*) for those sentenced to long imprisonment, (b) detention centres for offenders showing promise of rehabilitation, and (c) penitentiary centres, establishments combining (a) and (b); (3) hospitals for the sick. Special attention is being paid to classified treatment and the rehabilitation and vocational re-education of prisoners including work in open-air and semi-free establishments. There are 3 penal institutions for women.

Juvenile delinquents go before special judges in 138 (11 in overseas departments and territories) juvenile courts (*tribunaux pour enfants*); they are sent to public or private institutions of supervision and re-education.

The population at 1 July 1996 of the 187 penal establishments was 56,220 men and 2,396 women.

**Religion.** A law of 1905 separated church and state. In 1996 there were 95 Roman Catholic dioceses in metropolitan France and 112 bishops. In 1992 there were 43.77m. Roman Catholics, 0.8m. Protestants and 1.72m. Moslems.

**Education.** The primary, secondary and higher state schools constitute the 'Université de France'. The Supreme Council of 84 members has deliberative, administrative and judiciary functions, and as a consultative committee advises respecting the working of the school system, the inspectors-general are in direct communication with the Minister. For local education administration France is divided into 25 academic areas, each of which has an Academic Council whose members include a certain number elected by the professors or teachers. The Academic Council deals with all grades of education. Each is under a Rector, and each is provided with academy inspectors, 1 for each department.

Compulsory education is provided for children of 6–16. The educational stages are as follows:

1. Non-compulsory pre-school instruction for children aged 2–5, to be given in infant schools or infant classes attached to primary schools.

2. Compulsory elementary instruction for children aged 6–11, to be given in primary schools and certain classes of the *lycées*. It consists of 3 courses: Preparatory (1 year), elementary (2 years), intermediary (2 years). Physically or mentally handicapped children are cared for in special institutions or special classes of primary schools.

3. Lower secondary education (*Enseignement du premier cycle du Second Degré*) for pupils aged 11–15, consists of 4 years of study in the *lycées* (grammar schools), *Collèges d'Enseignement Technique* or *Collèges d'Enseignement Général*.

4. Upper secondary education (*Enseignement du second cycle du Second Degré*) for pupils aged 15–18:

*Long, général* or *professionnel* provided by the *lycées* and leading to the *baccalauréat* or to the *baccalauréat de technicien* after 3 years.

*Court*, professional courses of 3, 2 and 1 year are taught in the *lycées d'enseignement professionnel*, or the specialized sections of the *lycées*, CES or CEG.

The following table shows the number of schools in 1994–95 and the numbers of pupils in full-time education:

	State		Private	
	Schools	Pupils	Schools	Pupils
Nursery	18,646	5,597,600	343	897,300
Primary	35,618		5,626	
Secondary	7,501		3,711	
		4,327,200		1,142,000

*Higher education* is provided by the state free of charge in the universities and in special schools, and by private individuals in the free faculties and schools.

Legislation of 1968 redefined the activities and working of universities. Bringing several disciplines together, 780 units for teaching and research (UER—Unités d'Enseignement et de Recherche) were formed which decided their own teaching activities, research programmes and procedures for checking the level of knowledge gained. They and the other parts of each university must respect the rules designed to maintain the national standard of qualifications. The UERs form the basic units of 69 Universities and 3 National Polytechnic Institutes (with university status), grouped into 25 *académies* with 1,475,181 students in 1993–94.

There are also Catholic university facilities in Paris, Angers, Lille, Lyon and Toulouse and private universities with (1991–92) 21,355 students. The following universities have been established since 1991: Artois (Arras, Béthune, Lens, Donai); Cergy-Pontoise; La Rochelle; the Littoral (Boulogne, Calais, Dunkirk, Saint-Omer); Evry; Marne-la-Vallée; Saint-Quentin-Versailles.

Outside the university system, higher education (academic, professional and technical) is provided by over 400 schools and institutes, including the 177 *Grandes Écoles*, highly-selective public or private institutions offering mainly technological or commercial curricula, with an annual output of about 17,000 graduates. In 1994–95 there were also 71,271 students in preparatory classes leading to the *Grandes Écoles*, (1993–94) 232,844 in the *Sections de Techniciens Supérieurs* and 71,273 in the *Écoles d'ingénieurs*.

**Health.** On 1 Jan. 1993 there were 158,968 doctors, 52,673 chemists, 38,868 dentists, 320,505 nurses and 11,479 midwives. There were 3,810 hospitals with 680,888 beds. Ordinances of 1996 created a new regional régime of hospital administration and introduced a system of patients' records to prevent abuses of public health benefits.

**Welfare.** An order of 4 Oct. 1945 laid down the framework of a comprehensive plan of Social Security and created a single organization which superseded the various laws relating to social insurance, workmen's compensation, health insurance, family allowances, etc. All previous matters relating to Social Security are dealt with in the Social Security Code, 1956; this has been revised several times. The Chamber of Deputies and Senate, meeting as Congress on 19 Feb. 1996, adopted a revision of the constitution giving parliament powers to review annually the funding of social security and to fix targets for expenditure in the light of anticipated receipts.

*Contributions.* All wage-earning workers or those of equivalent status are insured regardless of the amount or the nature of the salary or earnings. The funds for the general scheme are raised mainly from professional contributions, these being fixed within the limits of a ceiling and calculated as a percentage of the salaries. The calculation of contributions payable for family allowances, old age and industrial injuries relates only to this amount; on the other hand, the amount payable for sickness, maternity expenses, disability and death is calculated partly within the limit of the 'ceiling' and partly on the whole salary. These contributions are the responsibility of both employer and employee, except in the case of family allowances or industrial injuries, where they are the sole responsibility of the employer.

*Self-employed Workers.* From 17 Jan. 1948 allowances and old-age pensions were paid to self-employed workers by independent insurance funds set up within their own profession, trade or business. Schemes of compulsory insurance for sickness were instituted in 1961 for farmers and in 1966, with modifications in 1970, for other non-wage-earning workers.

*Social Insurance.* The orders laid down in Aug. 1967 ensure that the whole population can benefit from the Social Security Scheme; at present all elderly persons who have been engaged in the professions, as well as the surviving spouse, are entitled to claim an old-age benefit.

*Sickness Insurance* refunds the costs of treatment required by the insured and the needs of dependants.

*Maternity Insurance* covers the costs of medical treatment relating to the pregnancy, confinement and lying-in period; the beneficiaries being the insured person or the spouse.

*Insurance for Invalids* is divided into 3 categories: (1) those who are capable of working; (2) those who cannot work; (3) those who, in addition, are in need of the help of another person. According to the category, the pension rate varies from 30 to 50% of the average salary for the last 10 years, with additional allowance for home help for the third category.

*Old-age Pensions* for workers were introduced in 1910 and are now fixed by the Social Security Code of 28 Jan. 1972. Since 1983 people who have paid insurance for at least 37½ years (150 quarters) receive at 60 a pension equal to 60% of basic salary. People who have paid insurance for less than 37½ years but no less than 15 years can expect a pension equal to as many 1/150ths of the full pension as their quarterly payments justify. In the event of death of the insured person, the husband or wife of the deceased person receives half the pension received by the latter. Compulsory supplementary schemes ensure benefits equal to 70% of previous earnings.

*Family Allowances.* The system comprises: (a) Family allowances proper, equivalent to 25.5% of the basic monthly salary for 2 dependent children, 46% for the third child, 41% for the fourth child, and 39% for the fifth and each subsequent child; a supplement equivalent to 9% of the basic monthly salary for the second and each subsequent dependent child more than 10 years old and 16% for each dependent child over 15 years. (b) Family supplement for persons with at least 3 children or one child aged less than 3 years. (c) Antenatal grants. (d) Maternity grant equal to 260% of basic salary; increase for multiple births or adoptions, 198%; increase for birth or adoption of third or subsequent child, 457%. (e) Allowance for specialized education of handicapped children. (f) Allowance for orphans. (g) Single parent allowance. (h) Allowance for opening of school term. (i) Allowance for accommodation, under certain circumstances. (j) Minimum family income for those with at least 3 children. Allowances (b), (g), (h) and (j) only apply to those whose annual income falls below a specified level.

*Workmen's Compensation.* The law passed by the National Assembly on 30 Oct. 1946 forms part of the Social Security Code and is administered by the Social Security Organization. Employers are invited to take preventive measures. The application of these measures is supervised by consulting engineers (assessors) of the local funds dealing with sickness insurance, who may compel employers who

do not respect these measures to make additional contributions; they may, in like manner, grant rebates to employers who have in operation suitable preventive measures. The injured person receives free treatment, the insurance fund reimburses the practitioners, hospitals and suppliers chosen freely by the injured. In cases of temporary disablement the daily payments are equal to half the total daily wage received by the injured. In case of permanent disablement the injured person receives a pension, the amount of which varies according to the degree of disablement and the salary received during the past 12 months.

*Unemployment Benefits* vary according to circumstances (full or partial unemployment) which are means-tested.

## OVERSEAS DEPARTMENTS GUADELOUPE

**KEY HISTORICAL EVENTS.** The islands were discovered by Columbus in 1493. The Carib inhabitants resisted Spanish attempts to colonize. A French colony was established on 28 June 1635, and apart from short periods of occupancy by British forces, Guadeloupe has since remained a French possession. On 19 March 1946 Guadeloupe became an Overseas Department.

**TERRITORY AND POPULATION.** Guadeloupe consists of a group of islands in the Lesser Antilles. The two main islands, Basse-Terre to the west and Grande-Terre to the east, are joined by a bridge over a narrow channel. Adjacent to these are the islands of Marie Galante to the south-east, La Désirade to the east, and the Îles des Saintes to the south. The islands of St Martin and St Barthélemy lie 250 km to the north-west.

The seat of government is Basse-Terre (14,082 inhabitants in 1990) at the south-west end of that island but the largest towns are Pointe-à-Pitre (26,031 inhabitants), the economic centre and main port, and its suburb, Les Abymes (62,645 inhabitants in 1992).

Vital statistics (1987): Live births, 6,855; deaths, 2,244; marriages, 1,880.

**CLIMATE.** Warm and humid. Pointe-à-Pitre. Jan. 74°F (23.4°C), July 80°F (26.7°C). Annual rainfall 71" (1,814 mm).

**CONSTITUTION AND GOVERNMENT.** Guadeloupe is administered by a *General Council* of 42 members directly elected for 6-year terms (assisted by an Economic and Social Committee of 40 members) and a *Regional Council* of 41 members. It is represented in the National Assembly by 4 deputies, in the Senate by 2 senators and on the Economic and Social Council by 1 councillor. ## OVERSEAS TERRITORIES

### SOUTHERN AND ANTARCTIC TERRITORIES

#### Terres Australes et Antarctiques Françaises (TAAF)

The Territory of the TAAF was created on 6 Aug. 1955. It comprises the Kerguelen and Crozet archipelagoes, the islands of Saint Paul and Amsterdam (formerly Nouvelle Amsterdam), all in the southern Indian ocean, and Terre Adélie.

The administration has its seat in Paris. The Administrator is assisted by a 7-member consultative council which meets twice yearly in Paris; its members are nominated by the Government for 5 years. The 12 members of the Scientific Council are appointed by the Senior Administrator after approval by the Minister in charge of scientific research. The 15-member Polar Environment Committee, which in 1995 replaced the former Consultative Committee on the Environment, created in Nov. 1982, meets at least once a year to discuss all problems relating to the preservation of the environment.

In Jan. 1992 the French Institute for Polar Research and Technology was set up to organize scientific research and expeditions.

*Administrateur supérieur:* Pierre Lise.

The staff of the permanent scientific stations of the TAAF (128 in 1997) is renewed every 6 or 12 months and forms the only population.

**Kerguelen islands**, situated 48–50° S. lat., 68–70° E. long., consists of 1 large and 85 smaller islands and over 200 islets and rocks with a total area of 7,215 sq. km (2,786 sq. miles), of which Grande Terre occupies 6,675 sq. km (2,577 sq. miles). It was discovered in 1772 by Yves de Kerguelen, but was effectively occupied by France only in 1949. Port-aux-Français has several scientific research stations (60 members). Reindeer, trout and sheep have been acclimatized.

**Crozet islands**, situated 46° S. lat., 50–52° E. long., consists of 5 larger and 15 tiny islands, with a total area of 505 sq. km (195 sq. miles); the western group includes Apostles, Pigs and Penguins islands; the eastern group, Possession and Eastern islands. The archipelago was discovered in 1772 by Marion Dufresne, whose mate, Crozet, annexed it for Louis XV. A meteorological and scientific station (20 members) at Base Alfred-Faure on Possession Island was built in 1964.

**Amsterdam Island and Saint-Paul Island**, situated 38–39° S. lat., 77° E. long. Amsterdam, with an area of 54 sq. km (21 sq. miles) was discovered in 1522 by Magellan's companions; Saint-Paul, lying about 100 km to the south, with an area of 7 sq. km (2.7 sq. miles), was probably discovered in 1559 by Portuguese sailors. Both were first visited in 1633 by the Dutch explorer, Van Diemen, and were annexed by France in 1843. They are both extinct volcanoes. The only inhabitants are at Base Martin de Vivies, established in 1949 on Amsterdam Island, with several scientific research stations, hospital, communication and other facilities (20 members). Crayfish are caught commercially on Amsterdam.

**Terre Adélie** comprises that section of the Antarctic continent between 136° and 142° E. long., south of 60° S. lat. The ice-covered plateau has an area of about 432,000 sq. km (166,800 sq. miles), and was discovered in 1840 by Dumont d'Urville. A research station (30 members) is situated at Base Dumont d'Urville, which is maintained by the French Institute for Polar Research and Technology.

During the 17th century various companies of merchants obtained trading charters and established a settlement on the river, which, from 1807, was controlled from Sierra Leone; in 1843 it was made an independent Crown Colony; in 1866 it formed part of the West African Settlements, but in Dec. 1888 it again became a separate Crown Colony. The boundaries were delimited only after 1890.

The Gambia achieved full internal self-government on 4 Oct. 1963 and became an independent member of the Commonwealth on 18 Feb. 1965. The Gambia became a republic within the Commonwealth on 24 April 1970. The Gambia with Senegal formed the Confederation of Senegambia on 1 Feb. 1982; this was officially dissolved on 21 Sept. 1989.

In a bloodless coup on 22–23 July 1994 a military junta seized power under the leadership of Lt. Yahya Jammeh; President Jawara left the country. An attempted counter-coup by Vice-President Sana Sabally was foiled in Jan. 1995.

**KEY HISTORICAL EVENTS.** The independent Georgian Social Democratic Republic was declared on 26 May 1918 by the National Council, elected by the National Assembly of Georgia on 22 Nov. 1917, and was recognized by the RSFSR on 7 May 1920. On 12 Feb. 1921 a rising broke out in Mingrelia, Abkhazia and Adjara, and Soviet troops invaded the country, which, on 25 Feb. 1921, was proclaimed the Georgian Soviet Socialist Republic. On 15 Dec. 1922 Georgia was merged with Armenia and Azerbaijan to form the

Transcaucasian Soviet Federal Socialist Republic. In 1936 the Georgian Soviet Socialist Republic became one of the constituent republics of the USSR. Following nationalist successes at elections in Oct. 1990, the Supreme Soviet resolved in Nov. 1990 to begin a transition to full independence and on 9 April 1991, following a 98.9% popular vote in favour, unanimously declared the republic an independent state based on the treaty of independence of May 1918.

Following an armed insurrection the president elected in May 1991, Zviad Gamsakhurdia, was deposed on 6 Jan. 1992 and a military council took control. After elections in which he gained 95% of votes cast, Eduard Shevardnadze became *de facto* head of state in Oct. 1992.

On 22 Oct. 1993 Georgia joined the CIS by decree of the head of state, Eduard Shevardnadze; parliament ratified this on 1 March 1994.

**KEY HISTORICAL EVENTS.** Following the unconditional surrender of the German armed forces on 8 May 1945 there was no central authority whose writ ran in the whole of Germany, and consequently no peace treaty was signed. France, the USSR, the UK and the USA assumed supreme authority over Germany by the Berlin Declaration of 5 June 1945. Each was allotted an occupation zone, in which the supreme power was to be exercised by the commander-in-chief in that zone (*see map in THE STATESMAN'S YEAR-BOOK,*

1947). Jointly these 4 commanders-in-chief constituted the Allied Control Council in Berlin, which was to be competent in all 'matters affecting Germany as a whole'. The territory of Greater Berlin, divided into 4 sectors, was to be governed as an entity by the 4 occupying powers.

At the Potsdam Conference (July–Aug. 1945) the northern part of the province of East Prussia, including its capital Königsberg (renamed Kaliningrad), was transferred to the USSR, and it was agreed that Poland should administer those parts of Germany east of a line running from the Baltic Sea west of Swinemünde along the river Oder to its confluence with the Western Neisse and thence along the Western Neisse to the Czechoslovak frontier (the 'Oder-Neisse line').

In June 1948 USA, UK and France agreed on a central government for the 3 western zones. An Occupation Statute, which came into force on 30 Sept. 1949, reduced the responsibilities of the occupation authorities. Formally, the Federal Republic of Germany came into existence on 21 Sept. 1949. The Petersberg Agreement of 22 Nov. 1949 freed the Federal Republic of numerous restrictions of the Occupation Statute. In 1951 the USA, the UK and France as well as other states terminated the state of war with Germany; the USSR followed on 25 Jan. 1955. On 5 May 1955 the Paris and London treaties, signed in Oct. 1954, came into force making the Federal Republic of Germany a sovereign independent country.

The eastern zone was administered by the USSR through a military government. A 'People's Chamber' (Volkskammer) was set up which promulgated a Soviet-type constitution in Oct. 1949 and proclaimed the German Democratic Republic. The GDR attained sovereignty in 1954 and obtained *de facto* diplomatic recognition from most countries. In 1961 the GDR built the mined and guarded 'Berlin Wall' to separate East from West Berlin.

In the autumn of 1989 movements for political liberalization and re-unification with Federal Germany gathered strength. Erich Honecker and other long-serving Communist leaders were replaced in Oct.–Nov. The Berlin Wall was opened on 9 Nov.

Following the reforms in the GDR in Nov. 1989 the Federal Chancellor Helmut Kohl issued a plan for German confederation. The ambassadors of the 4 war-time allies met in Berlin in Dec. After talks with Chancellor Kohl on 11 Feb. 1990, President Gorbachev said the USSR had no objection to German re-unification. Allies agreed a formula ('two-plus-four') for re-unification talks to begin after the GDR elections on 18 March. 'Two-plus-four' talks began on 5 May 1990. On 18 May Federal Germany and the GDR signed a treaty transferring Federal Germany's currency, and its economic, monetary and social legislation, to the GDR as of 1 July. On 23 Aug. the Volkskammer by 294 votes to 62 'declared its accession to the jurisdiction of the Federal Republic as from 3 Oct. according to article

23 of the Basic Law', which provided for the Länder of pre-war Germany to accede to the Federal Republic.

On 12 Sept. the Treaty on the Final Settlement with Respect to Germany was signed by Federal Germany, the GDR and the 4 war-time allies: France, the USSR, the UK and the USA. For details see THE STATESMAN'S YEAR-BOOK, 1993-94, p. 605.

**CONSTITUTION AND GOVERNMENT.** The Basic Law (*Grundgesetz*) was approved by the parliaments of the participating Länder and came into force on 23 May 1949. It is to remain in force until 'a constitution adopted by a free decision of the German people comes into being'.

The Federal Republic is a democratic and social constitutional state on a parliamentary basis. The federation is constituted by the 16 Länder (states). The Basic Law decrees that the general rules of international law form part of the federal law. The constitutions of the Länder must conform to the principles of a republican, democratic and social state based on the rule of law. Executive power is vested in the Länder, unless the Basic Law prescribes or permits otherwise. Federal law takes precedence over state law.

Legislative power is vested in the *Bundestag* (Federal Assembly) and the *Bundesrat* (Federal Council). The Bundestag is composed of 672 members and is elected in universal, free, equal and secret elections for a term of 4 years. A party must gain 5% of total votes cast in order to gain representation in the Bundestag. The electoral system combines relative-majority and proportional voting; each voter has 2 votes, the first for the direct constituency representative, the second for the competing party lists in the Länder. If a party wins more seats on the first vote than its share on the second vote the number of seats is increased by the difference ('overhang votes'). The Bundesrat consists of 79 members appointed by the governments of the Länder in proportions determined by the number of inhabitants. Each Land has at least 3 votes.

The Head of State is the Federal *President* who is elected for a 5-year term by a *Federal Convention* specially convened for this purpose. This Convention consists of all the members of the Bundestag and an equal number of members elected by the Länder parliaments in accordance with party strengths, but who need not themselves be members of the parliaments. No president may serve more than 2 terms.

Executive power is vested in the Federal Government, which consists of the Federal *Chancellor*, elected by the Bundestag on the proposal of the Federal President, and the Federal Ministers, who are appointed and dismissed by the Federal President upon the proposal of the Federal Chancellor.

The Federal Republic has exclusive legislation on: (1) foreign affairs (2) federal citizenship; (3) freedom of movement, passports, immigration and emigration, and extradition; (4) currency, money and coinage, weights and measures, and regulation of time and calendar; (5) customs, commercial and navigation agreements, traffic in goods and payments with foreign countries, including customs and frontier protection; (6) federal railways and air traffic; (7) post and telecommunications; (8) the legal status of persons in the employment of the Federation and of public law corporations under direct supervision of the Federal Government; (9) trade marks, copyright and publishing rights; (10) co-operation of the Federal Republic and the Länder in the criminal police and in matters concerning the protection of the constitution, the establishment of a Federal Office of Criminal Police, as well as the combating of international crime; (11) federal statistics.

In the field of finance the Federal Republic has exclusive legislation on customs and financial monopolies and concurrent legislation on: (1) excise taxes and taxes on transactions, in particular, taxes on real-estate acquisition, incremented value and on fire protection; (2) taxes on income, property, inheritance and donations; (3) real estate, industrial and trade taxes, with the exception of the determining of the tax rates. The Federal Republic can claim part of the income and corporation taxes to cover its expenditures not covered by other revenues. Financial jurisdiction is uniformly regulated by federal legislation.

Federal laws are passed by the Bundestag and after their adoption submitted to the Bundesrat, which has a limited veto. The Basic Law may be amended only upon the approval of two-thirds of the members of the Bundestag and two-thirds of the votes of the Bundesrat.

On 23 May 1994 Roman Herzog was elected President by the Federal Convention against 4 opponents.

Bundestag elections were held on 16 Oct. 1994; turn-out was 79.1%. The Chris-

tian Democratic Union/Christian Social Union (CDU/CSU; the CSU is a Bavarian party where the CDU does not stand) won 294 seats with 41.5% of votes cast (319 with 43.8% in 1990); the Social Democratic Party (SPD), 252 with 36.4% (239 with 33.5%); the Greens, 49 with 7.3% (8 with 5.1%); the Free Democratic Party (FDP), 47 seats with 6.9% (79 with 11%); the Party for Democratic Socialism (PDS; former Communists), 30 with 4.4% (17 with 2.4%).
